CLASSIFICATION

§ 925.40 *Skim milk and butterfat to be classified.* All skim milk and butterfat received within the month by a handler which is required to be reported pursuant to § 925.30 shall be classified by the market administrator pursuant to the provisions of §§ 925.41 to 925.45, inclusive.

§ 925.41 *Classes of utilization.* Subject to the conditions set forth in §§ 925.42, 925.43 and 925.44, the classes of utilization shall be as follows:

(a) Class I milk shall be all skim milk (including reconstituted skim milk) and butterfat (1) disposed of in fluid or frozen form as milk, skim milk, skim milk drinks, buttermilk, flavored milk, flavored milk drink, and cream (sweet or sour), and used in the production of concentrated milk, flavored milk and flavored milk drinks not sterilized (but not including (i) those products commonly known as evaporated milk, condensed milk, and condensed skim milk (ii) flavored milk or flavored milk drink in hermetically sealed containers; and (iii) any item named in this subparagraph disposed of pursuant to paragraph (b) (3) of this section), (2) disposed of as any fluid mixture containing cream and milk or skim milk (but not including ice cream and other frozen dessert mixes disposed of to a commercial processor, any mixture disposed of in containers or dispensers under pressure for the purpose of dispensing a whipped or aerated product, evaporated or condensed products, eggnog and yogurt, (3) contained in monthly inventory variations (4) shrinkage of producer milk in excess of that pursuant to paragraph (b) (4) of this section and shrinkage allocated to receipts from other handlers pursuant to § 925.42 (b), and (5) not specifically accounted for under paragraph (b) of this section.

(b) Class II milk shall be all skim milk and butterfat (1) disposed of as (or used to produce, in the case of ice cream and frozen desserts and mixes for such products (liquid or powder), cottage cheese and aerated cream products) any product other than those included under paragraph (a) (1) and (2) of this section, (2) disposed of for livestock feed, (3) disposed of in bulk in any of the forms specified in paragraph (a) (1) of this section to bakeries, soup companies and candy manufacturing establishments in their capacity as such and to nonpool plants subject to the conditions of § 925.44 (c) (2), (4) in actual shrinkage of producer milk computed pursuant to § 925.42 but not in excess of 2 percent of the quantities of skim and butterfat, respectively, in producer milk, and (5) in actual shrinkage of other source milk computed pursuant to § 925.42.

§ 925.42 *Shrinkage.* The market administrator shall determine the shrinkage of skim milk and butterfat, respectively, in producer milk and in other source milk in the following manner:

(a) Compute the total shrinkage of skim milk and butterfat, respectively, for each handler; and

(b) Prorate the total shrinkage of skim milk and butterfat, respectively, computed pursuant to paragraph (a) of this section, among the pounds of producer milk, other source milk, and receipts from other handlers: *Provided*, That if milk is transferred from a fluid milk plant or a country plant to a nonpool plant located on the same premises as the transferor plant, the transfer to the nonpool plant shall be reduced by an amount determined by multiplying the total shrinkage in such nonpool plant by the percentage which the amount so transferred is to the total receipts at such nonpool plant.

§ 925.43 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be Class I milk unless the handler who first received such skim milk or butterfat proves that such skim milk and butterfat should be classified as Class II milk.

(b) The burden shall rest upon each handler to establish the sources of milk and milk products required to be reported by him pursuant to § 925.30.

(c) Except as provided in § 925.44 (c) (1), any skim milk or butterfat classified in one class shall be reclassified if used or reused by any handler in another class.

§ 925.44 *Transfers.* Skim milk and butterfat moved in any of the forms specified in § 925.41 (a) (1) from one plant to another shall be assigned (separately) to each class in the following manner:

(a) From a country plant or fluid milk plant to a fluid milk plant: As Class I milk to the extent Class I milk is available at the transferee plant, subject to the following conditions:

(1) In the event the quantity transferred exceeds the total of receipts from producers and other handlers at the transferor plant, such excess shall be assigned last to the Class I available at the transferee plant:

(2) If more than one transferor plant is involved, the available Class I milk shall be assigned to the transferor plants in the following order:

(i) To fluid milk plants located in District No. 1;

(ii) To country plants located in District No. 1 or in the counties of Kitsap and Mason;

(iii) To fluid milk plants not located in District No. 1; and

(iv) To country plants not located in District No. 1 or in the counties of Kitsap and Mason.

(3) If Class I is not available in amounts equal to the sum of transfers in the manner indicated in subparagraph (2) of this paragraph, the receiving handler may designate to which plant the available Class I milk shall be assigned; and

(4) If at a plant located in District No. 1 or in the counties of Kitsap and Mason any receipts of skim milk or butterfat from any fluid milk plant(s) or country plant(s) similarly located are assigned to Class II milk, they shall be allocated to the uses stated in § 925.54 (a) (1) insofar as such uses are available after allocating to such uses the other source milk at such plant.

(b) From a country plant or fluid milk plant to a country plant: As Class II milk, subject to the following conditions:

(1) The skim milk or butterfat so assigned to Class II milk shall be limited to the amount thereof remaining in Class II milk in the transferee plant after the subtraction pursuant to § 925.45 (b) (2) of other source milk at such plant and after the subtraction of producer shrinkage, and any additional amounts of such skim milk or butterfat shall be assigned to Class I milk;

(2) If more than one transferor plant is involved, the available Class II milk shall be assigned to the transferor plants in the following order:

(i) To country plants not located in District No. 1 or in the counties of Kitsap and Mason;

(ii) To fluid milk plants not located in District No. 1;

(iii) To country plants located in District No. 1 or in the counties of Kitsap and Mason; and

(iv) To fluid milk plants located in District No. 1;

(3) If Class II milk is not available in amounts equal to the sum of transfers in the manner indicated in subparagraph (2) of this paragraph, the receiving handler may designate to which plant the available Class II milk shall be assigned.

(4) If at a plant located in District No. 1 or in the counties of Kitsap and Mason any receipts of skim milk or butterfat from any fluid milk plant(s) or country plant(s) similarly located are assigned to Class II milk, they shall be allocated to the uses stated in § 925.54 (a) (1) insofar as such uses are available after allocating to such uses the other source milk at such plant.

(c) From a country plant or fluid milk plant to a nonpool plant:

(1) As Class I milk if the transfer is to a nonpool plant located outside the marketing area or to the plant of a producer-handler, except as provided for in subparagraph (2) of this paragraph.

(2) As Class II milk if the transfer is to a nonpool plant located in the marketing area or within any of the counties of Clallam, Jefferson, Grays Harbor Island, Kitsap and Mason, in the State of Washington, which is not engaged in the distribution of milk for consumption in fluid form: *Provided*, That if such nonpool plant disposes of skim milk or butterfat in any of the forms specified in

§ 925.41 (a) (1) to any other nonpool plant distributing milk in fluid form which is not located in the marketing area, such disposition up to the quantity of producer milk transferred to the first nonpool plant shall be classified as Class I milk: *Provided further*, That if the preceding proviso does not apply the transferred quantity shall be deemed to have been utilized first for the manufacture of Class II milk products other than evaporated milk in hermetically sealed cans, butter, nonfat dry milk solids, powdered whole milk, and cheddar cheese to the extent that such other Class II milk products were manufactured at such nonpool plant: *And provided also*, That if the market administrator is not permitted to audit the records of such nonpool plant for the purpose of use verification, the entire transfer shall be classified as Class I milk.

§ 925.45 *Computation of the quantity of producer milk in each class.* For each handler the market administrator shall:

(a) Correct for mathematical and for other obvious errors the monthly report submitted by such handler and compute the total pounds of skim milk and butterfat in each class;

(b) Allocate skim milk in the following manner;

(1) Subtract from the total pounds of skim milk in Class II milk the pounds of skim milk shrinkage allowed pursuant to § 925.41 (b) (4);

(2) Subtract from the pounds of skim milk in Class II milk the pounds of skim milk in other source milk received and in overage allocated to other source milk (§ 925.70 (a) (5)): *Provided*, That if the receipts of skim milk in other source milk plus the overage allocated to other source milk are greater than the pounds of skim milk in Class II milk, an amount equal to the difference shall be subtracted from the pounds of skim milk in Class I milk;

(3) Subtract from the remaining pounds of skim milk in each class, respectively, the skim milk received from other fluid milk plants and country plants and assigned to such class pursuant to § 925.44;

(4) Add to the remaining pounds of Class II milk, the amount subtracted pursuant to subparagraph (1) of this paragraph; and

(5) If the remaining pounds of skim milk in both classes exceed the pounds of skim milk in milk received from producers, subtract such excess (hereinafter referred to as "overage") from the remaining pounds of skim milk in each class beginning with Class II milk.

(c) Allocate butterfat in accordance with the procedure prescribed for skim milk in paragraph (b) of this section.

(d) Add together for each class the quantities of skim milk and butterfat in such class computed pursuant to paragraphs (b) and (c) of this section and compute the weighted average butterfat content of such class.

MINIMUM PRICES

§ 925.50 *Basic formula price to be used in determining Class I prices.* The basic formula price to be used in computing the price per hundredweight of Class I milk for the current month shall be the highest of the prices computed pursuant to paragraphs (a), (b), and (c) of this section for the preceding month.

(a) Divide by 3.5 and then multiply by 4.0 the average of the basic, or field, prices per hundredweight reported to have been paid, or to be paid, for milk of 3.5 percent butterfat content received from dairy farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department:

(b) The price per hundredweight computed by the market administrator from the following formula:

(1) Multiply the simple average of the daily average wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago, as reported by the Department during the month, by 6;

(2) Add 2.4 times the simple average, as published by the Department, of the prices determined per pound of "Cheddars" on the Wisconsin Cheese Exchange at Plymouth, Wisconsin, for the trading days that fall within the month;

(1) Multiply by 4.8 the simple average of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade AA (93-score) bulk creamery butter per pound at Chicago, as reported by the Department during the month: *Provided*, That, if no price is reported for Grade AA (93-score) butter, the highest of the prices reported for Grade A (92-score) butter for that day shall be used in lieu of the price for Grade AA (93-score) butter;

(2) Multiply by 8.2 the simple average of the weighted averages of carlot prices per pounds for nonfat dry milk solids, spray and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding month through the 25th day of the current month by the Department; and

(3) From the sum of the results arrived at under subparagraphs (1) and (2) of this paragraph, subtract 67 cents.

§ 925.51 *Class prices.* Subject to the differentials provided in § 925.52 the following are the minimum prices per hundredweight to handlers for Class I milk and Class II milk:

(a) *Class I milk.* The price for Class I milk shall be the basic formula price plus $1.65: *Provided*, That the price for Class I milk for the months of April through June, inclusive, of any year shall not be higher than the price computed pursuant to the above provisions of this paragraph for the month of March immediately preceding, and the price for Class I milk for any October through January period, inclusive, shall not be lower than the price computed pursuant to the provisions of this paragraph for the month of September immediately preceding.

(b) *Class II milk.* The price for Class II milk shall be that computed by the market administrator from the following formula:

(1) Multiply by 4.8 the simple average of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade AA (93-score) bulk creamery butter per pound at San Francisco, as reported by the Department during the month: *Provided*, That, if no price is reported for Grade AA (93-score) butter, the highest of the prices reported for Grade A (92-score) butter for that day shall be used in lieu of the price for Grade AA (93-score) butter;

(2) Multiply by 8.2 the simple average of the weighted averages of carlot prices per pound for nonfat dry milk solids, spray and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding month through the 25th day of the current month by the Department; and

(3) From the sum of the results arrived at under subparagraphs (1) and (2) of this paragraph, subtract 80 cents.

§ 925.52 *Butterfat differentials to handlers.* If the average butterfat content of Class I milk or Class II milk, computed pursuant to § 925.45, for any handler for any month differs from 4.0 percent, there shall be added to, or subtracted from, the applicable class price (§ 925.51) for each one-tenth of 1 percent that the average butterfat content of such class is respectively above, or below, 4.0 percent, a butterfat differential computed by the market administrator as follows:

(a) *Class I milk:* Multiply by 1.25 the simple average of the daily wholesale selling prices per pound (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter at San Francisco, as reported by the Department during the preceding month, divide the result by 10, and round to the nearest tenth of a cent.

(b) *Class II milk:* Multiply by 1.15 the simple average of the daily wholesale selling prices per pound (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter at San Francisco, as reported by the Department during the month, divide the result by 10, and round to the nearest tenth of a cent.

§ 925.53 *Location adjustment to handlers on Class I milk.* In computing the value of each handler's milk there shall be credited with respect to skim milk and butterfat, respectively, in producer milk received at a plant not located in District No. 1 or in the counties of Kitsap and Mason and classified as Class I milk, 40 cents per hundredweight: *Provided*, That an additional 10 cents shall be credited with respect to skim milk and butterfat so received and classified at any plant located in Clallam or Jefferson Counties.

§ 925.54 *Location adjustment to handlers on Class II milk.* In computing each handler's value of milk there shall be added with respect to each fluid milk plant and country plant located in District No. 1 or in the counties of Kitsap and Mason, an amount of money computed as follows:

(a) Compute the sum (in pounds) of: (1) The total utilization at such plant (including any disposition of skim milk and butterfat from such plant for similar uses at nonpool plants) of skim milk and butterfat, respectively, in evaporated milk in hermetically sealed cans, butter, nonfat dry milk solids, powdered whole milk, cheddar cheese, shrinkage allowable as Class II milk pursuant to § 925.41 (b) (4) and (5), and (2) the total quantity of skim milk and butterfat transferred to other fluid milk plants and country plants located in District No. 1 or in the counties of Kitsap and Mason and allocated to the uses specified in subparagraph (1) of this paragraph (as provided in § 925.44 (a) (4) and (b) (4));

(b) Subtract such sum from the total quantity of Class II milk for such plant, including that resulting from the disposition of skim milk or butterfat from such plant to nonpool plants;

(c) Subtract from the net amounts of skim milk and butterfat, respectively, resulting from paragraph (b) of this section to the extent of such amounts, the amounts of skim milk and butterfat received at such plant from fluid milk plants and country plants not located in District No. 1 or in the counties of Kitsap and Mason and assigned to Class II milk pursuant to § 925.44 (but exclusive of the quantity by which transfers received from a transferor plant exceeds the total of receipts from producers and other handlers at such transferor plant); and

(d) Multiply by 25 cents per hundredweight the lesser of the following quantities: (i) The net amount resulting from paragraph (c) of this section, or (ii) the total amount of producer milk received at such plant directly from farms which is available for Class II milk after the assignment of transfers pursuant to § 925.44.

DETERMINATION OF BASE

§ 925.60 *Computation of producer bases.* Subject to the rules set forth in § 925.61, the market administrator shall determine bases for producers in the manner provided in paragraphs (a) and (b) of this section:

(a) During each of the months of February through July, inclusive, of each year beginning with 1954, the daily base of each producer whose milk was received by a handler(s) on not less than one hundred twenty (120) days during the immediately preceding months of August through December, inclusive, shall be a quantity computed by dividing such producer's total pounds of milk delivered in such five-month period by the number of days from the date of first delivery to the end of such five-month period, and during each of the months of March through July 1953, inclusive, the daily base of each producer whose milk was received by a handler(s) on not less than ninety (90) days during the immediately preceding months of October through January, inclusive, shall be a quantity computed by dividing such producer's total pounds of milk delivered in such four-month period by the number of days from the date of first delivery to the end of such four-month period: *Provided*, That with respect to any producer on "every-other-day" delivery the days of non-delivery intervening days of delivery shall be considered as days of delivery for the purpose of ascertaining whether delivery was made on not less than the minimum number of days required pursuant to this paragraph.

(b) Any producer who is not eligible to receive a base computed pursuant to paragraph (a) of this section, shall have beginning with March 1953 a monthly base in the months of February through July, inclusive, computed by applying the appropriate monthly percentage in the following table to his deliveries to a handler(s):

February	70	May	45
March	65	June	50
April	55	July	55

§ 925.61 *Base rules.* The following rules shall be observed in determination of bases:

(a) A base may be transferred during the period of February through July, inclusive, upon written notice to the market administrator on or before the last day of the month of transfer, but only under the following circumstances:

(1) Upon the death, retirement or entry into military service of a producer, the entire base may be transferred to a member (or members) of his immediate family who continues to supply producer milk from the same farm.

(2) If a base is held jointly and such joint holding is terminated the entire base may be transferred as a unit to one of the joint holders or to a new joint holding in which at least one of the original joint holders is a participant.

(b) A producer who ceases deliveries to a fluid milk plant or country plant for more than 45 days shall lose his base if computed pursuant to § 925.60 (a) and if he resumes deliveries to such a plant he shall be paid on a base determined pursuant to § 925.60 (b) until he can establish a new base under § 925.60 (a) to begin the next February 1.

(c) By notifying the market administrator in writing on or before the 15th day of any month in the period February through July, inclusive, a producer holding a base established pursuant to § 925.60 (a) may relinquish such base by cancellation, and effective from the first day of the month in which notice is received by the market administrator until the end of such six-month period such producer's base shall be computed in the manner provided by § 925.60 (b).

(d) As soon as bases computed by the market administrator are allotted, notice of the amount of each producer's base shall be given by the market administrator to the handler receiving such producer's milk and to the cooperative association of which the producer is a member. Each handler, following receipt of such notice, shall promply post in a conspicuous place at each of his plants a list or lists showing the base of each producer whose milk is received at such plant.

(e) If a producer operates more than one farm he shall establish a separate base with respect to producer milk delivered from each such farm.

(f) Only producers as defined in § 925.12 may establish or earn a base pursuant to the provisions of §925.60, and only one base shall be allotted with respect to milk produced by one or more persons where the land, buildings, and equipment used are jointly owned or operated.

DETERMINATION OF UNIFORM PRICE

§ 925.70 *Computation of value of milk.* (a) Except as provided in paragraph (b) of this section, the total value of milk received during any month by each handler including a cooperative association, shall be a sum of money computed by the market administrator as follows:

(1) Multiply the pounds of producer milk in each class for such month by the class price (§ 925.51) and add together the resulting amounts;

(2) Deduct the total amount of all location adjustment credits computed in accordance with § 925.53;

(3) Add the total amount of all location adjustments computed pursuant to § 925.54;

(4) Add or subtract, as the case may be, the amount necessary to correct errors as disclosed by the verification of reports of such handler of his receipts and utilization of skim milk and butterfat in previous months for which payment has not been made;

(5) Add, if such handler had overage, an amount computed by multiplying the pounds of such overage (except overage prorated to other source milk) deducted from each class pursuant to § 925.45 by the applicable class price: *Provided*, That if (i) overage results in a fluid milk plant or country plant having receipts of other source milk, the total overage shall be prorated between other source milk and all other receipts, and (ii) overage results in a nonpool plant located on the same premises as a fluid milk plant or country plant, such overage shall be prorated between the quantity transferred from the fluid milk plant or country plant and other source milk in such nonpool plant, and the transferor handler shall be charged at the applicable class price for the amount of overage allocated to the transferred quantity.

(6) Add, with respect to other source milk received at each fluid milk plant and country plant of such handler in excess of the total volume of his Class II milk (except allowable shrinkage) at such plant an amount computed by multiplying the hundredweight of such other source milk by the difference between the Class I milk and Class II milk prices adjusted, respectively, by the butterfat differentials provided in § 925.52 (based on the butterfat test of such other source milk), and in the case of a fluid milk plant or country plant not located in District No. 1 or in the counties of Kitsap or Mason, such difference shall be reduced by 40 cents per hundredweight: *Provided*, That with respect to skim milk and butterfat so received and classified at any plant located in Clallam and Jefferson Counties, there shall be a further reduction of 10 cents per hundredweight.

(b) The value of milk of each handler at any plant where only other source milk was received and from which, during the month, some other source milk was disposed of within the marketing area as Class I milk pursuant to § 925.41 (a) (1) shall be a sum of money computed by the market administrator by multiplying the hundredweight of such other source milk so disposed of by the difference between the Class I milk and Class II milk prices adjusted, respectively, by the butterfat differentials provided in § 925.52 (based on the butterfat test of such other source milk), and, in the event disposition within the marketing area was only within Districts Nos. 2 and 3, such difference shall be reduced by 40 cents per hundredweight.

§ 925.71 *Computation of uniform price.* For each month the market administrator shall compute the uniform prices per hundredweight for base milk and excess milk received from producers as follows:

(a) Combine into one total the values computed pursuant to § 925.70 for all handlers who made the reports prescribed in § 925.30 and who made the payments pursuant to § 925.84 for the preceding month;

(b) Add the aggregate of the values of the location adjustments on base milk allowable pursuant to § 925.81 (a);

(c) Deduct the aggregate of the values of the location adjustments on excess milk computed pursuant to § 925.81 (b);

(d) Add an amount representing not less than one-half the unobligated cash balance in the producer-settlement fund;

(e) Subtract, if the average butterfat content of the milk represented by the values included under paragraph (a) of this section is greater than 4.0 percent, or add, if such average butterfat content is less than 4.0 percent, an amount computed by multiplying the amount by which the average butterfat content of such milk varies from 4.0 percent by the butterfat differential computed pursuant to § 925.82 and multiplying the resulting figure by the total hundredweight of such milk;

(f) Multiply the hundredweight of excess milk by the Class II price for 4.0 percent milk, rounded to the nearest one-tenth cent;

(g) Compute the total value of base milk by subtracting the amount computed pursuant to paragraph (f) of this section from the net amount computed pursuant to paragraph (e) of this section: *Provided*, That if such result is greater than an amount computed by multiplying the hundredweight of base milk by the Class I milk price (for 4.0 percent milk) plus 4 cents such amount in excess thereof shall be subtracted from the result obtained prior to this proviso;

(h) Divide the net amount obtained in paragraph (g) of this section by the total hundredweight of base milk and subtract not less than 4 cents but less than 5 cents. This result shall be known as the uniform price per hundredweight of base milk of 4.0 percent butterfat content; and

(i) Divide the amount obtained in paragraph (f) of this section plus any amount subtracted pursuant to the proviso of paragraph (g) of this section by the hundredweight of excess milk, and subtract any fractional part of one cent. This result shall be known as the uniform price per hundredweight of excess milk of 4.0 percent butterfat content.

PAYMENTS

§ 925.80 *Time and method of payment to producers and to cooperative associations.* (a) On or before the 19th day after the end of each month, each handler, including a cooperative association which is a handler, shall make payment to each producer, for milk received at his plant from such producer during such month pursuant to subparagraphs (1) and (2) of this paragraph: *Provided*, That such payment shall be made, upon request, to a cooperative association, or to its duly authorized agent, qualified under § 925.5 with respect to milk received from each producer who has given such association authorization by contract or by other written instrument to collect the proceeds from the sale of his milk, and any payment made pursuant to this proviso shall be made on or before the 17th day after the end of such month: *And provided further*, That if by such date such handler has not received full payment for such month pursuant to § 925.85, he shall not be deemed to be in violation of this paragraph if he reduces uniformly for all producers his payments per hundredweight pursuant to this paragraph by a total amount not in excess of the reduction in payment from the market administrator; however, the handler shall make such balance of payment uniformly to those producers to whom it is due on or before the date for making payments pursuant to this paragraph next following that on which such balance of payment is received from the market administrator:

(1) At not less than the uniform price for base milk for the quantity of base milk received, adjusted by the butterfat differential computed pursuant to § 925.82 and by any location adjustment applicable under § 925.81; and

(2) At not less than the uniform price for excess milk for the quantity of excess milk received, adjusted by the butterfat differential computed pursuant to § 925.82 and by any location adjustment applicable under § 925.81.

(b) On or before the 17th day after the end of each month each handler shall pay to each cooperative association which operates a fluid milk plant or country plant, for skim milk and butterfat received from such cooperative association during such month, an amount of money computed by multiplying the total pounds of such skim milk and butterfat in each class (pursuant to § 925.41) by the class price adjusted by the amounts of any location adjustments applicable pursuant to §§ 925.53 and 925.54.

(c) None of the provisions of this section shall be construed to restrict any cooperative association qualified under section 8c (5) (F) of the act from making payment for milk to its producers in accordance with such provision of the act.

§ 925.81 *Location adjustments to producers.* In making payments to producers pursuant to § 925.80 (a) (1) the following adjustments for location are applicable:

(a) Deductions may be made per hundredweight of base milk received from producers as follows: 50 cents at plants located in Clallam and Jefferson Counties, and 40 cents at other plants not located in District No. 1 or in the counties of Kitsap and Mason.

(b) Beginning with March 1953, 25 cents per hundredweight shall be added for the months of February through July, inclusive, to the uniform price for excess milk received from producers at plants located in District No. 1, or in the counties of Kitsap and Mason.

§ 925.82 *Producer butterfat differential.* In making payments pursuant to § 925.80 (a) for base milk and for excess milk, there shall be added to, or subtracted from, the uniform prices thereof for each one-tenth of 1 percent that the average butterfat content of the milk received from the producer is above or below 4.0 percent, a butterfat differential computed by the market administrator as follows:

(a) The butterfat differential for base milk shall be computed by multiplying the butterfat differential for Class I milk by the percentage of the butterfat contained in base milk that is allocated to Class I, and by multiplying the remaining percentage of butterfat within base milk by the butterfat differential for Class II milk, adding together the resulting amounts, and rounding to the nearest tenth of a cent.

(b) The butterfat differential for excess milk shall be the same as the butterfat differential for Class II milk.

§ 925.83 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund," into which he shall deposit all payments made by handlers pursuant to § 925.84 and out of which he shall make all payments to handlers pursuant to § 925.85.

§ 925.84 *Payments to the producer-settlement fund.* On or before the 15th day after the end of the month during which the milk was received, each handler, including a cooperative association which is a handler, shall pay to the market administrator the amount, if any, by which the total value of such handler's milk as determined pursuant to § 925.70 is greater than the value of such handler's producer milk computed at the minimum uniform prices as specified in § 925.80 (a).

§ 925.85 *Payments out of the producer-settlement fund.* On or before the 17th day after the end of the month during which the milk was received, the market administrator shall pay to each handler, including a cooperative association which is a handler, the amount, if any, by which the total value of such handler's milk as determined pursuant to § 925.70 is less than the value of such handler's producer milk computed at the minimum uniform prices as specified in § 925.80 (a), and less any unpaid obligations of such handler to the market administrator pursuant to §§ 925.84, 925.86, 925.87 and 925.88: *Provided*, That if the balance in the producer-settlement fund is insufficient to make all payments pursuant to this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available.

§ 925.86 *Adjustments of accounts.* Whenever verification by the market administrator of reports or payment of any handler discloses errors resulting in money due (a) the market administrator from such handler, (b) such handler from the market administrator, or (c) any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payments set forth in the provisions under which such error occurred following the 5th day after such notice.

§ 925.87 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler, in making payments to producers (other than with respect to milk of such handler's own production) pursuant to § 925.80 (a), shall make a deduction of 5 cents per hundredweight of milk, or such amount not exceeding 5 cents per hundredweight as the Secretary may prescribe, with respect to the following:

(1) All milk received from producers at a plant not operated by a cooperative association; and

(2) All milk received at a plant operated by a cooperative association from producers who are not members of such association.

Such deduction shall be paid by the handler to the market administrator on or before the 15th day after the end of the month. Such moneys shall be expended by the market administrator for the verification of weights, sampling, and testing of milk received from producers and in providing for market information to producers; such services to be performed in whole or in part by the market administrator or by an agent engaged by and responsible to him.

(b) In the case of each producer (1) who is a member of, or who has given written authorization for the rendering of marketing services and the taking of deduction therefore to, a cooperative association, (2) whose milk is received at a plant not operated by such association, and (3) for whom the market administrator determines that such association is performing the services described in paragraph (a) of this section, each handler shall deduct, in lieu of the deduction specified under paragraph (a) of this section, from the payments made pursuant to § 925.80 (a) the amount per hundredweight on milk authorized by such producer and shall pay over, on or before the 15th day after the end of the month, such deduction to the association entitled to receive it under this paragraph.

§ 925.88 *Expense of administration.* As his prorata share of the expense of administration of this order, each handler shall pay to the market administrator on or before the 15th day after the end of each month 4 cents per hundredweight, or such amount not exceeding 4 cents per hundredweight as the Secretary may prescribe, with respect to all receipts within such month of (a) other source milk classified as Class I milk, and (b) milk received from producers, including such handler's own production.

§ 925.89 *Termination of obligations.* The provisions of this section shall apply to any obligation under this subpart for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this subpart shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last-known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administration, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this subpart, to make available to the market administrator or his representatives all books and records required by this order to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this subpart to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this order shall terminate two years after the end of the calendar month during which the milk involved in the claims was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 925.90 *Effective time.* The provisions of this subpart or any amendment to this subpart shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 925.91.

§ 925.91 *Suspension or termination.* The Secretary may suspend or terminate this subpart or any provision of this subpart whenever he finds this subpart or any provision of this subpart obstructs or does not tend to effectuate the declared policy of the act. This subpart shall terminate in any event whenever the provisions of the act authorizing it cease to be in effect.

§ 925.92 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this subpart, there are any obligations thereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 925.93 *Liquidation.* Upon the suspension or termination of the provisions of this subpart, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall if so directed by the Secretary liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay out-

standing obligations of the office of the market administrator and to pay necessary expense of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 925.100 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this subpart.

§ 925.101 *Separability of provisions.* If any provision of this subpart, or its application to any person or circumstances, is held invalid, the application of such provision and of the remaining provisions of this subpart, to other persons or circumstances shall not be affected thereby.

§ 925.102 *Producers - handlers.* Sections 925.40 to 925.45, inclusive, 925.50 to 925.54, inclusive, 925.70 to 925.71, inclusive, and 925.80 to 925.89, inclusive, shall not apply to a producer-handler.

Issued at Washington, D. C., this 25th day of November 1952, to be effective on and after the 1st day of December 1952.

Secretary of Agriculture.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[General Ceiling Price Regulation, Amdt. 1 to Supplementary Regulation 100, Revision 1]

GCPR, SR 100—ADJUSTMENT FOR IRON AND STEEL PRODUCTS

COPPER CLAD AND COPPER COATED STEEL PRODUCTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 1 to Supplementary Regulation 100, Revision 1 to the General Ceiling Price Regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to Supplementary Regulation (SR) 100, Revision (Rev.) 1 to the General Ceiling Price Regulation (GCPR) provides ceiling price adjustments for copper clad and copper coated steel products such as wire, sheet and strip.

Some steel mills manufacture copper clad and copper coated steel products such as wire, sheet and strip. At present, in the absence of more specific provisions, these products fall in categories (1) and (5) of section 3 (c) of GCPR, SR 100, Rev. 1 for which a ceiling price increase of 4.7 percent is provided. This increase does not fully carry out the policy of this Agency to grant ceiling price increases to reflect the increased costs of production or acquisition of steel, copper and some other metals because the 4.7 percent increase only takes account of the increased cost of production of steel and neglects the far greater increases in the cost of acquisition of copper.

This amendment remedies the situation by providing that the 4.7 percent increase be applied not to the total ceiling price of copper clad and copper coated steel products but only to that part of it which remains after deducting from that ceiling price the value of the copper content of the product, computed on the basis of the price of domestic copper of 24.5 cents per pound, and by providing that the value of the copper content be reflected in the ceiling price of the product on the basis of an average price of 28.34 cents per pound. Thus, in effect, on the copper content of copper clad and copper coated steel products an increase of 28.34 cents minus 24.5 cents or 3.84 cents per pound is granted.

The 3.84 cents increase per pound has been arrived at as follows: The price of copper currently quoted by the Bank of Chile is the equivalent of 36.5 cents per pound delivered Connecticut Valley basis. The difference between this figure and the 24.5 cents domestic price is 12 cents. In accordance with the Directive issued by the Office of Defense Mobilization on May 21, 1952, this Agency permitted brass mills and copper wire mills to add to their ceiling prices an amount representing 80 percent of their increases in the cost of acquisition of copper. The same 80 percent applied to the 12 cents price increase per pound is 9.6 cents per pound. It is anticipated that the ratio of consumption of foreign copper to domestic refined copper used in the production of copper clad products will be 40 percent foreign copper and 60 percent domestic copper in conformity with the recent allocations by the National Production Authority. An application of the 40 percent foreign ratio to the 9.6 cents previously computed yields an average increase in the recoverable cost of 3.84 cents per pound of the total copper used.

Should considerable changes occur in the price of imported copper or in the ratio of imported to total copper used in the production of copper clad and copper coated steel products the Director of Price Stabilization will consider a revision of the adjustments provided by this amendment.

So far as practicable, the Director has given due consideration to the national effort to achieve maximum production in furtherance of the objectives of the Defense Production Act of 1950, as amended, and to relevant facts of general applicability. In the judgment of the Director, the provisions of this regulation comply with all the requirements with respect to the establishment of ceiling prices set forth in the Defense Production Act of 1950, as amended.

In formulating this amendment, the Director consulted with industry representatives, including trade association representatives, to the extent practicable under existing conditions, and has given full consideration to their recommendations.

AMENDATORY PROVISIONS

Section 3 of Supplementary Regulation 100, Revision 1 to the General Ceiling Price Regulation is amended by adding to it the following paragraph (d):

(d) If you produce copper clad or copper coated steel products, such as wire, sheet or strip, your ceiling price for this product is your ceiling price established by the General Ceiling Price Regulation or a supplementary regulation to the General Ceiling Price Regulation issued on or before April 24, 1952, or an individual letter order issued prior to this regulation adjusted as follows:

(1) Multiply the amount of the copper contained in the product by $0.245 per pound.

(2) Deduct the amount calculated under (1) form the ceiling price of the product.

(3) Multiply the remainder by 104.7 percent.

(4) Multiply the copper contained in the product by $0.2834 per pound.

(5) Add together the amounts calculated under (3) and (4).

The amount of copper which you must consider in your calculations is the net copper content of your product as distinguished from its copper base alloy content.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective December 6, 1952.

[General Ceiling Price Regulation, Supplementary Regulation 100, Amdt. 2 to Revision 1]

GCPR, SR 100—ADJUSTMENTS FOR IRON AND STEEL PRODUCTS

CHANGES IN METHOD OF CALCULATING CERTAIN PRICE ADJUSTMENTS; CORRECTIONS OF TYPOGRAPHICAL ERRORS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 2 to Revision 1, Supplementary Regulation 100 to the General Ceiling Price Regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to Supplementary Regulation (SR) 100, to Revision 1 to the General Ceiling Price Regulation corrects certain typographical errors, and also permits certain producers of merchant wire products to calculate their adjustments on the basis of columnar price lists, which is their historical pricing method, rather than by using the dollar-and-cents figures heretofore provided for in the supplementary regulation.

The persons affected by the change in the method of calculating price adjustments are producers of nails, staples, woven fence, welded fence, wire netting, fence posts, wire bale ties, barbed and twisted wire. In all these industries the prices for items that are stock products have been historically expressed by means of a schedule of prices consisting of numbered columns, each column representing an increase in price of approximately one dollar per ton converted to the increase for the customary selling unit of the item, such as a keg of nails. Prices for nonstock items and cut nail products are expressed as a specified sum per hundred pounds plus extras. Therefore, price changes in stock items, either up or down, are customarily indicated by a change in the number of the applicable column, such references thus giving the new price in dollars and cents per hundred pounds. Due to the diversity and number of items priced on the column basis, it is impracticable to express a price change in any other manner than by adjusting such prices by an increase or decrease in the number of the applicable column. Consequently, this amendment sets out the price increases permitted by SR 100, Revision 1, in terms of columns instead of dollars-and-cents for merchant wire products. It is assumed that selling prices contained in price lists in effect immediately before the issuance of SR 100, Revision 1 to the GCPR were at ceiling. The change-over from a dollar per ton basis to a columnar basis, on the whole, does not result in any marked change in the price level of merchant wire products from that previously provided under SR 100, Revision 1.

In view of the nature of this amendment, special circumstances have rendered consultation with industry representatives, including trade association representatives, impracticable and unnecessary.

AMENDATORY PROVISIONS

Supplementary Regulation 100, Revision 1 to the General Ceiling Price Regulation is amended in the following respects:

1 Section 3 (a) is amended to read as follows:

(a) If you produce any of the following carbon steel mill products, your ceiling price for this product is your ceiling price established by the General Ceiling Price Regulation (GCPR) or a supplementary regulation to the GCPR issued on or before April 24, 1952, or an individual letter order issued prior to this regulation plus the applicable amount set forth below for such products.

Where the applicable amount set forth below is expressed as a number of columns, your new ceiling price is the price in the column of your price list found by adding the applicable number of columns to the number of the column containing your present ceiling price.

Example: Your ceiling price for cement coated nails, 3d sinker type, immediately before the issuance of Revision 1, SR 100 to the GCPR, was contained in column 103 of your price list. Column No. 103 plus 9 columns equals Column No. 112. The dollars-and-cents price in Column No. 112 for cement coated nails, 3d sinker type, is $8.51. Your new ceiling price for this item is $8.51.

If you customarily did not express your prices in numbered columns in a price list, your ceiling price may be increased by the same number of dollars per ton as the number of columns listed in this section.

2. The table contained in section 3 (a) is amended in the following respects:

Item (36) (vi) is amended to read:	
(vi) Tubing H-40	11.00.
Item (38) is amended to read:	
(i) Nails—wire stock items	9 columns.
(ii) Nails—wire non-stock items	9.00.
(iii) Nails—cut	9.00.

(i) Staples—stock items	8 columns.
(ii) Staples—non-stock items	8.00.
Item (41) is amended to read:	
(41) Woven fence	9 columns.
Item (42) is amended to read:	
(42) Welded fence	14 columns.
Item (43) is amended to read:	
(43) Wire netting	14 columns.
Item (44) is amended to read:	
(44) Fence posts, commonly produced by steel mills	8 columns.
Item (45) is amended to read:	
(45) Wire bale ties—coil and loop	9 columns.

GOR 5—EXEMPTIONS AND SUSPENSIONS OF CERTAIN CONSUMER DURABLE GOODS AND RELATED COMMODITIES

EXEMPTION OF COIN OPERATED AMUSEMENT MACHINES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 10 to General Overriding Regulation 5, Revision 1, is hereby issued.

STATEMENT OF CONSIDERATIONS

In line with the policy of exempting commodities from price control when the administrative burden of maintaining controls over them is disproportionate to any benefits accruing to the stabilization program, this amendment decontrols coin operated amusement machines, such as phonographs, skill games, strength-testing devices, and others. Sales of these machines are not significant in the defense program, and they do not enter into the cost of living of the American family. These machines are not purchased by the public; they are sold to "operators," who impose a service charge for the privilege of playing the machines.

These machines have been selling generally below their ceilings, and there is little likelihood that this exemption will result in any significant increase in their price levels. In any event, price control over these machines involves difficulties, both for the sellers and for this Agency, which are disproportionate to any benefits accruing to the stabilization program. The constant introduction of new models of amusement machines, and the resulting necessity of establishing new ceiling prices, has made price control in this industry extremely burdensome, both to the sellers and to OPS. Exemption of these machines will not affect the price control program, and will enable OPS to focus its energies on more important fields.

In the formulation of this amendment there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

General Overriding Regulation 5, Revision 1, is hereby amended by adding new section 19 to Article II, to read as follows:

SEC. 19. *Amusement machines.* The following amusement machines:

(a) Coin operated amusement machines, including, but not limited to, phonographs, skill games, strength-testing devices and pin-ball games. Specifically excluded, however, are machines

GOR 14—EXCEPTED AND SUSPENDED SERVICES, ADDITIONAL EXCEPTED SERVICES

COIN OPERATED AMUSEMENT MACHINES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 27 to General Overriding Regulation 14 is hereby issued.

STATEMENT OF CONSIDERATIONS

This Amendment removes from price control fees and charges for operation of coin operated amusement machines such as juke boxes and other phonographs, skill games, strength-testing devices, and pinball machines.

This exemption applies only to machines operated for amusement purposes. It does not apply to charges for operation of machines which dispense any commodity, even though those machines may also be operated for amusement. For example, charges for operation of "claw machines" which may dispense articles of merchandise, are not covered. Moreover, charges for rental or maintenance of any coin operated machines are not included in this exemption action.

In the judgment of the Director, controls over the services exempted by this amendment are not required at this time in order to carry out the purposes of the Defense Production Act of 1950, as amended. Experience has shown that the administrative burden of retaining control over such service fees and charges is out of proportion to the benefits gained.

In the formulation of this amendment there was consultation with industry representatives, including trade association representatives to the extent practicable, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

General Overriding Regulation 14, as amended, is further amended by adding at the end of paragraph (a) of Section 3 a new subparagraph (114) as follows:

(114) Operation of coin operated amusement machines, including, but not limited to, phonographs, skill games, strength-testing devices and pinball games; provided, however, that this exemption shall not apply to the charges for operation of machines which dispense any commodity, whether or not such machines are also operated for amusement.

(Sec. 704, 64 Stat. 816, as amended, 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment to General Overriding Regulation 14 shall become effective December 1, 1952.

GOR 32—ADJUSTMENT OF CEILING PRICES FOR MATERIALS TO THE MINIMUM PRICES FIXED BY STATE LAWS

SO 10—SELLERS OF CIGARETTES IN PENNSYLVANIA

CEILING PRICES RAISED TO CONFORM WITH THE PENNSYLVANIA UNFAIR CIGARETTE SALES ACT

Statement of considerations. This special order raises the ceiling prices of Pennsylvania cigarette sellers above those previously established under regulations of the Office of Price Stabilization (OPS) where necessary to conform to the minimum prices required to be charged by the Pennsylvania Unfair Cigarette Sales Act. This action does not presently affect ceiling prices of Pennsylvania cigarette sellers which are at or above the minimum prices required by that Act immediately prior to the effective date of this special order. Provision is also made for the adjustment of ceiling prices of cigarette sellers subject to the Pennsylvania Unfair Cigarette Sales Act in the event of a change in the minimum prices computed pursuant to that Act and in some instances for the establishment of ceiling prices for new brands of cigarettes sold in Pennsylvania.

This special order is issued pursuant to section 5 of General Overriding Regulation (GOR) 32. That regulation was issued by the OPS to conform to the requirements of section 402 (1) of the Defense Production Act of 1950, as amended. GOR 32 sets forth certain facts which must be shown to exist in a particular State before the OPS is required by the above-noted statutory provision to raise ceiling prices to the minimum prices required by the law of that State.

It appears from the information contained in the application of the Department of Revenue of the Commonwealth of Pennsylvania that the Pennsylvania Unfair Cigarette Sales Act was in effect and enforced on June 30, 1952, and on November 6, 1952 (the date of application); that the Act has not been held invalid by any court of competent jurisdiction; and that the ceiling prices of some cigarette sellers in the Commonwealth of Pennsylvania are lower than the minimum sales prices required to be charged by that Act.

Special provisions. For the reasons set forth in the Statement of Considerations and pursuant to section 5 of GOR 32 this special order is hereby issued.

1. Ceiling prices of cigarette sellers subject to the Pennsylvania Unfair Cigarette Sales Act, hereinafter referred to as the Pennsylvania Act, which are below the minimum sales prices computed pursuant to that Act, as specified in paragraph 5 hereof, are hereby raised to those minimum sales prices.

2. If the minimum prices for brands of cigarettes sold in Pennsylvania on November 6, 1952 (the date of application by the Department of Revenue of the Commonwealth of Pennsylvania) have increased after that date pursuant to the Pennsylvania Act, such higher minimum prices shall become ceiling prices as hereinafter specified in this paragraph, upon the sending of a report by the Department of Revenue of the Commonwealth of Pennsylvania by registered mail to the Grocery Products Branch, Office of Price Stabilization, Washington 25, D. C. That report will indicate the reason for the change as well as the computations by which the new required minimum prices have been determined and will list the new prices for various brands of cigarettes. The higher minimum prices so reported shall be established as ceiling prices for the sellers affected by paragraph 1 hereof and any other seller subject to the Pennsylvania Act whose ceiling prices would, as a result of such change, be below the new required minimum prices. If the minimum prices for brands of cigarettes sold in Pennsylvania on November 6, 1952, are decreased after that date pursuant to the Pennsylvania Act, ceiling prices of the sellers affected by paragraph 1 hereof shall be established at the new required minimum prices. However, where such lower minimum prices are below the ceiling prices in effect immediately prior to the date of this special order, these ceiling prices shall be in effect after such change in the minimum prices.

3. If new brands of cigarettes are sold in Pennsylvania after November 6, 1952, the cigarette sellers subject to the Pennsylvania Act who are unable to compute ceiling prices for the new brands pursuant to section 5 of the General Ceiling Price Regulation (because their comparison brands are not priced under section 3 of the General Ceiling Price Regulation but are priced under paragraph 1 or 2 of this special order) shall take as their ceiling prices for such new brands the minimum sales prices computed for them in accordance with the Pennsylvania Act. These prices will be established as ceiling prices for such cigarette sellers upon the sending of a report by the Department of Revenue of the Commonwealth of Pennsylvania by registered mail to the Grocery Products Branch, Office of Price Stabilization, Washington 25, D. C. This report will set forth the brand names of the cigarettes and the minimum sales prices required to be charged for them in accordance with the Pennsylvania Act and

will indicate how these minimum prices were computed.

4. Nothing in this special order shall prevent a cigarette seller subject to the Pennsylvania Act whose ceiling prices would be affected by the filing of a report by the Department of Revenue of the Commonwealth of Pennsylvania as set forth in paragraph 2 or 3 hereof, from filing such report in his own behalf. The individual seller may use as his ceiling prices the minimum prices required by the Pennsylvania Act upon his mailing of such report unless and until such seller is notified by the OPS that the reported prices are disapproved or that further information is required. In the event of a request for further information, the reported minimum prices shall not be used as ceiling prices until such further information is sent by registered mail to the Grocery Products Branch, Office of Price Stabilization, Washington 25, D. C.

5. As used in this special order, the term "Pennsylvania Unfair Cigarette Sales Act" means that act as amended up to June 30, 1952 (Laws of Pennsylvania 1949, Act No. 478).

6. This special order or any provision hereof may be revoked, suspended, or amended by the Director of Price Stabilization.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This special order is effective December 1, 1952.

NOTE: The record-keeping and reporting requirements of this special order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Director of Price Stabilization.

[General Overriding Regulation 35, Supplementary Regulation 3]

GOR 35—PASS THROUGH FOR STEEL, PIG IRON, COPPER AND ALUMINUM COST INCREASES

SR 3—OPTIONAL METHOD OF CALCULATING CERTAIN ADJUSTMENTS BASED ON MERCHANT WIRE MILL PRICE CHANGES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Supplementary Regulation to General Overriding Regulation 35 is hereby issued.

STATEMENT OF CONSIDERATIONS

This supplementary regulation to General Overriding Regulation (GOR) 35 gives users of certain merchant wire products listed in Appendix A of GOR 35 the option either to adjust their prices on the basis of the dollars-and-cents figures now in the Appendix or to adjust their prices on a columnar price list basis. The optional columnar price adjustment provided in this supplementary regulation conforms to the changes provided by Amendment 2 to Supplementary Regulation (SR) 100, Revision 1, to the General Ceiling Price Regulation (GCPR).

The changes in SR 100, Revision 1 to the GCPR, made by that amendment, permit certain merchant wire producers to calculate their adjustments on the basis of columnar price lists, which is their historical pricing method, rather than by using the dollars-and-cents figures previously provided.

The persons affected by the change in calculating price adjustments provided for in Amendment 2 to SR 100, Revision 1, are producers of nails, staples, woven fence, welded fence, wire netting, fence posts, wire bale ties, barbed and twisted wire. The prices for items that are stock products have been historically expressed by producers of these items by means of a schedule of prices consisting of numbered columns, each column representing an increase in price of approximately one dollar per ton converted to the increase for the customary selling unit of the item, such as a keg of nails. Prices for non-stock items and cut nail products are expressed as a specified sum per hundred pounds plus extras. Therefore, price changes in stock items, either up or down, are customarily indicated by a change in the number of the applicable column, such references thus giving the new price in dollars-and-cents per customary selling unit of the item. Due to the diversity and number of items priced on the column basis, it is impracticable for producers of those items to express a price change in any other manner than by adjusting such prices by an increase or decrease in the number of the applicable column. Consequently, this supplementary regulation sets out the price increases permitted by SR 100, Revision 1, in terms of columns instead of dollars-and-cents for merchant wire products. It is assumed that the mill selling prices contained in price lists in effect immediately before the issuance of SR 100, Revision 1 to the GCPR, were at ceiling.

The change-over from a dollar per ton basis to a columnar basis, on the whole, does not result in any marked change in the price level of merchant wire products.

Purchasers from mill suppliers and from warehouses may, in calculating their ceiling prices, use the prices found in the appropriate columns specified in section 2 of this supplementary regulation immediately and without awaiting receipt of notification from their suppliers. In the alternative, such purchasers may continue to reflect in their ceiling prices the amounts of the ceiling price increases for merchant wire products now set out in Appendix A of GOR 35. If such purchasers adopt the column prices contained in this supplementary regulation, they must notify their customers of the new increases found by using column prices, regardless of whether these raise or lower the amounts of the increases previously contained in Appendix A. If the use of the column pricing method effects no change, no notice need be given.

Customers of the sellers referred to in the previous paragraph, and all subsequent processors, must continue to use the increases of which they have already received notice until they receive a new notice from their suppliers informing them of a price change made pursuant to this supplementary regulation (or the applicable distributor's regulation). On receipt of such a notice, these persons have the option to continue using, in the adjustment of their own ceiling prices, the metal cost increase of which they have previously received notice or the new amount.

In view of the nature of this supplementary regulation, special circumstances have made consultation with all industry representatives, including trade association representatives, impracticable. However, the relief provided by this regulation has been requested by many individual manufacturers and representatives of trade associations. In the judgment of the Director of Price Stabilization, the provisions of this supplementary regulation are generally fair and equitable and comply in all respects with the applicable provisions of the Defense Production Act of 1950, as amended.

REGULATORY PROVISIONS

Sec.
1. What this supplementary regulation does.
2. Purchasers of merchant wire products from mill suppliers or warehouses.
3. Subsequent processors.
4. Applicability of provisions of General Overriding Regulation 35.

AUTHORITY: Sections 1 to 4 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 804, as amended; 50 U. S. C. App. Sup. 2101-2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *What this supplementary regulation does.* This supplementary regulation permits the substitution of metal cost increases calculated on the basis of column prices for the dollars-and-cents increases previously set forth in Appendix A for the merchant wire products listed in section 2 below. It requires sellers calculating their ceiling prices on the basis of column prices to

notify their customers if the change results in a change in the seller's ceiling prices as adjusted under GOR 35 prior to this supplementary regulation. However, persons receiving such a notice may, but need not, recalculate their own ceiling prices to reflect the change in their supplier's ceiling prices.

SEC. 2. *Purchasers of merchant wire products from mill suppliers or warehouses.* (a) If you purchase any of the merchant wire products listed below from a mill supplier or warehouse, you may, but are not required to, recalculate your ceiling prices by substituting for the adjustment you calculated under GOR 35 immediately prior to the issuance of this supplementary regulation, the price contained in the column of your supplier's price list found by adding the number of columns specified below in this section to the number of the column containing your supplier's present price.

Example: You purchase cement coated nails, 3d sinker type, from X mill. Assume that the mill's ceiling price for this product was contained in Column No. 103 of its price list and that the price specified there was $8.00 before the effective date of GOR 35. Assume further that, prior to the issuance of this supplementary regulation, you adjusted your ceiling price for the product in which you use these nails under section 6 of GOR 35 to reflect an increase of $0.00 per ton, or $.45 per cwt. in the cost of this item to you. The number of columns specified below for this item is 9. Adding 9 columns to Column 103 brings you to Column 112. Assume the amount specified there is $8.51. You may recalculate your ceiling price for the product in which these nails are a manufacturing material to reflect an increase of $.51 per cwt. over your supplier's price ($8.00) before the issuance of SR 100, Rev. 1, to the GCPR instead of an increase of $.45 per cwt.

The item number contained under Part A of Appendix A of GOR 25:	*adjustment permitted* Column
Item (38)—Wire nails, wire stock items (cut and wire non-stock item adjustments remain at $9.00)	9 columns.
Item (39)—Staples—stock items (non-stock item adjustments remain at $8.00)	8 columns.
Item (41)—Woven fence	9 columns.
Item (42)—Welded fence	14 columns.
Item (43)—Wire netting	14 columns.
Item (44)—Fence posts, commonly produced by steel mills	8 columns.
Item (45)—Wire bale ties—coil and loop	9 columns.
Item (46)—Barbed and twisted wire	8 columns.

(b) If you calculate your ceiling prices in accordance with paragraph (a) of this section, and the result is a ceiling price different from that you calculated under GOR 35 before the issuance of this supplementary regulation, you must notify your customers of the increase over your unadjusted ceiling price in the manner specified in section 13 of GOR 35. If you recalculate your ceiling price in accordance with paragraph (a) of this section, and the result is the same as the ceiling price you calculated under GOR 35 before the issuance of this supplementary regulation, you need not give your customers any notice other than that you have already given them under section 13 of GOR 35.

SEC. 3. *Subsequent processors.* (a) If you purchase the merchant wire products listed in section 2 above but do not buy them from mill suppliers or warehouses, or if you purchase products in which these merchant wire products are used as a manufacturing material, and your supplier has, prior to the effective date of this regulation, notified you of an increase in his ceiling price reflecting a metal cost pass-through, in calculating your ceiling price you continue to use that increase until he notifies you of a different increase which he has calculated pursuant to this supplementary regulation (or, if your supplier is a distributor of these merchant wire products, pursuant to the applicable distributor's regulation, such as SR 29 to the GCPR). If you receive such a notice, you may, but are not required to, recalculate your ceiling prices by substituting for the adjustment which you computed under GOR 35 immediately prior to the issuance of this supplementary regulation, the new figure furnished you by your supplier.

SEC. 4. *Applicability of provisions of GOR 35.* Except to the extent expressly modified or supplemented by this regulation, all provisions of GOR 35 shall be applicable to any producer subject to this supplementary regulation.

Effective date. This supplementary regulation to General Overriding Regulation 35 is effective December 6, 1952.

Acting Director of Price Stabilization.

[General Overriding Regulation 40]

GOR 40—ADJUSTMENTS FOR RETAILERS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this General Overriding Regulation 40 is hereby issued.

STATEMENT OF CONSIDERATIONS

On January 26, 1951, the General Ceiling Price Regulation was issued freezing the prices of most goods and services at all levels of production and distribution. At the time of its issuance, no general provision for the adjustment of individual hardship cases was included since it was virtually impossible to predict the specific types of hardship situations which an order of this scope might create.

On February 26, 1951, Ceiling Price Regulation 7 was issued. This regulation was tailored to meet the needs of pricing certain categories of merchandise at the retail level of distribution. It provided pricing rules to relieve certain inequities and squeezes which existed under the General Ceiling Price Regulation. Although it was believed that for these categories of merchandise no immediate need for a hardship provision would exist, it has become apparent since the issuance of the regulation that there are a small number of retail sellers operating under CPR 7 who, due to unusual circumstances, find themselves in a loss position as a result of markups imposed by the regulation.

On May 15, 1951, Supplementary Regulation 27 to the General Ceiling Price Regulation was issued to afford relief to those retail sellers who suffered a financial hardship as a result of introductory sales. That supplementary regulation permitted the retail sellers to increase ceiling prices to the extent necessary to bring such ceiling prices in line with "normal" prices of competitors. However, such adjustments are limited to sellers who are subject to GCPR and do not apply to sellers who operate under CPR 7.

On May 28, 1951, Supplementary Regulation 29 to the General Ceiling Price Regulation was issued. In addition to providing for changes in the retail ceiling prices to reflect suppliers' price changes pursuant to any ceiling price regulations, it provides for alleviation of certain replacement squeezes imposed by the General Ceiling Price Regulation.

The Office of Price Stabilization recognizes that even after the issuance of CPR 7 and Supplementary Regulations 27 and 29 to the General Ceiling Price Regulation, there still exists a need for a regulation that will provide relief for a limited number of sellers at retail to price under CPR 7 and GCPR and their supplements and who find themselves in an over-all loss position as a result of the ceiling prices or markups or terms and conditions of sale required by the regulations.

Following in some respects the provisions of GOR 10 (applicable to manufacturers only), the accompanying general overriding regulation is being issued. In general this regulation provides that a retailer may use this regulation if his sales of articles covered by Appendix A of CPR 161 or Appendix B of CPR 7 or of certain furs, which articles are bought and sold in substantially the same form, account for 75 percent or more of his total annual dollar volume and if his ceiling prices for such articles determined under, or terms or conditions of sale required by, CPR 7 or the GCPR or their supplements contribute to a current net operating loss in his over-all operations. It is not intended to provide adjustments for losses resulting from other factors such as seasonal, temporary or non-recurring factors, uneconomical operations, illegal wage payments and the like; nor is it intended to provide an inefficient retailer with higher ceiling prices or markups than those of his competitors; nor to permit a seller to abandon services or terms or conditions of sale offered by his competitors.

No retailer covered by this regulation will be prevented thereby from taking advantage of any special adjustment provisions of any other regulation which may be applicable to him.

In the formulation of this regulation, there has been consultation with industry representatives, including trade association representatives, to the extent practicable and consideration has been given to their recommendations.

In the judgment of the Director of Price Stabilization, the provisions of this regulation are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950.

REGULATORY PROVISIONS

Sec.
1. What this regulation does.
2. Who may apply under this regulation.
3. How to apply under this regulation.
4. Action on application.
5. Delegation of authority.
6. Geographical applicability.
7. Definitions.

AUTHORITY: Sections 1 to 7 issued under sec. 704, 64 Stat. 816 as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101-2110. E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *What this regulation does.* This regulation permits retailers to apply for and receive an upward adjustment in their CPR 7 or GCPR ceiling prices or permission to change their terms or conditions of sale established under these regulations for certain consumer goods, if these ceiling prices or terms or conditions of sale are out-of-line with those of their closest competitors and are contributing to a current net operating loss in their over-all operation. This regulation does not, however, prevent a retailer from applying for an adjustment under any other regulation.

SEC. 2. *Who may apply under this regulation.* Any retail establishment which has sustained a net operating loss during its most recent representative period of operations of at least six months due to ceiling prices or terms and conditions of sale which are out of line with those of the competitors and which are established under CPR 7 or the GCPR may apply for relief under this regulation if 75 percent or more of its total dollar sales during that period were of "consumer goods." By "consumer goods" are meant the articles listed in the appendices to CPR 7 (Retail Ceiling Prices for Certain Consumer Goods) and CPR 161 (Consumer Durable Goods) and also fur garments, including furs, fur shells, fur linings, fur trimmings and fur collars. Only ceiling prices and terms and conditions of sale applicable to such consumer goods will be adjusted under this regulation. A "retail establishment" includes all departments within a departmentalized unit. It also includes all retail units under common ownership or control. However, any unit, or group of units, which independently prepares and executes its own merchandising plans, purchases most of the articles it offers for sale, establishes its own pricing and selling policies, engages most of its own employees and controls most of its own publicity and advertising may file under this regulation as a retail establishment.

SEC. 3. *How to apply under this regulation.* You apply under this regulation by filing an application with the Retail Branch, Consumer Goods Division, OPS, Washington 25, D. C. Your application must be signed by an owner, officer or duly authorized agent. It must include the following information for each retail unit covered by your application. However, if your records are kept in such a way that it is more convenient for you to submit any of the following information for a group of units included within the retail establishment covered by your application rather than for each retail unit individually, you may do so. (If no other period is indicated, the information should be given for the most recent completed fiscal year.):

(a) Name and address;

(b) Type of seller (e. g. men's, women's and children's wear; household furniture; or department store; single unit, chain unit, or a mail order establishment);

(c) Estimated percentage of sales made for cash, on charge or on installment;

(d) If the ceiling prices which are to be adjusted are GCPR ceiling prices, a list of the articles whose ceiling prices are to be adjusted, giving the GCPR ceiling price, and the proposed adjusted ceiling price of each;

(e) If the ceiling prices which are to be adjusted are CPR 7 ceiling prices and you wish to adjust individual cost-price lines, a list of the categories (identified by the appropriate CPR 7 Appendix B numbers) containing cost-price lines to be adjusted and a list of the cost-price lines giving the present percentage markup and the proposed percentage markup of each cost-price line;

(f) If the ceiling prices which are to be adjusted are CPR 7 ceiling prices and you wish to adjust by categories, a list of the categories (identified by the appropriate CPR 7 Appendix B numbers) for which an adjustment is requested, giving the present percentage markup and the proposed percentage markup of each;

(g) If no change is requested in ceiling prices but you wish to change your terms or conditions of sale, a statement of your existing and your proposed terms or conditions of sale;

(h) If you have filed a CPR 7 pricing chart with, or have received an authorization or order from any OPS office, an identification of such OPS office;

(i) The names and addresses of the three competitors conducting businesses most nearly like that operated by you, selling the same class of merchandise in the same general price ranges, catering to the same classes of purchasers, situated in comparable locations in the same trading area (or if none exists in the same trading area, then in a similar trading area). If a change in your terms or conditions of sale is requested, a statement of the terms or conditions of sale of these three competitors;

(j) A detailed annual profit and loss statement, itemizing the cost of goods sold and selling, administrative and general expenses for each fiscal year of operation beginning after December 31, 1948. If in the regular course of business semi-annual profit and loss statements are prepared, include these statements also;

(k) A detailed profit and loss statement, itemizing the cost of goods sold and selling, general and administrative expenses, covering the most recent period of at least six months during which you have sustained a net operating loss;

(l) A statement as to whether your records are kept pursuant to the "Retail Method of Inventory" or the "Cost Method of Inventory"; whether the inventories shown in your profit and loss statements are actual or estimated, and if estimated, what accounting method was used in arriving at the estimate; whether any change has been made during the period covered by these statements in the method of costing inventory and, if so, the date and character of such change;

(m) If an adjustment in ceiling prices is requested, the profit and loss statement for the period specified in paragraph (k) adjusted to reflect what the income during that period would have been had the ceiling prices you are proposing been in effect during that period. If a change in terms and conditions of sale is requested, the profit and loss statement for the period specified in paragraph (k) adjusted to reflect what the income during that period would have been had the terms and conditions you are proposing been in effect during that period. If an adjusted profit and loss statement for this period is unduly burdensome to compute or would not adequately present your case, you may, in lieu of that statement, submit other calculations to support your belief that the ceiling price adjustments requested will bring you no higher than the break-even point or that the proposed changes in terms or conditions of sale will bring you as close above the break-even point as it is possible to accomplish by the minimum change in your terms and conditions of sale.

(n) A statement that in your best judgment you will continue to operate at a net operating loss if you continue to sell at the ceiling prices or under the terms and conditions of sale established for consumer goods under the GCPR or CPR 7;

(o) If your application excludes any retail units under common ownership or control with units covered by the application, a statement that the retail units covered by your application do the following independently of the excluded retail units: prepare and execute their own merchandising plans; purchase most of the articles they offer or sell; establish their own pricing and selling policies; engage most of their own employees; and control most of their own publicity and advertising.

SEC. 4. *Action on application.* The Office of Price Stabilization will grant or deny, in whole or in part, an appli-

cation under this regulation, or request further information, and may, as a condition of granting an application, in whole or in part, require, subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942 the submission of reports of subsequent operations. Your application will be carefully reviewed to ascertain whether any unreasonable or excessive costs have been included and to determine whether your net operating loss is due to ceiling prices or terms or conditions of sale for consumer goods established under CPR 7 or the GCPR. No adjustment will be granted to the extent that your net operating loss is due to: seasonal, temporary or non-recurring factors affecting your operations; an abnormal reduction in volume of sales; the payment of unlawful wages or excessive salaries, or of unlawful prices for merchandise; the incurring of selling, administrative and general costs or other overhead costs which are abnormally high relative to sales or other costs unless such excess was unavoidable in the exercise of normal business judgment and management; any abnormal transactions with affiliated corporations or businesses; or abnormal reserves for contingencies, or any other unusual accounting factors. Any adjustment granted under this regulation may be revoked or modified at any time. No adjustment will be granted under this regulation which will give you ceiling prices or terms and conditions of sale which are out-of-line with the ceiling prices or terms and conditions of sale established for your closest competitors. No adjustment will be granted under this regulation which will bring you above a break-even position. However, a change in terms and conditions of sale will be authorized which will bring you above the break-even point if such change is the minimum which must be made in order to bring you up to that point.

SEC. 5. *Delegation of authority.* The National Office of the Office of Price Stabilization may refer any application for adjustment filed pursuant to this regulation to the appropriate Regional Director. Any Regional Director, or any District Director authorized by the appropriate Regional Director, may in cases properly referred to him take action in accordance with sections 3 and 4 of this regulation.

SEC. 6. *Geographical applicability.* This regulation applies in the 48 states and the District of Columbia.

SEC. 7. *Definitions.* Unless a different meaning is given below or the context otherwise requires all terms used herein have the same meaning as in the regulation otherwise applicable to you.

(a) *CPR 7.* This term includes Ceiling Price Regulation 7, Retail Ceiling Prices for Certain Consumer Goods, as amended, and all supplements thereto.

(b) *GCPR.* This term includes the General Ceiling Price Regulation, as amended, and all supplements thereto.

(c) *Net operating loss.* This term means that amount by which the cost of merchandise and services plus total operating expenses exceeds net sales. Net sales are total gross sales minus returns and allowances to customers.

(d) *Retailer or retail establishment.* A retailer or retail establishment is a seller who in the regular course of business makes sales at retail. A sale at retail means a sale to an ultimate consumer, other than an industrial or commercial user, of an article bought and sold in substantially the same form.

Effective date. This general overriding regulation is effective December 6, 1952.

NOTE: The reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

DIR. 9—AUTOMATIC REVALIDATION OF CERTAIN ALLOTMENTS AND ORDERS

This direction to Revised CMP Regulation No. 6 is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this direction, there has been consultation with industry representatives and consideration has been given to their recommendations. However, consultation with representatives of all industries affected by this direction has been rendered impracticable because the direction affects many different industries.

Sec.
1. What this direction does.
2. Automatic revalidation of certain allotments and orders.
3. Return of unused revalidated allotments.

App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *What this direction does.* This direction provides for the automatic revalidation of allotments issued pursuant to the provisions of section 8 of Revised CMP Regulation No. 6 and permits placement of authorized controlled material orders calling for deliveries of controlled materials in the calendar quarter next succeeding the quarter for which the allotment is made.

SEC. 2. *Automatic revalidation of certain allotments and orders.* (a) Notwithstanding any provisions of Revised CMP Regulation No. 6, any person who has received an allotment, pursuant to the provisions of section 8 of Revised CMP Regulation No. 6, may himself revalidate such allotment; and he may place authorized controlled material orders calling for delivery in the quarter next succeeding the quarter for which the allotment is made, without making any application to the claimant agency which issued the allotment or to NPA for authority to take such action.

(b) (1) To revalidate an allotment pursuant hereto, the purchaser need only indicate on his purchase order that he desires delivery in the calendar quarter next succeeding the quarter provided for in the allotment. (For example, if he has received an allotment valid for the fourth calendar quarter of 1952, and if he desires, for any reason, to receive delivery in the first quarter of 1953 instead of in the fourth quarter of 1952, in placing his purchase order, the purchaser shall identify such order by the allotment number and the designation of the appropriate calendar quarter in which he desires delivery, i. e., in the instance of this example 1Q53.)

(2) If a purchase order has already been placed pursuant to an allotment valid in any particular calendar quarter and if the purchaser desires, for any reason, to receive delivery in the calendar quarter next succeeding the quarter for which the allotment is valid, he may revalidate such allotment and purchase order, and request delivery in the next succeeding quarter, either by furnishing a revised copy of the purchase order to the supplier, or by furnishing the supplier written information clearly identifying the original purchase order and specifying the quarter in which delivery is requested.

(3) All purchase orders placed pursuant to this direction shall be certified in the manner described in section 12 of Revised CMP Regulation No. 6.

(c) This direction does not apply to allotments bearing the program identifications A, B, C, or E.

SEC. 3. *Return of unused revalidated allotments.* As of the end of the quarter for which the allotment was revalidated, any person whose allotment has been revalidated must determine whether he has used his entire allotment by placing authorized controlled material orders or making allotments to his contractors or to persons who are to produce Class A products for him for the construction project, and if he has any excess, he must return it by the tenth day of the month after the close of that quarter.

This direction shall take effect December 1, 1952.

[9] "Stainless steel" means heat- and corrosion-resisting steel containing 50 percent or more of iron or steel and 10 percent or more of chromium whether with or without nickel, molybdenum, or other elements. However, stainless steel containing less than 1 percent nickel is not a controlled material, nor is it a Class A or a Class B product.

(The process of casting includes the removal of gates, risers, and sprues, and sandblasting, tumbling, and dipping, but does not include any further machining or processing. For centrifugal castings the process includes the removal of the rough cut in the inner and/or outer diameter before delivery to a customer.) Castings include anodes cast in a foundry or by an ingot maker.
[16] Aluminum foil and aluminum powder (atomized or flake, including paste) are not controlled materials or Class A or Class B products.

31 For certificate of correction of applicant's mistake	10.00

(b) An applicant may claim the benefit of the filing date of a prior foreign application under the conditions specified in 35 U. S. C. 119. The claim to priority need be in no special form and may be made by the attorney or agent if the foreign application is referred to in the oath as required by § 1.65. The claim for priority and the certified copy of the foreign application specified in the second paragraph of 35 U. S. C. 119 must be filed in the case of interference when specified in §§ 1.216 and 1.224; when necessary to overcome the date of a reference relied upon by the examiner; or when specifically required by the examiner; and in all other cases they must be filed not later than the date the final fee is paid. If the papers filed are not in the English language, a translation need not be filed except in the three particular instances specified in the preceding sentence, in which event a sworn translation or a translation certified as accurate by a sworn or official translator must be filed.

13. Section 1.57 is amended by changing the headnote to read *"Signature"*, and by substituting the following for the first sentence: "The application must be signed by the applicant in person. The signature to the oath will be accepted as the signature to the application provided the oath is attached to and refers to the petition, specification and claim to which it applies."

14. Section 1.58 is cancelled.

15. Section 1.61 is amended by cancelling paragraph (c) and by changing paragraph (a) to read as follows:

§ 1.61 *Petition.* (a) The petition must be addressed to the Commissioner of Patents and request the grant of a patent. The residence, and post office address of the petitioner must appear in the petition if not stated elsewhere in the application. The petition need not be separately signed when part of and attached to the specification and oath, otherwise it must be signed by the petitioner.

16. Section 1.65 is amended by cancelling paragraph (d) and changing paragraphs (a) and (b) to read as follows:

§ 1.65 *Oath of applicant.* (a) The applicant, if the inventor, must make oath or affirmation that he does verily believe himself to be the original and first inventor or discoverer of the process, machine, manufacture, composition of matter, or improvement thereof, for which he solicits a patent; that he does not know and does not believe that the same was ever known or used before his invention or discovery thereof, and shall state of what country he is a citizen and where he resides, and whether he is a sole or joint inventor of the invention claimed in his application. In every original application the applicant must distinctly state under oath that to the best of his knowledge and belief the invention has not been in public use or on sale in the United States for more than one year prior to his application, or patented or described in any printed publication in any country before his invention or more than one year prior to his application, or patented in any foreign country prior to the date of his application on an application filed by himself or his legal representatives or assigns more than twelve months prior to his application in this country. The oath shall state whether or not any application for patent on the same invention has been filed in any foreign country, either by the applicant or by his legal representatives or assigns, or with the knowledge and consent of the applicant. If any such application has been filed, the applicant shall name the country in which the earliest such application was filed, and shall give the day, month, and year of its filing; he shall also identify by country and by day, month, and year of filing, every such foreign application filed more than twelve months before the filing of the application in this country. This oath must be subscribed to by the affiant. See § 1.153 for oath in design cases and § 1.162 for oath in plant patent applications.

(b) If the application is made as provided in §§ 1.42, 1.43, or 1.47, the oath shall state the relationship of the affiant to the inventor and, upon information and belief, the facts which the inventor is required by this section to make oath to.

17. Section 1.66 is amended by changing the first sentence in paragraph (a) to read as follows: "The oath or affirmation may be made before any person within the United States authorized by law to administer oaths, or, when made in a foreign country, before any diplomatic or consular officer of the United States authorized to administer oaths, or before any officer having an official seal and authorized to administer oaths in the foreign country in which the applicant may be, whose authority shall be proved by a certificate of a diplomatic or consular officer of the United States, the oath being attested in all cases in this and other countries, by the proper official seal of the officer before whom the oath or affirmation is made. Such oath or affirmation shall be valid as to execution if it complies with the laws of the State or country where made."

18. Section 1.67 is amended by inserting "prior to the date of his application in this country" after "foreign country" in paragraph (a) and by changing paragraph (b) to read as follows:

(A) By striking therefrom paragraph (c) and inserting in lieu thereof the following:

(c) In the case of medical expenses for the care of a person who is the taxpayer's spouse or dependent, the deduction under section 23 (x) is allowable if the status of such person as "spouse" or "dependent" of the taxpayer exists either at the time the expenses were incurred or at the time the payment of the expenses was made. Thus, payments made in June 1942, by A, for medical services rendered B, his wife, in 1941 may be deducted by A for 1942 even though prior to payment for that year B died or secured a divorce; and payments made in July 1942, by C for medical services rendered D in 1941 may be deducted by C for 1942 even though C and D were not married until June 1942. However, with respect to taxable years beginning after December 31, 1950, the status of a person as the "spouse" of the taxpayer must exist as of the close of the taxable year of the taxpayer in which either the expenses were incurred or the payment was made, or, in the case of the death of the spouse in either such year, as of the time of such death. In determining whether such status exists a taxpayer who is legally separated from his spouse under a decree of separate maintenance is not considered as married.

(B) By inserting in the first sentence of paragraph (e), immediately following "after December 31, 1943," the following: "and before January 1, 1951,".

(C) By striking the last sentence of paragraph (e) and inserting in lieu thereof the following new paragraphs (f) and (g) and by redesignating present paragraphs (f), (g) and (h) as paragraphs (h), (i) and (j):

(f) For taxable years beginning after December 31, 1950, there is no 5 percent limitation on the deduction for medical expenses, not compensated for by insurance or otherwise, expended for the care of taxpayer or his spouse, where either the taxpayer or his spouse has attained the age of 65 before the close of the taxable year. In such cases the taxpayer may deduct (subject to the maximum deduction allowable as described in this section for taxable years beginning after December 31, 1947): (1) The amount of all payments for the medical care of the taxpayer and his spouse; and (2) the amount by which his payments for the medical care of his dependents exceeds 5 percent of his adjusted gross income. In determining the amount of medical expenses deductible under subparagraph (2) of this paragraph (see section 23 (x) (2) (B)) the amount deductible under subparagraph (1) of this paragraph (see section 23 (x) (2) (A)) shall not be included for the purpose of meeting the 5 percent limitation. (For computations illustrating this rule, see examples (6) and (7) at the end of this section.) In determining the age of an individual for the purposes of the unlimited deduction of medical payments for old age, the last day of the taxable year of the taxpayer is the controlling date. Thus, a taxpayer who has not attained the age of 65 at the end of the taxable year may not claim the unlimited deduction with respect to payments made for the medical care of himself or his spouse if the spouse dies before attaining the age of 65 even though such spouse would have attained the age of 65 before the close of the taxable year of the taxpayer.

(g) The deduction for medical expenses shall not be deemed to have been allowed for any taxable year for which the taxpayer claimed and was allowed the standard deduction under section 23 (aa).

(D) By inserting after example 5 the following:

Example (6). Taxpayer E, who attained the age of 65 years on February 22, 1951, makes his return on the basis of the calendar year. During the year 1951, E has adjusted gross income of $8,000, and pays the following medical bills: (a) $240 (3% of adjusted gross income) for the medical care of himself and his spouse, and (b) $320 (4% of adjusted gross income) for the medical care of his dependent son. The allowable deduction under section 23 (x) is $240. No deduction is allowable for the amount of $320 paid for medical care of the dependent son since the amount of such payment (determined without regard to the payments for the care of the taxpayer and his spouse) does not exceed 5 percent of adjusted gross income.

Example (7). H and W make a joint return for the calendar year 1951 on which four exemptions are allowed (exclusive of exemptions under section 25 (b) (1) (B) or (C)), one for each taxpayer and two for their dependent minor children. W became 65 years of age on August 15, 1951. The adjusted gross income of H and W in 1951 is $40,000 and they pay in such year the following amounts for medical care: (a) $1,500 for the medical care of H; (b) $2,500 for the medical care of W; and (c) $3,500 for the medical care of the children. The allowable deduction under section 23 (x) for medical expenses paid in 1951 is $5,000 computed as follows:

Payment for medical care of H and W in 1951		$4,000
Payment for medical care of children in 1951	$3,500	
Less 5 percent of $40,000 (adjusted gross income)	2,000	
		1,500
		$5,500
Maximum allowable deduction in 1951		$5,000

(4) If the average base period net income of the acquiring corporation is determined under section 435 (d) with reference to this subsection, and if the provisions of section 474 (b) (relating to the computation of excess profits net income in the case of certain purchasing corporations) were applicable to the component corporation immediately prior to the part II transaction (or would have been applicable, if such part II transaction had occurred in a taxable year of the component corporation ending after June 30, 1950), then the excess profits net income (or deficit therein) of the component corporation shall, for the purpose of this subsection, be determined with the application of the provisions of section 474 (b). For the purpose of this paragraph, if a component corporation was an acquiring corporation in a previous part II transaction and, immediately prior to the later part II transaction, the provisions of this paragraph were applicable to such component corporation, its excess profits net income (or deficit therein) shall be determined with the application of the provisions of the preceding sentence. This paragraph shall be applicable to an acquiring corporation only if—

(A) the properties acquired by the acquiring corporation from the component corporation include substantially all of the properties (other than cash), or properties acquired in the ordinary course of business in the replacement of properties, which the component corporation acquired either from the selling corporation in the part IV transaction or from a previous component corporation subject (immediately prior to such acquisition) to the provisions of this paragraph;

(C) in the event that the part II transaction is one described in section 461 (a) (1) (E), the provisions of section 462 (i) (6) are satisfied.

(4) Section 462 (i) (6) (relating to allocation rules in the case of transactions described in section 461 (a) (1) (E)) is hereby amended by adding at the end thereof the following: "Notwithstanding the provisions of paragraph (1), if an acquiring corporation in a transaction described in section 461 (a) (1) (E) determines its average base period net income under section 435 (d) by recomputing its excess profits net income under the provisions of section 462 (b) (4), the amount of the component corporation's excess profits net income for any month which shall be taken into account by the acquiring corporation shall be such portion of the component corporation's excess profits net income for such month as is determined on the basis of the earnings experience of the assets transferred and the assets retained by the component corporation.

• • • • •

SEC. 523. EFFECTIVE DATE OF TITLE V (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

Except as otherwise provided in section 506 (d), the amendments made by this title [incl. sec. 521] shall be applicable only with respect to taxable years ending after June 30, 1950.

PAR. 4. Section 40.462–1, as added by Treasury Decision 5865, is amended by adding at the end thereof the following:

(d) *Recomputation of excess profits net income of acquiring corporation with reference to that of a component corporation which was a purchasing corporation in a Part IV transaction.* (1) This paragraph is applicable where a purchasing corporation in a Part IV transaction becomes a component corporation in a later Part II transaction and immediately prior to the Part II transaction the provisions of section 474 (b) were applicable in computing the average base period net income of the component corporation (or such provisions would have been applicable to the component if the Part II transaction had occurred in a taxable year of the component corporation ending after June 30, 1950). In such case if the average base period net income of the acquiring corporation in the Part II transaction is determined under the general average method of section 435 (d) by recomputing the excess profits net income with reference to section 462 (b), in applying paragraphs (b) and (c) of this section to the acquiring corporation the excess profits net income (or deficit therein) of the component corporation must be determined with the application of the provisions of section 474 (b), whether or not the component corporation computed its average base period net income with the application of section 474 (b). For the application of the provisions of section 474 (b) to a purchasing corporation in a Part IV transaction, see §§ 40.474–1 and 40.474–2. This paragraph shall not be applicable to the acquiring corporation unless each of the following conditions is met:

(i) The properties acquired by the acquiring corporation from the component corporation must include substantially all the properties (other than cash), or properties acquired in the ordinary course of business in the replacement of properties, which such component corporation acquired from the selling corporation in the Part IV transaction or from a previous component corporation to which the provisions of section 462 (b) (4) and of this paragraph were applicable;

(ii) The business or businesses acquired by the acquiring corporation must have been operated by the acquiring corporation from the date of the Part II transaction to the end of the taxable year, unless such business or businesses were transferred during the taxable year by the acquiring corporation in a subsequent Part II transaction to which the provisions of section 462 (b) (4) and of this paragraph are applicable; and

(iii) In the event the Part II transaction is a transaction described in section 461 (a) (1) (E) the provisions of section 462 (i) (6), relating to the allocation of base period experience, must be satisfied. See § 40.462–9 (c).

(2) Similarly, in the case of successive Part II transactions, subparagraph (1) of this paragraph is also applicable if a purchasing corporation in a Part IV transaction becomes a component corporation in a Part II transaction and thereafter its acquiring corporation becomes a component corporation in a later Part II transaction, and if immediately prior to the later Part II transaction the provisions of section 462 (b) (4) and of (d) of this section were applicable in computing the average base period net income of the previous acquiring corporation (or such provisions would have been applicable to the previous acquiring corporation if the later Part II transaction had occurred in a taxable year of the previous acquiring corporation ending after June 30, 1950). In such case, if the later acquiring corporation determines its average base period net income under the general average method of section 435 (d) by recomputing the excess profits net income with reference to section 462 (b), in applying paragraphs (b) and (c) of this section to such later acquiring corporation the excess profits net income (or deficit therein) of its component corporation (that is, the previous acquiring corporation) shall be determined with the application of the provisions of section 474, whether or not the component

corporation, determined its average base period net income by recomputing its excess profits net income with reference to section 462 (b). As in the case of the first acquiring corporation, this paragraph is applicable to the second acquiring corporation only if the conditions set forth in subparagraph (1) (i), (ii), and (iii) of this paragraph are met in the case of the second acquiring corporation.

PAR. 5. Section 40.462–9, as added by Treasury Decision 5865, is amended by adding at the end thereof the following:

(c) *Part II transaction following Part IV transaction.* If an acquiring corporation in a transaction described in section 461 (a) (1) (E) determines its average base period net income under the general average method of section 435 (d), if the component corporation in such transaction was a purchasing corporation in a previous Part IV transaction (or was an acquiring corporation from such a purchasing corporation), and if the acquiring corporation recomputes its excess profits net income with the application of the provisions of section 462 (b) (4), the allocation of the base period experience of the component corporation shall be made on the basis of the special rule provided in section 462 (i) (6) in lieu of the allocation provided in paragraph (a) or (b) of this section. The special rule provided in section 462 (i) (6) requires that the allocation be made as follows:

(1) For the period prior to the date of the Part IV transaction, the excess profits net income or deficit (or portion thereof) properly attributable to the business or businesses involved in the Part IV transaction and acquired by the acquiring corporation in the Part II transaction shall be the amounts which, with respect to such business or businesses, were available under Part IV to the purchasing corporation in the Part IV transaction (or would have been available if the Part IV transaction had occurred in a taxable year of the purchasing corporation ending after June 30, 1950).

(2) For the period after the date of the Part IV transaction, the excess profits net income or deficit (or portion thereof) properly attributable to such business or businesses shall be determined under the principles of paragraph (b) of this section but without regard to the requirement of a written agreement for the application of such principles.

(3) If the acquiring corporation acquires, in the Part II transaction, properties of the component corporation not used in such business or businesses, the excess profits net income or deficit properly attributable to such properties shall be determined under paragraph (b) of this section without regard to the requirement for a written agreement as to such allocation.

PAR. 6. There is inserted immediately preceding § 40.463–1, as added by Treasury Decision 5865, the following:

SEC. 521. EXCESS PROFITS CREDIT BASED ON INCOME IN CONNECTION WITH CERTAIN TAXABLE ACQUISITIONS (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

* * * * * * *

(b) *Technical amendments.*

* * * * * * *

(5) Section 463 (relating to capital changes) is amended by inserting at the end thereof the following new subsection:

(c) *Component corporation which was a purchasing corporation in a previous transaction.* The Secretary shall provide by regulations for the application of this section in cases to which section 462 (b) (4) is applicable.

* * * * * * *

SEC. 523. EFFECTIVE DATE OF TITLE V (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

Except as otherwise provided in section 506 (d), the amendments made by this title (incl. sec. 521) shall be applicable only with respect to taxable years ending after June 30, 1950.

PAR. 7. There is inserted immediately after § 40.463–2, as added by Treasury Decision 5865, the following:

§ 40.463–3 *Capital changes in case of Part II transaction following Part IV transaction.* In the case of an acquiring corporation in a Part II transaction to which the provisions of section 462 (b) (4) (relating to the determination of the excess profits net income or deficit with the application of the provisions of section 474 (b) in the case of a component corporation which was a purchasing corporation in a previous Part IV transaction) are applicable, the net capital addition or reduction of the acquiring corporation shall be determined under § 40.463–1 by recomputing the items of transferred capital addition and reduction of the component corporation with the application of the provisions of § 40.474–5. Such adjustment shall be made whether or not the component corporation computed its excess profits credit with the application of the provisions of Part IV. The adjustment provided in this section shall also be made in the case of a component corporation which was an acquiring corporation in a previous Part II transaction to which the provisions of section 462 (b) (4) were applicable or would have been applicable if such previous Part II transaction had occurred in a taxable year of the component corporation ending after June 30, 1950. In such case the adjustment shall be made with respect to the later acquiring corporation whether or not the previous acquiring corporation computed its excess profits credit by application of Part II.

PAR. 8. There is inserted immediately preceding § 40.464–1, as added by Treasury Decision 5865, the following:

SEC. 521. EXCESS PROFITS CREDIT BASED ON INCOME IN CONNECTION WITH CERTAIN TAXABLE ACQUISITIONS (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

* * * * * * *

(b) *Technical amendments.*

* * * * * * *

(6) Section 464 (relating to capital changes during the base period) is amended by inserting at the end thereof the following new subsection:

(c) The Secretary shall provide by regulations for the application of this section in cases to which section 462 (b) (4) is applicable.

SEC. 523. EFFECTIVE DATE OF TITLE V (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

Except as otherwise provided in section 506 (d), the amendments made by this title (incl. sec. 521) shall be applicable only with respect to taxable years ending after June 30, 1950.

PAR. 9. There is inserted immediately after § 40.464–2, as added by Treasury Decision 5865 the following:

§ 40.464–3 *Base period capital addition in case of Part II transaction following Part IV transaction.* In the case of an acquiring corporation in a Part II transaction to which the provisions of section 462 (b) (4) (relating to the determination of the excess profits net income or deficit with the application of the provisions of section 474 (b) in the case of a component corporation which was a purchasing corporation in a previous Part IV transaction) are applicable, the base period capital addition of the acquiring corporation shall be determined under § 40.464–1 by computing the component corporation's yearly base period capital and its base period capital addition (whichever is available to the acquiring corporation) with the application of the provisions of § 40.474–6. Such adjustment shall be made whether or not the component corporation computed its excess profits credit with the application of the provisions of Part IV. The adjustment provided in this section shall also be made in the case of a component corporation which was an acquiring corporation in a previous Part II transaction to which the provisions of section 462 (b) (4) were applicable or would have been applicable if the previous Part II transaction had occurred in a taxable year of the component corporation ending after June 30, 1950. In such case the adjustment shall be made with respect to the later acquiring corporation whether or not the previous acquiring corporation computed its excess profits credit by application of Part II.

PAR. 10. There is added immediately after § 40.472–8 the following:

SEC. 521. EXCESS PROFITS CREDIT BASED ON INCOME IN CONNECTION WITH CERTAIN TAXABLE ACQUISITIONS (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

(a) *General rule.* Subchapter D (relating to the excess profits tax) of chapter 1 is hereby amended by inserting immediately following section 472 the following new part:

PART IV—EXCESS PROFITS CREDIT BASED ON INCOME IN CONNECTION WITH CERTAIN TAXABLE ACQUISITIONS OCCURRING PRIOR TO DECEMBER 1, 1950.

SEC. 474. EXCESS PROFITS CREDIT BASED ON INCOME—CERTAIN TAXABLE ACQUISITIONS.

(a) *Definitions.* For the purpose of this part—

(1) *Purchasing corporation.* The term "purchasing corporation" means a corporation which, before December 1, 1950, acquired—

(A) In a transaction other than a transaction described in section 461 (a), substantially all of the properties (other than cash) of another corporation, of a partnership, or of a business owned by a sole proprietorship; or

(B) Properties of another corporation or of a partnership if (i) such properties constituted, immediately prior to the acquisition, substantially all of the properties (other than cash) of one or more separate businesses of such other corporation or such partnership, (ii) such other corporation or such partnership was engaged in one or more separate businesses other than those described in clause (i), and (iii) substantially all of the properties (other than cash) of such other corporation or such partnership were acquired, in furtherance of a single plan of complete liquidation for such other corporation or such partnership, by the purchasing corporation, and by one or more other persons, in transactions other than transactions described in section 461 (a).

(2) *Selling corporation.* The term "selling corporation" means a corporation, a partnership, or a business owned by a sole proprietorship, as the case may be, properties of which were acquired by a purchasing corporation in a transaction described in paragraph (1).

(3) *Part IV transaction.* The term "part IV transaction" means a transaction described in paragraph (1).

(b) *Average base period net income of purchasing corporation.* The average base period net income of a purchasing corporation, if computed with reference to this part, shall be determined under section 435 (d). The average base period net income under section 435 (d) of a purchasing corporation shall be determined by computing its excess profits net income either with or without reference to this part, whichever produces the lesser tax under this subchapter for the taxable year for which the tax is being computed. If computed with reference to this part, the excess profits net income of a purchasing corporation for any month of its base period shall be its excess profits net income (or deficit therein), computed without reference to this part, and increased or decreased, as the case may be, by the addition or reduction resulting from including—

(1) In the case of a transaction described in subsection (a) (1) (A), the excess profits net income (or deficit therein) for such month of the selling corporation, or

(2) In the case of a transaction described in subsection (a) (1) (B), the excess profits net income (or deficit therein) for such month of the selling corporation properly attributable to the business or businesses acquired by the purchasing corporation and properly allocable to such purchasing corporation.

The excess profits net income of a purchasing corporation for any month, recomputed as provided in the previous sentence, shall not be less than zero.

(c) *Limitations.* This part shall apply only if each of the following conditions is satisfied:

(1) The selling corporation (A) did not, after the part IV transaction (or the last transaction described in subsection (a) (1) (B)), continue any business activities other than those incident to its complete liquidation, and (B) within a reasonable time after ceasing business activities, completely liquidated in a transaction other than a transaction described in section 461 (a), and ceased existence.

(2) During so much of the base period of the purchasing corporation and of the period thereafter as preceded the part IV transaction, the properties acquired in the part IV transaction were substantially all of the properties (other than cash) which were used, or which in the ordinary course of business replaced properties used, by the selling corporation (or by a component corporation, as defined in section 461 (b), of such selling corporation) in the production of the excess profits net income (or deficit therein) which under subsection (b) increases or decreases the excess profits net income of the purchasing corporation. For the purpose of this paragraph, if a business in the hands of both the selling corporation and the purchasing corporation was operated under a substantially identical franchise or license, granted by the same person, such franchise or license shall be deemed acquired by the purchasing corporation from the selling corporation.

(3) The business or businesses acquired in the part IV transaction (including the properties so acquired or properties in replacement thereof) were operated by the purchasing corporation from the date of such transaction to the end of the taxable year or were transferred during the taxable year by the purchasing corporation in a part II transaction to which the provisions of section 462 (b) (4) are applicable.

(d) *Special rules.* (1) For the purpose of subsection (a) (1), the properties of a selling corporation shall be considered to have been acquired by a purchasing corporation only if acquired from—

(A) such selling corporation, or

(B) persons who received the properties upon the liquidation of such selling corporation and who forthwith transferred such properties to the purchasing corporation in a transaction other than a transaction described in section 461 (a).

(2) The computations required by this part in the case of a selling corporation which is a partnership or a business owned by a sole proprietorship shall be made, under regulations prescribed by the Secretary, as if such partnership or such business owned by a sole proprietorship had been a corporation.

(3) In no case shall more than 100 per centum of the excess profits net income (or deficit therein) for any month of a selling corporation be allocated to the purchasing corporation or, in the case of transactions described in subsection (a) (1) (B), to the several persons (or to any one or more of such persons) receiving the properties of such selling corporation in such transactions.

(e) *Successive transactions.* (1) *Part IV transaction following part IV transaction.* In the case of a selling corporation which was a purchasing corporation in a previous part IV transaction, or which acquired properties of a purchasing corporation in a transaction to which section 462 (b) (4) is applicable, the computations under this part with respect to the selling corporation shall be made without regard to the previous part IV transaction.

(2) *Part IV transaction following part II transaction.* Subject to the provisions of paragraph (1), in the case of a selling corporation which was an acquiring corporation as defined in section 461 (a) in a previous transaction, its excess profits net income (or deficit therein) which increases or decreases the excess profits net income (or deficit therein) of the purchasing corporation under subsection (b) (1) or (2), and its capital changes which are taken into account under this part in determining the capital changes of the purchasing corporation, shall be determined with the application of the rules of part II to such selling corporation with respect to the part II transaction.

(3) *Part II transaction following part IV transaction.* For rules applicable in the case of a part II transaction following a part IV transaction, see sections 462 (b) (4), 463 (c), and 464 (c).

(f) *Regulations.* The Secretary shall by regulations prescribe rules for the application of this part. Such regulations shall include the following rules:

(1) *Base period capital addition.* Rules (consistent with the principles of section 464) for the determination of the base period capital addition of the purchasing corporation by reference to the capital changes of the selling corporation and of the purchasing corporation.

(2) *Net capital addition or reduction.* Rules (consistent with the principles of section 463) for the determination of the net capital addition or reduction of the purchasing corporation by reference to the capital changes of the selling corporation and of the purchasing corporation.

(3) *Excess profits net income.* Rules (consistent with the principles of section 462 (i)) for the determination of the amount of excess profits net income (or deficit therein) of the selling corporation attributable to the business or businesses acquired by a purchasing corporation in a transaction described in subsection (a) (1) (B) and properly allocable to such purchasing corporation.

(4) *Duplication.* Rules for the application under this part of the principles of section 462 (j) (1) and the other provisions of part II relating to the prevention of duplication.

(5) *Excess profits credit.* In the event that the part IV transaction occurred in a taxable year of the purchasing corporation which ended after June 30, 1950, rules (consistent with the principles of section 462 (j) (2)) for the determination of the excess profits credit of such corporation for the year in which the transaction occurred.

Such rules shall not include the principles of section 461 (c) (relating to the excess profits credit of the component corporation), of section 462 (b) (2) (relating to constructive excess profits net income for months during which a corporation was not in existence), of section 462 (1) (relating to minimum average base period net income in the case of certain acquiring corporations), or of such other provisions of part II as relate to sections 435 (e), 442, 443, 444, 445, or 446.

SEC. 523. EFFECTIVE DATE OF TITLE V (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

Except as otherwise provided in section 506 (d), the amendments made by this title (incl. sec. 521) shall be applicable only with respect to taxable years ending after June 30, 1950.

§ 40.474–1 *Purpose and scope of Part IV*—(a) *General purpose.* The term "Part IV" when used in these regulations means section 474. Part IV provides rules under which a "purchasing corporation", subject to the conditions and limitations contained therein, may utilize the earnings experience of a "selling corporation" in computing the purchasing corporation's excess profits credit based on income. The term "purchasing corporation" means a corporation which, before December 1, 1950, acquired properties from a "selling corporation" in a transaction meeting the requirements set forth in section 474. See paragraph (b) of this section. A "selling corporation" may be a corporation, a partnership, or a business owned by a sole proprietorship. The excess profits credit of the selling corporation is not determined under Part IV. A foreign corporation cannot be a purchasing corporation and neither a foreign corporation, a foreign partnership, nor a foreign sole proprietorship can be a selling corporation. The average base period net income of a purchasing corporation may be determined by computing its excess profits net income either with or without reference to Part IV, whichever produces the lesser tax. However, if the average base period net income of the purchasing corporation is computed with reference to Part IV, such average base period net income must be determined under the general average method

of section 435 (d). If such average base period net income is computed under the growth alternative of section 435 (e) or under an alternative method provided in section 442, 443, 444, 445, 446, or any subsection of section 459, the excess profits net income of the purchasing corporation may not be computed with reference to Part IV.

(b) *Part IV transactions.* The term "Part IV transaction" means one of the transactions described in section 474 (a) (1). Such transactions do not include any acquisition of property in a transaction described in section 461 (a). The following transactions are Part IV transactions:

(1) The acquisition, before December 1, 1950, by a purchasing corporation, in a transaction other than a transaction described in section 461 (a), of substantially all the properties (other than cash) of another corporation, of a partnership, or of a business owned by a sole proprietorship; or

(2) The acquisition, before December 1, 1950, by a purchasing corporation, in a transaction other than a transaction described in section 461 (a), of part, as distinguished from substantially all, of the properties of another corporation or of a partnership, if the following conditions are met:

(i) Such properties constituted immediately prior to such acquisition substantially all the properties (other than cash) of one or more separate businesses of the other corporation or the partnership;

(ii) The other corporation or the partnership was engaged in one or more separate businesses other than those described in subdivision (i) of this subparagraph; and

(iii) Substantially all the properties (other than cash) of the other corporation or the partnership, including the properties acquired by the purchasing corporation, were acquired, in furtherance of a single plan of complete liquidation of the other corporation or the partnership, by the purchasing corporation and by one or more other persons, whether or not the acquisition by any of such other persons constituted a Part IV transaction but only if the acquisition by any of such other persons was not a transaction described in section 461 (a).

In determining whether the properties acquired by the purchasing corporation in a Part IV transaction constituted substantially all the properties of the transferor, or of a separate business of the transferor, as the case may be, proper regard must be had to any previous dispositions of property by the selling corporation. Properties will be considered to have been acquired in a Part IV transaction only if such properties were acquired from the selling corporation or from shareholders of the selling corporation who received such properties upon the complete liquidation of such corporation and who forthwith transferred them to the purchasing corporation in a transaction other than a transaction described in section 461 (a). In determining whether the transaction is a transaction described in subparagraph (2) of this paragraph the properties acquired by the purchasing corporation shall be considered to have constituted the properties of a separate business of the selling corporation only if such business was a going business unit for which adequate and separate records were maintained. Similarly, in the case of a transaction described in subparagraph (1) of this paragraph, a business owned by a sole proprietorship means a going business unit for which adequate and separate records were maintained.

(c) *Limitations on application of Part IV.* A purchasing corporation may compute its average base period net income under section 435 (d) with reference to Part IV only if each of the following conditions is satisfied:

(1) After the Part IV transaction described in paragraph (b) (1) of this section, or the last transaction described in paragraph (b) (2) of this section, the selling corporation did not engage in any business activities other than those incident to its complete liquidation and, within a reasonable time after ceasing business activities, the selling corporation was completely liquidated in a transaction other than a transaction described in section 461 (a), and its existence terminated.

(2) During so much of the base period of the purchasing corporation and of the period thereafter as preceded the Part IV transaction, the properties acquired by the purchasing corporation in such transaction were substantially all the properties (other than cash) which were used (or which in the ordinary course of business replaced properties used) by the selling corporation (or by a component corporation of such selling corporation in case the latter was an acquiring corporation in a previous Part II transaction) in the production of the excess profits net income or deficit therein which under section 474 (b) increases or decreases the excess profits net income of the purchasing corporation. See § 40.474-2. Thus, for example, if the selling corporation during the base period of the purchasing corporation and prior to the Part IV transaction disposed of properties used in the business acquired by the purchasing corporation, so that the purchasing corporation did not acquire substantially all the properties used in such business, Part IV is not applicable. Similarly, in the case of a transaction described in section 474 (a) (1) (A), if the selling corporation during the base period of the purchasing corporation disposed of the properties used in one business and acquired properties for another business, the properties used in the latter business being acquired by the purchasing corporation, Part IV is not applicable. If the selling corporation described in the preceding sentence had also owned throughout the base period prior to the Part IV transaction a second business, and if the acquisition by the purchasing corporation of the business referred to in the preceding sentence was a transaction described in section 474 (a) (1) (B), Part IV is not applicable if the excess profits net income of the selling corporation available to the purchasing corporation under section 474 (b) (2) includes excess profits net income for months prior to the date the business acquired by the purchasing corporation was owned by the selling corporation. If a business was operated by the selling corporation prior to the Part IV transaction under a franchise or license granted by any person, for example, a franchise or license not transferable by the selling corporation, and if after such transaction the purchasing corporation operated the same business under a substantially identical franchise or license granted by the same person, such franchise or license will be considered to have been acquired by the purchasing corporation from the selling corporation.

(3) The business or business transferred to the purchasing corporation in the Part IV transaction (including the properties actually transferred or properties acquired in replacement thereof) were operated by the purchasing corporation from the date of such transaction to the end of the taxable year of the purchasing corporation for which the excess profits credit is computed, unless during the taxable year such business or businesses were transferred by the purchasing corporation in a Part II transaction to which the provisions of section 462 (b) (4) are applicable. See § 40.462-1 (d).

§ 40.474-2 *Rules for determining average base period net income of a purchasing corporation.*—(a) *In general.* The average base period net income of a purchasing corporation, for the purpose of the excess profits credit based on income and computed under the general average method (section 435 (a)), may be determined by computing the excess profits net income with or without reference to Part IV, whichever results in the lesser excess profits tax. If computed without reference to Part IV, the excess profits net income of the purchasing corporation is computed with reference to its base period experience, but without reference to the base period experience of the selling corporation. The excess profits net income of the purchasing corporation, if computed with reference to Part IV, shall be its excess profits net income or deficit in excess profits net income for each month of its base period (as defined in section 435 (b)) or each month of the substitute period provided in section 435 (d), whichever is applicable, increased or decreased by the addition or reduction resulting from including the excess profits net income or deficit for that month of the selling corporation to the extent provided in section 474 (b). In applying the provisions of section 474 (b) to a purchasing corporation which acquired properties in two or more Part IV transactions all selling corporations in such transactions must be taken into account. The excess profits net income of the purchasing corporation for any month recomputed with the application of the provisions of section 474 (b) shall in no event be less than zero. As used in the regulations under Part IV the term "base period experience" refers to the excess profits net income or deficit in excess profits net income. See § 40.474-3 for rules applicable in recomputing the excess profits net income (or deficit therein) in the case of successive transactions under Parts II and IV.

(b) *Method of recomputation of excess profits net income of a purchasing corporation with reference to that of the selling corporation.* The following steps are required for the recomputation of the excess profits net income of a purchasing corporation with reference to the base period experience of the selling corporation:

(1) The excess profits net income or deficit in excess profits net income for each month in the base period of the purchasing corporation and, for the purpose of the substitute period provided in section 435 (d), for each month in the additional period ending March 31, 1950, must be determined for the purchasing corporation and for each selling corporation. Except as provided below with respect to the selling corporation for its taxable year in which the Part IV transaction occurred, the excess profits net income or deficit in excess profits net income of any corporation for any month during any part of which such corporation was in existence is determined by dividing the excess profits net income computed under section 433 (b) (or deficit in excess profits net income computed under section 433 (c)) for the taxable year in which such month falls by the number of full calendar months in such taxable year. In the case of a transaction described in section 474 (a) (1) (B), there is taken into account the portion of the excess profits net income or deficit properly attributable to the business or businesses acquired by the purchasing corporation and properly allocable to such purchasing corporation. In determining the excess profits net income or deficit of the selling corporation for any month during the taxable year in which the Part IV transaction occurred, the excess profits net income or deficit for such taxable year shall be determined without regard to any items arising after the date of the transaction and the number of months in the taxable year shall be determined without regard to the period after the date of the transaction. The excess profits net income of any corporation for any month during no part of which such corporation was in existence shall be zero. For the purpose of the substitute period provided in section 435 (d), the excess profits net income for January, February, or March 1950, is subject to the precentages specified in section 435 (e) (2) (E).

(2) For each month of the purchasing corporation's base period (or, if applicable, the substitute period provided in section 435 (d)) preceding the date of the Part IV transaction, the excess profits net income or deficit in excess profits net income of the purchasing corporation for that month as determined under subparagraph (1) of this paragraph shall be increased or decreased, as the case may be, by the excess profits net income or deficit in excess profits net income of each selling corporation for that month so determined; except that, if the purchasing corporation acquires only a part of the selling corporation's properties in a transaction described in section 474 (a) (1) (B), then the increase or decrease shall be made for only that portion of such selling corporation's excess profits net income or deficit in excess profits net income properly attributable to the business or businesses acquired by the purchasing corporation and properly allocable to the purchasing corporation under paragraph (c) of this section.

(c) *Allocation of excess profits net income of selling corporation to purchasing corporation.* In the case of a Part IV transaction described in section 474 (a) (1) (B), that is, a transaction in which a part as distinguished from all or substantially all the properties of a selling corporation is transferred to a purchasing corporation, the portion of the base period experience of the selling corporation allocated to the purchasing corporation shall be determined under the rules provided in § 40.462-9 (b) for the allocation of the excess profits net income or deficit of a component corporation to an acquiring corporation, subject to the following exceptions:

(1) The agreement referred to in § 40.462-9 (b) shall not be required.

(2) The Commissioner may, for good cause shown, permit the allocation to reflect, as to certain items, an allocation, under the principle of § 40.462-9 (a), based upon the fair market value of the properties (other than cash).

(3) Cash shall not be taken into account in making the allocation.

(4) The provisions of § 40.462-9 (b) (2) which permit allocation of more than 100 percent of the excess profits net income of a partnership shall not be applicable.

(d) *Special rules for partnerships and sole proprietors.* In the case of a business owned by a sole proprietorship or a partnership its excess profits net income or deficit in excess profits net income for each month falling within the purchasing corporation's base period (or the substitute period provided in section 435 (d) if applicable) prior to the date of the Part IV transaction shall be determined as if such partnership or such business owned by a sole proprietorship had been a corporation. See section 474 (d) (2). Among the adjustments which are necessary in such a case are the following:

(1) A reasonable deduction for salary or compensation to each partner or to the sole proprietor for personal services actually rendered shall be allowed.

(2) The credit for dividends received shall be that applicable to corporations.

(3) The treatment of capital gains and losses and of taxes (whether state, local, or other) shall be that applicable to corporations.

(4) The deduction for charitable contributions shall be that allowed by section 23 (q).

(e) *Limitation in case of Part IV transaction occurring in a taxable year ending after June 30, 1950.* In the case of a Part IV transaction occurring in a taxable year of the purchasing corporation ending after June 30, 1950, for the purpose of computing the purchasing corporation's excess profits credit for such taxable year, there is available to the purchasing corporation only a proportionate part of the amount of the monthly excess profits net income (or deficit) of the selling corporation which is otherwise available to the purchasing corporation. Such proportionate part shall be determined by the ratio which the number of days in the taxable year of the purchasing corporation after the day of the transaction bears to the total number of days in such taxable year. In computing the excess profits credit of the purchasing corporation for subsequent taxable years the limitation stated in this paragraph is not applicable.

(f) *Examples.* The computation of the average base period net income of the purchasing corporation determined under the general average method of section 435 (d) by computing the excess profits net income with reference to section 474 (b) may be illustrated by the following example:

Example. The P Corporation was in existence and commenced business prior to January 1, 1943. The S_1 Corporation and the S_2 Corporation each came into existence on January 1, 1947. The P Corporation, the S_1 Corporation, and the S_2 Corporation each makes its income tax returns on the calendar year basis. On January 1, 1949, the P Corporation purchased for cash all the properties of the S_1 Corporation, and on January 5, 1949, it purchased for cash all the properties of the S_2 Corporation in Part IV transactions. The excess profits net income for each of the corporations for the base period taxable years is as follows:

EXCESS PROFITS NET INCOME

	For taxable year			
	1946	1947	1948	1949
P Corporation	−$18,000	$24,000	$42,000	$36,000
S_1 Corporation	0	18,000	30,000	-------
S_2 Corporation	0	12,000	18,000	-------

The excess profits net income for each month in such taxable years is as follows:

EXCESS PROFITS NET INCOME

	For each month in calendar year			
	1946	1947	1948	1949
P Corporation	−$1,500	$2,000	$3,500	$8,000
S_1 Corporation	0	1,500	2,500	-------
S_2 Corporation	0	1,000	1,500	-------
Total	−1,500	4,500	7,500	8,000

The excess profits net income of the P Corporation for each month as recomputed under section 474 (b) is the total excess profits net income for that month as shown in the above table, except that for each month in 1946 the recomputed excess profits net income is increased to zero. Since the 36 consecutive months in the years 1947, 1948, and 1949 have the highest aggregate excess profits net income, the average base period net income is such aggregate excess profits net income divided by 3. The average base period net income of the P Corporation recomputed under section 474 (b) is $80,000, determined as follows:

Aggregate for months in 1947 (12 × $4,500)	$54,000
Aggregate for months in 1948 (12 × $7,500)	90,000
Aggregate for months in 1949 (12 × $8,000)	96,000
Aggregate for 36 months	240,000
Aggregate divided by 3	80,000

This figure, subject to the percentage prescribed in section 435 (a), may be used by the P Corporation in computing its excess profits

credit based on income for the purpose of determining its excess profits tax for 1950 and future excess profits tax taxable years, provided all the conditions and limitations applicable under section 474, for example, the provisions of § 40.474–4, are met.

§ 40.474–3 *Successive transactions*—(a) *Part IV transaction following Part IV transaction.* In the case of a purchasing corporation which acquired properties of a selling corporation, if such selling corporation was itself a purchasing corporation in a previous Part IV transaction, the computations under section 474 for the purpose of computing the excess profits credit of the purchasing corporation in the later Part IV transaction shall be made with respect to the selling corporation without regard to the previous Part IV transaction. For example, the P corporation acquires the property of the S corporation in a Part IV transaction on January 1, 1950. The S corporation came into existence on January 1, 1949, and on the same date acquired all the properties of the Y corporation in a Part IV transaction. In computing the P corporation's excess profits credit with reference to section 474, any computation required with respect to the S corporation shall be made without regard to the excess profits net income (or deficit therein) of the Y corporation.

(b) *Part IV transaction following Part II transaction*—(1) *Component corporation not a purchasing corporation.* If a purchasing corporation acquired properties of a selling corporation in a Part IV transaction, if the selling corporation previously had acquired properties of a component corporation in a Part II transaction to which section 462 (b) (4) was not applicable, and if the excess profits net income of the purchasing corporation is recomputed with the application of the provisions of section 474 (b), the excess profits net income or deficit in excess profits net income of the selling corporation which increases or decreases the excess profits net income or deficit in excess profits net income of the purchasing corporation under section 474 (b), shall be determined with the application of the rules of Part II to such selling corporation with respect to the previous Part II transaction. See sections 461 through 465, and the regulations thereunder. This rule must be followed whether or not the selling corporation determined its average base period net income by recomputing its excess profits net income with the application of Part II.

(2) *Component corporation a purchasing corporation.* If a purchasing corporation acquired properties of a selling corporation in a Part IV transaction, and if the selling corporation previously had acquired properties of another corporation in a Part II transaction to which section 462 (b) (4) and the regulations thereunder are applicable, that is, a transaction in which the component corporation was a purchasing corporation in a Part IV transaction preceding the Part II transaction, the computations under section 474 for the purpose of computing the excess profits credit of the purchasing corporation in the later Part IV transaction shall be made with respect to the selling corporation in such transaction without regard to the previous Part IV transaction in which the component of the selling corporation had been a purchasing corporation. For example, the P corporation acquired the properties of the S corporation in a Part IV transaction on January 1, 1950. The S corporation previously had acquired all the properties of the C corporation in a Part II transaction on January 1, 1948. The C corporation came into existence on January 1, 1947, and on the same date purchased all the properties of the D corporation in a Part IV transaction. Any computations required under section 474 with respect to the S corporation's excess profits credit shall be made without regard to the excess profits net income (or deficit therein) of the D corporation.

(c) *A purchasing corporation as an acquiring corporation under Part II.* Both Part II and Part IV may be applied in the case of a corporation which is qualified both as a purchasing corporation and as an acquiring corporation and which computes its average base period net income under the general average method of section 435 (d).

(d) *Part II transaction following Part IV transaction.* For rules applicable in the case of a purchasing corporation which becomes a component corporation in a Part II transaction, see sections 462 (b) (4), 463 (c), and 434 (c) and the regulations thereunder.

§ 40.474–4 *Rules for the prevention of duplication*—(a) *In general.* (1) The purpose of the rules prescribed in this section is to prevent certain duplications in base period income in cases where after December 31, 1945, and before December 1, 1950, assets of a purchasing corporation are used to purchase properties of a selling corporation in a Part IV transaction. See section 474 (f) (4). In such cases the excess profits net income of the selling corporation, or portion thereof attributable to the properties acquired by the purchasing corporation, shall be excluded in determining the purchasing corporation's excess profits net income or deficit and its average base period net income with reference to the recomputations provided under Part IV. The adjustment required under this section shall be made in the cases described in this section and in all other cases in which a similar adjustment may be required to prevent duplication, in a manner consistent with principles underlying such described cases.

(2) Except to the extent that duplication of experience occurs, no adjustment is necessary under this section:

(i) Where stock of the purchasing corporation is issued directly to the selling corporation in exchange for properties of the selling corporation; or

(ii) Where properties of the selling corporation are acquired through a bona fide long-term increase in the capital structure of the purchasing corporation made in conjunction with and for the purpose of such acquisition. A bona fide long-term increase in the capital structure within the meaning of this subparagraph (whether an increase in equity capital or in borrowed capital as defined in section 439 (b)) shall be deemed to have occurred only to the extent that such increase is reflected in the capital structure throughout the period beginning with the time such increase is originally made and ending with the close of the taxable year of the purchasing corporation for which the tax is computed. For the purpose of determining whether such increase is reflected in the capital structure, proper adjustment shall be made to eliminate the effect of any loss occurring after the original increase is made, and, in the case of such determination as of any time during the taxable year, the determination shall be made without regard to the earnings and profits of such taxable year. If the increase in capital structure is the result of a Part II transaction, this subparagraph and § 40.474–2 (c) shall be applied in the light of the facts applicable both to the taxpayer and to the component corporation in such transaction. For the purpose of this subparagraph, an increase in the capital structure does not result from the conversion of inadmissible assets into admissible assets, or from the accumulation of earnings and profits prior to the beginning of the first taxable year which begins after the date of the acquisition.

(3) If properties of the selling corporation are acquired partly in the manner described in subparagraph (2) of this paragraph and partly in another manner, the adjustment required under this section shall be made to the extent the acquisition is made in such other manner. See paragraph (c) of this section. As to adjustment under regulations pursuant to section 474 (f) (4) of the net capital addition or reduction see § 40.474–5, and as to adjustment under regulations pursuant to section 474 (f) (4) of the base period capital addition, see § 40.474–6.

(b) *Examples.* The application of this section may be illustrated by the following examples:

Example (1). The P Corporation and the S Corporation commenced business before January 1, 1946, and make their income tax returns on the calendar year basis. The P Corporation sold certain assets for cash and on July 1, 1950, it used such cash to purchase properties of the S Corporation in a Part IV transaction. In applying section 474 (b) in determining the average base period net income of the P Corporation, the rule provided in paragraph (a) (1) of this section requires the exclusion of the S Corporation's entire experience for the base period. The S Corporation's base period capital addition and its net capital addition or reduction for 1950 are also required to be excluded. See §§ 40.474–5 and 40.474–6.

Example (2). The S Corporation commenced business before January 1, 1946, and makes its income tax returns on the calendar year basis. The P Corporation was organized on December 10, 1949. On January 1, 1949, the P Corporation issued its stock for cash and on the same day used such cash to acquire all the properties of the S Corporation in a Part IV transaction. In determining the P Corporation's average base period net income under section 435 (d), based on a recomputation of its excess profits net income under section 474 (b), this section does not require the elimination of any part of the excess profits net income (or deficit) of the S Corporation. See paragraph (a) (2) of this section. Under regulations pursuant to section 474 (f) (1), however, the P Corporation will not be allowed any base period capital addition for the cash paid in for its stock which was used in acquiring the properties of the S Corporation. See § 40.474–6.

Example (3). The P Corporation and the S Corporation both commenced business before January 1, 1946, and make their income tax returns on the calendar year basis. Before January 1, 1946, the P Corporation became the owner of one-half the stock of the S Corporation. On July 1, 1950, the S Corporation was liquidated and the P Corporation received all of the properties which had been used in the operation of one of two separate businesses operated by the S Corporation. The acquisition of such properties qualifies as a Part IV transaction. In applying section 474 (b) in determining the average base period net income of the P Corporation the rule provided in paragraph (a) (1) of this section requires the exclusion of the base period experience of the business operated by the S Corporation. The S Corporation's base period capital addition and its net capital addition or reduction for 1950 are also required to be excluded. See §§ 40.474–5 and 40.474–6.

(c) *Acquisition resulting in partial duplication.* If a purchasing corporation acquires properties of a selling corporation in a Part IV transaction, and only a part of the total consideration transferred by the purchasing corporation consists of stock issued directly by the purchasing corporation or of cash or other assets acquired by the purchasing corporation through a bona fide long-term increase in its capital structure, only that part of the selling corporation's base period experience before the acquisition which is not attributable to such stock so issued or to such cash or assets so acquired is to be excluded in computing the purchasing corporation's average base period net income under section 435 (d), based on a recomputation of excess profits net income under section 474 (b). The portion of the selling corporation's experience not to be excluded under this section with respect to any part of the base period (and of the additional period through March 31, 1950, for the purpose of the substitute period provided in section 435 (d)) prior to the day of the transaction is an amount which bears the same ratio to the whole of the selling corporation's experience for such part of such period (or, in the case of a transaction described in section 474 (a) (1) (B), the part of the selling corporation's experience properly attributable to the properties acquired by the purchasing corporation) as the sum of the fair market value of the stock of the purchasing corporation issued directly to the selling corporation, plus the fair market value of the other assets or cash acquired in the manner described in paragraph (a) (2) of this section, bears to the fair market value of the total consideration received by the selling corporation for such properties. The adjustment under this section in cases described in this paragraph may be illustrated by the following example:

Example. The P Corporation and the S Corporation each commenced business before January 1, 1946, and makes its income tax returns on the basis of the calendar year. On January 1, 1948, the P Corporation in a Part IV transaction purchased all the properties of the S Corporation for $100,000 in cash, of which $60,000 was derived by the P Corporation from the sale of certain assets and $40,000 was derived from the issuance and sale of new shares of its stock, such new stock constituting a bona fide long-term increase in its capital structure. For the purpose of computing the P Corporation's average base period net income under section 435 (d), based on a recomputation of the excess profits net income under section 474 (b), 60 percent of the S Corporation's monthly excess profits net income (or deficit) for 1946 and 1947 is to be excluded under this section.

§ 40.474–5 *Net capital addition or reduction under Part IV*—(a) *In general.* If the purchasing corporation acquires properties of a selling corporation in a Part IV transaction occurring in a taxable year ending after June 30, 1950, and if the purchasing corporation's average base period net income for the purpose of the excess profits credit for any taxable year ending after the date of the transaction is computed with the application of Part IV, the net capital addition or net capital reduction of the purchasing corporation for such taxable year shall be computed under section 435 (g) with the application of the following rules:

(1) If the Part IV transaction involved a transaction described in § 40.474–4 (a) (2) (i) or (ii), that is, a transaction in which there is no duplication of base period experience, the net capital addition or net capital reduction of the purchasing corporation shall be computed after making proper adjustment by decreasing the daily capital addition or increasing the daily capital reduction, as the case may be, for each day after the date of the Part IV transaction, to the extent necessary so that such amounts shall not reflect the transaction described in § 40.474–4 (a) (2). Thus, in the example in § 40.474–4 (c), if the Part IV transaction had occurred in a taxable year ending after June 30, 1950, the $40,000 derived from the issuance and sale of new shares of stock shall not be included in determining the amount paid in for stock under section 435 (g) (3) (A) for such taxable year, and the equity capital as of the beginning of any taxable year beginning after the Part IV transaction would be reduced by $40,000 for the purpose of applying section 435 (g) (3) (B) or section 435 (g) (4) (B) to such taxable year.

(2) Under principles corresponding to those set forth in section 462 (j) (1) and § 40.463–1 (e), the net capital addition or net capital reduction of the purchasing corporation is computed without regard to any capital changes of the selling corporation in any case subject to the provisions of § 40.474–4 unless the case involves a transaction described in § 40.474–4 (a) (2) (i) in which no gain or loss is recognized upon the exchange of the stock for the properties.

(3) If the Part IV transaction is subject to the provisions of § 40.474–4 by reason of an exchange described in § 40.474–4 (a) (2) (i) in which no gain or loss was recognized, the purchasing corporation shall compute its net capital addition or net capital reduction under the rules provided in § 40.463–1 as if the purchasing corporation were an acquiring corporation and the selling corporation were a component corporation. If in such case the selling corporation was a party to a Part II transaction occurring before the Part IV transaction, the rules set forth in § 40.463–2 shall also be applicable as if the purchasing corporation were an acquiring corporation and the selling corporation were a component corporation.

(b) *Example.* The rules prescribed by paragraph (a) of this section may be illustrated by the following example:

Example. The P Corporation and the S Corporation each makes its income tax returns on the basis of the calendar year. The P Corporation issued its stock on June 1, 1950, for $1,000,000 in cash, such new stock constituting a bona fide long-term increase in its capital structure, and on July 1, 1950, used such cash to acquire all the properties of the S Corporation in a Part IV transaction. The P Corporation computes its excess profits credit under Part IV. In computing the daily capital addition of the P Corporation for each day of 1950 after July 1, 1950, the $1,000,000 paid in for stock on June 1, 1950, shall be disregarded. In computing the equity capital of the P Corporation on January 1, 1951, for the purpose of comparing such amount with its equity capital on January 1, 1950, such equity capital on January 1, 1951, shall be reduced by $1,000,000, the amount paid in for the stock. The same adjustment (a decrease of $1,000,000) shall be made for such purpose in computing equity capital for the first day of each subsequent taxable year. Under principles corresponding to those set forth in § 40.463–1 (e), the net capital addition or net capital reduction of the P Corporation is computed without regard to any capital changes of the S Corporation.

§ 40.474–6 *Base period capital addition under Part IV*—(a) *In general.* If the purchasing corporation acquires properties of the selling corporation in a Part IV transaction occurring after the beginning of the second taxable year of the purchasing corporation preceding its first taxable year ending after June 30, 1950, and if the purchasing corporation's average base period net income for the purpose of the excess profits credit for any taxable year ending after the date of the transaction is computed with the application of Part IV, the base period capital addition of the purchasing corporation for such taxable year shall be computed under section 435 (f) with the application of the following rules:

(1) If the Part IV transaction involved a transaction described in § 40.474–4 (a) (2) (i) or (ii), that is, a transaction in which there is no duplication of base period experience, the base period capital addition of the purchasing corporation shall be computed after making proper adjustment by decreasing the yearly base period capital for any day specified in section 435 (f) after the date of the Part IV transaction to the extent necessary so that such amount shall not reflect the transaction described in § 40.474–4 (a) (2). Thus, in the example in § 40.474–4 (c), if the Part IV transaction had occurred after the beginning of the second taxable year of the purchasing corporation preceding its first taxable year ending after June 30, 1950, the yearly base period capital for each day specified in section 435 (f) after the date of the Part IV transaction shall be reduced by the $40,000 derived from the issuance and sale of new shares of stock.

(2) Under principles corresponding to those set forth in section 462 (j) (1) and § 40.464–1 (d), the base period capital addition of the purchasing corporation is computed without regard to the base period capital addition or yearly base period capital of the selling corporation in any case subject to the provisions of § 40.474–4, unless the case involves a transaction described in § 40.474–4 (a) (2) (i) in which no gain or loss is recognized upon the exchange of the stock for the properties.

(3) If the Part IV transaction is subject to the provisions of § 40.474–4 by reason of an exchange described in § 40.474–4 (a) (2) (i) in which no gain or loss was recognized, the purchasing corporation shall compute its yearly base period capital or base period capital addition with reference to the yearly base period capital or base period capital addition of the selling corporation under the rules provided in § 40.464–1 as if the purchasing corporation were an acquiring corporation and the selling corporation were a component corporation. If, in such case, the selling corporation was a party to a Part II transaction occurring before the Part IV transaction, the rules set forth in § 40.464–2 shall also be applicable as if the purchasing corporation were an acquiring corporation and the selling corporation were a component corporation.

(b) *Example.* The rules prescribed by paragraph (a) of this section may be illustrated by the following example:

Example. The P Corporation and the S Corporation each makes its income tax returns on the basis of the calendar year. The P Corporation issued its stock on June 1, 1949, for $1,000,000 in cash, such new stock constituting a bona fide long-term increase in its capital structure, and on July 1, 1949, used such cash to acquire all the properties of the S Corporation in a Part IV transaction. The P Corporation computes its excess profits credit under Part IV. In computing the base period capital addition of the P Corporation, its yearly base period capital for 1950 shall be reduced by $1,000,000, the amount paid in for the stock. Under principles corresponding to those set forth in § 40.464–1 (d), the base period capital addition of the P Corporation is computed without regard to any capital changes of the S Corporation.

If any article sold tax-free to such vendee is not so used by him, or being so used the receiver is not so sold, the vendee shall be considered as the manufacturer or producer of such article."

• • • • •

PAR. 19. Immediately following § 316.61, there is inserted the following new section:

§ 316.61a *Specific exemption of certain communication receivers, etc., and component parts*—(a) *Receivers.* (1) On and after November 1, 1951, the tax imposed under section 3404 (a) does not apply with respect to the sale to the United States for its exclusive use of a communication, detection, or navigation receiver of the type used in commercial, military, or marine installations. To establish the right to exemption from the tax with respect to such sale, it is necessary that the manufacturer (i) have in his possession a copy of the Government purchase order, or of the prime contract awarded to him, under which the sale is made by him to the United States, or (ii) obtain from an authorized officer of the United States and retain in his possession a properly executed exemption certificate in the form prescribed by this section.

(2) If the articles covered by such purchase order, prime contract, or certificate are used otherwise than for the exclusive use of the United States, or if any of such articles are resold to employees or others, a responsible officer of the United States shall report such fact to the manufacturer. The tax applicable to the sale of such articles shall be included by the manufacturer in his return for the month during which such report is received by him.

(3) The certificate required by this section shall be in substantially the following form:

EXEMPTION CERTIFICATE

(To support tax-free sales to the United States of communication, detection, or navigation receivers under section 3404 (a) of the Internal Revenue Code, as amended by section 482 of the Revenue Act of 1951.)

_____, 19__.
(Date)

The undersigned hereby certifies that he is _____ of _____

to execute this certificate; and that the article or articles specified in the accompanying order, or on the reverse side hereof, are purchased from _____ for the
(Name of company)

exclusive use of the United States.

It is understood that the exemption from tax in the case of sales of articles under this exemption certificate to the United States is limited to the sale of articles purchased for its exclusive use, and it is agreed that if articles purchased tax free under this exemption certificate are used otherwise or are sold to employees or others, such fact will be reported to the manufacturer of the article or articles covered by this certificate. It is also understood that the fraudulent use of this certificate to secure exemption will subject the undersigned and all guilty parties to a fine of not more than $10,000, or to imprisonment for not more than five years, or both, together with costs of prosecution.

(Title of officer)

(4) The articles covered by the exemption certificate must be fully identified as to type, quantity, and date of sale. If it is impracticable to furnish a separate exemption certificate for each order or contract, a certificate covering all orders between given dates (such period not to exceed six months) will be acceptable.

(5) Such certificates and proper records of invoices, orders, etc., relative to tax-free sales must be retained as provided in § 316.202.

(6) Where the evidence required to support a tax-free sale is obtained subsequent to the sale but prior to the time the manufacturer is required to file a return covering taxes due for the month during which the sale was made he shall include the tax on such sale in his return for that month, in the item "Total tax due", but may deduct an amount equivalent to the tax applicable to such sale and pay the net tax resulting, making appropriate explanation either on the face of the return or on a rider attached thereto. If such evidence is not so obtained, the manufacturer must include the tax on such sale in his return for the month in which the sale was made. However, if such evidence is later obtained a claim for refund of tax paid may be filed on Form 843, or a credit taken upon a subsequent return, but such action must be taken within the 4-year period of limitation prescribed by section 3313.

(7) No sale of a receiver may be made free of tax by the manufacturer to a dealer for resale to the United States. However, where a tax-paid receiver is sold by a dealer on or after November 1, 1951, to the United States for its exclusive use, the manufacturer may be allowed a credit or refund in the amount of tax paid on the article in accordance with the provisions of § 316.204.

(b) *Components for receivers.* (1) On and after November 1, 1951, no tax attaches under section 3404 (b) with respect to the sale by the manufacturer of any component named in such section for use by his vendee as material in the manufacture or production of, or as a component part of, a communication, detection, or navigation receiver of the type used in commercial, military, or marine installations if such receiver is to be sold by such vendee to the United States for its exclusive use.

(2) To establish the right to exemption with respect to any component taxable under section 3404 (b), the manufacturer must obtain prior to or at the time of the sale, and retain in his possession, a certificate substantially in the

form prescribed below showing that the article is to be used by his vendee as material in the manufacture or production of, or as a component part of, a communication, detection, or navigation receiver of the type used in a commercial, military, or marine installation which the vendee will manufacture and sell to the United States for its exclusive use.

(3) If any person purchases a component free of tax under an exemption certificate for use in the manufacture of a receiver of the character described above to be sold to the United States for its exclusive use and if the component is not so used or, being so used, the receiver is not so sold, such person shall be considered the manufacturer of such component and shall be liable for tax on his use or resale of the component.

(4) The following form of exemption certificate will be acceptable for the purpose of this paragraph:

EXEMPTION CERTIFICATE

(To support tax-free sales of components under section 3404 (b) of the Internal Revenue Code, as amended by section 482 of the Revenue Act of 1951, to manufacturers of communication, detection, or navigation receivers for sale to the United States.)

_____, 19__.
(Date)

The undersigned hereby certifies that he is engaged in the manufacture of _____
(Communication, detection, or navigation)
_____ receivers of the types used in _____
(Commercial, military, _____ installations; that the articles or marine)

specified in the accompanying order or contract will be used by him as material in the manufacture or production of, or as a component part of, such receivers; and that the receivers will be sold by him to the United States for its exclusive use.

It is understood that if any of the components purchased under this certificate are resold separately by the undersigned, or are used for any purposes other than that stated above, the undersigned will be considered as the manufacturer of the components so purchased and shall pay to the Government the tax on such resale or use unless his resale or use of the articles is exempt from tax under another provision of the law.

It is further understood that the fraudulent use of this certificate to secure exemption will subject the undersigned and all guilty parties to a fine of not more than $10,000, or to imprisonment for not more than five years, or both, together with costs of prosecution.

(Address)

(5) If it is impracticable to furnish a separate exemption certificate with each order or contract, a certificate covering all orders between given dates (such period not to exceed six months) will be acceptable.

(6) The certificates and proper records of orders, invoices, etc., shall be retained by the manufacturer of the components as provided in § 316.202.

(7) Where a certificate is not in the possession of the manufacturer at the time he sells the components, he is liable for the tax and is not entitled to a credit or refund on the ground that the receiver is to be sold by his vendee to the United States. The manufacturer of the receiver may, however, be allowed a credit or refund in the amount of the tax paid on the components in accordance with the provisions of § 316.204 after he sells the receiver to the United States.

(8) The exemption provided for under this paragraph extends only to the sale of taxable components known to be intended for use by the vendee as material in the manufacture or production of, or as a component part of, a communication, detection, or navigation receiver to be sold by such vendee to the United States for its exclusive use. The exemption does not extend to the sale of a taxable component to the manufacturer of another component even though the latter component is to be sold to a manufacturer for use as material in the manufacture or production of, or as a component part of, a communication, detection, or navigation receiver to be sold by such manufacturer to the United States for its exclusive use. The limitation of this exemption is illustrated by the following example: A holds a prime contract with the United States for the manufacture of a detection receiver: B subcontracts with A to supply A with the chassis to be used in the manufacture of such receiver; and C subcontracts with B to supply B with certain taxable tubes to be used in the manufacture of the chassis. A is not required to pay tax on his sale of the complete receiver to the United States. B, likewise, is not required to pay tax on his sale of the chassis to A. However, C is required to pay tax on his sale of tubes to B, since B is not the manufacturer of the detection receiver sold to the United States.

(9) For provisions with respect to tax-free sales for further manufacture under section 3442, see §§ 316.20 to 316.23, inclusive.

PAR. 20. Immediately preceding § 316.70, there is inserted the following:

SEC. 483. TAX-FREE SALES OF REFRIGERATOR COMPONENTS TO WHOLESALERS FOR RESALE TO MANUFACTURERS (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

Section 3405 (b) is hereby amended by inserting "(hereinafter referred to as 'refrigerating equipment')" before the period at the end of the first sentence and by striking out the second and third sentences and inserting in lieu thereof the following: "Under regulations prescribed by the Secretary, the tax under this subsection shall not apply in the case of sales of any such refrigerator components by the manufacturer, producer, or importer to (1) a manufacturer or producer of refrigerating equipment, or (2) a vendee for resale to a manufacturer or producer of refrigerating equipment if such components are in due course so resold. If any such refrigerator components are resold by the manufacturer or producer to whom sold or resold otherwise than on or in connection with, or with the sale of, complete refrigerating equipment manufactured or produced by him, then for the purposes of this section such manufacturer or producer shall be considered the manufacturer or producer of the refrigerator components so resold by him."

PAR. 21. Section 316.70, as amended by Treasury Decision 5854, is further amended by striking out the first sentence of paragraph (c) (4) and inserting in lieu thereof a new sentence to read as follows: "A manufacturer of household type refrigerators, other type refrigerators, household type units for the quick freezing or frozen storage of foods, other quick-freeze units, or refrigerating or cooling apparatus may purchase tax free for use as components in the manufacture of such articles any of the refrigerating and freezing apparatus specified in section 3405 (b)."

PAR. 22. Section 316.71, as amended by Treasury Decision 5854, is further amended by striking out the last sentence of paragraph (b) and inserting in lieu thereof a new sentence to read as follows: "Sales of such refrigerating apparatus as component parts of complete refrigerators, refrigerating or cooling apparatus, or quick-freeze units are not subject to tax."

PAR. 23. Section 316.72, as added by Treasury Decision 5854, is amended as follows:

(A) By redesignating paragraphs (e), (f), (g), (h), (i) and (j) as paragraphs (i), (j), (k), (l) and (m) and by striking paragraph (d) and inserting in lieu thereof the following:

(d) Prior to November 1, 1951, this exemption from tax does not apply in the case of a sale of refrigerator components by the manufacturer thereof to a wholesaler, jobber, dealer, etc., where such wholesaler, jobber, dealer, etc., does not qualify as a manufacturer of complete refrigerators, refrigerating or cooling apparatus, or quick-freeze units.

(e) On and after November 1, 1951, a manufacturer of taxable refrigerator components, as specified in section 3405 (b), may sell such refrigerator components tax free to a wholesaler, jobber, dealer, or any other person buying for resale to a manufacturer of complete refrigerators, refrigerating or cooling apparatus, or quick-freeze units. Tax-free sales of such refrigerator components may not be made to repairmen or servicemen for repair or service work.

(f) In order to make a tax-free sale it is necessary that the manufacturer of the components (1) obtain from the wholesaler, etc., prior to or at the time of the sale and retain in his possession, a statement showing that the component is being purchased for resale to a manufacturer of complete refrigerators, refrigerating or cooling apparatus, or quick-freeze units, and (2) obtain proof that the component has been so resold. Such proof shall be either an exemption certificate in the form set forth below properly executed by the manufacturer purchasing the component for further manufacture, or a statement by the wholesaler, etc., that he has obtained from his vendee, and has in his possession, available for inspection by internal revenue officers, such a certificate. The statement referred to in subparagraph (1) of this paragraph suspends the liability of the manufacturer of the component for payment of the tax for a period of two months from the date of his sale. If within such period the manufacturer of the component has not obtained proof of the tax-free character of the resale by the wholesaler, etc., then the temporary suspension of liability for the payment of the tax ceases, and the

manufacturer of the component shall include the tax on the sale of such component in his return for the month in which such 2-month period expires. If such proof subsequently becomes available, a credit for the tax paid may be taken upon a subsequent return or a claim for refund may be filed at any time within the 4-year period of limitation prescribed by section 3313.

(g) Where the manufacturer of the taxable component elects to pay the tax instead of making a tax-free sale, he may take a credit or file a refund claim for the tax so paid when he has in his possession the evidence set forth above with respect to tax-free sales.

(h) The foregoing exemption and credit or refund provisions apply only where there is not more than one intervening sale between the manufacturer of the component and the manufacturer of the complete refrigerator, refrigerating or cooling apparatus, or quick-freeze unit.

(B) By striking out the words "refrigerators, refrigerating and cooling apparatus, or quick-freeze units" in the first paragraph of the "Exemption Certificate" and inserting in lieu thereof the words "complete refrigerators, refrigerating or cooling apparatus, or quick-freeze units".

PAR. 24. Immediately preceding § 316.90, there is inserted the following:

Any person who acquires unexposed photographic film not subject to tax under this paragraph and sells such unexposed film in form and dimensions subject to tax hereunder (or in connection with a sale cuts such film to form and dimensions subject to tax hereunder) shall for the purposes of this subsection be considered the manufacturer of the film so sold by him.

PAR. 32. Immediately following § 316.194, there is inserted the following:

SEC. 488. REPEAL OF TAX ON ELECTRICAL ENERGY (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

(a) *Repeal of tax.* Section 3411 (relating to tax on electrical energy for domestic or commercial consumption), and sections 3441 (d) and 3447 (c) (related provisions), are hereby repealed.

(b) *Effective date.* (1) Except as provided in paragraph (2), the provisions of subsection (a) shall apply to electrical energy sold on or after the first day of the first month which begins more than ten days after the date of the enactment of this act.

(2) In the case of electrical energy sold which is billed to the customer for a period beginning before the effective date specified in paragraph (1) and ending on or after such date, the provisions of subsection (a) shall apply to that portion of the amount billed for the electrical energy sold during such period which the number of days in such period on and after such effective date bears to the total number of days in such period. This section shall not apply to electrical energy sold before such effective date for which a bill was rendered prior to such date.

§ 316.195 *Termination of tax.* Effective November 1, 1951, no tax shall apply to electrical energy sold for domestic or commercial consumption on or after that date. Whether or not the tax is applicable is dependent upon the period during which the electrical energy was sold and not upon the date the bill for such electrical energy was rendered to the purchaser. Therefore, the tax will apply to electrical energy sold before November 1, 1951, regardless of whether the bill was rendered to the purchaser before or after that date. Where electrical energy is sold and billed to the customer for a period beginning prior to November 1, 1951, and ending on or after

such date, the tax will not apply to that portion of the total amount billed which the number of days in such period on and after November 1, 1951, bears to the total number of days in the entire period. For example, if a bill is rendered for the period October 15, 1951, to November 14, 1951 (both dates inclusive), a total of 31 days, no tax will apply to fourteen thirty-firsts of the total amount billed.

PAR. 33. The heading "Subpart U—Miscellaneous Provisions", as designated by Treasury Decision 5099, is redesignated as "Subpart V—Miscellaneous Provisions", and immediately following Subpart T a new Subpart U is added to read as follows:

SEC. 487. IMPOSITION OF TAX ON MECHANICAL PENCILS, FOUNTAIN AND BALL POINT PENS, AND MECHANICAL LIGHTERS FOR CIGARETTES, CIGARS, AND PIPES (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

Chapter 29 (relating to manufacturers' excise and import taxes) is hereby amended by adding after section 3407 the following new section:

SEC. 3408. TAX ON MECHANICAL PENCILS, FOUNTAIN AND BALL POINT PENS, AND MECHANICAL LIGHTERS FOR CIGARETTES, CIGARS, AND PIPES.

(a) *Imposition of tax.* There shall be imposed on the following articles, sold by the manufacturer, producer, or importer, a tax equal to 15 per centum of the price for which so sold: Mechanical pencils, fountain pens, and ball point pens; mechanical lighters for cigarettes, cigars, and pipes.

(b) *Exemption if article taxable as jewelry.* No tax shall be imposed under this section on any article taxable under section 2400 (relating to jewelry tax). If any article, on the sale of which tax has been paid under this section, is further manufactured or processed resulting in an article taxable under section 2400, the person who sells such article at retail shall, in the computation of the retailers' excise tax due on such sale, be entitled to a credit or refund in an amount equal to the tax paid under this section.

§ 316.196 *Scope of tax.* The tax imposed by section 3408 attaches to the sale by the manufacturer on and after November 1, 1951, of mechanical pencils, fountain pens, ball point pens, and mechanical lighters for cigarettes, cigars, and pipes.

§ 316.197 *Use of terms.* (a) The term "mechanical pencil" includes any writing instrument containing a movable marking or writing substance in which the desired length of the marking or writing substance is controlled by a locking, propelling or repelling device.

§ 316.198 *Exemption if articles taxable as jewelry.* (a) The tax imposed by section 3408 does not apply to the sale by the manufacturer of any article named therein if such article is, when sold, subject to the tax imposed by section 2400 (relating to jewelry, etc.). For further details, see § 320.33 (Regulations 51).

(b) Where subsequent to the sale by the manufacturer and prior to the sale at retail, any article named in section 3408 is further manufactured or processed in any manner so that it becomes subject to the tax imposed under section 2400, the person who sells such article at retail shall, in computing the retailers' excise tax due on such sale, be entitled to a credit or refund in an amount equal to the tax paid under section 3408. However, such credit or refund is not allowable to the manufacturer who originally paid tax under section 3408, but is allowable only to the person who sells the article at retail.

§ 316.199 *Rate of tax.* The tax is payable by the manufacturer at the rate of 15 per cent of the sale price as determined under §§ 316.8 to 316.15, inclusive.

(A) Any article (other than a tire, inner tube, or automobile radio or television receiving set taxable under section 3404) purchased by him and used by him as material in the manufacture or production of, or as a component part of, an article with respect to which tax under this chapter has been paid, or which has been sold free of tax by virtue of section 3442, relating to tax-free sales;

(B) any article described in section 3404 (b) purchased by him and used by him as material in the manufacture or production of, or as a component part of, communication, detection, or navigation receivers of the type used in commercial, military, or marine installations if such receivers have been sold by him to the United States for its exclusive use.

PAR. 35. Section 316.204, as amended by Treasury Decision 5880, approved February 11, 1952, is further amended as follows:

(A) By inserting "(1)" immediately after the words "with respect to the sale of" in the first sentence of the paragraph (a) and by changing the period at the end thereof to a comma and adding the following: "Or (2) any article described in section 316.61 purchased and used by such manufacturer as a component part of a receiver of the type described in § 316.61a which is sold by him on or after November 1, 1951, directly to the United States for its exclusive use."

(B) By adding at the end thereof the following new paragraphs:

(m) By virtue of the provisions of section 3443 (a) (3) (A) (vii) of the Code, as added by section 482 (d) of the Revenue Act of 1951, a manufacturer of a communication, detection, or navigation receiver of the type used in commercial, military, or marine installations may be allowed a refund or may take credit on a subsequent return in the amount of any tax paid by him on the sale of such a receiver, if on or after November 1, 1951, such receiver is sold by any person to the United States for its exclusive use. Refund or credit will be allowed in such cases only upon the submission of the evidence required by the preceding paragraphs relating to transactions within the scope of section 3443 (a) (3) (A).

(n) Under the provisions of section 3443 (a) (3) (A), prior to November 1, 1951, no credit or refund was allowable with respect to tax paid on automobile parts or accessories sold for use or for resale for use as repair or replacement parts or accessories for farm equipment even though it was known at the time of the sale that the articles would be so used. On and after November 1, 1951, a manufacturer may be allowed a refund or may take credit against the tax shown to be due upon any subsequent monthly return, in the amount of tax paid by him with respect to the sale of any article taxable under section 3403 (c) (other than spark plugs, storage batteries, leaf springs, coils, timers, and tire chains) used, or resold for use, on or after November 1, 1951, as a repair or replacement part or as an accessory for farm equipment (other than equipment taxable under subsection (a) or (b) of section 3403), provided he can establish the date the tax on his sale of such article was paid to the United States and the amount of such tax, and he has in his possession a certificate from the ultimate vendor in the form prescribed in the following paragraph. Where the certificate is obtained prior to the time the manufacturer is required to file a return covering taxes due for the month in which the sale was made, he should include the tax on such sale in his return for that month, in the item "Total tax due", but he may deduct an amount equivalent to the tax applicable to such sale and pay the net tax resulting, making appropriate explanation on a rider attached to the return. If the certificate is not so obtained, the manufacturer must include the tax on such sale in his return for the month in which the sale was made and when the certificate is later obtained he may file a claim for refund on Form 843, or take a credit upon any subsequent return, but such action must be taken within the four-year period of limitation prescribed by section 3313.

(o) The following is the form of certificate which will be acceptable for the purposes of paragraph (n) of this section.

CREDIT OR REFUND CERTIFICATE

PUBLIC NOTICE OF ANNUAL RENTAL CHARGES

NOVEMBER 13, 1952.

1. *Water rental.* Irrigation water will be furnished upon a rental basis during the irrigation seasons of 1953 and 1954, and thereafter until further notice to the irrigable lands described in Public Notice No. 28 for the North Pavillion area, and Public Notice No. 30 for the North Portal area, Riverton Project, Wyoming.

2. *Charges and terms of payment.* A minimum water rental charge shall be payable for irrigable lands described in Public Notices Nos. 28 and 30, whether water is used or not. Such minimum charge need not be paid in any year for any acreage which the Riverton Project Superintendent certifies to be temporarily non-irrigable during such year due to seepage, land subsidence, shallow or impermeable soils, or excessive amounts of salts. Payment of the minimum water rental charge will entitle the water user to two acre-feet of water per irrigable acre. The minimum charge shall be payable in advance on January 1 of each year and no water will be furnished until such charge is paid in full. Charges for water furnished in excess of two acre-feet per irrigable acre shall be payable on January 1 for water furnished during the preceding year.

(a) The minimum water rental charge for lands in the North Pavillion Area described in Public Notice No. 28 shall be $2.00 per irrigable acre. Water in addition to two acre-feet per irrigable acre, if available, shall be furnished at the rate of $0.60 for the first additional half acre-foot per irrigable acre and at the rate of $0.75 for the second additional half acre-foot per irrigable acre. All quantities in excess of a total of three acre-feet per irrigable acre shall be furnished at the rate of $2.00 per acre-foot.

(b) The minimum water rental charge for lands in the North Portal area described in Public Notice No. 30 shall be $1.50 per irrigable acre during 1953; and, thereafter until further notice, such charge shall be $2.00 per irrigable acre. During 1953 water in addition to two

After 1953, and thereafter until further notice, water in addition to two acre-feet per irrigable acre, if available, shall be furnished at the rate of $0.60 for the first additional half acre-foot per irrigable acre and at the rate of $0.75 for the second additional half acre-foot per irrigable acre; and all quantities in excess of a total of three acre-feet per irrigable acre shall be furnished at the rate of $2.00 per acre-foot.

3. *Water for other lands.* Irrigation water, when available, will also be furnished at the rates described in paragraph 2, to other lands in the North Pavillion and North Portal areas upon the filing each year of a temporary water rental application covering such other lands. The approval of a water rental application for these lands shall not be deemed to constitute an action leading to a continuing right to receive water in subsequent years.

4. *Discounts and penalties.* If payment of the minimum charge is made on or before December 31, a discount of 5 percent of such charge will be allowed. If payment of the charge for additional water is made on or before December 31 of the year in which used, a discount of 5 percent of such charge will be allowed. If payment of the minimum charge is not made on April 1 of each year, and if payment for additional water furnished to any lands is not made on April 1, subsequent to the year in which such additional water is delivered, there shall be added on the following day a penalty of one-half of one percent of the amount unpaid on the first day of each calendar month thereafter so long as such default shall continue, and no water will be delivered until all charge and penalties have been paid in full.

FEDERAL POWER COMMISSION

[Docket No. E-6370]

DEPARTMENT OF THE INTERIOR AND SOUTHWESTERN POWER ADMINISTRATION

NOTICE OF REQUEST FOR APPROVAL OF RATES AND CHARGES FOR SALE OF POWER TO ARKANSAS POWER & LIGHT COMPANY

NOVEMBER 25, 1952.

In the matter of United States Department of Interior, and Southwestern Power Administration; Docket No. E-6370.

Notice is hereby given that pursuant to the provisions of the Flood Control Act of 1944 (58 Stat. 890) the Secretary of the Interior filed with the Federal Power Commission for confirmation and approval rates and charges for the sale of electric power and energy from the Norfolk and Bull Shoals Projects by the Southwestern Power Administration (SPA) to Arkansas Power & Light Company as set forth in the contract between the United States and Arkansas Power and Light Company executed September 22, 1952.

In summary, the contract between the parties provides as follows:

The term of the contract is for the period from date of its execution to January 1, 1954, or until service is begun under the contract dated January 29, 1952, between SPA, Arkansas Power & Light Company and Reynolds Metals Company which ever is earlier.

SPA will sell 12,000,000 kwh per month to the Company scheduled at a rate of delivery not less than 10,000 kw and not greater than 60,000 kw under SPA Rate Schedule "A" heretofore approved by the Commission.

SPA will sell to the Company such additional power and energy as it determines in its sole judgment to be available, to be scheduled and delivered, under SPA Rate Schedule "A" as the parties from time to time mutually agree.

SPA will sell to the Company off-peak dump energy at a rate of 1.25 mills per kwh.

The Company during its off-peak periods will supply SPA with power at a demand governed by the actual load of SPA's customers (but not to exceed 20,000 kw). In return SPA, in the following month, will deliver electric energy to the Company during on-peak hours at a rate derived by dividing by 200 the total number of kwh received by SPA during the previous month. The Company will compensate SPA for the capacity utilized in returning the energy at a rate of $0.70 per kw per month.

The proposed contract would supersede a similar existing agreement dated April 10, 1951, which expires December 31, 1952.

Any person desiring to make comments or suggestions with respect to the above should submit the same on or before December 15, 1952, to the Federal Power Commission, Washington 25, D. C.

Secretary.

[Docket Nos. G-1947, G-1959]

TEXAS EASTERN TRANSMISSION CORP. AND WILCOX TREND GATHERING SYSTEM, INC.

ORDER OMITTING INTERMEDIATE DECISION AND FIXING DATE FOR ORAL ARGUMENT

NOVEMBER 25, 1952.

In the matter of Texas Eastern Transmission Corporation, Docket No. G-1947; Wilcox Trend Gathering System, Inc., Docket No. G-1959.

On October 22, 1952, counsel for Wilcox Trend Gathering System, Inc. (Wilcox) moved orally on the record that, pursuant to § 1.32 (c) of the Commission's rules of practice and procedure, the intermediate decision procedure in the above-entitled proceedings be waived and that oral argument before the Commission be granted in lieu of the filing of reply briefs. Counsel for Texas Eastern Transmission Corporation (Texas Eastern) joined in said motion. Commission Staff counsel and counsel for National Coal Association, et al., opposed said motion.

At the same time, Commission Staff counsel moved that the hearing stand in recess pending further order of the Commission. Said motion was supported by counsel for National Coal Association, et al., and was opposed by counsel for the Applicants.

Applicant, Texas Eastern Transmission Corporation, seeks a certificate of public convenience and necessity in Docket No. G-1947 to construct and operate a 24-inch natural-gas transmission pipeline which would extend approximately 315 miles from a point in Lavaca County, Texas, to a connection, with its existing 20-inch pipeline near Castor, Bienville Parish, Louisiana. Applicant Wilcox Trend Gathering System, Inc., seeks a certificate of public convenience and necessity authorizing it to construct and operate a natural-gas transmission pipeline, which would extend from a point in the Hagist Ranch Field in McMullen County, Texas, approximately 157 miles to a point of connection with Texas Eastern's proposed 24-inch line near Provident City, Texas.

Texas Eastern would purchase 100,000 Mcf of gas per day from Wilcox at the delivery point near Provident City, and would transport such gas, as well as gas purchased by it from producers in the area, through its proposed 24-inch pipeline to the connection with its existing system near Castor, Louisiana. These additional quantities of gas would enable Texas Eastern to supplement its existing reserves in Louisiana, which it appears are declining.

The record shows that Wilcox has entered into more than thirty gas-purchase contracts with producers in Texas, and that each of said contracts contains a provision that, if a certificate of public convenience and necessity is not issued to Wilcox on or before November 1, 1952, the producer may cancel the contract. This provision has been amended to extend the November 1 date to December 15, 1952. Wilcox alleges that if a certificate is not issued by or before December 15, 1952, the producers from whom Wilcox proposes to purchase gas may cancel their gas sales contracts. Texas Eastern alleges that if a certificate is not issued to Wilcox by said date, Texas Eastern will face the loss of the gas supplies now under contract. Texas Eastern further alleges that such additional supplies are necessary in order to insure its ability to meet the total requirements on the Texas Eastern system.

Wilcox furthe alleges, and the record shows, that one of its gas-purchase contracts requires that it commence to take or pay for gas on December 1, 1952, and that under certain other contracts, gas must be taken or paid for by January 31, 1953.

The Commission hereby takes official notice of the extraordinary and increasingly crowded state of its docket, and of the growing difficulties experienced in concluding proceedings before the Commission stemming from the limited availability of personnel, including presiding examiners, to hear and initially decide cases.

The Presiding Examiner allowed the parties opportunity to file briefs, and initial briefs have been submitted by the Applicants and by Commission Staff counsel. Counsel for the Applicants have requested, in addition to omission of the intermediate decision procedure, that oral argument before the Commission be granted in lieu of the filing of reply briefs.

The aforementioned motion by Commission Staff counsel to recess the hearing pending further order of the Commission alleges that the applications herein, by reason of the Supreme Court's denial of certiorari in Algonquin Gas Transmission Corporation et al. v. Northeastern Gas Transmission Company, et al. (No. 70 October Term 1952), are not ripe for decision.

The Commission finds:

(1) Due and timely execution of its functions imperatively and unavoidably requires that the Commission omit the intermediate decision procedure in the above-entitled proceedings.

(2) Good cause exists and it is appropriate in carrying out the provisions of the Natural Gas Act that the request of counsel for the Applicants for oral argument be granted and that decision be reserved on the motion filed by Commission Staff counsel to recess the hearings pending further order by the Commission.

The Commission orders:

(A) The intermediate decision be and the same is hereby omitted with respect to the proceedings in Docket Nos. G-1947 and G-1959.

(B) Oral argument before the Commission concerning all the matters involved and the issues presented in the above-entitled proceedings be and the same hereby is set for December 3, 1952, at 10 a. m., e. s. t., in the Hearing Room, Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C.

(C) Decision on the motion by Commission Staff counsel to recess the hearing in the above-entitled matters pending further order of the Commission be and the same is hereby reserved.

Date of issuance: November 25, 1952.

By the Commission.

Secretary.

REPUBLIC SERVICE CORP. AND GENERAL PUBLIC UTILITIES CORP.

ORDER AUTHORIZING PROPOSED CAPITAL CONTRIBUTION AND EXCHANGE OF SECURITIES

NOVEMBER 25, 1952.

In the matter of Republic Service Corporation, File No. 70-2936; and General Public Utilities Corporation, File No. 70-2940.

Republic Service Corporation ("Republic"), a registered holding company, having filed an application-declaration and an amendment thereto pursuant to sections 9 (a) and 12 (d) of the Public Utility Holding Company Act of 1935 ("the act") and the applicable Rules thereunder; and General Public Utilities Corporation ("GPU"), a non-affiliate, also a registered holding company, having filed an application-declaration relating to the same matter pursuant to sections 6, 7, 9, and 10 of the act and the applicable rules thereunder; which several transactions are summarized as follows:

Republic proposes to deliver to GPU all the outstanding capital stock of Republic's wholly owned subsidiary Brockway Light, Heat and Power Company ("Brockway"), being 1,000 common shares of the par value of $100 each, in exchange for 20,150 shares of the common stock of GPU of the par value of $5 each; and GPU proposes in turn to deliver to Republic 20,150 shares of its common stock, now held in its treasury, in exchange for the 1,000 common shares of Brockway. Immediately prior to the exchange, Republic proposes to contribute to Brockway the total amount of all open account indebtedness owing

by Brockway to Republic, which amounted to $50,000 as of June 30, 1952,

been received from the Borough within the period of time as extended by

financing is done, the proceeds there-

by Brockway to Republic, which amounted to $50,000 as of June 30, 1952.

Applicants state that Brockway is engaged in distributing electric energy in the Borough of Brockway and Snyder Township, in Jefferson County, Pennsylvania; that Brockway normally purchases all its electric energy requirements from GPU's subsidiary Pennsylvania Electric Company ("Penelec"), whose service area almost surrounds that of Brockway.

Republic represents that the exchange of its investment in Brockway for the GPU stock is a step in its over-all program to divest itself of its investments in its public utility subsidiaries and thus cease to be a holding company under the act. Republic expressly consents to the imposition of the following condition in the order of the Commission granting its application and permitting its declaration to become effective: That, within one year from the date of said order, Republic will either divest itself of its holdings of the GPU stock or cease to be a holding company as defined in the act.

GPU represents that it will retain Brockway as a part of its integrated electric utility system, and that it contemplates merging the properties of Brockway with those of Penelec. GPU states that closer coordination between Penelec's operations and those of Brockway will result in operating economies.

The applicants state that the exchange was effected by arm's-length bargaining, and that no brokerage fees or commissions will be paid in connection with the transactions. Republic estimates its expenses at approximately $2,500, including a legal fee of $1,200 and an accounting fee of $1,000. GPU estimates its expenses other than legal at approximately $750 and states that all legal work in its behalf is being done by its regularly retained counsel, whose over-all compensation will include compensation for services rendered herein. GPU's counsel state that their over-all compensation will include charges aggregating from $2,600 to $2,850 for their services in this matter.

Applicants further state that no other regulatory commission has jurisdiction over the steps to be taken in carrying out the proposed transactions, and they request that the Commission's order herein be made effective upon issuance.

Such applications-declarations having been duly filed, and notice of filing having been duly given as prescribed by Rule U-23, and the Borough of Brockway ("Borough") having filed an objection to the consummation of the proposed transactions, expressing an interest in acquiring Brockway's properties for municipal ownership and operation, and having requested an extension to December 1, 1952, of the period within which a request for hearing might be filed; and the Commission on November 17, 1952, having authorized an extension for one week, or until November 24, 1952, of the period within which the Borough might request a hearing and having forthwith notified the Borough of such extension of time; and no request for hearing having been received from the Borough within the period of time as extended, nor from any other person, and no hearing having been ordered; and

The Commission finding with respect to said applications-declarations as amended that the applicable provisions of the act and rules are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that said applications-declarations as amended be granted and permitted to be come effective, subject to the terms and conditions hereinafter stated:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act:

(1) That the amended application-declaration filed by Republic herein be and is hereby granted and permitted to become effective forthwith; subject, however, to the condition that within one year from the date of this order Republic shall either divest itself of its holdings of the GPU stock or cease to be a holding company as defined in the act;

(2) That the application-declaration filed by GPU herein be and is hereby granted and permitted to become effective forthwith.

By the Commission.

NOVEMBER 25, 1952.

Notice is hereby given that a declaration has been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935, by Arlington Gas Light Company ("Arlington"), a public-utility subsidiary company of New England Electric System, a registered holding company. Arlington has designated sections 6 (a) and 7 of the act and Rule U-23 thereunder as applicable to the proposed transactions, which are summarized as follows:

The declaration states that Arlington presently has outstanding $1,435,000 principal amount of 3¼ percent promissory notes due April 1, 1953, issued pursuant to a bank loan agreement with the National City Bank of New York. Arlington proposes to issue to this bank, from time to time but not later than December 31, 1952, additional unsecured promissory notes in an aggregate principal amount not in excess of $350,000 and upon the same terms and conditions as the presently outstanding notes.

Arlington desires to issue the proposed notes in order to have available funds for the temporary financing of its construction program through December 31, 1952, and to reimburse its treasury for prior construction expenditures. Arlington proposes that if any permanent financing is done, the proceeds therefrom will be applied in reduction of, or in total payment of, promissory notes then outstanding, and the amount of authorized but unissued notes, if any, will be reduced by the amount, if any, by which such permanent financing exceeds the notes at the time outstanding.

The declaration states that incidental services in connection with the proposed note issues will be performed, at cost, by New England Power Service Company, an affiliated service company, such cost being estimated not to exceed $500. The declaration further states that no State commission or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Arlington requests that the Commission's Order herein become effective forthwith upon issuance.

Notice is further given that any interested person may, not later than December 8, 1952, at 5:30 a. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reason or reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date, the declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 and U-100 thereof.

By the Commission.

PHILADELPHIA CO. ET AL.

ORDER PERMITTING TAX AGREEMENT AMONG PARENT AND SUBSIDIARIES

NOVEMBER 25, 1952.

In the matter of Philadelphia Company, Duquesne Light Company, Allegheny County Steam Heating Company, Cheswick and Harmar Railroad Company; File No. 70-2954.

Philadelphia Company ("Philadelphia"), a registered holding company and a subsidiary of Standard Gas and Electric Company ("Standard") also a registered holding company, Duquesne Light Company ("Duquesne"), a public utility subsidiary of Philadelphia, and Allegheny County Steam Heating Company ("Allegheny"), and Cheswick and Harmar Railroad Company ("Cheswick"), nonutility subsidiaries of Duquesne, having filed a joint declaration, and amendments thereto, pursuant to section 12 (f) of the act and Rule U-45 promulgated thereunder with respect to the following transactions:

On October 1, 1952, the Commission approved Steps I and I-A of a plan of liquidation of Standard, filed pursuant to section 11 (e) of the act. (Holding Company Act Release No. 11510.) Step I involves the retirement of the Prior Preference Stock of Standard through the distribution of portfolio stocks of Standard, including common stock of Duquesne. Step I-A involves the settlement of various intercompany claims between Standard and its parent Standard Power and Light Corporation ("Power"), also a registered holding company, and provides, among other things, for the transfer of 31,000 shares of the common stock of Duquesne by Standard to Power. On November 7, 1952, the United States District Court for the District of Delaware issued an order approving and enforcing Steps I and I-A. Standard has indicated that it intends to consummate these Steps on December 1, 1952.

It is also proposed under Step I of the aforementioned plan that Philadelphia will enter into separate agreements with Duquesne and its subsidiaries Allegheny and Cheswick with respect to the apportionment of Federal income and excess profits taxes, and refunds thereof, if any, covering the period from 1942 through 1950 during which such companies joined with Standard in the filing of consolidated tax returns. The agreement with Duquesne provides in substance that (a) Duquesne will pay its share (as determined under previous agreements) of any additional Federal income and excess profits taxes, on a consolidated tax return basis, for all years through 1950 up to an aggregate of (i) $8,117,571, the amount accrued on its books for such taxes as of July 3, 1952, (ii) $2,000,000, representing the estimated possible additional liability for such taxes, and (iii) its share of any interim refunds of such income and excess profits taxes received after July 3, 1952; (b) that Philadelphia will assume all liability for such taxes for the years through 1950 in excess of such aggregate amount; and (c) that if the share of Duquesne of the net aggregate of the taxes finally determined to be payable is less than the amount of such taxes paid by Duquesne prior to July 3, 1952, Philadelphia will be entitled to the resulting net refunds and interest thereon.

The agreements with Allegheny and Cheswick provide in substance that (a) Allegheny and Cheswick will pay their share of any additional Federal income and excess profits taxes on a consolidated tax return basis, for all years through 1950 up to an aggregate of (i) the respective amounts accrued therefor on their books as of July 3, 1952 ($57,031.52 in the case of Allegheny and $6,412.16 in the case of Cheswick), and (ii) their respective shares of interim refunds received after July 3, 1952; and (b) that Philadelphia will assume all liability for such taxes for the years through 1950 in excess of such respective aggregate amounts and will be entitled to receive all net refunds and interest thereon for such years.

In its findings and opinion approving Step I of the aforesaid Standard plan, this Commission found that the proposed agreements would be fair and equitable to Standard's security holders and to Philadelphia, Duquesne, Allegheny and Cheswick. In the present filing specific approval is sought as to the execution of the proposed agreements since Duquesne, Allegheny and Cheswick were not parties to the proceeding involving Step I of the Standard plan.

The declarants estimate that their expenses will not exceed $100 and state that services of counsel are not to be separated from their general services in connection with Step I of the Standard plan, for which compensation will be sought in connection with the reorganization of Standard.

The filing indicates that no State or Federal Commission, other than this Commission, has jurisdiction over the proposed tranactions.

Appropriate notice of said filing having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to the act, and the Commission not having received a request for a hearing with respect to said declaration within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to the declaration, as amended, that the applicable provisions of the act and rules promulgated thereunder are satisfied and that no adverse findings are necessary, that the estimated fees and expenses are not unreasonable and that it is not necessary to impose any terms and conditions other than those set forth below, and the Commission deeming it appropriate in the public interest and in the interest of investors and consumers that said declaration, as amended, be permitted to become effective forthwith, and deeming it appropriate to grant applicants' request for tax recitals conforming to the requirements of Supplement R of the Internal Revenue Code, as amended:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said declaration, as amended, be, and the same hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

It is further ordered and recited, That the exchanges, expenditures, distributions and receipts hereinafter described which are proposed by Philadelphia, Duquesne, Allegheny and Cheswick are hereby authorized and approved and are necessary and appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935, all in accordance with the meaning and requirements of Supplement R of the Internal Revenue Code, as amended, the property to be exchanged, distributed and received upon such transactions, and the expenditures to be made, being specified and itemized as follows:

The execution and delivery by and between Duquesne, Allegheny and Cheswick, on the one hand, and Philadelphia, on the other, of agreements relating to Federal income and excess profits taxes for the periods (ending on or prior to December 31, 1950) in which Duquesne, Allegheny and/or Cheswick were included in consolidated Federal tax returns filed for Standard and other companies in the Standard system, in the forms filed as exhibits in this proceeding and heretofore approved in this order, the distribution to Philadelphia by Duquesne, Allegheny and Cheswick of such rights as Philadelphia may acquire under said agreements to receive any refunds of consolidated Federal income and excess profits taxes and the performance by Duquesne, Allegheny, Cheswick and Philadelphia of the acts and obligations on their parts to be performed under said agreements.

By the Commission.

INVESTORS DIVERSIFIED SERVICES, INC. ET AL.

NOTICE OF APPLICATION STATEMENT OF ISSUES ORDER FOR HEARING

NOVEMBER 25, 1952.

In the matter of Investors Diversified Services, Inc., Investors Stock Fund, Inc., Investors Syndicate of America, Inc., File No. 812-801.

Notice is hereby given that Investors Diversified Services, Inc. ("I. D. S."), Investors Stock Fund, Inc. ("Stock Fund"), and Investors Syndicate of America, Inc. ("Investors Syndicate") have filed a joint application pursuant to sections 6 (c), 17 (a), 17 (b), 17 (d) and 22 (d) of the Investment Company Act of 1940 ("the act") and Rule N-17D-1 thereunder, relating to a retirement plan proposed to be offered to certain employees of I. D. S., including officers, who become eligible under its terms.

I. D. S. is registered under the Act as a face-amount certificate company. It is engaged in servicing its outstanding face-amount certificates sold prior to the enactment of the act and is also the distributor of the securities of, and the investment adviser for Investors Syndicate, a registered face-amount certificate company and a wholly-owned subsidiary, and Investors Mutual, Inc., Stock Fund and Investors Selective Fund, Inc., registered open-end investment companies organized and promoted by I. D. S. It also has a wholly-owned subsidiary, Investors Syndicate Title & Guaranty Company of New York, engaged in selling face-amount certificates in New York State and a wholly owned subsidiary, Investors Syndicate of Canada, Ltd., engaged in selling face-amount certificates in Canada and in distributing the securities of and managing Investors Mutual of Canada, Ltd., an open-end investment company. I. D. S. is controlled by Alleghany Corporation, a holding company.

Under the proposed plan, I. D. S. will contribute for past and future service and eligible employees will also contribute from date of eligibility to retirement or termination of eligibility. I. D. S. may not contribute in any one year more than ten percent of its total obligation for past service but not more than $150,000, plus not more than four percent of the annual gross salary to all employees for future service. Total contributions in any one year by I. D. S. may not exceed twenty percent of its net income (including undistributed earnings of subsidiaries and before taxes) for the preceding fiscal year. It appears that the annual cost to I. D. S., before tax savings, would be $112,000 annually for ten years for past service and would range from $126,000 in 1952 to $162,000 in 1957 for future service. Eligible employees are to contribute three percent of annual earnings up to $3,600 plus 4½ percent of such earnings in excess thereof. The contributions will be placed in trust and invested in shares of Stock Fund and in fully-paid face-amount certificates of Investors Syndicate, without loading charge. To be eligible, employees including officers must have completed two years of service, be at least thirty years of age and not over sixty, except that those over sixty at the effective date of the plan will participate. Adoption of the plan is contingent upon approval of the Bureau of Internal Revenue under section 165 of the Internal Revenue Code and of the Wage and Salary Stabilization Boards.

Section 17 (d) of the act and Rule N-17D-1 thereunder prohibit affiliated persons, such as officers or employees, of a registered investment company from participating in a pension plan unless the Commission issues an order upon application therefor, prior to submission of such plan to security holders for approval or prior to its adoption if not so submitted.

Sections 17 (a) and (b) prohibit the sale and purchase of securities between affiliated persons, such as the acquisition of securities of Stock Fund and Investors Syndicate by the plan, unless the Commission issues an order upon application therefor after finding that the prescribed standards of section 17 (b) have been met.

Section 22 (d) prohibits the sale of redeemable securities of registered investment companies, such as those of Stock Fund to the plan, below the current public offering price described in the prospectus, except in certain instances not here pertinent.

Section 6 (c) permits the Commission upon application to exempt any person or transaction from any provision of the act, conditionally or unconditionally, if necessary or appropriate in the public interest and consistent with the protection of investors and the purposes of the act.

For a more detailed statement of matters of fact and law, all interested persons are referred to said application which is on file at the office of the Commission at 425 Second Street NW., Washington 25, D. C.

The Division of Corporation Finance has advised the Commission that upon a preliminary examination of the application, it deems the following matters and issues to be raised thereby, without prejudice to the specification of additional issues upon examination:

1. Whether the provisions of the plan are consistent with the public interest and the protection of investors, and the provisions, policies and purposes of the act.

2. Whether the cost of the plan in relation to the financial position of I. D. S. is detrimental to certificate holders.

3. Whether, and the extent to which, the issuance of the order requested should be subject to conditions or arrangements as may appear necessary or appropriate in the public interest and the protection of investors.

It appearing to the Commission that a hearing upon the application is necessary and appropriate:

It is ordered, Pursuant to section 40 (a) of said act, that a public hearing on the aforesaid application be held on December 15, 1952, at 10:00 a. m., e. s. t., in Room 193 of the offices of the Commission, 425 Second Street NW., Washington 25, D. C.

It is further ordered, That Harold B Teegarden or any officer or officers of the Commission designated by it for that purpose shall preside at the hearing and any officer or officers so designated to preside at such hearing are hereby authorized to exercise all of the powers granted to the Commission under sections 41 and 42 (b) of the Investment Company Act of 1940 and to hearing officers under the Commission's rule of practice.

Notice of such hearing is hereby given to Investors Diversified Services, Inc., Investors Stock Fund, Inc., Investors Syndicate of America, Inc., and to any other person or persons whose participation in such proceeding may be necessary or appropriate in the public interest or for the protection of investors. Any person desiring to be heard in said proceeding should file with the hearing officer or the Secretary of the Commission, on or before December 10, 1952, his application therefor as provided by Rule XVII of the rules of practice of the Commission, setting forth therein any matters or issues he desires raised by the aforesaid application.

By the Commission.

National Production Authority

[Suspension Order 44; Docket No. 46]

COWIN AND CO., INC.

MODIFICATION OF SUSPENSION ORDER

The above-entitled matter is before the Chief Hearing Commissioner, National Production Authority, on the prayer for relief by the respondent under the provisions of paragraph (c) of section 5 of NPA Rules of Practice, 17 F. R. 8156, from the provisions of a suspension order entered November 3, 1952, by NPA Hearing Commissioner Stanley H. Johnson, of Denver, Colo.

Appearances:

Rex H. Kitts, of the law firm of Faegre & Benson, of Minneapolis, Minn., for the respondent.

Robert H. Winn, Assistant General Counsel, attorney Jonathan B. Rintels, both of Washington, D. C.; Berthold J. Harris, Regional Attorney, Chicago, Ill., and W. J. Steichen, Regional Compliance Officer, Minneapolis, Minn., for the National Production Authority.

It is alleged by the respondent aforesaid that by agreement reached by counsel for Cowin & Company, Inc., and the National Production Authority, prior to the entry of the aforesaid order of disposition of November 3, 1952, no objection would be raised by the Government to a recoupment of such amount as might be decided upon by the hearing commissioner, apportioned among the various product codes under which the respondent receives allotments as said respondent may elect.

It is further alleged that through inadvertence the above agreement was not timely communicated to said hearing commissioner, and as a result the suspension order as now entered requires the respondent to reduce in K-1 by 58,000 pounds, and in K-7 by 438,000 pounds.

Said order of November 3, 1952, now provides:

1. That respondent's total allotments of carbon steel under K-1 be reduced 58,000 pounds as follows: 18,000 pounds during the remainder of the fourth quarter 1952, and 20,000 pounds each in the first and second quarters 1953.

2. That respondent's total allotments of carbon steel under K-7 be reduced 438,000 pounds as follows: 138,000 pounds or more at the option of respondent in the fourth quarter 1952; one-half of the balance in the first quarter 1953; and the remainder in the second quarter 1953.

3. That respondent's total allotments of aluminum be reduced 11,763 pounds, as follows: 10,000 pounds in the fourth quarter 1952, and the balance in the first quarter 1953.

Respondent specifically prays that the above-quoted original paragraphs 1, 2, and 3 of said order of November 3, 1952, be set aside and that there be substituted therefor the following provisions:

1. That respondent's total allotments of carbon steel under K-1 and K-7 be reduced 496,000 pounds as follows: 156,000 pounds or more at the option of respondent in the fourth quarter 1952; one-half of the balance in the first quarter 1953; and the remainder in the second quarter 1953.

2. That respondent's total allotments of aluminum be reduced 11,763 pounds, as follows: 10,000 pounds in the fourth quarter 1952, and the balance in the first quarter 1953.

Counsel for the National Production Authority has joined counsel for the respondent in the foregoing prayer, and with the concurrence of Hearing Commissioner Stanley H. Johnson the aforesaid order of November 3, 1952, is hereby amended by striking therefrom the above quoted paragraphs 1, 2, and 3 of said order and by the substitution therefor of paragraphs 1 and 2 as set out above.

Said order of November 3, 1952, is further amended by substituting the word "purchases" in the 23d and 24th lines of the third textual paragraph of the order for the word "purposes."

Issued at Washington, D. C., this 20th day of November 1952.

That section 3 (d) of National Production Authority Direction 1 to its CMP Regulation No. 6, as amended August 22, 1951, prohibits the construction of the type of project described in Findings No. 2 hereof, in which the total requirements for completion of such construction exceeds two (2) tons of carbon steel and two hundred (200) pounds of copper and copper-base alloy; and section 4 (a) of National Production Authority Order M–4A, as amended August 20, 1951, prohibits the commencement of such construction, while section 4 (b) of said order prohibits the continuation thereof after September 30, 1951, and section 3 (a) (2) of National Production Authority CMP Regulation No. 6, as amended March 6, 1952, prohibits the continuation of such construction after March 5, 1952; and said provisions of said order, regulation, and direction were in full force and effect during the period set out in Findings No. 2 hereof.

5. That no evidence was submitted that the violations by the respondents were willful or done with the intent to violate the Act or defeat its purposes, but on the other hand it was stipulated by the respondents that the respondents relied upon the opinion of their architect in constructing said project, who advised them that said construction was not prohibited by said orders because it would be commenced prior to October 1, 1951, and only controlled materials that were in the inventory on or before October 1, 1951, would be incorporated into the structures described in said statement of charges, which conclusively shows that the respondents knew of the regulations, and the failure to properly examine such regulations and ascertain the contents of such regulations is tantamount to a willful violation.

Conclusions: That during the period beginning September 29, 1951, and ending on or about April 20, 1952, the respondents, and each of them, herein violated the provisions of the National Production Authority order, regulation, and direction as hereinabove cited, in that they constructed a Table I project, to-wit: a swimming pool, cabanas, and bathhouses, on the north side of North Treasure Drive and East of Hispanola Avenue, North Bay Village, Dade County, Florida, in which the total requirements of steel and copper controlled materials for said construction exceeded by twenty-one (21) tons, the two (2) tons of carbon steel, and exceeded by three hundred and forty (340) pounds, the two hundred (200) pounds of copper permitted by the provisions in said orders for use in such construction.

In order to remedy the disruptions in the priority and allocation program and in order to correct the unauthorized and improper use of controlled materials occasioned by the violations herein found, and in order to prevent future violations of National Production Authority orders, regulations, and directives by the respondents,

It is ordered: 1. That all priority assistance be and is hereby withdrawn and withheld from White Star Realty Company, Inc., Evelyn Homes, Inc., Treasure Isle Pool and Cabanas, Inc., and from Bernard A. Kornblum and Irving Greenfield, as an officer or as officers of said corporations, or either of them, and individually, and each of their respective successors and assigns, for a period of ninety (90) days beginning October 1, 1952.

2. That all allocations and allotments of controlled materials and materials under the control of the National Production Authority be and they are hereby withdrawn and withheld from White Star Realty Company, Inc., Evelyn Homes, Inc., Treasure Isle Pool and Cabanas, Inc., and from Bernard A. Kornblum and Irving Greenfield, as an officer or as officers of said corporations, or either of them, and individually, and each of their respective successors and assigns, for a period of ninety (90) days beginning October 1, 1952.

3. That White Star Realty Company, Inc., Evelyn Homes, Inc., Treasure Isle Pool and Cabanas, Inc., and Bernard A. Kornblum and Irving Greenfield, as an officer or officers of said corporations, or either of them, and individually, and each of their respective successors and assigns, be and they are hereby prohibited from acquiring, using or disposing of controlled materials and materials under the control of the National Production Authority, for a period of ninety (90) day beginning October 1, 1952.

4. That all privileges of self-certification and self-authorization now, or which may be hereafter, granted by the National Production Authority with respect to controlled materials and materials under the control of the National Production Authority be, and they are hereby, withdrawn and withheld from White Star Realty Company, Inc., Evelyn Homes, Inc., Treasure Isle Pool and Cabanas, Inc., and Bernard A. Kornblum and Irving Greenfield, as an officer or as officers of said corporations, or either of them, and individually, and each of their respective successors and assigns, for a period of ninety (90) days beginning October 1, 1952.

Issued at Coral Gables, Fla., this 13th day of November A. D. 1952.

The Office of Price Stabilization has been requested to eliminate the differentials heretofore imposed upon crude petroleum produced from the above Southern Louisiana Fields. During the base period there was a lack of competitive factors and curtailed production of condensate caused by a lack of outlets for natural gas and as a result, this crude condensate was sold at a lower price than that paid for crude condensate of comparable quality produced in this same general area. It appears that this condition has now been eliminated and these differentials should no longer be imposed.

From the information available to this Office, it appears that the requested ceiling price of $2.85 per barrel flat does not exceed the ceiling price of comparable crude condensate produced in this same area.

Special provisions. For the reasons set forth in the Statement of Considerations and pursuant to the provisions of section 3 of Supplementary Regulation 2 to Ceiling Price Regulation 32, *It is ordered:*

1. That the ceiling price at the lease receiving tank for crude condensate produced from the above listed Southern Louisiana Fields shall be: $2.85 per barrel flat.

2. All provisions of Ceiling Price Regulation 32, except as inconsistent with the provisions of this order, shall remain in full force and effect as to the commodities covered by this order.

3. This order may be amended, modified or revoked by the Director of Price Stabilization at any time.

Effective date. This special order shall become effective on November 22, 1952.

MARIPOSA FIELD, BROOKS COUNTY, TEXAS

CRUDE DISTILLATE CEILING PRICES ADJUSTED ON AN IN-LINE BASIS

Statement of considerations. This special order adjusts the ceiling price for the purchase of crude distillate produced from the Mariposa Field, Brooks County, Texas.

The Office of Price Stabilization has been requested to eliminate the differentials heretofore imposed upon crude distillate produced from the Mariposa Field, Brooks County, Texas. During the base period there was a lack of competitive factors and as a result, this crude petroleum was sold at a lower price than that paid for crude distillate of comparable quality produced in this same general area. It appears that this condition has now been eliminated and these differentials should no longer be imposed.

From the information available to this Office, it appears that the requested price of $2.80 per barrel for 40° API gravity and above with a 2-cent differential less for each degree of gravity below 40°, down to $2.38 per barrel for below 20° API gravity does not exceed the ceiling price of comparable crude distillate produced in the same area.

Special provisions. For the reasons set forth in the Statement of Considerations and pursuant to the provisions of section 3 of Supplementary Regulation 2 to Ceiling Price Regulation 32, *It is ordered:*

1. That the ceiling price at the lease receiving tank for crude distillate produced from the Mariposa Field, Brooks County, Texas, shall be: $2.80 per barrel for 40° API gravity and above with a 2-cent differential less for each degree of gravity below 40°, down to $2.38 per barrel for below 20° API gravity.

2. All provisions of Ceiling Price Regulation 32, except as inconsistent with the provisions of this order, shall remain in full force and effect as to the commodities covered by this order.

3. This order may be amended, modified or revoked by the Director of Price Stabilization at any time.

Effective date. This special order shall become effective on November 22, 1952.

Under the provisions of the Agricultural Adjustment Act of 1938, as amended, the Secretary proclaimed a national marketing quota for cigar-filler tobacco and for cigar-filler and cigar-binder tobacco for the 1953–54 marketing year (17 F. R. 8892). The Secretary announced (17 F. R. 8924) that referenda would be held on October 29, 1952, to determine whether cigar-filler tobacco producers and cigar-filler and cigar-binder tobacco producers were in favor of or opposed to marketing quotas for the marketing year beginning October 1, 1953, and to determine whether cigar-filler tobacco producers and cigar-filler and cigar-binder tobacco producers were in favor of or opposed to marketing quotas for the three-year period beginning October 1, 1953. Since the only purpose of this proclamation is to announce the results of the referenda, it is hereby found and determined that with respect to this proclamation, application of the notice and procedure provisions of the Administrative Procedure Act (5 U. S. C. 1003) is unnecessary.

§ 723.405 *Proclamation of the results of the cigar-filler tobacco marketing quota referendum for the marketing year beginning October 1, 1953, and for the three-year period beginning October 1, 1953.* In a referendum of farmers engaged in the production of the 1952 crop of cigar-filler tobacco held on October 29, 1952, 1,670 farmers voted. Of those voting 440 or 26.3 percent favored quotas for a period of three years beginning October 1, 1953; 202 or 12.1 percent favored quotas for only the one year beginning October 1, 1953; and 1,028 or 61.6 percent were opposed to quotas. Since more than one-third of the farmers voting opposed quotas, the national marketing quota for cigar-filler tobacco for the marketing year beginning October 1, 1953, proclaimed on October 1, 1952 (17 F. R. 8892) becomes ineffective. Therefore, marketing quotas will not be in effect on cigar-filler tobacco for the marketing year beginning October 1, 1953.

§ 723.406 *Proclamation of the results of the cigar-filler and cigar-binder tobacco marketing quota referendum for the marketing year beginning October 1, 1953, and for the three-year period beginning October 1, 1953.* In a referendum of farmers engaged in the production of the 1952 crop of cigar-filler and cigar-binder tobacco held on October 29, 1952, 4,854 farmers voted. Of those voting 2,994 or 61.7 percent favored quotas for a period of three years beginning October 1, 1953; 643 or 13.2 percent favored quotas for only the one year beginning October 1, 1953; and 1,217 or 25.1 percent were opposed to quotas. Therefore, the national marketing quota of 77,000,000 pounds proclaimed on October 1, 1952 (17 F. R. 8892) for cigar-filler and cigar-binder tobacco for the 1953–54 marketing year will be in effect for the year beginning October 1, 1953.

PART 729—PEANUTS

REGULATIONS GOVERNING DISTRIBUTION OF PROCEEDS RECEIVED BY COMMODITY CREDIT CORPORATION FROM SALE OF VALENCIA TYPE EXCESS PEANUTS OF 1951 CROP FOR CLEANING AND SHELLING

Basis and purpose. The amendment contained herein permits the State or County PMA Committee to make payment to the Treasurer of the United States of amounts due a producer from distribution of proceeds received by Commodity Credit Corporation from the sale of Valencia type excess peanuts of the 1951 crop for cleaning and shelling, to the extent of any indebtedness of the producer to the United States, in any instance where a producer cannot be located or has failed or refused to sign an application for payment without good cause.

Prior to preparing this amendment, public notice of its formulation was published in the FEDERAL REGISTER (17 F. R. 9563) in accordance with section 4 of the Administrative Procedure Act (5

U. S. C. 1003). No data, views, or recommendations pertaining to the amendment were received within the time prescribed.

Section 729.289 of the Regulations Governing the Distribution of Proceeds Received by Commodity Credit Corporation from the Sale of Valencia Type Excess Peanuts of the 1951 Crop for Cleaning and Shelling (17 F. R. 4644) is hereby changed to read as follows:

§ 729.289 *Application for payment.* In order to receive payment, each producer must sign an application for payment (CCC Peanut Form 836) certifying the correctness of his percentage and poundage shares. The applicable provisions of the "General Procedure for Applications for Payment", PMA Instruction No. 1066.1 (formerly ACP–207), a copy of which shall be available for public inspection in the office of each county committee, shall apply to the signing of applications for payment or other documents under these regulations. The county committee shall make the application for payment with respect to each farm available for signature by the producer(s) either in the office of the county committee or by mailing such application for payment to the farm operator with a request that he obtain each producer's signature on such application. The county committee shall mail to each producer, at his last known address, a notice informing him whether the application for payment is available in the office of the county committee for signature or is being mailed to the farm operator for signature by each producer. Such notice shall specify the time within which all producers must sign such application and, if the application was mailed to the farm operator, the notice shall also specify the time within which the application must be returned to the county committee. No payment shall be made to any producer on the farm until all producers on the farm have signed the application for payment: *Provided, however,* That, if the county committee determines, after expiration of the time for signature specified in the notice to each producer, that any producer cannot be located or that he has failed or refused to sign such application without good cause, the county committee may determine the amount due each producer in accordance with § 729.288 and payment may be made on the basis of such determination to each producer who has signed such application, and such determination of amount due and payments made thereunder shall be final and conclusive with respect to all producers on the farm: *And provided, further,* That if the county committee determines, after expiration of the time for signature specified in the notice to each producer, that any producer, who it determined could not be located or had refused to sign such application without due cause, is indebted to the United States, the State or county committee shall issue a sight draft on Commodity Credit Corporation, in favor of the Treasurer of the United States, for the smaller of (a) the amount of the producer's indebtedness to the United States or (b) the amount due the producer determined in accordance with § 729.288, and shall mail to the producer, at his last known address, a notice informing him of the action taken; such action by the county committee shall not, however, irrespective of whatever period of time for signature was specified in the original notice to each producer, be taken prior to sixty days from the date of such notice, and shall not affect any right of the debtor to contest the justness of the indebtedness involved either by administrative appeal or by legal action.

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

PART 949—MILK IN SAN ANTONIO, TEXAS, MARKETING AREA

ORDER AMENDING ORDER REGULATING HANDLING

§ 949.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agriculture Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon proposed amendments to the tentative marketing agreement and to the order, regulating the handling of milk in the San Antonio, Texas, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions of said order as hereby amended, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for such milk, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order as hereby amended regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary, in the public interest, to make this order, amending the order, effective not later than December 1, 1952. Any delay beyond that date in the effective date of this order would result in hardship to producers whose pastures and fields have been seriously affected by drought and heat. Supplies of producer milk in San Antonio would suffer because of shifting of milk to other markets or because of decreased milk production on the dairy farms supplying San Antonio handlers.

The provisions of the said order are known to handlers, having been published in a decision which appeared in the FEDERAL REGISTER November 22, 1952 (17 F. R. 10658). The changes effected by this order will not require extensive preparation or substantial alteration in method of operation for handlers. It is hereby found therefore that good cause exists for making this order effective December 1, 1952. (Sec. 4 (c); Administrative Procedure Act, 5 U. S. C. 1001 et seq.)

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order, amending the order, which is marketed within the San Antonio, Texas, marketing area) of more than 50 per cent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order is approved or favored by at least two-thirds of the producers who participated in a referendum thereon and who, during the determined representative period (September 1952), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the San Antonio, Texas, marketing area, shall be in conformity to and in compliance with the terms and conditions of the aforesaid order as hereby amended as follows:

1. Change the period at the end of § 949.51 (c) to a colon and add the following: *"Provided,* That there shall be added to such price 46 cents from the effective date hereof through February 1953, and 23 cents during March 1953."

2. Delete the factor "1.2" in § 949.81 and substitute therefor "1.1".

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Issued at Washington, D. C., this 28th day of November 1952, to be effective on and after December 1, 1952.

Acting Secretary of Agriculture.

PART 608—DANGER AREAS

ALTERATIONS

The danger area alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted to become effective when indicated in order to promote safety of the flying public. Since a military function of the United States is involved, compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act is not required. Part 608 is amended as follows:

1. In § 608.14, the Winters, California, area (D–408), published on May 20, 1952 in 17 F. R. 4558, is deleted.

2. In § 608.41, the Cherry Point, North Carolina, areas, published on November 8, 1952 in 17 F. R. 10139, are amended by changing the "Description by geographical coordinates" column to read: "1. TITLE 32—NATIONAL DEFENSE

Chapter XIV—The Renegotiation Board

Subchapter B—Renegotiation Board Regulations Under the 1951 Act

PART 1459—COSTS ALLOCABLE TO AND ALLOWABLE AGAINST RENEGOTIABLE BUSINESS

OTHER COSTS, EXPENSES AND RESERVES

Section 1459.8 is amended by adding a new paragraph (e) to read as follows:

(e) *Research and development expenses.* (1) Research and development expenses allowable as costs under the Internal Revenue Code for the year under review will be allocated to renegotiable business to the extent that such expenses are required for, or incidental to the performance of, any renegotiable contract.

(2) Other research and development expenses, likewise allowable in the year under review as costs under the Internal Revenue Code, may be allocated to renegotiable business under certain conditions, as follows:

(i) If the expense was incurred in accordance with the usual business practice of the contractor, in basic research not immediately related to any current business but expected to produce ultimate benefit to the contractor's business as a whole; or

(ii) If the expense was incurred in developing processes or products as a preparation to enable the contractor to bid or negotiate for future defense business, or to perform such business more efficiently.

(3) If the contractor has incurred in prior years research and development expenses which benefit performance of current renegotiable business, such expenses, to the extent that they exceed costs allowed under subparagraphs (1) and (2) of this paragraph and were not allowed as costs or considered in any prior renegotiation, may be considered under the provisions of § 1460.10 of this subchapter.

(4) Research and development expenses not meeting the foregoing criteria, and in particular such expenses incurred for product or process research in preparation for reconversion and post-emergency non-defense business, may not be allocated in any part to renegotiable business, or considered in renegotiation for any year.

(5) In some cases, a contractor may capitalize expenditures on research and development, pursuant to its method of accounting employed for tax purposes. Such expenditures are then of course not allowable as costs in renegotiation. However, at times there may be deductions allowed for Federal tax purposes, when such expenditures are later charged off in whole or in part. The allocation of such deductions to renegotiable business will be governed by the principles set forth above with respect to allocation of costs.

PART 1466—TERMINATION OF RENEGOTIATION

Sec.
1466.1 Statutory provision.
1466.2 Definition of "termination date."
1466.3 Renegotiability of amounts received or accrued and allowability of costs paid or incurred after termination date.
1466.4 Fiscal year proceedings in which amounts received or accrued and costs paid or incurred after the termination date will be considered.

AUTHORITY: §§ 1466.1 to 1466.4 issued under sec. 109, 65 Stat. 22; 50 U. S. C. App. Sup. 1219. Interpret or apply sec. 102, 65 Stat. 8; 50 U. S. C. App. Sup. 1212.

§ 1466.1 *Statutory provision.* Section 102 (a) of the act provides as follows:

The provisions of this title shall be applicable (1) to all contracts with the Departments specifically named in section 103 (a), and related subcontracts, to the extent of the amounts received or accrued by a contractor or subcontractor on or after the first day of January 1951, whether such contracts or subcontracts were made on, before, or after such first day, and (2) to all contracts with the Departments designated by the President under section 103 (a), and related subcontracts, to the extent of the amounts received or accrued by a contractor or subcontractor on or after the first day of the first month beginning after the date of such designation, whether such contracts or subcontracts were made on, before, or after such first day; but the provisions of this title shall not be applicable to receipts or accruals attributable to performance, under contracts or subcontracts, after December 31, 1953.

§ 1466.2 *Definition of "termination date."* "Termination date" means December 31, 1953.

§ 1466.3 *Renegotiability of amounts received or accrued and allowability of costs paid or incurred after termination date*—(a) *In general.* The act applies only to amounts received or accrued which are attributable to performance under contracts on or before the termination date. It is immaterial whether the contracts under which such amounts are derived are completed before or after the termination date. The purpose of this section is to state the circumstances under which amounts received or ac-

crued and costs paid or incurred after the termination date from contracts performed in whole or in part on or before the termination date will be considered to be attributable to performance on or before the termination date.

(b) *Amounts received or accrued—(1) Completed contract method of accounting.* If a contractor, pursuant to § 1459.1 (b) of this subchapter, employed a completed contract method of accounting for the fiscal year of the contractor which included the termination date, there will be considered as attributable to performance on or before the termination date an amount of receipts or accruals which bears the same relationship to the total income derived from the contract as the amount of work performed under the contract on or before the termination date bears to the total amount of work performed under the contract.

(2) *Cash receipts and disbursements method of accounting.* If a contractor, pursuant to § 1459.1 (b) of this subchapter, employed a cash receipts and disbursements method of accounting for the fiscal year of the contractor which included the termination date, only those amounts received on or before the termination date will be considered to be attributable to performance on or before the termination date.

(3) *Other methods of accounting.* If a contractor, pursuant to § 1459.1 (b) of this subchapter, employed for the fiscal year of the contractor which included the termination date a method of accounting other than one of the methods described in subparagraphs (1) and (2) of this paragraph, only those amounts accrued on or before the termination date will be considered to be attributable to performance on or before the termination date.

(4) *When accounting method does not properly reflect renegotiable receipts.* The Board may determine that additional amounts received or accrued by a contractor after the termination date are attributable to performance on or before the termination date when, in the opinion of the Board, the amounts received or accrued on or before the termination date are disproportionate to the performance of the contractor on or before such date. For example, if a manufacturer's representative employs a cash receipts and disbursements method of accounting and if his receipts on or before the termination date are substantially out of proportion to services performed by him on or before the termination date, amounts received after the termination date which are referable to such services will be determined to be attributable to performance on or before the termination date.

(c) *Costs paid or incurred.* Costs paid or incurred after the termination date will be allowed in renegotiation in accordance with the provisions of Part 1459 of this subchapter to the extent that they are paid or incurred in respect of receipts or accruals to which the act applies. Costs paid or incurred on or before the termination date will not be allowed in renegotiation to the extent that they are paid or incurred in respect of receipts or accruals to which the act does not apply by virtue of section 102 (a) thereof and this part.

§ 1466.4 *Fiscal year proceedings in which amounts received or accrued and costs paid or incurred after the termination date will be considered.* Amounts received or accrued after the termination date which are renegotiable pursuant to § 1466.3 will be renegotiated in the renegotiation proceeding relating to the fiscal year in which such amounts were received or accrued in accordance with the method of accounting employed by the contractor pursuant to § 1459.1 (b) of this subchapter for the fiscal year of the contractor which included the termination date. Costs paid or incurred after the termination date which are allowable pursuant to the provisions of § 1466.3 (c) will be allowed in the renegotiation proceeding relating to the fiscal year in which they are paid or incurred in accordance with the method of accounting employed by the contractor pursuant to § 1459.1 (b) of this subchapter for the fiscal year of the contractor which included the termination date.

PART 1470—PRELIMINARY INFORMATION REQUIRED OF CONTRACTORS

Section 1470.3 *Filing of financial statement* is amended by adding a new paragraph (i) to read as follows:

(i) *Fiscal years after termination date.* The Standard Form of Contractor's Report shall be filed for each fiscal year of the contractor ending after the fiscal year which includes the termination date (See § 1466.2 of this subchapter) in which the contractor has received or accrued from renegotiable prime contracts or subcontracts any amounts which the contractor has reason to believe, or which the Board has advised the contractor, are attributable to performance on or before the termination date.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 4, Amdt. 1 to Supplementary Regulation 1]

CPR 4—ANTHRACITE DELIVERED FROM MINE OR PREPARATION PLANT

SR 1—ANTHRACITE BRIQUETS PRODUCED AT OR MADE AT PLANTS IN PENNSYLVANIA ANTHRACITE FIELD

ADJUSTMENT OF CEILING PRICES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 and Economic Stabilization Agency General Order No. 2, this Amendment 1 to SR 1 to CPR 4, is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to Supplementary Regulation 1 adjusts the ceiling price of anthracite briquets by an amount which has been shown to be required under the Industry Earnings Standard.

Anthracite briquets are manufactured by two single-line companies operating in the anthracite coal field. Both companies have submitted a petition for amendment to the Office of Price Stabilization requesting relief under the Industry Earnings Standard. This standard requires that an industry whose current earnings are less than 85 percent of its average earnings during the three best years 1946–1949, with adjustments made for any changes in the net worth, is entitled to have its ceiling prices adjusted so as to permit it to earn at least 85 percent of its average during the base period.

A survey of the anthracite briquet industry was conducted by this office and, as of the end of 1951, the industry's earnings indicated that it was entitled to relief. Since the end of 1951 there have been various increases in the costs of raw materials (anthracite, bituminous coal and asphalt). The available information indicates that the industry is entitled to an increase of one dollar in its ceiling price. This adjustment will increase the ceiling price of anthracite briquets to $11.95 per ton, f. o. b. the plant.

In the judgment of the Director of the Office of Price Stabilization, this amendment is generally fair and equitable and will effectuate the purpose of Title IV of the Defense Production Act of 1950, as amended.

As far as practicable the Director of Price Stabilization gave due consideration to the national effort to achieve maximum production in furtherance of the objectives of the Defense Production Act of 1950, as amended, and to relevant factors of general applicability.

In the formulation of this amendment there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

Supplementary Regulation 1 to CPR 4 is amended in the following respect:

1. Appendix A to Supplementary Regulation 1 to CPR 4, is amended as follows:

APPENDIX A

The following ceiling price subject to the exceptions set forth in this supplementary regulation is established for anthracite briquets, f. o. b. manufacturing plants.

	Ceiling price per net ton
Anthracite briquets	$11.95

NOTE: Persons subject to the regulation shall continue to observe their customary and standard cash discount practices.

(Sec. 704, 64 Stat. 816, as amended, 50 U. S. C. App. Sup. 2154)

Effective date. This amendment 1 to SR 1, CPR 4, shall become effective as of November 28, 1952.

[Ceiling Price Regulation 22, Interpretation 35]

CPR 22—MANUFACTURERS' GENERAL CEILING PRICE REGULATION

INT. 35—CEILING PRICES OF MERGED AND SUCCESSOR CORPORATIONS (SECTION 48a)

A corporate manufacturer of window sashes of various types sells his entire output of light steel sashes to an affiliated corporate distributor. Both corporations are to a large extent commonly owned, and they share the same premises, which are owned by the manufacturer.

The question arises as to the applicability of section 48a of Ceiling Price Regulation 22 where the manufacturer and distributor are consolidated to form a third corporation, or where the distributor is merged into the manufacturer or the manufacturer is merged into the distributor.

Section 48a would apply in the event of a consolidation or either of the proposed mergers. Although the two preexisting corporations had shared the same premises, each must be considered to have been operating in a separate establishment and, in taking over, the transferee (whether the surviving corporation in a merger, or the new corporation resulting from a consolidation) would be deemed to be continuing the business of its transferor or transferors in an establishment which the transferee had not previously operated. Nor would the fact that the manufacturer owned the real estate serve to prevent the applicability of section 43a, such ownership being distinguished from owning the business establishment of another located thereon.

[Ceiling Price Regulation 30, Interpretation 22]

CPR 30—MACHINERY AND RELATED MANUFACTURED GOODS

INT. 22—CARRY-OVER PRICES BY MANUFACTURERS (SECTIONS 33, 45 (U) AND 46 (a))

Certain manufacturers under Ceiling Price Regulation 30, and certain distributors who are resellers under Ceiling Price Regulation 67, have "carry-over" or refinancing agreements with the dealers to whom they sell which permit the dealer to refinance if payment is not made by an agreed maturity date. These agreements usually provide that if a "carry-over" or refinancing after delivery to the dealer is necessary, the seller's price in effect at the time of the refinancing will be the price ultimately paid by the dealer. The question has been raised as to whether or not a dealer who purchases from such a seller and subsequently refinances may be charged the new ceiling price in effect at the time of the "carry-over" of refinancing if this new ceiling price exceeds the ceiling price in effect at the time of delivery.

Section 46 of Ceiling Price Regulation 30 prohibits the sale of any commodity subject to that regulation in excess of the ceiling price established thereunder. The term "sell" is defined to include delivery. To the same effect, only more explicitly with respect to the use of the term "delivery," CPR 67 in addition to defining the term "sell," to include delivery, provides (section 14 (a)) that "No person shall sell or deliver * * * at a price higher than the ceiling price established by this regulation." The General Ceiling Price Regulation which, prior to CPRs 30 and 67, established ceiling prices for both the manufacturers and distributors, and which still cover those manufacturers who have elected not to use CPR 30, contains a similar definition of the term "sell," to include delivery. Accordingly, a "carry-over" or refinancing provision in any agreement between sellers under CPR 30 or CPR 67 and their dealers, permitting a subsequent revision of prices to an amount in excess of the ceiling price in effect at the time of the sale (which term, as indicated, includes delivery) to the dealer, is prohibited.

In addition, section 38 of CPR 30 provides that a commodity subject to the regulation may not be delivered at a price to be adjusted upward in accordance with any increase in a ceiling price after delivery. This serves explicitly to prohibit sellers under that regulation from engaging in the practice described.

INT. 60—PARITY PASS-THROUGH TO COMPANY ACTING BOTH AS PROCESSOR AND DISTRIBUTOR (SECTION 11 (b) AND (c))

A company customarily both processes dry milk powder in its own plant, and purchases that product from other processors and resells it without substantial change of form. It appears that the company is entitled under section 11 (b) of the General Ceiling Price Regulation to a parity pass-through of less than two cents per pound on the powder processed and sold by it whereas it is entitled to a parity pass-through under section 11 (c) of two cents on the powder which it sells as a distributor. Under these circumstances, GCPR does not authorize a parity pass-through increasing the ceiling price on the powder which is processed by the company to the level to which the company is authorized to raise its ceiling price as a distributor by means of a parity pass-through.

INT. 1—EFFECT OF ADJUSTMENT UNDER SECTION 4 ON PRICING OF INVENTORY (SECTION 4)

Inquiries have been received as to whether the adjustment of ceiling prices under section 4 of SR 29 to GCPR of commodities purchased from a manufacturer who has changed his price for a commodity pursuant to CPR 22 permits or requires the adjustment of the ceiling prices of inventory. The references to increases and decreases in ceiling prices as contained in section 4 (a) and (b) to reflect changes in manufacturers' prices relate to the sale of "that" commodity "when purchased from the supplier after the increase (or decrease) is put into effect." The section 4 adjustment applies only to the quantity purchased at the changed price. The limitation to the commodity purchased after the increase or decrease is in effect, serves to exclude inventory.

INT. 2—TREATMENT OF SEPARATELY STATED FREIGHT CHARGES IN DETERMINING NET INVOICE COST (SECTIONS 3, 4, 5)

The question has been raised as to whether the term "net invoice cost" as used in sections 3, 4, and 5 of SR 29 to GCPR includes separately stated freight charges. Those provisions of the GCPR not inconsistent with and not excluded

by its supplementary regulations are applicable thereto, including the definition of "net invoice cost" in section 22 which excludes separately stated freight charges. The exclusion is applicable both to the base period invoice and the invoice upon which the markup is to be applied. As pointed out in Interpretation 21 to GCPR, the inclusion of freight in the new invoice would operate to include it twice.

[General Overriding Regulation 4, Amdt. 14 to Revision 1]

GOR 4—EXEMPTIONS AND SUSPENSIONS OF CERTAIN CONSUMER SOFT GOODS

SUSPENSION OF MEN'S AND YOUNG MEN'S APPAREL, APPAREL FURNISHINGS AND APPAREL ACCESSORIES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 14 to General Overriding Regulation 4, Revision 1, is hereby issued.

Statement of considerations. This amendment adds to the commodities suspended from price control most items of men's and young men's apparel, apparel furnishings and apparel accessories. This action is taken in line with the policy of suspending or otherwise relaxing controls on commodities when their selling prices generally are materially below ceilings and are not expected to reach ceiling prices in the foreseeable future.

As stated in the Statement of Considerations accompanying the suspension of price controls over women's, misses' and junior misses' apparel, the yarns and fabrics used in the manufacture of the bulk of apparel items have been suspended from price control for more than four months and their prices are still generally some 20 to 25 percent below their ceilings.

A recently completed study of men's and young men's apparel, apparel furnishings and apparel accessories has indicated that, at this time, price controls on these items are not necessary to effectuate the purposes of the Defense Production Act of 1950, as amended.

The men's and young men's apparel group includes a wide range of items such as suits, overcoats, tailored sport clothing, shirts, shorts and pajamas, work clothing, knit outerwear and underwear. By October 1952, according to Bureau of Labor Statistics figures, manufacturers' prices in the group most closely corresponding to the items suspended by this amendment had declined 6.6 percent from their high in April and May 1951. At retail, men's clothing prices in September 1952, the latest month for which consumer price data are available, were down 4.0 percent from the peak reached in September 1951. Since May 1952 there have been substantial increases in production of nearly all men's and young men's apparel items and goods are plentiful in the markets. Many of the tailored clothing manufacturers have announced their prices for the spring of 1953, and in most cases of record such prices are the same as or below the prices for the previous spring season. In no known instance has a manufacturer announced an increase in price, and there is no indication that any material rise in prices in this area in the foreseeable future is likely.

The men's and young men's apparel items suspended at the manufacturing level by this action are covered by CPR 45, Rev. 1. Since the use of that regulation has not been made mandatory, manufacturers have had the option of determining their ceiling prices for these items under that regulation or the GCPR. In general, these same items are suspended by this action at the wholesale and retail levels. However, in order to avoid the confusion which would result from subdividing CPR 7 categories, it has been found advisable in some cases to suspend an entire category though it includes some items not suspended at the manufacturing level, or, in other cases, to keep the entire category under control.

In view of the above considerations, it is the judgment of the Director of Price Stabilization that price controls on sales of these commodities are not required at this time to carry out the purposes of the Defense Production Act of 1950, as amended.

The Director may at any time modify or terminate this suspension if he determines that such action is required in the interest of the stabilization program. In any event, this suspension will be terminated as to any segment of these industries when controls are reimposed on the principal fabrics used by that segment in the manufacture of these commodities.

All records which were required to be prepared and preserved under the applicable ceiling price regulations in effect prior to this amendment must continue to be preserved.

In the formulation of this amendment there has been consultation with industry representatives, including trade association representatives, to the extent practicable and consideration has been given to their recommendations.

Amendatory provisions. Section 3 of General Overriding Regulation 4, Revision 1, is amended by adding the following paragraphs:

(p) The following articles, when sold by the manufacturer (including a manufacturing retailer):

(1) Men's and young men's apparel, apparel furnishings and apparel accessories made of textile materials, leather, fur, plastic, other materials which are normally sewed as part of the assembly operation, or a combination of such materials. Specifically excluded from this paragraph, however, are articles for surgical, corrective or orthopedic use, such as knitted elastic corrective garments, abdominal belts, or orthopedic braces.

(q) The following articles, when sold at wholesale or retail, except sales made in the territories and possessions of the United States. A sale at wholesale or retail is a sale by a person who buys an article and resells it without substantially changing its form. (The articles suspended by this paragraph are described, for convenience, in terms of the categories named in CPR 7, Retail Ceiling Prices for Certain Consumer Goods. However, all wholesale and retail sales of the articles described are suspended from price control regardless of whether their ceiling prices have been determined under the General Ceiling Price Regulation or CPR 7.)

NOTICES

POST OFFICE DEPARTMENT

FOURTH-CLASS MAIL

PROPOSED INCREASED POSTAGE RATES AND OTHER REFORMATIONS

The Comptroller General of the United States has ruled, in decisions dated March 19, 1952 and June 17, 1952 (B-108245), that (1) the general provisions relating to the Post Office Department contained in Chapter IV of the Supplemental Appropriation Act, 1951, approved September 27, 1950 (64 Stat. 1050; 31 U. S. C. 695), constitutes permanent legislation; and (2) in withdrawing appropriated funds from the general funds of the Treasury to the Post Office Department on or after July 1, 1952, the Post Office Department must certify that "its latest cost analysis shows that the fourth-class mail rates are producing sufficient revenues to cover the cost of carrying such mail, or that a further petition has been filed with the Interstate Commerce Commission for an increase in the rates to cover the deficiences therein as disclosed by the annual cost accounting operations of the Post Office Department." Such petition was filed with the Interstate Commerce Commission on June 25, 1952, and notice of such filing was published in Volume 17 of the FEDERAL REGISTER at page 5832.

On the basis of the best information now available the increases in the fourth-class mail rates and other reformations, hereinafter set forth, are necessary to produce sufficient revenues to cover the cost of carrying such mail.

Pursuant to the notice of this Department (17 F. R. 5832), interested parties are afforded an opportunity to present written data, views, or arguments for consideration by this Department prior to the filing of the proposed increased postage rates for fourth-class mail, and other reformations, with the Interstate Commerce Commission pursuant to section 207, 43 Stat. 1067, as amended (39 U. S. C. 247), and Chapter IV, 64 Stat. 1050 (31 U. S. C. 695).

Accordingly, (1) available information (which is subject to refinement) on which the following rate increases and other reformations are based, may be obtained from the Comptroller, Bureau of Accounts, Post Office Department, Washington 25, D. C., upon request; (2) representatives of the Post Office Department will be available for conference with respect to the proposed rate increases and other reformations on December 15, 1952, at 10 a. m., in Room 3237, Post Office Department, Twelfth Street and Pennsylvania Avenue, NW., Washington, D. C.; and (3) all written data, views, or arguments for consideration by the Post Office Department in determining the extent and character of rates and other reformations to be established with respect to fourth-class mail must be transmitted to the Postmaster General, Post Office Department, Washington 25, D. C., not later than the thirtieth day after the publication of this notice in the FEDERAL REGISTER.

Increases in postage rates for fourth-class mail, and other reformations necessary to produce sufficient revenues to cover the cost of carrying such mail, are as follows:

[Docket Nos. G–1142, G–1508, G–2019 and G–2074]

UNITED GAS PIPE LINE CO.

ORDER CONSOLIDATING PROCEEDINGS, FIXING DATE OF HEARING, SPECIFYING PROCEDURE, AND PERMITTING INTERVENTION

NOVEMBER 25, 1952.

By order of October 12, 1948, at Docket No. G–1142, the Commission on its own motion, instituted an investigation for the purpose of enabling it to determine, among other things, whether any rates charged by United Gas Pipe Line Company (United) for the sale of natural gas subject to the jurisdiction of the Commission are unjust, unreasonable, unduly discriminatory or preferential; and if, after hearing, it shall find that any such rates are unjust, unreasonable, unduly discriminatory or preferential, to fix just, reasonable, nondiscriminatory or nonpreferential rates to be thereafter observed and in force.

By order issued October 16, 1950, at Docket No. G–1508, the Commission re-

quired United to file with the Commission in conformity with Part 154 of the Commission's general rules and regulations a tariff constituting a restatement of all its effective schedules of rates, charges, classifications, practices, regulations and contracts for the transportation or sale of natural gas subject to the jurisdiction of the Commission, except as otherwise permitted by said Part, on or before January 2, 1951, or to show good cause why it should not file such a tariff.

By order issued November 30, 1950, the Commission consolidated the proceedings at Docket Nos. G–1142 and G–1508 for purposes of hearing. Later, by order issued April 25, 1951, the hearing fixed to commence upon such consolidated proceedings was postponed to a date and place to be thereafter fixed by further order of the Commission.

By its order issued August 1, 1952, at Docket No. G–2019, the Commission suspended, in part, the operation of a rate tariff—designated FPC Gas Tariff, Original Volume No. 1—tendered for filing on July 3, 1952, by United Gas Pipe Line Company (United) so far as it related to proposed Rate Schedules PL–3, T–1, T–2, and T–3, including the applicable General Terms and Conditions together with pre-existing contract statements pertinent thereto, as well as certain proposed notices of cancellation listed in Appendix A to such order.

By its order issued October 15, 1952, at Docket No. G–2074, the Commission suspended the operation of proposed First Revised Sheet Nos. 14 and 15 to United's FPC Gas Tariff, Original Volume No. 1; consolidated the proceeding upon the rate increase application at Docket No. G–2074 with that at Docket No. G–2019 for purposes of hearing; and ordered that a public hearing be held at a time and place and at a date to be fixed by further order of the Commission concerning the lawfulness of the rates, charges, classifications, or services, and concerning the lawfulness of proposed notices of cancellation, subject to the jurisdiction of the Commission, as set forth in the suspended matters.

On September 22 and October 9, 1952, petitions seeking leave to intervene in the proceeding upon the rate increase application at Docket No. G–2019 were filed by Mississippi River Fuel Corporation and Southern Natural Gas Company, respectively.

It appears desirable to consolidate the rate investigation proceeding at Docket No. G–1142 and the show cause proceeding at Docket No. G–1508 with the suspension proceedings at Docket Nos. G–2019 and G–2074 so that issues raised by these various proceedings may be heard together.

The Commission finds:

(1) Good cause exists for further consolidating the proceedings at Docket Nos. G–1142 and G–1508 with the consolidated proceedings at Docket Nos. G–2019 and G–2074 for purposes of hearing.

(2) A public hearing in these proceedings should be held at the time and place and at the date hereinafter designated.

(3) It is necessary and appropriate to carry out the provisions of the Natural Gas Act, and it is in the public interest, that the procedure hereinafter prescribed shall be followed at the hearing in order to conduct these proceedings with reasonable dispatch.

(4) The participation of Mississippi River Fuel Corporation and Southern Natural Gas Company in the proceeding at Docket No. G–2019 may be in the public interest.

The Commission orders:

(A) The above-entitled proceedings be and they hereby are consolidated for purposes of hearing.

(B) A public hearing be held commencing on December 15, 1952, at 10:00 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues raised by the proceedings and pleadings at Docket Nos. G–1142 and G–1508; concerning the lawfulness of the rates, charges, and classifications, subject to the jurisdiction of the Commission, as set forth in Rate Schedules PL–3, T–1, T–2, and T–3, including the applicable general terms and conditions together with the pre-existing contract statements pertinent thereto, of FPC Gas Tariff, Original Volume No. 1, filed on July 3, 1952, by United Gas Pipe Line Company; concerning the lawfulness of the proposed notices of cancellation set forth in Appendix A to the order issued August 1, 1952, at Docket No. G–2019; and concerning the lawfulness of the rates, charges, and classifications, subject to the jurisdiction of the Commission, as set forth in First Revised Sheet Nos. 14 and 15 of United's aforesaid gas tariff, and as filed at Docket No. G–2074.

(C) United Gas Pipe Line Company shall go forward first with the presentation of its evidence at Docket Nos. G–1142, G–1508, G–2019 and G–2074.

(D) After United Gas Pipe Line Company has concluded the presentation of its evidence in the consolidated dockets, other parties, including Counsel for the Staff of the Commission shall conduct as much of their cross-examination as they are then prepared to undertake. Thereafter, the Presiding Examiner shall recess the hearing to a date to be fixed by further order of the Commission, in order to permit such preparation for the remainder of their cross-examination as the facts and circumstances may warrant.

(E) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.37 (f)) of the Commission's rules of practice and procedure.

(F) Petitioners, Mississippi River Fuel Corporation and Southern Natural Gas Company, be and they are hereby permitted to become interveners in the proceeding at Docket No. G–2019, subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such interveners shall be limited to matters affecting asserted rights and interests specifically set forth in such petitions for leave to intervene: and *Provided, further,* That admission of such interveners shall not be construed as recognition by the Commission that such interveners might be aggrieved because of any order of the Commission entered in the proceeding at Docket No. G–2019.

Date of issuance: November 26, 1952.

By the Commission.

[Docket No. G–2037]

PANHANDLE EASTERN PIPE LINE CO.

ORDER PERMITTING WITHDRAWAL OF PETITION FOR LEAVE TO INTERVENE AND FIXING DATE OF HEARING

NOVEMBER 26, 1952.

On September 2, 1952, Panhandle Eastern Pipe Line Company (Applicant), a Delaware corporation with its principal place of business at Kansas City, Missouri, filed an application, amended on October 10, 1952, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act authorizing the construction and operation of certain natural-gas transmission pipeline facilities, subject to the jurisdiction of the Commission, for the purpose of increasing the capacity of its so-called Peoria lateral in Illinois, all as more fully described in said application, as amended, on file with the Commission and open to public inspection.

Temporary authorizations to construct and operate the facilities described in the application, as amended, were granted by the Commission on September 24 and November 6, 1952.

On September 29, 1952, Illinois Power Company filed a petition seeking leave to intervene in this proceeding, but subsequently, on October 30, 1952, requested withdrawal of such petition.

The Commission finds:

(1) Good cause has been shown by Illinois Power Company for the withdrawal of its petition to intervene.

(2) This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure. Applicant having requested that its application be heard under the shortened procedure provided by the aforesaid rule for noncontested proceedings and no pending request to be heard, protest or petition having been timely filed subsequent to the giving of due notice of the filing of the application including publication in the FEDERAL REGISTER on September 13, 1952 (17 F. R. 8280).

(3) It is reasonable and in the public interest and good cause exists for fixing the date of hearing in this proceeding less than 15 days after publication of this order in the FEDERAL REGISTER.

The Commission orders:

VOLUME 17 NUMBER 236

Washington, Thursday, December 4, 1952

TITLE 3—THE PRESIDENT

PROCLAMATION 2999

UNITED NATIONS HUMAN RIGHTS DAY, 1952

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS the Universal Declaration of Human Rights was adopted by the General Assembly of the United Nations on December 10, 1948, as a common standard of achievement for all nations and all peoples, and the anniversary of its adoption is now celebrated each year by free peoples throughout the world; and

WHEREAS the first ten amendments to the Constitution of the United States, our great American Bill of Rights, became effective on December 15, 1791, so that the anniversary of this significant event in our own history falls close to the anniversary of the adoption of the Universal Declaration of Human Rights; and

WHEREAS many of the rights and freedoms set forth in our Bill of Rights and in the Universal Declaration of Human Rights, including the immeasurable privileges of freedom of speech, religion, assembly, and petition, are similarly affirmed in the constitutions and basic laws of our States and territories; and

WHEREAS it is fitting that this anniversary should be observed by our schools, our churches, our labor unions, and our religious, educational, and civic organizations of all kinds the freedom of which has been safeguarded through these guarantees of individual liberty:

NOW, THEREFORE, I, HARRY S. TRUMAN, President of the United States of America, having in 1949 designated December 10 of that year and each succeeding year as United Nations Human Rights Day, do hereby call upon the people of the United States to celebrate December 10, 1952, by studying the Universal Declaration of Human Rights and the Constitution of the United States, and the constitutions of our States and territories, and by giving thanks for the priceless heritage of liberty embodied in these great documents.

We do not forget that in past years men in many lands have died to win these freedoms and preserve them for our generation. It is to defend and safeguard these same freedoms that the United Nations is resisting communist aggression in Korea, and is seeking to promote the liberty and security of all peoples.

In this celebration let us join with the peoples of the other free nations of the world in recognition of our common purpose to defend and further the rights and freedoms of all people as proclaimed in the Universal Declaration of Human Rights, and in so doing renew our determination that here in our own land the great guarantees in our Bills of Rights shall not be lost or weakened or curtailed.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this 1st day of December in the year of our Lord nineteen hundred and [SEAL] fifty-two, and of the Independence of the United States of America the one hundred and seventy-seventh.

HARRY S. TRUMAN

By the President:

DAVID BRUCE,
Acting Secretary of State.

(b) *Dates of export.* No payment under this subpart will be made in connection with any exportation unless the products are exported on or after the effective date of this subpart and prior to the date specified in paragraph (h) of this section. Products shall be deemed to have been exported when loaded on board the exporting carrier provided such products are not thereafter unloaded from such carrier in the United States, its territories, or possessions, and are not diverted to an ineligible country. The date of export of any lot shall be considered to be the date of loading on board the exporting carrier on which movement of such lot from the United States is effected. The date of the on-board bill of lading (or loading tally sheet, see § 517.380 (a) (3)) shall be considered to be the date the products were loaded on board, unless an "on-board" date is shown.

(c) *Minimum size of lot.* No payment will be made under this subpart for the exportation of any lot of less than one hundred (100) units of the eligible products. A unit is 1 box of fresh fruit; 1 case of citrus products or 1 gallon or equivalent of concentrated juice. A lot is that quantity of products loaded to any one export carrier at any one departure consigned to any one consignee.

(d) *Inspection.* Exporters shall furnish, at no expense to the Secretary, certificates of inspection for fresh or processed products exported pursuant to this subpart indicating that the product meets the applicable requirements set forth in § 517.379. Such certificates for fresh fruit shall be issued by representatives of the Federal or Federal-State inspection services and for processed products by representatives of the Processed Products Standardization and Inspection Division, Fruit and Vegetable Branch, PMA, USDA. Inspection of all concentrated products containing sweetening ingredients or preservatives shall be performed during the process of manufacture and also on the finished product after processing. For fresh oranges the period from date of inspection for standards for export to date of exportation, both dates inclusive, must not exceed sixteen (16) days, and for processed products the period from date of completion of inspection to date of exportation, both dates inclusive, must not exceed ninety (90) days: *Provided,* That, upon request of the exporter indicating substantial reasons therefor, the Secretary may, if he deems it desirable, grant an extension of time of such period.

(e) *Packaging.* All products to be exported under this subpart shall be suitably packed for export in new boxes or cases (or new kegs or barrels for preserved concentrate if so specified in sales contract) acceptable for export shipment in accordance with standard commercial practice for export and in a manner which reasonably shall assure their arrival in good condition in the country of destination. The best known practices to prevent shrinkage and decay shall be followed in packing fresh fruit for export shipment.

(f) *Re-entry or diversion.* The exporter shall undertake, as a part of his application, which is required in paragraph (a) of this section, that the products exported under this subpart will thereafter not re-enter the United States or its territories or possessions, or be diverted to other than an eligible

country as listed in this subpart, in fresh or processed form. In the event of such re-entry or diversion to other than an eligible country, the exporter shall refund to the Secretary any export payment received under this subpart with respect to the quantity so re-entered or diverted.

(g) *Use of Mutual Security funds for purchase prohibited.* Exporters are cautioned to advise their foreign buyers that funds appropriated under Chapter XI, entitled Mutual Security, of the Supplemental Appropriation Act, 1953, may not be used to pay any part of the purchase price of products exported under this subpart. This does not prohibit exporters from making sales without benefit of export payments to buyers using such funds.

(h) *Final dates.* The final date for filing an application shall be 12:00 o'clock midnight September 30, 1953. The final date of export shall be 12:00 o'clock midnight September 30, 1953.

(1) General: The product shall be prepared from the unfermented juice obtained from sound, mature fruit of the sweet orange group (Citrus sinensis) and Mandarin group (Citrus reticulata), except tangerines; shall be prepared and processed under sanitary conditions and in accordance with good commercial practice; and, the product, including any labeling, shall conform in every respect with the provisions of the Federal Food, Drug, and Cosmetic Act and regulations promulgated thereunder. Canned concentrated juices shall be sufficiently processed by heat to assure preservation of the product in hermetically sealed containers. Preserved concentrated orange juice shall be prepared with the addition of suitable chemical preservatives as specified. All containers shall be sound and clean. Cans shall be free from rust and serious dents.

(2) Canned concentrated orange juice 3 plus 1 (41.5° to 48° Brix), shall meet the following requirements:

(i) *Style I, without sugar added.* The orange juice from which the concentrate is prepared shall be evaporated to more than 52° Brix but not above 56° Brix concentration and single strength orange juice shall be admixed to standardize the finished concentrate to a Brix value of not less than 41.5° and not more than 44°. No other ingredients may be added. The ratio of the Brix value to acid shall be not less than 12:1 and not more than 17:1. The concentrate shall contain not less than 0.02 milliliter nor more than 0.07 milliliter of recoverable oil per 100 grams of the concentrate.

The concentrate shall contain not less than 0.02 milliliter nor more than 0.07 milliliter of recoverable oil per 100 grams of concentrate.

(iii) *Requirements for the reconstituted juice.* Reconstituted juice is the product obtained by mixing thoroughly 3 parts by volume of water and 1 part by volume of the concentrated juice. The reconstituted juice shall reconstitute properly, shall possess a very good color, shall be practically free from defects, shall possess a very good flavor; and shall contain not less than 30 milligrams of Vitamin C (Ascorbic Acid) per 100 ml. of the reconstituted juice.

(iv) *Explanation of terms and analyses.* (a) "Reconstitutes properly" means that the reconstituted juice shows no material separation of colloidal or suspended matter after standing (4) hours at a temperature of not less than 68 degrees Fahrenheit in a clear glass tube or cylinder (such as a 50 ml. graduated cylinder).

(b) "Very good color" means that the reconstituted juice possesses a bright yellow to yellow-orange color typical of properly pasteurized and concentrated orange juice and is free from browning due to scorching, oxidation, caramelization, or other causes and is not off color for any reason.

(c) "Practically free from defects" means that juice cells may be present or that small seeds or portions thereof that pass through a screen with perforations not exceeding ⅛ inch in diameter may be present provided such substances do not materially affect the appearance or drinking quality of the juice; or other defects may be present that are not more than slightly objectionable.

(d) "Very good flavor" means that the reconstituted juice possesses a flavor equivalent to U. S. Grade A or U. S. Fancy canned orange juice as defined in the United States Standards for Grades of Canned Orange Juice (effective July 29, 1949), exclusive of the Brix, acid, and Brix-acid ratio requirements as stated therein. Distilled water is used in reconstituting the product for testing flavor.

(e) "Brix value", "recoverable oil", "acid", or other terms and their applicable methods not specifically defined herein shall be in accordance with the latest United States Standards for Grades of Frozen Concentrated Orange Juice.

(3) Canned concentrated orange juice, (60° Brix or more) without sugar added, shall meet the requirements for U. S. Grade A as defined in the United States Standards for Grades of Canned Concentrated Orange Juice, effective August 16, 1943, and as amended November 1, 1944. The Brix value of the concentrate is the refractometric sucrose value corrected for anhydrous citric acid. The canned concentrate, if produced from Navel oranges, may posses a characteristic bitter flavor in the reconstituted product, provided such bitterness does not seriously affect the palatability of the product, and provided further, that the sales contract specifically calls for Navel concentrated orange juice.

(4) Preserved concentrated orange juice, (60° Brix or more): The concentrated orange juice, prior to the addition of chemical preservatives, shall meet the quality requirements of subparagraph (3) of this paragraph:

Sulphur dioxide alone or sodium benzoate or benzoic acid or any combination of sodium benzoate and benzoic acid shall be added within the following ranges but only in a quantity necessary as a preservative for the respective concentrations:

Sulphur dioxide: 350 p. p. m. to 750 p. p. m.
Sodium benzoate and or benzoic acid: ⅛ of 1 percent to ⅛ of 1 percent.

(5) Chemical methods: Chemical analyses shall be made in accordance with the methods of the Association of the Official Agricultural Chemists or in accordance with methods that give equivalent results.

§ 517.380 *Claims for payment supported by evidence of compliance.* (a) The exporter shall file claims for payment with the PMA office specified in the approved application not later than thirty (30) days after the date of export of such lot: *Provided*, That, upon request of the exporter indicating substantial reason therefor, the Secretary may, if he deems it desirable, grant an extension of time for such filing. Each claim for payment shall be filed in an original and three copies on voucher Form FDA-504, "Public Voucher—Diversion Programs," shall show the serial number of the related approved application, and shall be supported by:

(1) Two certified copies of the sales contract;

(2) Two certified copies of the sales invoice to the foreign buyer showing:

(i) The f. a. s. sales price,

(ii) The payment to be made by the Secretary, and

(iii) The balance f. a. s. U. S. port to be paid by the buyer (other charges, if any, such as ocean freight, insurance, etc., shall be shown separately on the invoice).

(3) Two copies of the on-board export bill of lading signed by an agent of the exporting carrier (except that where loss, destruction or damage occurs subsequent to loading on board exporting carrier but prior to issuance of the on-board bill of lading, two copies of a loading tally sheet or similar document may be submitted in lieu of such bill of lading) and in the case of exportation via a contiguous country, two signed copies of the on-board bill of lading covering the movement from such contiguous country;

(4) The original (or a signed copy) and one copy of the inspection certificate(s) required in paragraph (d) of § 517.378, and;

(5) Such other documents, if any, as may be required by the Secretary, evidencing purchase, sale and exportation of the commodity on which payment is claimed.

(b) The export bill of lading must show the quantity and description of the commodity, inspection certificate number, or other reference sufficient to relate the commodity loaded on board the export carrier to the commodity covered by the related inspection certificate, the date and place of loading, the fact that such commodity is on board, the destination of the commodity and the name and address of both the exporter and consignee. If the shipper or consignor named in such bill of lading is other than the exporter (seller) named in the application, the exporter shall furnish with each copy of such bill of lading a waiver by such shipper or consignor, in favor of such exporter, of any right to claim payment under this program for the commodity covered by such bill of lading.

(c) The foregoing required evidence will not be accepted as conclusive if the Secretary has reason to believe that exportation of all or any quantity of the products was not actually accomplished or that there has not been compliance with other requirements of this subpart, and in any such instance the Secretary may require such additional evidence as he deems reasonable.

§ 517.381 *Records and accounts.* The exporter shall maintain adequate records showing purchases, sales, and deliveries of products exported or to be exported in connection with this subpart. Such records, accounts, and other documents relating to any transaction in connection with this subpart shall be available during regular business hours for inspection and audit by authorized employees of the United States Department of Agriculture, and shall be preserved for at least two years after the effective date of this subpart.

§ 517.382 *Amendment and termination.* The Secretary may amend or terminate this subpart at any time upon public announcement thereof. Such amendment or termination, however, shall not apply to applications approved under this subpart prior to the effective time of such amendment or termination.

§ 517.383 *Persons not eligible.* No member of, or Delegate to, Congress or Resident Commissioner shall be admitted to any share or part of any payment made under this subpart or to any benefit that may arise therefrom, but this provision shall not be construed to extend to a payment made to a corporation for its general benefit.

§ 517.384 *Set-off.* The Secretary may set-off, against any amount owed to any exportor under this subpart, any amount owed by such exporter to Commodity Credit Corporation, the United States Department of Agriculture, or any other agency of the United States.

§ 517.385 *Joint payment or assignment.* An exporter may name a joint payee on vouchers for payment or may assign the proceeds of any application for export payment to a recognized financing institution as provided in this subpart. The exporter may assign, in accordance with the provisions of the Assignment of Claims Act of 1940, Public Law No. 811, 76th Congress, as amended, the proceeds of any application for export payment to a bank, trust company, Federal lending agency, or other recognized financing institution: *Provided*, That such assignment shall be recognized only if and when the assignee thereof files written notice of assignment, in accordance with the instructions on Form PMA-66 "Notice of Assignment" which form must be used in giving notice of assignment to PMA. The "Instrument of Assignment" may be executed on Form PMA-347 or the assignee may use his own form of assignment. The PMA may be obtained from any Representative of the Secretary.

§ 517.386 *Good faith.* Whereas it is the intent of this subpart to encourage the exportation of fresh and processed oranges produced in the United States by making such products available to foreign buyers at prices below domestic market prices in the amount of the payment offered in this subpart; now, therefore, if the Secretary determines that any exporter has not acted in good faith in carrying out the purpose of this subpart, has not passed on to foreign buyers the incentive payment offered in this subpart, or otherwise fails to discharge fully any obligation assumed by him under this subpart, such exporter may be denied the right to continue participating in this subpart, or the right to receive payment under this subpart in connection with any exportations previously made under this subpart, or both.

The application must be prepared separately for each export sales contract and shall be filed as promptly as possible after the date of sale but in no event later than the date of export. No payment will be made if such application is filed after the date of export unless the Secretary, upon written request by the exporter stating substantial reasons therefor, waives such delay. The Secretary will approve applications meeting the requirements of this subpart, so long as funds which have been allocated to this subpart are available, in the order in which the applications are received or on such other basis as he may determine to be equitable, will give written notice of approval or disapproval to the exporter, and will notify the exporter as promptly as possible after receipt of any application if any information shown in such form does not conform with the terms and conditions of this offer. No payment will be made in excess of the sum indicated in the approved application, unless the Secretary, upon written request by the exporter stating substantial reasons therefor, approves a larger amount.

(2) In the event the sales contract covered by any approved application is canceled or will not be completed by exportation of the product, the exporter shall promptly so notify the Representative of the Secretary who approved the application. Such notices shall be furnished not later than thirty (30) days after the intended date of export shown in the approved application, but in no event later than the date of filing of claim for payment, and also shall request modification of the application to the extent that the quantity exported is less than the quantity covered by the approved application.

(b) *Dates of export.* No payment under this subpart will be made in connection with any exportation unless the products are exported on or after the effective date of this subpart and prior to the date specified in paragraph (h) of this section. Products shall be deemed to have been exported when loaded on board the exporting carrier provided such products are not thereafter unloaded from such carrier in the United States, its territories or possessions, and are not diverted to an ineligible country. The date of export of any lot shall be considered to be the date of loading on board the exporting carrier on which movement of such lot from the United States is effected. The date of the on-board bill of lading (or loading tally sheet, see § 517.395 (a) (3)) shall be considered to be the date the products were loaded on board, unless an "on-board" date is shown.

(c) *Minimum size of lot.* No payment will be made under this subpart for the exportation of any lot of less than one hundred (100) units of the eligible products. A unit is 1 box of fresh fruit, 1 case of citrus products, or 1 gallon or equivalent of concentrated juice. A lot is that quantity of products loaded to any one export carrier at any one departure consigned to any one consignee.

(d) *Inspection.* Exporters shall furnish, at no expense to the Secretary, certificates of inspection for fresh or processed products exported pursuant to this subpart indicating that the product meets the applicable requirements set forth in § 517.394. Such certificates for fresh fruit shall be issued by representatives of the Federal or Federal-State Inspection Services and for processed products by representatives of the Processed Products Standardization and Inspection Division, Fruit and Vegetable Branch, PMA, USDA. Inspection of all concentrated products containing sweetening ingredients shall be performed during the process of manufacture and also on the finished product after processing. For fresh fruit the period from date of inspection to date of exportation, both dates inclusive, must not exceed sixteen (16) days, and for processed products the period from date of completion of inspection to date of exportation, both dates inclusive, must not exceed ninety (90) days: *Provided*, That, upon request of the exporter indicating substantial reasons therefor, the Secretary may, if he deems it desirable, grant an extension of time of such period.

(e) *Packaging.* All products to be exported under this subpart shall be suitably packed for export in new boxes or cases acceptable for export shipment in accordance with standard commercial practice for export and in a manner which reasonably shall assure their arrival in good condition in the country of destination. The best known practices to prevent shrinkage and decay shall be followed in packing fresh fruit for export shipment.

(f) *Re-entry or diversion.* The exporter shall undertake, as a part of his application, which is required in paragraph (a) of this section, that the products exported under this subpart will thereafter not re-enter the United States or its territories or possessions, or be diverted to other than an eligible country as listed in this subpart, in fresh or processed form. In the event of such re-entry or diversion to other than an eligible country, the exporter shall refund to the Secretary any export payment received under this subpart with respect to the quantity so re-entered or diverted.

(g) *Use of Mutual Security funds for purchases prohibited.* Exporters are cautioned to advise their foreign buyers that funds appropriated under Chapter XI, entitled Mutual Security, of the Supplemental Appropriation Act, 1953, may not be used to pay any part of the purchase price of products exported under this subpart. This does not prohibit exporters from making sales without benefit of export payments to buyers using such funds.

(h) *Final dates.* The final date for filing an application shall be 12:00 o'clock midnight September 30, 1953. The final date of export shall be 12:00 o'clock midnight September 30, 1953.

Each claim for payment shall be filed in an original and three copies on voucher Form FDA–564, "Public Voucher—Diversion Programs," shall show the serial number of the related approved application, and shall be supported by:

(1) Two certified copies of the sales contract;

(2) Two certified copies of the sales invoice to the foreign buyer showing:

(i) The f. a. s. sales price,

(ii) The payment to be made by the Secretary, and,

(iii) The balance f. a. s. U. S. port to be paid by the buyer (other charges, if any, such as ocean freight, insurance, etc., shall be shown separately on the invoice);

(3) Two copies of the on-board export bill of lading signed by an agent of the exporting carrier (except that where loss, destruction or damage occurs subsequent

to loading on board exporting carrier but prior to issuance of the on-board bill of lading, two copies of a loading tally sheet or similar document may be submitted in lieu of such bill of lading) and in the case of exportation via a contiguous country, two signed copies of the on-board bill of lading covering the movement from such contiguous country;

(4) The original (or a signed copy) and one copy of the inspection certificate(s) required in paragraph (d) of § 517.393, and;

(5) Such other documents, if any, as may be required by the Secretary, evidencing purchase, sale and exportation of the commodity on which payment is claimed.

(b) The export bill of lading must show the quantity and description of the commodity, inspection certificate number, or other reference sufficient to relate the commodity loaded on board the export carrier to the commodity covered by the related inspection certificate, the date and place of loading, the fact that such commodity is on board, the destination of the commodity, and the name and address of both the exporter and consignee. If the shipper or consignor named in such bill of lading is other than the exporter (seller) named in the application, the exporter shall furnish with each copy of such bill of lading a waiver by such shipper or consignor, in favor of such exporter, of any right to claim payment under this subpart for the commodity covered by such bill of lading.

(c) The foregoing required evidence will not be accepted as conclusive if the Secretary has reason to believe that exportation of all or any quantity of the products was not actually accomplished or that there has not been compliance with other requirements of this subpart, and in any such instance the Secretary may require such additional evidence as he deems reasonable.

§ 517.396 *Records and accounts.* The exporter shall maintain adequate records showing purchases, sales, and deliveries of products exported or to be exported in connection with this subpart. Such records, accounts, and other documents relating to any transaction in connection with this subpart shall be available during regular business hours for inspection and audit by authorized employees of the United States Department of Agriculture, and shall be preserved for at least two years after the effective date of this subpart.

§ 517.397 *Amendment and termination.* The Secretary may amend or terminate this subpart at any time upon public announcement thereof. Such amendment or termination, however, shall not apply to applications approved under this subpart prior to the effective time of such amendment or termination.

§ 517.398 *Persons not eligible.* No member of, or Delegate to, Congress or Resident Commissioner shall be admitted to any payment made under this subpart or to any benefit that may arise therefrom, but this provision shall not be construed to extend to a payment made to a corporation for its general benefit.

§ 517.399 *Set-off.* The Secretary may set off, against any amount owed to any exporter under this subpart, any amount owed by such exporter to Commodity Credit Corporation, the United States Department of Agriculture, or any other agency of the United States.

§ 517.400 *Joint payment or assignment.* An exporter may name a joint payee on vouchers for payment or may assign the proceeds of any application for export payment to a recognized financing institution as provided in this subpart. The exporter may assign, in accordance with the provisions of the Assignment of Claims Act of 1940, Public Law No. 811, 76th Congress, as amended, the proceeds of any application for export payment to a bank, trust company, Federal lending agency, or other recognized financing institution: *Provided*, That such assignment shall be recognized only if and when the assignee thereof files written notice of assignment, in accordance with the instructions on Form PMA–66 "Notice of Assignment" which form must be used in giving notice of assignment to PMA. The "Instrument of Assignment" may be executed on Form PMA–347 or the assignee may use his own form of assignment. The PMA forms may be obtained from any Representative of the Secretary.

§ 517.401 *Good faith.* Whereas it is the intent of this subpart to encourage the exportation of fresh and processed grapefruit produced in the United States by making such products available to foreign buyers at prices below domestic market prices in the amount of the payment offered in this subpart; now, therefore, if the Secretary determines that any exporter has not acted in good faith in carrying out the purpose of this subpart, has not passed on to foreign buyers the incentive payment offered in this subpart, or otherwise fails to discharge fully any obligation assumed by him under this subpart, such exporter may be denied the right to continue participating in this subpart, or the right to receive payment under this subpart in connection with any exportations previously made under this subpart, or both.

(e) "Date of sale" means the date on which both buyer and seller signed a written contract, or the date on which buyer accepts an offer of sale or confirms the purchase, or the date on which the seller accepts an offer to purchase or confirms the sale. (2) For taxable years beginning after December 31, 1949, and before July 1, 1950, at the rate of 23 percent of the amount thereof;

(3) For taxable years beginning after June 30, 1950, and before January 1, 1951, and for taxable years beginning after December 31, 1950, and ending before April 1, 1951, at the rate of 25 percent of the amount thereof;

(4) For taxable years beginning after December 31, 1950, and before April 1, 1951, and ending after March 31, 1951, at the rate of 28¾ percent of the amount thereof;

(6) For taxable years beginning after March 31, 1954, at the rate of 25 percent of the amount thereof.

(b) Upon its Supplement Q surtax net income (as defined in section 362 (b) (2)):

(1) For taxable years beginning before January 1, 1946, at the rate of 16 percent of the amount thereof;

(2) For taxable years beginning after December 31, 1945, and before January 1, 1950, at the rate of 14 percent of the amount thereof;

(3) For taxable years beginning after December 31, 1949, and before July 1, 1950, at the rate of 19 percent of the amount thereof in excess of $25,000;

(4) For taxable years beginning after June 30, 1950, at the rate of 22 percent of the amount thereof in excess of $25,000.

(c) Upon the excess of any net long-term capital gain over the sum of the net short-term capital loss and the amount of capital gain dividends (as defined in section 362 (b) (7)) paid during the year, at the rate of 25 percent of such excess.

(B) By inserting immediately after the fifth sentence thereof (beginning "See § 29.27 (b)–2") the following new sentence: "For certain distributions made after the close of the taxable year which the regulated investment company may elect to treat as paid during the taxable year for purposes of section 362 (b), see § 29.362–6."

PAR. 3. Section 29.362–5 is amended by adding at the end thereof the following new sentence: "For additional rules applicable to certain distributions made after the close of the taxable year which may be designated as capital gain dividends, see § 29.362–6."

PAR. 4. There is inserted immediately after § 29.362–5 the following new section:

§ 29.362–6 *Distribution of dividends after close of taxable year.* (a) Effective with respect to any taxable year ending after September 23, 1950, section 362 (b) (8) provides that:

(1) In determining under section 362 (b) whether a regulated investment company distributes during the taxable year to its shareholders as taxable dividends (other than capital gain dividends) an amount not less than 90 percent of its net income for the taxable year computed without regard to net long-term and net short-term capital gains;

(2) In computing the Supplement Q net income and the Supplement Q surtax net income; and

(3) In determining the amount of capital gain dividends paid during the taxable year,

any dividend (or portion thereof) declared by the company after the close of such taxable year and prior to the time prescribed by law for the filing of its return for such taxable year (including the period of any extension of time granted for filing such return) shall, to the extent the company so elects in such return, be treated as having been paid during such taxable year. This section is applicable only if distribution of the entire amount of such dividend is actually made to shareholders in the 12-month period following the close of such taxable year and not later than the date of the first regular dividend payment made after such declaration.

(b) The election must be made in the return filed by the company for the taxable year. The election shall be made by the taxpayer by treating the dividend (or portion thereof) to which such election applies as a dividend paid during the taxable year in computing its Supplement Q net income and its Supplement Q surtax net income, or if the dividend (or portion thereof) to which such election applies is to be designated by the company as a capital gain dividend, in computing the amount of capital gain dividends paid during such taxable year. The election provided in section 362 (b) (8) may be made only to the extent that the earnings and profits of the taxable year (computed with the application of section 362 (a)) exceed the total amount of distributions out of such earnings and profits actually made during the taxable year (not including distributions with respect to which a prior election has been made under section 362 (b) (8)). The dividend or portion thereof, with respect to which the regulated investment company has made a valid election under section 362 (b) (8), shall be considered as paid out of earnings and profits of the taxable year for which such election is made, and not out of earnings and profits of the taxable year in which the distribution is actually made. However, the dividend or portion thereof subject to the election will be includible in the gross income of shareholders of the regulated investment company for the taxable year in which the dividend is received by them.

Example (1). X Company, a regulated investment company, had a net income (and earnings or profits) for the calendar year 1950 of $100,000. During that year the company distributed to shareholders taxable dividends aggregating $88,000. On March 10, 1951, the company declared a dividend of $37,000 payable to shareholders on March 20, 1951. Such dividend consists of the first regular quarterly dividend for 1951 of $25,000 plus an additional $12,000 representing that part of the net income for 1950 which was not distributed in 1950. On March 15, 1951, X Company files its Federal income tax return and elects therein to treat $12,000 of the total dividend of $37,000 to be paid to shareholders on March 20, 1951, as having been paid during the taxable year 1950. Assuming that X Company actually distributes the entire amount of the dividend of $37,000 on March 20, 1951, an amount equal to $12,000 thereof will be treated for the purposes of section 362 (b) as having been paid during the taxable year 1950. Such amount ($12,000) will be considered a distribution out of the earnings and profits of the company for the taxable year 1950, and will be treated as a taxable dividend to the shareholders for the taxable year in which such distribution is received by them.

Example (2). Y Company, a regulated investment company, had a net income (and earnings or profits) for the calendar year 1950 of $100,000, and for 1951 a net income (and earnings or profits) of $125,000. On January 1, 1950, the company had a deficit in its earnings and profits accumulated since February 28, 1913, of $115,000. During the year 1950 the company distributed to shareholders taxable dividends aggregating $85,000. On March 5, 1951, the company declared a dividend of $65,000 payable to shareholders on March 31, 1951. On March 15, 1951, Y Company files its Federal income tax return in which it includes $40,000 of the total dividend of $65,000 to be paid to shareholders on March 31, 1951, as a dividend paid by it during the taxable year 1950. On March 31, 1951, Y Company distributes the entire amount of the dividend of $65,000 declared on March 5, 1951. The election under section 362 (b) (8) is valid only to the extent of $15,000, the amount of undistributed earnings or profits for 1950. The remainder ($50,000) of the dividend paid on March 31, 1951, may not be the subject of an election, but such amount will be regarded as a distribution by Y Company for the taxable year 1951. Assuming that the only other distribution by the Y Company during 1951 is a distribution of $75,000 paid as a dividend on October 31, 1951, the total amount of the distribution of $65,000 paid to shareholders on March 31, 1951, is to be treated as taxable dividends to the shareholders. Of this amount $15,000 is to be treated as distributed out of the earnings or profits of the company for the taxable year 1950, and the remaining $50,000 as a distribution out of the earnings or profits for the year 1951. The distribution of $75,000 on October 31, 1951, is, of course, a taxable dividend out of the earnings and profits for the year 1951.

(c) A dividend (or portion thereof) with respect to which an election has been made under section 362 (b) (8) and which the company desires to designate as a capital gain dividend need not be so designated within 30 days after the close of the taxable year, but will be properly designated as a capital gain dividend if it is designated as such in a written notice mailed to the shareholders at the time of the payment of the dividend. Such designated capital gain dividends are to be aggregated with the designated capital gain dividends actually paid during such taxable year (not including such dividends with respect to which a prior election has been made under section 362 (b) (8)) for the purpose of determining whether the aggregate of the designated capital gain dividends with respect to such taxable year of the company is greater than the excess of the net long-term capital gain over the net short-term capital loss of the company.

(d) After the expiration of the time for filing the return for the taxable year for which an election is made under section 362 (b) (8), such election shall be irrevocable with respect to the dividend or portion thereof to which it applies.

1. Sections 590.303, 590.303–1, 590.303–2, 590.303–3, 590.303–4, 590.303–5, 590.303–6, 590.303–7 and 590–603–3 are rescinded and the following substituted therefor:

§ 590.303 *Fraud, criminal conduct, suspension, administrative debarment and statutory debarment.* Sections 590–303 to 590.303–7 set forth the procedures to be followed throughout the Army establishment in connection with:

(a) The suspensions due to reports of allegations of fraud or criminal conduct as indicated in § 590.303–1.

(b) The debarment by administrative action as indicated in § 590.303–2.

(c) The statutory debarment of contractors, as indicated in § 590.303–3; and

(d) Certain other administrative actions, as indicated in §§ 590.303–4 to 590.303–7 inclusive.

§ 590.303–1 *Suspension due to allegations or suspicions of fraud and criminal conduct—(a) General.* The prompt reporting of all matters relating to fraud or criminal conduct in connection with procurement activities, in order that such reports may arrive as expeditiously as possible at the appropriate office of the Department of the Army, as indicated in this section, is of extreme importance. All persons concerned with Army contracts will be alert for and report the possibility or evidence of fraud or criminal conduct, at all times. Normally a suspension will be effected on a temporary basis, as indicated in paragraph (d) of this section pending the development of further evidence which would furnish an adequate basis for debarment as covered in § 590.303–2, relating to debarment by administrative action. Upon the receipt of such information, it will be immediately reported as indicated in paragraph (b) of this section relating to reporting procedure.

(b) *Reporting procedure of this section.* All reports and exhibits, and all supplements thereto, including letters of transmittal and interim correspondence, will be expeditiously transmitted through channels, in sextuplicate, to the Head of the Procuring Activity who will make the following distribution: Three copies direct to the Office of the Under Secretary of the Army (Assistant Judge Advocate General), one copy direct to the Office of the Assistant Chief of Staff, G–4, Department of the Army (Attention: Chief, Purchases Branch), and a fifth copy thereof direct to the Office of The Inspector General. In cases where all the information is not readily available to the reporting agency, preliminary reports will be so forwarded, and will be followed as soon as practicable by complete documented reports as indicated in this section. All reports should contain a full statement of the pertinent facts indicating alleged criminal conduct, fraudulent activity, or suspicion thereof and will be supported by appropriate exhibits. All such reports initiated by disposal, inspection, audit, engineering, and other advisory or technical personnel, under Department of the Army contracts, will be addressed to the Contracting Officer concerned and will be adequately documented by initiating personnel. The Contracting Officer will take whatever action he deems necessary and appropriate consistent with the protection of the interests of the Government. Such reports, accompanied by the remarks, conclusions and recommendations of the Contracting Officer, will then be forwarded, through channels, for the addition of remarks, conclusions, and recommendations of each successive office.

(c) *Coordination of actions with The Inspector General, the Department of Justice and other agencies.* An Assistant Judge Advocate General has been designated as the representative of the Under Secretary of the Army to handle matters relating to fraudulent acts or criminal conduct by personnel within the Army Establishment or by private commercial concerns or individuals in connection with procurement activities and to coordinate actions concerning such activities with The Inspector General, the Department of Justice, and other agencies, when appropriate.

(d) *Suspensions.* The determination to suspend a suspected contractor, will be the responsibility and within the authority of the Under Secretary of the Army (Assistant Judge Advocate General). Recommendations of the reporting agency and intermediate echelons, concerning suspensions, will be furnished when submitting reports relating to fraud or criminal conduct. Formal suspension directives will be issued by the Office of the Under Secretary of the Army (Assistant Judge Advocate General).

(e) *Responsibility of Heads of Procuring Activities.* The Heads of Procuring Activities will be responsible for taking the appropriate administrative actions indicated in paragraphs (f) through (l) of this section upon receipt of notice of suspension or when reporting suspicion or evidence of fraud or criminal conduct. The Heads of Procuring Activities are authorized to communicate directly with the Office of the Under Secretary of the Army (Assistant Judge Advocate General) as to developments in connection with status of or action to be taken in connection with matters which are within the purview of § 590.303.

(f) *Preliminary report.* As soon as possible after receipt of the notice of suspension, and not later than 30 days, or concurrent with the reporting of suspicion of fraud or criminal conduct, the Heads of Procuring Activities will submit a brief report in triplicate to the Office of the Under Secretary of the Army (Assistant Judge Advocate General), and will furnish an information copy of the report to the Assistant Chief of Staff, G–4, Department of the Army (Attention: Chief, Purchases Branch) and an information copy of such report to the Office of The Inspector General, indicating the current contractual relationship between the suspended contractor and the agency submitting the report. This report will consist of a brief statement of the status of outstanding contracts, if any, either proposed, current, or terminated but unsettled. Information relating to current contracts will be reported as outlined in paragraph (g) of this section. The extent to which such persons or firms are considered necessary and essential suppliers will be indicated. Negative reports indicating no current or presently proposed contracts are required.

(g) *Procurement—(1) Current contracts.* The administration of contracts on which performance is current is within the responsibility and authority vested in the Head of a Procuring Activity.

(2) *Service reporting suspicion of fraud.* It will be the additional responsibility of the Head of a Procuring Activity reporting suspicion or evidence of fraud or criminal conduct, and administering a current contract, to determine whether it will be in the best interests of the Government to (i) continue contract administration in any of its phases (such as acceptance of deliveries, inspection at contractor's plant, issuance of certain instructions), except payment, where specifically required by the provisions of the contract and to avert a technical or actionable breach of contract by the Government; or (ii) to exercise any contract right (such as termination for default or convenience, rejection or recovery due to latent defects). In making such determination, full consideration will be given to the nature of and the circumstances surrounding the suspicion or evidence of fraud or criminal conduct being reported. The facts, circumstances, requirements, and provisions considered in reaching such determination will be included in the preliminary report required by paragraph (f) of this section. In cases where doubt exists as to the effect of continuation of any phase of administration on the investigation and possible prosecution of the suspected contractor, it will be appropriate to refer the matter, together with the recommendations of the Head of the Procuring Activity thru channels to the Office of the Under Secretary of the Army (Assistant Judge Advocate General), for determination.

(3) *Services receiving notice of suspension.* In cases where a current contract(s) is (are) being administered by a Procuring Activity not the initiating agency of the report of suspected

fraud or criminal conduct, a statement of the minimum contract administration immediately required by the contract (such as acceptance of deliveries, rejection, price analyses, etc.) will be included in the preliminary report, paragraph (f) of this section.

(4) *Contract administration continued until final determination.* In both instances indicated in subparagraphs (2) and (3) of this paragraph, contract administration at the minimum required will be continued in operation, with the exception of payment until final determination of the matter has been accomplished as indicated in paragraph (d) of this section relating to suspensions.

(5) *Procurement with suspended contractors.* No additional procurement will be made from, nor any commitments of any nature given to, firms or individuals who have been placed in suspension, until the matter has been referred through channels, in the manner set forth in paragraph (d) of this section and written clearance for each individual procurement has been obtained. However, bids submitted by suspended contractors will be received, recorded and retained in accordance with established procedures. In cases where a suspended contractor is the low bidder (or in the case of surplus or salvage sales, the high bidder), information relating to the low (or high) bid and the next higher bid will be reported in the same manner as stated in paragraph (b) of this section relating to reporting procedure, for determination as to the necessity of placement of any awards with the suspended contractor. Bids from suspended contractors will not be automatically rejected by Contracting Officers solely because of the suspension.

(h) *Terminations.* Negotiation towards settlement of terminated contracts will cease with the suspension of a contractor. Negotiations must likewise cease with respect to terminated subcontracts either let or held by the suspended contractor. All delegations of authority, if any, under JTR 642 (PR 15) or under Part 407 of this title or Part 597 of this subchapter will be immediately revoked without explanation.

(i) *Payments.* (1) No payments of any type will be made to any suspended contractor either under procurement or termination unless the suspension is modified or removed. Upon receipt of notice of suspension, disbursing officers will promptly forward any administrative approved vouchers in or coming into their possession to the Office, Chief of Finance (ATTN: Receipts and Disbursements Division). Procuring agencies, holding or in receipt of properly certified invoices covering amounts properly due the suspended contractor, will prepare and process (administratively approve) the necessary vouchers and will forward the certified vouchers to the aforesaid office, through their assigned Disbursing Officers inviting attention to the fact that the contractor concerned is under suspension. This procedure will be followed whenever any additional or new amounts become due during the period of suspension.

(2) In cases where, in the opinion of the Contracting Officer, it is believed that circumstances surrounding either the procurement or the suspicion of fraud or criminal conduct are of such a nature as to permit or require complete or partial release of withheld funds due and owing the suspended contractor, a recommendation for such release, including a full statement of the particulars supporting such recommendation, may be made by the Contracting Officer, through channels, for the addition of the remarks, conclusions and recommendations of each successive office, for determination as indicated in paragraph (d) of this section concerning suspensions.

(j) *Release from suspension.* After a contractor has been placed in suspension, as indicated above, such suspension will not be lifted until such action has been directed in the manner indicated in paragraph (d) of this section relating to the effecting of a suspension.

(k) *Departmental inquiries.* When a firm or individual has been suspended because of suspicion of fraud or criminal conduct, the Contracting Officer will ordinarily address his own inquiries, in triplicate, as to the status and progress of the case in question, through channels, to the Office of the Under Secretary of the Army (Assistant Judge Advocate General), and will not communicate with the local offices of the Department of Justice, the United States Attorney, or the Federal Bureau of Investigation in such connection.

(l) *Communications with suspended contractors.* Reports required by §§ 590.603 to 590.603–7 and all actions accomplished relating thereto are confidential. In the event a suspended contractor makes inquiry as to reason or cause of any of prohibitions indicated above, or for any other reason, the supplying of any information relating to the suspension, even by referring to the fact that the contractor has been suspended, either by reference or detail, is prohibited. Instead, the contractor will be advised that consideration is being given his contract, or contractual relationship, by the Office of the Under Secretary of the Army (Assistant Judge Advocate General) and that all contractor inquiries regarding such matters should be addressed in writing direct to that office.

§ 590.303–2 *Debarment by administrative action*—(a) *General.* Debarment of a contractor for acts constituting fraud or attempted fraud against the United States or deliberate and gross violation of contract provisions may be effected by the Department of the Army but must be based on adequate evidence rather than on allegation or accusation. The Comptroller General states:

> When the interests of the United States require the debarment of a bidder no question will be raised by this office with respect thereto, provided the length of time of such debarment is definitely stated and not unreasonable, and the reasons for the debarment, with a statement of the specific instances of the bidder's dereliction, are made of record and a copy thereof furnished the bidder and this office.

(b) *Determination of debarment.* The determination to debar a bidder from future bidding on Army Establishment contracts will be the responsibility and within the authority of the Under Secretary of the Army (Assistant Judge Advocate General). Recommendations of the reporting agency and intermediate echelons, concerning debarments, will be furnished with any request for debarment. Recording of the debarment and furnishing advice of the action to the contractor and the Comptroller General will be a function of the Office of the Under Secretary of the Army (Assistant Judge Advocate General).

(c) *Requests for debarment.* Debarment action may be initiated by any Procuring Activity and forwarded through appropriate channels to the office first named in paragraph (b) of this section for consideration in accordance with the procedures established in this section.

(d) *Adequacy of request for debarment; responsibility.* A request for debarment will be submitted in triplicate and contain a complete certified statement of the facts concerning the bidder's dereliction, including affidavits, depositions, records of action, if applicable, and any other relevant data. Names and addresses of all persons having knowledge of the circumstances will be included. The Head of a Procuring Activity will be responsible for the adequacy and propriety of all requests initiated under this command.

(e) *Procedure after debarment.* When it has been determined, pursuant to the provisions of paragraph (b) of this section, that it is in the best interest of the Government to debar a contractor from future bidding on Army contracts and the Procuring Activities are so notified, the following procedure will become effective:

(1) Debarred contractors will not be carried on any bidder's mailing list and bids will not be invited from them

(2) No awards will be made to any debarred contractor during the period specified for debarment.

(3) In the event that a bid is tendered by any debarred contractor, it shall be received and recorded with the other bids offered on the purchase. If the bid is low, it will then be rejected, and the reason therefor shall be stated in the certificate to the General Accounting Office as follows:

> In accordance with the decision of the Comptroller General of the United States contained in his letter to the Secretary of War, dated July 23, 1929, the bid of _____ is rejected because of previous unsatisfactory business dealings with the Department of the Army.

(4) All inquiries relating to debarred bidders will be forwarded, in triplicate, in the same manner as stated in paragraph (c) of this section, relating to request for debarment.

§ 590.303–3 *Statutory debarment of contractors.* Contracts shall not be placed with persons or firms who are indicated to be in any of the following categories of disqualified bidders:

(a) Persons and firms listed by the Comptroller General in accordance with section 3 of the Walsh-Healey Public Contracts Act (41 U. S. Code 37) which have been found by the Secretary of

Labor to have violated any of the representations and stipulations required by that act.

(b) Persons and firms listed by the Department of Labor which have been held ineligible to be awarded contracts subject to the Walsh-Healey Public Contracts Act for the reason that they do not qualify as "manufacturers" or "regular dealers" within the meaning of section 1 (a) of said act.

(c) Persons and firms listed by the Comptroller General in accordance with section 3 of the Davis-Bacon Act (40 U. S. Code 276a–2) found by the Comptroller General to have violated said act.

(d) Persons and firms which have violated any of the provisions of the Buy American Act (41 U. S. Code Supp. IV, 10a–d). Inquiries from contractors or individuals listed as ineligible or disqualified by the Comptroller General and the Department of Labor under the Walsh-Healey or Davis-Bacon Acts shall be answered by indicating the nature of the prohibition as indicated on the consolidated list and requesting that the inquirer communicate with:

> Wage and Hour and Public Contracts Divisions,
> Department of Labor,
> Fourteenth Street and Constitution Avenue NW.,
> Washington 25, D. C.

§ 590.303–4 *Consolidated listing of suspended and ineligible contractors and disqualified bidders.* In conjunction with the information and actions contained in the preceding paragraphs a consolidated confidential list will be issued by the Office of the Under Secretary of the Army (Assistant Judge Advocate General), for the use and guidance of all interested agencies of the Army Establishment. The comprehensive list will be composed of an alphabetical listing of all firms or persons suspended, ineligible, or disqualified from entering into contractual relationships with the Government. Information will be supplied indicating the reason for and the extent of the suspension or prohibition. Care will be taken by contracting personnel to give full effect to modifications of or releases from suspension. The listing shall comprise the following groups and firms which are subject to the prohibitions indicated:

(a) *Suspensions initiated by the Army and affecting Army contracts.* Contractors who have been placed in suspension or debarred by administrative determination in accordance with the procedures and prohibitions prescribed in §§ 590.303–1 and 590.303–2, or suspended or debarred under like circumstances by the other military departments.

(b) *Disqualifications initiated by agencies other than the Military and prohibitions effected.* (1) Persons and firms listed by the Comptroller General in accordance with section 3 of the Walsh-Healey Public Contracts Act which have been found by the Secretary of Labor to have violated any of the representations and stipulations required by that act. No contracts will be awarded to such persons or firms or to any firm, corporation, partnership, or association in which such persons have a controlling interest, for a period of 3 years from the dates on which it was determined such breaches occurred. (See Part 411 of this title for specific provisions of Walsh-Healey Act.)

(2) Persons and firms listed by the Department of Labor which have been held ineligible to be awarded contracts subject to the Walsh-Healey Public Contracts Act for the reason that they do not qualify as "manufacturers" or "regular dealers" within the meaning of section 1 (a) of said act. Such persons, corporations, or firms will not be awarded any contract unless a change in status is shown and so determined by the Department of Labor prior to the award of any such contract.

(3) Persons and firms listed by the Comptroller General in accordance with section 3 of the Davis-Bacon Act found by the Comptroller General to have violated said act. No contract is to be awarded to any contractor, or any firm, in which the contractor has an interest for a period of 3 years from the publication of the list containing the names of the violators.

§ 590.303–5 *Procurement outside United States.* Sections 590.303 to 590.303–7 are applicable to procurement outside the United States, its Territories and possessions in principle and policy, but Contracting Officers will be guided by the laws of the local foreign government of the country in which procurement is to be effected and by such procedural instructions (based on the procedures contained herein) as may be issued by the Head of a Procuring Activity. Suspensions by major oversea commanders will be coordinated with local authorities of the military departments. A report, in triplicate, setting forth the basis for and the action being taken in any case of suspected fraud or criminal conduct will be furnished in the manner set out in § 590.303–1 (b), for information as the incidents occur. A closing report of completed action will be furnished also.

§ 590.303–6 *Additions to and removals from consolidated list of ineligible or suspended contractors and disqualified bidders.* Interim notices indicating additions to, modifications of, or removals from the consolidated list will be issued by the Office of the Under Secretary of the Army (Assistant Judge Advocate General), when appropriate.

§ 590.303–7 *Exchange of lists.* The Office of the Under Secretary of the Army, (Assistant Judge Advocate General), will supply the Departments of the Navy and the Air Force with copies of the consolidated list, and any interim changes thereto, for information and guidance and will publish additional information received from those Departments.

§ 590.603–3 *Contracts required to be numbered.* (a) All contracts involving the payment of $20,000 or more on a single payment voucher shall be numbered and forwarded to the General Accounting Office without delay. See § 590.606–3.

(b) All contracts involving the payment of less than $20,000 on a single payment voucher, may or may not be numbered depending upon the needs of the Procuring Activity, and shall be attached to the related voucher upon which payment is made and accompany such voucher in the regular transmission of the Disbursing Officer's account to the General Accounting Office. See § 590.606–4.

(c) All multiple payment contracts regardless of amount shall be numbered except as authorized in subparagraph (2) of this paragraph. In case of doubt as to whether the amount to be paid under a contract is more or less than $20,000 or whether more than one payment may be necessary, the contract shall be numbered.

(1) When any related supplemental document, required to be deposited with the General Accounting Office, is transmitted in connection with an unnumbered contract, and if such related supplemental document serves to remove the contract from the category of contracts not required to be numbered, a number will be assigned to the original contract and will be shown on such supplemental document in addition to the voucher citation in the event any payments have been made prior to the issuance of the supplemental document.

(2) Where later determination is made that more than one payment and/or collection is involved, payments, not to exceed five in number on any given contract may be made with respect to partial deliveries under unnumbered contracts provided that the original signed contract is attached to the first payment voucher, and the following information is included on each subsequent payment voucher with respect to all preceding payments under the contract: Name of Disbursing Officer, period of account, voucher number, amount paid.

(3) Where more than five payments and/or collections become necessary, a number must be assigned to such contract.

(4) Where later determination is made that the amount to be paid or collected equals $20,000 or more, a number must also be assigned to such contract.

(d) In instances cited in paragraph (c) (1), (3) and (4) of this section, in which payments have been made a citation to the name of the Disbursing Officer, period of account, and number of the disbursement or collection voucher to which the original unnumbered contract was attached will be furnished promptly to the General Accounting Office by the Contracting Officer concerned.

(e) The instructions contained in this section do not apply to DA AGO Form 383 used in connection with the Small Purchases Procedure (Subpart G of this part). See §§ 590.603–2 (b), 590.705–1 (b) and 590.705–10 (e).

2. Sections 601.451 and 601.454 are rescinded and the following substituted therefor:

§ 601.451 *List of ineligible contractors and disqualified bidders.* The list of persons and firms found by the Comptroller General to have violated the re-

quirements of the Davis-Bacon Act is prepared and issued by the Office of the Under Secretary of the Army (Assistant Judge Advocate General), for the use and guidance of all interested agencies of the Army Establishment in the Consolidated Listing of Suspended and Ineligible Contractors and Disqualified Bidders. (See § 590.303 (d) of this subchapter.)

§ 601.654 *Lists of disqualified persons and firms.* (a) This includes the list of:

(1) Persons or firms found by the Secretary of Labor to have breached or violated contractual representations and stipulations required by the Walsh-Healey Act, published by the Comptroller General.

(2) Persons and firms which have been held ineligible to be awarded contracts subject to the Walsh-Healey Act, published by the Department of Labor.

(b) These lists are prepared and issued, from time to time, by the Office of the Under Secretary of the Army (Assistant Judge Advocate General), for the use and guidance of all interested agencies of the Department of the Army (§ 590.303 (d) of this subchapter).

ARTICLE I—GENERAL PROVISIONS

SECTION 1. *What this regulation does.* This regulation fixes new ceiling prices for the "dry groceries" listed in Table A and the "perishables" listed in Table B for all retail stores, other than "independent" retail stores doing an annual business of less than $375,000 and for all retail stores, whether "independent" or not, doing an annual business of $375,000 or more. These new ceiling prices are to be used instead of the ceiling prices figured under any other price regulation or order issued by the Office of Price Stabilization (hereinafter called OPS), and regardless of any contract or any other law. All other retail stores (Group 1 and Group 2 stores) selling these food products are covered by Ceiling Price Regulation No. 16.

SEC. 2. *How you find out whether your store is covered by this regulation and what group it is in.*—(a) *What stores are covered.* Your store is covered by this regulation if it is a Group 3 or 4 store as defined below and if you are a retailer who buys and resells food products, generally without materially changing their form, for the most part to ultimate consumers who are not commercial, industrial or institutional users. For the purposes of this regulation, "Great Lakes Marine Suppliers" shall be considered as retailers. The provisions of this regulation do not apply to "retail route sellers", to sales of "specially prepared dietetic foods" by "health food stores" or "health food departments", or to automatic vending machines or farmers selling produce grown on their own farms.

(b) *What are Group 3 and 4 stores.* For the purpose of this regulation, Group 3 and 4 stores are defined as follows:

(1) *Group 3.* Your store is in Group 3 if its "annual gross sales" are less than $375,000 and if it is not an "independent" store. Your store is an "independent" store if it is not one of 4 or more stores under one ownership whose combined "annual gross sales" are $750,000 or more.

(2) *Group 4.* Your store is in Group 4 if its "annual gross sales" are $375,000 or more.

(If you are not sure what group your store is in, use the directions in Section 29 for figuring its "annual gross sales." See section 35 for definitions of Group 1 and 2 stores.)

(c) *How to display a sign of the group your store is in.* At all times, you must have the group your store is in under this regulation displayed on a sign reading "OPS–3" or "OPS–4", whichever it is, or on a sign which the OPS may furnish to you. The sign must be displayed so that it can be clearly seen by your customers.

(d) *When you may choose to treat your store as a Group 4 store.* If your store is a Group 3 store, you may choose to treat it as a Group 4 store and display a sign in your store as a member of that group if you:

(1) Figure your ceiling prices for all the items listed in Tables A and B of this regulation as a Group 4 store; and

(2) Notify the OPS district office for your area of this fact.

(e) *When you must notify OPS of the Group in which your store falls.* Within 30 days after the issuance of this regulation, you must notify the OPS District office for your area, of the Group of each of your stores, using OPS Public Form No. 5 which you may obtain from the OPS District office for your area. If you open a new retail store after May 14, 1951, you must notify, within 15 days, the OPS District office for your area of the Group of the store, using OPS Public Form No. 5 which you may obtain from the OPS District Office for your area. Even though you sell food products, if none of these products are subject to this regulation, you need not furnish this notification. In the event that this regulation is amended to cover one or more of the food products you sell, you must furnish the notification within 30 days of the effective date of the amendment.

[Paragraph (e) amended by Amdts. 1 and 19]

Dry Groceries

SEC. 3. *How and when you figure your ceiling prices for "dry groceries".*—(a) *General rule.* Your ceiling price for each item (that is, for each kind, brand, grade, variety, container-type and container-size) of "dry groceries" listed in Table A shall be the total of (1) the "net cost" you had to pay for the most recent delivery of the item to you before April 30, 1951, plus (2) the mark-up given you for it in Table A.

(b) *When you must figure your ceiling prices.* By the opening of business on May 14, 1951, you must have figured your ceiling price for each item of "dry groceries" listed as Table A which you have in stock at that time. Between April 5, 1951 and May 14, 1951, you may put into effect the new ceiling price on any item as soon as you figure it; you must put the new ceiling prices into effect on all items not later than May 14, 1951. If you do not put the new price for an item into effect before May 14, 1951, you must continue to use your existing ceiling for that item until May 14. If you receive delivery of any item between April 5, 1951 and May 14, 1951, for which you have no ceiling price, you must, before selling it, figure your ceiling price according to the rules of this regulation.

[Paragraph (b) amended by Amdt. 1]

(c) *Special rule for certain items of the 1950 pack.* If, in the case of any item of the 1950 pack of food commodity groups 8, 10, 11, 12, 13, 32 and 33 in Table A, your last purchase of the particular item was made prior to January 26, 1951, you may continue to use your legal ceiling price for such item under the General Ceiling Price Regulation, until you receive delivery of a purchase made after that date. When you receive delivery of such a purchase, you must figure your ceiling price for the item in accordance with the provisions of this regulation.

(d) *Pricing special promotions.* Where you have a "special promotion" consisting of two or more items bound together for joint sale or bearing appropriate printing or labeling referring to the joint sale, you shall compute your ceiling price for the joint sale as follows:

(1) Determine which item or items are the regular portion of the "special promotion" and which item or items are the "special" portion.

(2) For the regular item or items compute your ceiling prices according to this regulation, disregarding entirely the special item or items.

(3) For the special item or items you may charge up to 50 percent of your existing ceiling price for those items.

(4) If you have no existing ceiling price for the special item or items you may use as your markup a maximum of 3 cents per item,

(5) Your ceiling price for the joint sale is the sum of the ceiling price for the regular item plus the price determined under subparagraph (3) or (4) of this paragraph for the special items. You may not price any special promotion on the same items under this paragraph for a period of more than 120 days. Also you may not price under this paragraph another special promotion on the same items until six months after the conclusion of the previous such offering.

[Paragraph (d) added by Amdt. 6]

SEC. 4. *Directions for applying the rule for "dry groceries".*—(a) *Net cost.* To figure your ceiling price, first find the "net cost" of the item, based on its most recent delivery to you before May 14, 1951. Your "net cost" will be the amount you paid your supplier less all discounts except (1) discounts on items in Category #5, "Cookies, toast and crumbs" and Category #5A, "Crackers," (section 37 (b) (5) and (5A)), (2) the discount for prompt payment, and (3) swell and label allowances, plus all transportation charges you paid except local trucking and local unloading. This exception shall not apply to any shipments by water. In such cases, there may be added also as part of the cost of transportation the cost of moving the shipment from the place at which it was processed to the dock, the cost of unloading at that dock, wharfage, handling, tollage and usage charges, the cost of marine insurance, the cost of loading the goods on a car, truck or other conveyance at the port of discharge and the cost of transporting that shipment from the port of discharge to receiving point. However, cost of loading the shipment at the place at which it was processed, segregation charges, and cost of unloading at receiving point may not be added. If you are located on an island or otherwise accessible only by water, for any items delivered from a warehouse under the same ownership or control, where a combination of land and water transportation is required, you may include in your "net cost" the actual cost of the water transportation between the warehouse and your store, including any charges for loading and unloading the water carrier. Treat as a separate item each kind, brand, grade, variety, container-size and container-type of "dry groceries."

[Paragraph (a) amended by Amdts. 1, 5, 9 and 19]

(1) Your net cost must be figured on purchases of a customary quantity from a customary type of supplier delivered to your "usual receiving point" by a customary means of delivery. Of course, you must never figure your net cost on a purchase made at a price higher than your supplier's ceiling.

(2) Figure the net cost on a single unit basis (that is, per can, per pound, per package, per jar, etc.), to the nearest half-cent. (Fractions of exactly one-quarter cent are rounded up to one-half cent and fractions of exactly three quarters of a cent are rounded up to the next cent.) Your invoice cost may be the cost of a carton, case or barrel for instance, and not the cost of the package, can or other unit you sell. You must get the net cost of the single unit you sell by dividing the cost for the carton, case or barrel by the number of units in the carton, case or barrel.

[Subparagraph (3) added by Amdt. 18; deleted by Amdt. 20]

(3) If you are figuring your net cost of canned baby food on the basis of a purchase from a manufacturer on a net price basis (that is, a net price to you which includes all cash discounts), and you receive a notice from him pursuant to SR 107 to the GCPR, you may use as your "net cost" the adjusted net cost furnished in the notice, plus transportation charges you paid, if any, as defined in this section.

[Subparagraph (4) added by Amdt. 18; redesignated (3) by Amdt. 20]

(4) If you are figuring your ceiling price for an item on the basis of a purchase made from a "service fee wholesaler", your "net cost" shall be his estimated ceiling price for the item figured on a single unit basis plus transportation charges you paid, if any, as defined in this section. You will be notified by the "service fee wholesaler" of his estimated ceiling price either on his invoice or order form or other written document.

[Subparagraph (3) added by Amdt. 2; amended by Amdt. 7; redesignated (5) by Amdt. 18; redesignated (4) by Amdt. 20]

(5) For items you "manufacture or otherwise process" use the special rules in section 23.

[Subparagraph (3) redesignated (4) by Amdt. 2; redesignated (6) by Amdt. 18; redesignated (5) by Amdt. 20]

(b) *Mark-up.* Turn to Table A to find the mark-up for the item given your group of store. Table A lists all the "dry groceries" covered by this regulation by commodity groups.

(c) *Ceiling price.* (1) Next turn to Table C. Using the directions given there, you will get your ceiling price for the item. You must not change the ceiling price except in accordance with section 6.

[Paragraph (c) amended by Amdt. 18; Subparagraph (2) deleted by Amdt. 20]

(2) Your ceiling price for the item is the sum of the ceiling price for the regular item plus the price determined under subparagraph (3) or (4) of this paragraph for the special items. You may not price any special promotion on the same items under this paragraph for a period of more than 120 days. Also you may not price under this paragraph another special promotion on the same items until six months after the conclusion of the previous such offering.

[Paragraph (d) added by Amdt. 6]

SEC. 4. *Directions for applying the rule for "dry groceries".*—(a) *Net cost.* To figure your ceiling price, first find the "net cost" of the item, based on its most recent delivery to you before May 14, 1951. Your "net cost" will be the amount you paid your supplier less all discounts except (1) discounts on items in Category #5, "Cookies, toast and crumbs" and Category #5A, "Crackers," (section 37 (b) (5) and (5A)), (2) the discount for prompt payment, and (3) swell and label allowances, plus all transportation charges you paid except local trucking and local unloading. This exception shall not apply to any shipments by water. In such cases, there may be added also as part of the cost of transportation the cost of moving the shipment from the place at which it was processed to the dock, the cost of unloading at that dock, wharfage, handling, tollage and usage charges, the cost of marine insurance, the cost of loading the goods on a car, truck or other conveyance at the port of discharge and the cost of transporting that shipment from the port of discharge to receiving point. However, cost of loading the shipment at the place at which it was processed, segregation charges, and cost of unloading at receiving point may not be added. If you are located on an island or otherwise accessible only by water, for any items delivered from a warehouse under the same ownership or control, where a combination of land and water transportation is required, you may include in your "net cost" the actual cost of the water transportation between the warehouse and your store, including any charges for loading and unloading the water carrier. Treat as a separate item each kind, brand, grade, variety, container-size and container-type of "dry groceries."

[Paragraph (a) amended by Amdts. 1, 5, 9 and 19]

(1) Your net cost must be figured on purchases of a customary quantity from a customary type of supplier delivered to your "usual receiving point" by a customary means of delivery. Of course, you must never figure your net cost on a purchase made at a price higher than your supplier's ceiling.

You must get the net cost of the single unit you sell by dividing the cost for the carton, case or barrel by the number of units in the carton, case or barrel.

[Subparagraph (3) added by Amdt. 18; deleted by Amdt. 20]

(3) If you are figuring your net cost of canned baby food on the basis of a purchase from a manufacturer on a net price basis (that is, a net price to you which includes all cash discounts), and you receive a notice from him pursuant to SR 107 to the GCPR, you may use as your "net cost" the adjusted net cost furnished in the notice, plus transportation charges you paid, if any, as defined in this section.

[Subparagraph (4) added by Amdt. 18; redesignated (3) by Amdt. 20]

(4) If you are figuring your ceiling price for an item on the basis of a purchase made from a "service fee wholesaler", your "net cost" shall be his estimated ceiling price for the item figured on a single unit basis plus transportation charges you paid, if any, as defined in this section. You will be notified by the "service fee wholesaler" of his estimated ceiling price either on his invoice or order form or other written document.

[Subparagraph (3) added by Amdt. 2; amended by Amdt. 7; redesignated (5) by Amdt. 18; redesignated (4) by Amdt. 20]

(5) For items you "manufacture or otherwise process" use the special rules in section 23.

[Subparagraph (3) redesignated (4) by Amdt. 2; redesignated (6) by Amdt. 18; redesignated (5) by Amdt. 20]

(b) *Mark-up.* Turn to Table A to find the mark-up for the item given your group of store. Table A lists all the "dry groceries" covered by this regulation by commodity groups.

(c) *Ceiling price.* (1) Next turn to Table C. Using the directions given there, you will get your ceiling price for the item. You must not change the ceiling price except in accordance with section 6.

[Paragraph (c) amended by Amdt. 18; Subparagraph (2) deleted by Amdt. 20]

(d) *Invoices.* You must write your "net cost" per unit of the purchase on which you have figured your ceiling price either on your invoice or other record of the price you paid for the item or on a separate slip of paper and attach to that invoice or other record. You must keep separate, or mark or tag plainly, all invoices or records showing the net cost per unit which you used in figuring your ceiling prices. These invoices and records you used in figuring your ceiling prices are your means of proving that your ceiling prices are right.

SEC. 5. *How you figure your ceiling prices for "new items" of "dry groceries."* A "new item" of "dry groceries" is an item of "dry groceries" which you did not have in stock at the opening of business on May 14, 1951. You must figure the ceiling price for a new item before selling it, following the rules in section 4, but basing your "net cost" on the first delivery of the item to you on or after May 14, 1951.

In pricing new items it is a violation to use the net cost of a first purchase made in a non-customary manner (that is, from a non-customary supplier or in a non-customary quantity) when you know that you will be making future purchases in a customary manner. If your first purchase is of this type you must find out and use in figuring your ceiling price, what the net cost would be of a purchase from a type of supplier usually used for a similar item and of a quantity in which a similar item is usually purchased.

[Sec. 5 amended by Amdt. 1]

SEC. 6. *How do you figure your ceiling prices each week, starting Monday, May 14, 1951.* Before making any sale of an item of "dry groceries" on each Monday after May 14, 1951 (or on Tuesday if Monday is a holiday and your store is closed) you must refigure your ceiling price for any item if your "net cost" of that item is different from the "net cost" on which your existing ceiling price is based. You must follow the rules in section 4 basing your "net cost," however, on the largest single delivery of a customary quantity received by you from your customary type of supplier during the seven days preceding Monday. If you cannot determine your "largest single delivery" because you have received more than one delivery of the same quantity, use the most recent of these deliveries.

Any group of stores under one ownership pricing from a central point may refigure ceiling prices for items so priced, based on the "net cost" of deliveries received during the seven days preceding the previous Friday. These prices must not be put into effect until the following Monday.

[Sec. 6 amended by Amdt. 1]

SEC. 7. *Dry groceries which you import.* This regulation shall not apply to you for sales of any dry grocery item purchased by you directly from a foreign seller or his agent for importation into the continental United States. Your ceiling price for such items shall be determined by you in accordance with the General Ceiling Price Regulation or any other applicable ceiling price regulation covering the sale of the item by importers.

Perishables

SEC. 8. *How and when you figure your ceiling prices for "perishables"*—(a) *General rule.* Your ceiling price for each item (that is, for each kind, brand, variety, grade and size and also, for each growing area where the governing regulation at the producing or wholesale level makes distinctions by growing areas) of "perishables" listed in Table B shall be the total of (1) the "net cost" of the largest delivery of the item to you during the seven days preceding Monday of each week, plus (2) the markup given you for it in Table B. However, separate ceiling prices shall not be figured for each brand with respect to fresh fruits and vegetables.

[Paragraph (a) amended by Amdt. 10]

(b) *When you must figure your ceiling prices.* By the opening of business on May 14, 1951, you must have figured your ceiling price for each item of "perishables" listed in Table B which you have in stock at that time. These ceiling prices must be checked each week after May 14, 1951, and changed on Monday of each week for any item if your "net cost" of that item has changed in the preceding seven days. Never change your ceiling price on any day but Monday.

For the items which you receive for the first time or which you have not had in stock for 7 days, you must figure and use a ceiling price at once using the net cost of that first delivery. On each Monday after that, you must treat the item as you would any other item of perishables covered under this regulation.

Stores under one ownership pricing from a central point may refigure ceiling prices for items so priced based on the net cost of deliveries received during the seven days preceding Friday of each week. These prices must not be put into effect until the following Monday.

[Paragraph (b) amended by Amdt. 1]

SEC. 9. *Directions for applying the rule for "perishables"*—(a) *Net cost.* To figure your ceiling price, first find the "net cost" of the largest delivery to you of the item during the seven-day period before the Monday for which you are figuring your price. If you have received more than one delivery of the same largest quantity, use the most recent of these deliveries. Your net cost will be the amount you paid your supplier less all discounts except the discount for prompt payment, plus all transportation charges you paid, which may include costs for icing, refrigeration, and ventilation, but which may not include costs for local trucking and local unloading.

(1) Your net cost must be based on purchases from a customary type of supplier delivered to your usual receiving point by a customary means of delivery. Of course, you must never figure your net cost on a purchase made at a price higher than your supplier's ceiling.

(2) Figure the net cost on the basis of the "selling unit", (for example, 1 pound) listed in Table B for the commodity group which includes the item you are pricing. Always figure net cost to the nearest half cent. (Fractions of exactly one-quarter cent are rounded up to one-half cent and fractions of exactly three-quarters of a cent are rounded up to the next cent.)

(3) If you have an item in stock at the opening of business on May 14, 1951, but you did not receive delivery of the item during the week before, you shall, in figuring your first ceiling price for the item on May 14, 1951, base your net cost on its most recent delivery to you.

[Paragraph (3) amended by Amdt. 1]

(b) *Mark-up.* Turn to Table B to find the mark-up for the item given for your group of store. Table B lists all the "perishables" covered by this regulation by commodity groups.

(c) *Ceiling price.* (1) Next turn to Table C. Using the directions given there, you will get your ceiling price for the item.

(2) *Sales in other quantities.* You may sell an item in a quantity other than the "selling unit" given in Table B. If you sell an item in a quantity other than the "selling unit" given in Table B, you must reduce or increase your ceiling price proportionately. If figuring a price for a quantity different from the "selling unit" results in a fraction of a cent, you may charge the next higher cent. Separate ceiling prices shall be figured for each container size of an item purchased already packaged in consumer containers.

[Subparagraph (2) amended by Amdt. 10]

SEC. 10. *Price which you must display.* At all times, you must have your current selling price for each item of food covered by this regulation clearly shown on the item or at or near the place in your store where the item is offered for sale. Of course, this displayed price must never exceed your ceiling price.

[Sec. 10 amended by Amdts. 18 and 20]

SEC. 11. *Indirect price increases prohibited.* You must not evade any of the provisions of this regulation or any order issued pursuant to it by any scheme, or device. You must not, as a condition of selling any particular food, require a customer to buy anything else. Any such evasion is punishable as a violation of this regulation.

You may not use an unnecessarily high "net cost" in figuring a ceiling price under this regulation. If you make such a high cost purchase, you must find out what your net cost as used in section 4 or 9 would be and use that net cost to figure your ceiling price. You may never use the net cost of a purchase from another retailer to figure a ceiling price if it results in a net cost higher than you would have if you purchased the item from your regular supplier or any other source normally available to you.

SEC. 12. *Sales slips and receipts.* If you have customarily given a purchaser a sales slip, receipt or similar evidence of purchase, you must continue to do so. Furthermore, regardless of your custom, you must give any customer who asks for it a receipt showing the date, your name and address, and quantity and name of each food item sold, and the price you charged for it.

SEC. 13. *Records.* After April 5, 1951, you must keep for one year after you receive them all your invoices, freight bills, and other records showing the price you paid and the date you received delivery of each item covered by this regulation.

You are required to show all your invoices on request of any OPS representative and to furnish on request of any OPS representative a written record of your ceiling price in effect at any particular time or times for any or all of the items covered by this regulation. You must also keep available for inspection by an OPS representative the records you used in deciding what group your store is in.

Stores under one ownership pricing from a central point must also keep available at all times in each store a list showing the current selling price, as set at the central point, of each item so priced. These price lists must also be kept for one year in the warehouse from which the food items are delivered to the store or the office which covers the territory in which the warchouse is located. On request, such price lists must be shown to any OPS representative.

SEC. 14. *Prohibitions.* On and after May 14, 1951, if you sell or deliver or offer to sell or deliver at a price higher than your ceiling price fixed by this regulation or any order issued pursuant to it, or if you otherwise violate any provisions of this regulation or any order issued pursuant to it, you are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Defense Production Act of 1950. Also, any person, who, in the course of trade or business, buys from you at a price higher than your ceiling price is subject to the criminal penalties and civil enforcement actions provided for by that act.

[Sec. 14 amended by Amdts. 1 and 2]

SEC. 15. *Notice of dollars-and-cents ceiling prices.* From time to time the OPS may, by order, fix in your area or community, dollars-and-cents ceiling prices for some or all of the "dry groceries" or "perishables" under this regulation. When these dollars-and-cents prices are fixed, you may not thereafter sell at higher prices, and those orders may provide that such prices take the place of the ceiling prices which you have under this regulation. If such orders do not provide that they replace your prices under this regulation, you must continue to figure your prices under this regulation.

SEC. 16. *Further provisions supplementing or explaining this regulation.* From time to time, the Price Director may, by amendment, issue further provisions which will supplement the provisions of this regulation or explain the rights and duties of buyers and sellers under it. These further provisions will become part of this regulation and may be added as paragraphs to this section.

(a) Whenever an amendment adds any food product to the list of items covered in Tables A or B, you must figure your ceiling price for that food product in accordance with sections 3, 4 and 5 or sections 8 and 9 according to whether the food product is a "dry grocery" item or "perishable" item. However, in doing so, you shall substitute the effective date of such amendment for the date May 14, 1951, wherever it appears in the applicable sections.

[Paragraph (a) amended by Amdts. 1 and 11]

(b) Whenever an amendment changes either a commodity definition in Table A or B by transferring a food product from one commodity group to another or the mark-up for your group of retailers, you must, by the opening of business on the effective date of such amendment, refigure your ceiling prices for the items affected by such amendment. However, in doing so, you must use as your "net cost" the same "net cost" you used in figuring the ceiling prices you had on the effective date of the amendment.

[Paragraph (b) amended by Amdt. 14]

(c) Unless otherwise specifically provided, if your "net cost" of any item covered by this regulation is based upon a delivery from a person owned or controlled by (or owning or controlling) you, who is not subject to this regulation, and the item is not "manufactured or otherwise processed" by such person or by you, your "net cost" may not exceed the "net cost" which would result if such person had been subject to this regulation, plus transportation (not including local trucking or local unloading) to your usual receiving point.

ARTICLE II—SPECIAL PRICING PROVISIONS

SEC. 17. *Additions allowed for certain extra services rendered by you*—(a) *Addition allowed for delivery by you to your customers.* If you deliver to your customers' homes or places of business any of the items covered by this regulation you may add to the total value of the delivery, as a separate charge, 25 cents for such delivery if the total value thereof is $3.00 or more.

(b) *Addition allowed for accepting and filling telephone orders.* If you generally offer to all your customers the service of taking orders by telephone, and assembling orders as "will call" or for later delivery, you may add as a separate charge to the total value of any order taken by telephone and assembled, a fee of 15 cents. A copy of all telephone orders to which you have added this additional fee must be retained by you for a period of one year.

SEC. 18. *Additions for packaging.* (a) If you buy in bulk any item covered by this regulation (except spices, tea and gelatin) and then package and sell it in cardboard containers, cotton bags, transparent bags, interlined coffee bags, or Kraft bags or similar type bags, on which the name, weight and ingredients of the commodity are stamped or printed and which are packed and sealed at a place and time other than the point and time of sale, you may add to your "net cost" whichever of the following allowances applies:

(1) 2 cents for every such bag or container with a net weight of less than 2 pounds.

(2) 2½ cents for every such bag or container with a net weight of 2 pounds or more, but less than 5 pounds.

(3) 1 cent per pound for every such bag or container with a net weight of 5 pounds or more but not to exceed a total of 5 cents.

[Paragraph (a) amended by Amdt. 2]

SEC. 19. *Gift and holiday packages assembled by you.* If you assemble, into gift or holiday packages, any food items covered by this regulation, with or without any items not covered by this regulation, you must figure your ceiling price for such package under whichever of the following paragraphs applies:

(a) For packages assembled in cardboard, wooden, or other plain containers (for example, "overseas" or "servicemen's" packages), your ceiling prices will be the sum of the following, multiplied by 1.05:

(1) Your ceiling price for each item (or article) being packed, figured under this regulation or any other applicable ceiling price regulation. If you have no ceiling price for any item (or article), use your current selling price for that item.

(2) Your direct cost of the packaging materials used for the particular package, including the container.

(b) For packages assembled in permanent containers designed and constructed for re-use (including but not limited to trays, cedar boxes, hampers, teakwood chests, fancy baskets), your ceiling price will be the sum of the following, multiplied by 1.15:

(1) Your ceiling price for each item (or article) being packed, figured under this regulation or any other applicable ceiling price regulation. If you have no ceiling price for any item (or article), use your current selling price for that item.

(2) Your ceiling price for the container figured under the applicable ceiling price regulation. If you have no ceiling price for the container, use your direct cost for the container.

(3) Your direct cost of the packaging materials used for the particular package.

SEC. 20. *Special allowance for forwarding gift package to a donee in a foreign country.* If you deliver a food package directly, upon order of the purchaser to a donee (other than a member of the armed forces of the United States) in a foreign country outside of the North American continent, you may add to you ceiling price an amount not to exceed 50 cents for forwarding such package, plus the actual mailing and insurance charges.

This allowance may be applied only to the shipment and delivery of individual food gift packages and not of wholesale lots.

SEC. 21. *How you figure your "net cost" in certain cases*—(a) *Frozen fruits, berries, and vegetables.* If, after you have figured a ceiling price for an item of frozen fruits, berries, fruit or berry juices, vegetables or vegetable juices, you do not receive additional deliveries of such an item from a supplier but you have had such item in storage from which you supply your store, for a period of at least four weeks since you last figured your ceiling price for the item, you may on the fourth Monday after you last figured your ceiling price for the item, add to the "net cost" (before the rounding of fractions) on which your existing ceiling price is based, your actual costs, per unit, incident to storage for the period since you last figured your ceiling price.

(b) *Smoked fish which you process.* (1) If you buy smoked fish in the form of slabs (gutted, headed and halved) and sell it in slices, you shall multiply your "net cost" per pound for the item by 1.20. To get your ceiling price per pound for such slices, apply the mark-up for your group of retailer to the resulting figure.

(2) If, prior to offering for sale, you change the form of an item of smoked fish bought drawn (gutted) to dressed (headed, with fins off), and sell it whole,

in chunks or in slices, you shall multiply your "net cost" per pound for the item by 1.10. To get your ceiling price per pound, apply the mark-up for your group of retailer to the resulting figure.

[Paragraph (c) added by Amdt. 10; deleted by Amdt. 16]

[Paragraph (d) added by Amdt. 10; deleted by Amdt. 16]

SEC. 21a. *Additional allowance for warehousing and delivery of frozen foods.* If the price you pay for any item of frozen foods is no higher than the manufacturer's or processor's ceiling price for the item, you may, in determining your ceiling price for the item use whichever of the following is applicable.

(a) *Complete warehousing and delivery.* If you receive, handle and deliver any item of frozen foods in the following manner, you may multiply your "net cost" of the item by 1.08 before applying the markup allowed for your store group in Table A:

(1) Your usual receiving point of the item is a warehouse owned, leased, or controlled by you, which is designed for the purpose of maintaining frozen foods at proper temperatures, and the item is stored in such a warehouse.

(2) You accept title to the item prior to, or at the time, it is first placed in storage in such warehouse.

(3) You assemble orders for delivery in such warehouse or in a breakup room in such warehouse.

(4) You ship or deliver the item to your retail store in special containers, or in trucks that are designed to maintain frozen foods at proper temperatures, and such containers or trucks are owned, leased, or controlled by you.

If, at any time, you discontinue entirely the above method of doing business for the item you may no longer multiply your "net cost" of that item of frozen foods by 1.08 before applying the markup allowed for your store group in Table A. In the event, however, your method of performing the above functions changes in part for the item, you must immediately report the circumstances to the OPS district office for the area where the warehouse at which you receive your frozen foods is located, and apply in writing under the provisions of paragraph (b) of this section. Pending action by such district office on your application under the provisions of paragraph (b) of this section, you may upon filing such application begin to add the additional percentage figure, not to exceed 8 percent of the "net cost" for the item, set forth in answer to paragraph (b) (3) of this section to your "net cost" for the item of frozen foods before applying the markup allowed for your store group in Table A.

(b) *Partial and contract warehousing and delivery.* If you do not receive, handle and deliver an item of frozen foods in the precise manner and in all the respects outlined in paragraph (a) of this section, but you do perform some of these functions, or you contract to have some or all of such functions performed for you, you may apply in writing to the OPS district office for the area where the warehouse at which you receive your frozen foods is located, for authority to add a specific percentage markup, not to exceed 8 percent, to your "net cost", to reflect an allowance for your actual warehousing, assembly and delivery costs for the item. Your application must be filed in duplicate with such OPS district office and must contain for your calendar or fiscal year 1950, (if not in business all of 1950 use your most recent fiscal period) the following information:

(1) A complete description of the actual warehousing, assembly and delivery functions performed by you or which you contract to have performed for you in connection with the distribution of frozen foods which you own.

(2) A statement showing, for each of the functions described in paragraph (a) (1), (3), and (4) of this section, the "net cost" of frozen foods so handled, and the actual out-of-pocket expenses incurred by you because of the performance of such warehousing, assembly and delivery functions which you would not have incurred if you had not handled frozen foods in such manner. If you cannot segregate your handling costs because you contract for more than one of the functions described above and such contract does not specify the portion allotted to each such function, your statement must include a complete description of your contractual arrangements.

(3) A statement showing such actual warehousing, assembly and delivery costs incurred by you in terms of a percentage of your "net cost", not to exceed 8 percent, for frozen foods handled in such manner.

If such OPS district office does not notify you within 10 days from the date that you file your application, you may begin to add the additional percentage figure set forth in answer to sub-paragraph (3) of this paragraph, to your "net cost" of the item of frozen foods before applying the frozen food markup for your store group in Table A, subject to any action which may be later taken by such OPS district office. In no event may such percentage markup exceed 8 percent of the "net cost" for any item of frozen foods. If, any time, after you are authorized to use such percentage markup, your method of performing these warehousing, assembly and delivery functions changes in any material respect, you must report the circumstances to such OPS district office, and upon a review of the facts your percentage markup allowance, not to exceed 8 percent of the "net cost" for the item, may be adjusted to reflect the changes in your method of operation.

(c) *Retailers who have not previously performed partial or contract warehousing and delivery.* If you did not perform any of the warehousing, assembly and delivery functions outlined in paragraph (a) of this section prior to the effective date of this amendment and you now desire to perform some of such functions or contract to have some or all of such functions performed for you, you may apply to the OPS district office for the area where the warehouse in which you will receive your frozen foods is located, for authority to add a specific markup to your "net cost" not to exceed 8 percent, to reflect an allowance for the actual warehousing, assembly and delivery costs for any item of frozen foods you handle in the proposed manner. Your application must be filed in duplicate with the OPS district office and must contain the following information:

(1) A complete description of the actual warehousing, assembly and delivery functions which you intend to perform or which you will contract to have performed for you in connection with the distribution of frozen foods.

(2) A statement showing for each of the functions described in paragraph (a) (1), (3), and (4) of this section, the estimated "net cost" of frozen foods to be so handled, and the actual out-of-pocket expenses which you estimate will be incurred by you because of the performance of such warehousing, assembly and delivery functions which you will not incur if you do not handle frozen foods in such manner. The figures contained in this statement shall be estimated for a six months period from the date of your application. If you cannot segregate your handling costs because you are contracting for more than one of the functions described above, and such contract does not specify the portion allotted to each such function, your statement must include a complete description of your proposed contractual arrangements.

(3) A statement showing an estimated percentage markup, not to exceed 8 percent, to your "net cost" for frozen foods which will be necessary to reflect an allowance for the actual warehousing, assembly and delivery cost which will be incurred by you if you handle frozen foods in such manner.

You may not operate under this section until you are notified in writing by such OPS district office of the additional percentage markup, not to exceed 8 percent, which you will be allowed to use. In addition, within twenty-five days after the close of the first six months of operation you shall submit to such OPS district office a new application under the provisions of paragraph (b) of this section using your actual cost data for this six months period, so that your percentage markup, not to exceed 8 percent, may be adjusted to reflect your actual warehousing, assembly and delivery costs.

(d) If you price any item of frozen foods under the provisions of this section you may not use the provisions of section 21, paragraph (a) in arriving at your "net cost."

[Sec. 21a added by Amdt. 4]

SEC. 21b. *How you may figure your ceiling prices for "perishables" on a weighted average net cost basis.* Sections 8 and 9 of this regulation require you to use in figuring your ceiling price for "perishables" the net cost of the largest delivery to you in the seven-day period before the Monday (or Friday for stores which price from a central point) for which you are figuring your price. If you so desire, however, you may use as the net cost of an item of "perishables" the weighted average net cost of all deliveries of that item to you during that seven-day period. Before beginning to figure "net cost" in this manner you must notify in writing the OPS district office for your area. After notification you may not use the net cost of the largest delivery during the seven-day period to figure your ceiling price for any of the "perishables" listed in Table B and you must, thereafter, use the weighted average method for all "perishables". However, you must continue to use all other provisions of sections 8 and 9 in figuring your ceiling prices for these items.

[Sec. 21b added by Amdt. 10]

SEC. 22. *Additions for delivery from your warehouse to your store.* If your store is located at a distance of 125 miles or more from your warehouse which is your usual receiving point, you may, in determining your ceiling price for an item delivered from the warehouse to your store, use whichever of the following is applicable:

(1) If the store is located at a distance of from 125 through 199 miles from such warehouse, you may add 1 to your mark-up figure. (Example: If your mark-up figure on breakfast cereals in Table A is 16 percent, you change it to 17 percent.)

(2) If the store is located at a distance of from 200 through 299 miles from such warehouse, you may add 2 to your mark-up figure.

(3) If the store is located at a distance of from 300 through 399 miles from such warehouse, you may add 3 to your mark-up figure.

(4) If the store is located at a distance of 400 miles or more from such warehouse, you may add 4 to your mark-up figure.

SEC. 23. *How you figure your ceiling prices for foods you "manufacture or otherwise process".* If you "manufacture or otherwise process" and sell at retail any item covered by this regulation, you will figure your "net cost" or ceiling price for such item under whichever of the following provisions applies:

(a) If the item is one for which the OPS has issued, or later issues, a regulation naming dollars-and-cents ceiling prices for sales by manufacturers, but the regulation makes no provision for manufacturers selling at retail the lowest ceiling price under that regulation for sales delivered to your usual receiving point shall be your "net cost."

(b) If the item is one for which the OPS has issued, or later issues, a regulation naming dollars-and-cents ceiling prices for sales by manufacturers and makes a provision for manufacturers selling at retail, you shall figure your ceiling price for such item as a manufacturer under that regulation. You will not attempt to figure a "net cost" and apply a mark-up under this regulation.

(c) If the item is one for which the OPS has not issued, or does not later issue, a regulation establishing dollars-and-cents ceiling prices for sales by manufacturers, you shall figure your ceiling price for such item as a manufacturer under the appropriate regulation covering the sales of such item by manufacturers. You will not attempt to figure a "net cost" and apply a mark-up under this regulation.

(d) If, after you have established a ceiling price for an item which you "manufacture or otherwise process", the manufacturer's regulation which you used in figuring your ceiling price under paragraph (a), (b), or (c) of this section is amended so that either (1) the manufacturer's regulation is no longer the type described in the applicable paragraph of this section or (2) the type of regulation is not changed but the prices set forth therein are changed; you must, within 5 days after the effective date of such amendment, refigure your ceiling price for the item under the applicable paragraph of this section based on the manufacturer's regulation as amended.

(e) For the purpose of this regulation you shall be considered a manufacturer of any item which you manufacture or otherwise process directly, or which is manufactured for you by a person to whom you supply the raw material.

SEC. 24. *Special pricing provisions for manufacturers selling some commodities at retail.* Any person, the larger part of whose business is the manufacturing or processing of foods, but

(a) His entire business in connection with a particular commodity consists of the purchase and resale of such commodity without materially changing its form, and

(b) The larger part of his sales of such commodity are made to ultimate consumers other than commercial, industrial or institutional users,

(c) Shall figure his ceiling prices for sales of such commodity to ultimate consumers other than commercial, industrial or institutional users in accordance with the provisions of this regulation, and shall, for such purposes, be considered a retailer covered by this regulation.

SEC. 25. *Mail order and express sales.* Your mail order sales and your express sales are exempt from the provisions of this regulation. For the purposes of this section mail order and express sales are sales in which the items sold are delivered through the mails or via express within the North American continent.

[Section 25 amended by Amdt. 12]

ARTICLE III—ADJUSTMENT PROVISIONS

SEC. 26. *How you may, under certain conditions, apply to use Group 1 mark-ups.* (a) If your store meets the gross margin requirements specified in this section and does business in the manner outlined below, you may apply under paragraph (b) of this section to use the mark-ups provided in Ceiling Price Regulation No. 16 for Group 1 stores:

(1) Most of your sales in your grocery department are made by sales clerks who assist customers in selecting, collecting, and wrapping merchandise;

(2) Your store generally offers to all its customers the services of taking orders by telephone, carrying monthly charge accounts, and providing delivery service;

(3) The general level of your prices for grocery products was during January 1951 at least as high as the level maintained by Group 1 stores, and was generally higher than that maintained by Group 3 and 4 stores, for such products in your community; and

(4) The total gross margin in your fiscal year 1950 was at least 23 percent on all sales in your food departments or at least 23 percent on the combined sales of the food departments in all the stores for which you seek adjustment in your organization. Do not count a restaurant as a food department. If not in business during all of 1950, use your most recent fiscal period.

[Subparagraph (4) amended by Amdt. 9]

(b) Your application must be filed in duplicate with the OPS district office for your area on a form which you may get from that office. You may combine on one form the applications of more than one of your stores. If your application is finally approved, OPS will tell you when to begin using the Group 1 mark-ups, and from such time on you shall display a sign in your store designating it as a "Group 1" store, and it shall be considered a Group 1 store for the purpose of all "special pricing provisions" contained in Ceiling Price Regulation No. 16.

(c) If, however, under Maximum Price Regulation No. 422 issued in 1943 by the Office of Price Administration (1) you were either a Group 3 or Group 4 store on the basis of sales volume, and (2) you can establish that you were authorized by the Office of Price Administration to use Group 1 mark-ups, and (3) such authority was never revoked, and (4) you meet the gross margin requirements specified above, and (5) you certify that your method of doing business has not changed in any material respect since the time you were authorized to use Group 1 mark-ups, you may consider yourself a Group 1 store under Ceiling Price Regulation No. 16 as soon as you have filed your application in accordance with this section. This authority may be withdrawn if it is determined that your store does not qualify for adjustment under this section.

SEC. 26a. *How certain stores or food departments, selling mostly "specialty" food items may under specific conditions apply to be excluded from using the markups in this regulation for the purpose of establishing their ceiling prices.* (a) If your store or food department meets the average markup requirement specified in this section and does business in the manner outlined below you may apply under paragraph (b) of this section to be excluded from using the markups in this regulation for the purpose of establishing your ceiling prices.

(1) Most of your sales in your store or food department are sales of "specialty" food items made by sales clerks who assist customers in selecting, collecting and wrapping or packaging merchandise.

(2) Your store or food department generally offers to all its customers the services of accepting and filling telephone orders, carrying monthly charge accounts and providing delivery.

(3) The general level of your prices in your store or food department was higher than Group 1 stores in your community during your fiscal year 1950.

(4) The average markup on "net cost" was at least 40 percent on all food sales for your fiscal year 1950 or at least 40 percent on the combined food sales in all the stores for which you seek adjustment in your organization. Do not count a restaurant as a food department. If not in business during all of 1950, use your most recent fiscal period.

[Subparagraph (4) amended by Amdt. 9]

(b) You must before September 30, 1951, file with the OPS district office for your area an application in duplicate (1) showing clearly that you do business as outlined in paragraph (a) above of this section, and (2) showing the number of items you normally sell in your store or food department, and (3) showing your average markup on "net cost" for fiscal year 1950 (if not in business during all of 1950 use your most recent fiscal period), and (4) showing the percentage of food items which produce an average markup on "net cost" of 40 percent or more to the total number of food items you sell in your store or food department. You may consider your store or food department excluded from using the markups in this regulation for the purpose of establishing your ceiling prices as soon as you have filed your application in accordance with this section. Then figure all your ceiling prices for food items under the General Ceiling Price Regulation, as amended. This authority may be withdrawn if it is determined by OPS that your store or food department does not qualify for adjustment under this section. Applications for adjustments are governed by Price Procedural Regulation 1.

(c) Any adjustment granted at any time under this section shall not apply to fresh fruits and vegetables or to items under this regulation for which dollars-and-cents ceiling prices at retail are fixed in any regulation or order which has been or may be issued by OPS. In figuring your ceiling prices for fresh fruits and vegetables you shall consider yourself a Group 1 store for the purpose of all "special pricing provisions" and markups contained in Ceiling Price Regulation 16. You shall also consider yourself a Group 1 store under any OPS regulation or order fixing dollars-and-cents ceiling prices at retail for items under this regulation.

[Paragraph (c) added by Amdt. 10]

(d) If you desire to operate as a "specialty" food store or food department, you may apply under this section to be excluded from using the markups of this regulation for the purpose of establishing your ceiling prices, provided your operation is planned to meet the following criteria:

(1) At least 51 percent of your dollar volume of sales will be made by sales clerks who assist customers in selecting, collecting, and wrapping or packaging merchandise.

(2) Your store or food department generally will offer to all of its customers the services of accepting and filling telephone orders, carrying charge accounts, and providing delivery.

(3) That the estimated dollar volume of sales of "specialty" food items of your store or food department (excluding restaurants) will constitute at least 60 percent of your total dollar volume of all sales.

You must file a statement signed by you or your authorized representative and forwarded by Registered Mail, return receipt requested, to the OPS District Office for your area, stating your trade name and address, and that you meet the above criteria, and including a list of 25 or more of the "specialty" food items which were considered in the 60 percent estimate of your total dollar volume of "specialty" food item sales.

You may, for a "trial period" of four months, consider your new operation a "specialty" food store or food department as soon as you have submitted the above statement, and may for that period figure your ceiling prices under the GCPR.

[Paragraph (d) added by Amdt. 19]

(e) At the end of your trial period, you must re-examine the operation of your store or food department to determine from actual records of four months' operation during that period that you have met the criteria listed in paragraph (d) of this section.

If you find that your trial period experience meets these criteria and you wish to continue to operate as a specialty store and price under the GCPR, you must, within 15 days after the end of the trial period, file with the OPS District Office for your area a statement containing your trade name and address and signed by you or your authorized representative to this effect. You must include as a part of your statement a list of 25 or more of the best-selling items you have included when re-examining your operation for compliance with paragraph (d) (3) of this section. You may then continue to operate as a "specialty store" unless you receive notice from the OPS District Office for your area that permission to operate as a "specialty store" under this section has been revoked because upon examination of the facts it has been determined that you have not met the criteria.

If you do not furnish this data within 15 days after the expiration of your trial period, or if you determine that your store or food department has not met the criteria as estimated in your application, you must, beginning the third Monday after the trial period, establish your ceiling prices under the provisions of CPR 15. You then may not re-apply under the provisions of paragraph (d) above for at least six months from the end of the trial period.

[Paragraph (e) added by Amdt. 19]

[Section 26a added by Amdt. 2; amended by Amdt. 6]

SEC. 26b. *How certain stores that ship most of their sales via mail or express may under specific conditions apply to be excluded from using the markups in this regulation for the purpose of establishing their ceiling prices.* (a) If your store or food department ships 65 percent or more by dollar volume of the items it sells via mail or express, you may obtain permission to be excluded from using the markups in this regulation for the purpose of establishing your ceiling prices.

(b) In order to obtain this permission you must file an application with the OPS District Office for your area and furnish the following information:

(1) Your total dollar volume of food sales in the calendar year or fiscal year preceding the date of your application.

(2) Total dollar volume of food sales shipped via mail or express in the calendar year or your fiscal year preceding the date of your application.

(c) You may consider your store or food department excluded from the requirement that you use the markups prescribed by this regulation for the purpose of establishing your ceiling prices as soon as you have filed your application in accordance with this section. You must then figure all your ceiling prices for food items under the General Ceiling Price Regulation, as amended. This authority may be withdrawn if it is determined by OPS that your store or food department does not qualify for adjustment under this section.

[Sec. 26b added by Amdt. 17]

SEC. 26c. *How some Group 3 stores may, under certain conditions, be reclassified as Group 1 or 2 stores.* (a) If, for the calendar year 1950, 60 percent or more of your stores had annual gross sales per store of $75,000 or less, you may apply to have your Group 3 stores reclassified as Group 1 or Group 2 stores on the basis of their individual 1950 sales volume.

(b) Your application for reclassification shall be filed with the Distribution Branch, Food and Restaurant Division, Office of Price Stabilization, Washington 25, D. C. This application must list all the stores in your chain, giving the name or number and gross sales for the calendar year 1950 for each store. You may consider your Group 3 stores reclassified as Group 1 or 2 stores as soon as you have submitted your application in accordance with this section. This reclassification may be disapproved if it is determined that you do not qualify under this section.

[Sec. 26c added by Amdt. 19]

SEC. 27. *How certain stores, where necessary to assure an adequate supply of food in a locality, may apply for mark-up adjustments.* If your store is necessary to provide an adequate supply of food products in a locality; and by reason of remote location, long-term credit, short selling season, or other such unusual operating conditions, you find it impossible to operate under the markups fixed by this regulation, you may apply for an adjustment of such markups by filing with the OPS district office for your area two copies of a signed statement giving for your store: (1) its name and address; (2) its group under this regulation; (3) its type (for example, cash-and-carry; service, delicatessen); (4) the approximate number of its food customers; (5) the total number of stores selling food in its community; (6) its distance from the nearest store selling food and the name and address of that store; and (7) the reasons why you are unable to operate under the markups fixed by this regulation.

If you have more than one store you may file one application for all your stores which meet the conditions stated above. Your application must state separately for each store the specific information this section calls for.

SEC. 28. *Applications for adjustment.* Any Regional Office of the OPS, or such offices as may be authorized by order issued by the appropriate Regional Office, may act on all applications for adjustment under the provisions of this regulation. Applications for adjustment

are governed by Price Procedural Regulation 1.

ARTICLE IV—MISCELLANEOUS PROVISIONS

SEC. 29. *How you find the "annual gross sales" of your store.* (a) To find your "annual gross sales," take your total sales for the calendar year 1950. Include all sales as shown on your books, except sales made by a restaurant operated in conjunction with your store. You can use your Federal Income Tax Return to get your gross sales for all or part of the calendar year 1950 which is covered by such return. If you own more than one store, figure the sales for each store separately, treating each as a separate retailer.

(b) If you were not in business during the entire year 1950 you must divide your total sales from the time you began operation up to May 14, 1951, by the number of weeks you were in business. This will give you your weekly average sales. Multiply this figure by 52, and the result is your "annual gross sales."

[Paragraph (b) amended by Amdt. 1]

SEC. 30. *How you determine your group in certain special cases.*—(a) *Department stores.* If you operate a department store, that is, a store in which the greater volume of sales is general merchandise and not foods, and you sell foods in a separate department or departments, you must determine your group by using only the "annual gross sales" of your food department or departments.

(b) *Stores in which more than one retailer operates.* (1) If you sell food in a retail store in which there are other food retailers, none of whom sells a complete line of the same general class of food, you must find your group by taking the combined "annual gross sales" of all the food retailers in that store. If the total "annual gross sales" of all the food retailers in that store is not readily available, you shall apply, in writing, within thirty days after the issuance of this regulation, to the OPS district office for your area for a determination of your group, stating your own "annual gross sales" figure for the applicable year. Each District Director is authorized to act on requests covering stores located within his district, and action taken shall be by order.

(2) If you sell foods in a retail store in which more than one retailer sells a complete line of the same general class of food, you will be considered as operating a separate retail store of your own, and you must determine your group by using only your own sales.

(c) *New stores.* If you open a retail store after May 14, 1951, you may consider yourself a Group 1 or Group 3 retailer, depending upon whether or not at that date your store is an "independent" store, and you must figure your ceiling prices accordingly. (If you are a Group 1 store, you must figure your ceiling prices under Ceiling Price Regulation No 16.) However, after you have been in business for 3 months you must determine again what group your store is in. To do this, take your total sales for the 3-month period and multiply by 4. Use the result as your "annual gross sales" in determining the group in which your store belongs.

If you find that your store should now be in another group, you may continue to use the Group 1 or 3 markups until the second Monday following the end of the 3-month period, by which time you must have refigured all your ceiling prices using the markups for your new group. You shall use as your "net cost" the same "net cost" which you would have used in refiguring your ceiling prices on that Monday. If, under that section, you would not have been required to refigure your ceiling price for any item on that Monday, you shall use as your "net cost" for that item the same "net cost" on which your existing ceiling price at that time is based.

[Paragraph (c) amended by Amdt. 1]

(d) *Discontinuance of stores.* (1) If you are not an "independent" store and you close one or more of your stores so that you now have less than 4 stores under one ownership, you may find your group for each of the remaining stores by determining the "annual gross sales" under section 29 (a), treating each store as an "independent" store.

(2) If you are not an "independent" store and you close one or more of your stores, but 4 or more stores continue under one ownership, you may refigure the combined "annual gross sales" under section 29 (a) for those remaining in operation. If the combined "annual gross sales" are not $750,000 or more, you may then determine your group for each store, treating each as an "independent" store.

(3) If you find that any store is now in another group, you may refigure all of your ceiling prices for that store before the opening of business on any Monday. You must use as your "net cost" the same "net cost" which you would have used in refiguring under sections 4 and 9 your ceiling prices on that Monday of this regulation if a Group 4 store (or under sections 4 and 9 of Ceiling Price Regulation No. 16 if a Group 1 or Group 2 store). If, under that section, you would not have been required to refigure your ceiling price for any item on that Monday, you must use as your "net cost" for that item the same "net cost" on which your existing ceiling price is based. Further, if any store is now in Group 1 or Group 2, it is subject to all other provisions of Ceiling Price Regulation No. 16.

SEC. 31. *Taxes.* You may collect, in addition to your ceiling price, any tax upon or incident to a sale at retail of food covered by this regulation if you state the tax separately, and if the statute or ordinance does not prohibit sellers from stating and collecting the tax separately from the price.

SEC. 32. *Transfer of business and stock in trade.* If, after May 14, 1951, you acquire in any way the business, assets, and stock in trade of any retail store covered by this regulation and you carry on the business, or continue to deal in the same type of food products in that same store, your ceiling prices shall be the same as those of the former owner as if no transfer had taken place. You must keep all the records needed to verify your ceiling prices. The former owner must either preserve and make available to you, or give you, all the records of his transactions before you acquired the store which you need to comply with the record provisions of this regulation.

If the transfer changes the business from one group of retail stores to another, your ceiling prices shall be those for the group of retailer to which you belong under this regulation.

[Sec. 32 amended by Amdt. 1]

SEC. 33. *Export sales.* The ceiling prices at which a person may export any product covered by this regulation shall be determined in accordance with the applicable price regulation covering export sales issued by the OPS.

SEC. 34. *Relation to other regulations.* The provisions of this Ceiling Price Regulation No. 15 except as otherwise provided in this regulation, shall, on and after May 14, 1951, supersede the provisions of the General Ceiling Price Regulation, and any other price regulation or order issued by the OPS with respect to sales and deliveries for which ceiling prices are established by this regulation.

[Sec. 34 amended by Amdt. 1]

SEC. 35. *Definitions.*—(a) *"Retail route seller."* A "retail route seller" is a retailer who distributes food products to ultimate consumers who are not commercial, industrial or institutional users, either on a future delivery basis or otherwise, from an inventory stocked in trucks or other conveyances operated by driver-salesmen over regular routes. A retailer, most of whose business is the personal solicitation of orders by salesmen calling at the homes or places of business of ultimate consumers, who are not commercial, industrial or institutional users, shall also be considered a retail route seller. A retailer is a "retail route seller" only of the food products he sells in this way.

(b) *Health food stores.* A "health food store" or "health food department" is one whose sales to consumers consist principally of "specially prepared dietetic foods." For the purpose of this regulation a "health food department" is a separate and distinct department operated by separate and specially trained personnel and for which separate records and accounts are maintained. "Specially prepared dietetic foods" are foods manufactured and sold for restricted diets and for special dietetic purposes, including but not limited to specially prepared foods for diabetic or arthritic conditions, or high blood pressure; specially prepared weight building or tonic foods; and vitamin or mineral supplements.

(c) *Delivery.* Delivery to you of an item covered by this regulation shall be considered to have occurred when the item has been received by you at your usual receiving point.

(d) *Usual receiving point.* Your usual receiving point will be either your retail store or your warehouse from which you supply your retail stores, depending upon where you normally receive the particular item you are pricing under this regulation.

(e) *Item.* You must determine a separate ceiling price for each item; that is, for each kind, brand, size, variety, grade, container-type and container-size.

(f) *Manufacture or otherwise process.* "Manufacture or otherwise process" shall mean blending, freezing, canning, preserving, bottling, milling, crushing, straining, roasting, centrifuging, cooking, distilling, purifying with heat, printing of butter, and other similar operations, and packaging of spices, tea, and gelatin.

Packaging as used in section 18 shall not be considered manufacturing or processing under this regulation.

[Above portion of Table C amended by Amdt. 6]

(b) *Instructions for use of Table A, Table B, and Table C.* Tables A and B contain the mark-ups for all commodities in this regulation. Table C is included to assist you in determining ceiling prices without burdensome calculations.

Table A lists by commodity groups the "dry groceries" covered by this regulation and the mark-ups to be used by Group 3 and Group 4 retailers in figuring their ceiling prices. Table B gives the same information for "perishables." However, in addition, Table B also lists the selling units, on the basis of which retailers must figure their net costs and ceiling prices for "perishables." For a detailed list of the items in each commodity group, see "Commodity definitions of dry groceries" printed immediately after Table A, and "Commodity definitions of perishables" printed immediately after Table B. After you have determined your "net cost" for an item in accordance with the method set up in this regulation, find your proper mark-up in the commodity group which includes the item you are pricing. Commodity groups are listed at the left of Table A and Table B. Directly opposite each commodity group you will find a percentage mark-up for your group of retailers.

If a percentage mark-up is shown, you get your ceiling price for the item by turning to Table C, which shows the ceiling price for all items with per unit net costs ranging from ½¢ to 75¢. Percentage mark-ups over net cost are listed in the column at the extreme left of Table C, and "net cost" across the top of the table. "Net cost per unit" means, in the case of dry groceries, the "net cost" of a single unit (one can, one jar, etc.). For perishables, it means the "net cost" of the selling unit listed in the list column of Table B.

[Above paragraph amended by Amdts. 18 and 20]

To determine your ceiling price from Table C, find your net cost at the top of the table. Go down that column until you come to the figure (in that column) on the same line as your mark-up. The figure at that point is your ceiling price for the item.

If your net cost per unit is more than 75 cents, you cannot use Table C to get your ceiling price. In those cases, you must (1) multiply your net cost by your percentage mark-up, (2) add the result to your net cost, and (3) round the sum to the nearest whole cent. For perishables, your net cost must be in terms of the selling unit specified in Table B.

Example (1). A Group 3 retailer wishes to figure a new ceiling price for "xx" Brand, 11 ounces canned tomato soup, which he must put into effect by May 14, 1951, in accordance with section 3. His most recent purchase of a customary quantity of this item from a customary type of supplier delivered to his usual receiving point was a carload purchased from a packer and delivered at a cost of $4.40 a case (48) on December 22, 1950. He must first figure to the nearest half-cent, his "net cost" on a single unit basis (sec. 4, (a) (2)), that is, for a single can. He therefore divides the cost for the case, $4.40, by the number of single units in the case, 48, and gets a result of $0.0916 before rounding. Rounding to the nearest half-cent, this becomes $0.09. (If the figure had been $0.0925 before rounding, he would have rounded to $0.095.) He then turns to Table A to find the mark-up to be applied to his net cost. Going down the column at the left of Table A he will find a listing of the commodity group which includes the item he is pricing. For canned tomato soup this group is "Soup (canned)." Going across the page on that line, he will find his mark-up for the item in the column for Group 3 retailers. In this case, his mark-up is 19 percent. Having his mark-up and net cost, Table C will give him his ceiling price without further computations. Checking across the top of Table C, he will find a column headed by his net cost $0.09. Going down this $0.09 column until he comes to the figure on the same line as his percentage mark-up of 19 percent listed in the column at the extreme left of Table C he will find his ceiling price for the item to be 11 cents per can.

ARTICLE I—GENERAL PROVISIONS

SECTION 1. *What this regulation does.* This regulation fixes new ceiling prices for the "dry groceries" listed in Table A and the "perishables" listed in Table B for all "independent" retail stores doing an annual business of under $375,000. These new ceiling prices are to be used instead of the ceiling prices figured under any other price regulation issued by the Office of Price Stabilization (hereinafter called OPS, and regardless of any contract or any other law. All other retail stores (Group 3 and Group 4 stores) selling these food products are covered by Ceiling Price Regulation No. 15.

SEC. 2. *How you find out whether your store is covered by this regulation and what group it is in*—(a) *What stores are covered.* Your store is covered by this regulation if it is a Group 1 or 2 store as defined below and if you are a retailer who buys and resells food products, generally without materially changing their form, for the most part to ultimate consumers who are not commercial, industrial or institutional users. For the purposes of this regulation, "Great Lakes marine suppliers" shall be considered as retailers. The provisions of this regulation do not apply to "retail route sellers", to sales of "specially prepared dietetic foods" by "health food stores" or "health food departments", or to automatic vending machines or farmers selling produce grown on their own farms.

[Paragraph (a) amended by Amdt. 2]

(b) *What are Groups 1 and 2 stores.* For the purpose of this regulation, Groups 1 and 2 stores are defined as follows:

(1) *Group 1.* Your store is in Group 1 if it is an "independent" store with "annual gross sales" of less than $75,000. Your store is an "independent" store if it is not one of four or more stores under one ownership whose combined "annual gross sales" are $750,000 or more.

(2) *Group 2.* Your store is in Group 2 if it is an "independent" store with "annual gross sales" of $75,000 or more, but less than $375,000.

(If you are not sure what group your store is in, use the directions in section 26 for figuring the "annual gross sales" of your store. See section 30 for definitions of Group 3 and Group 4 retailers.

(c) *How to display a sign of the group your store is in.* At all times, you must have the group your store is in under this regulation displayed on a sign reading "OPS–1" or "OPS–2," whichever it is, or on a sign which the OPS may furnish to you. The sign must be displayed so that it can be clearly seen by your customers.

(d) *When you choose to treat your store as a Group 2, 3 or 4 store.* You may choose to treat your store as either a Group 2 store under this regulation or a Group 3 or Group 4 store under Ceiling Price Regulation No. 15 and display a sign in your store as a member of such other group if you:

(1) Figure your ceiling prices for all the items listed in Tables A and B of this regulation as a member of the group you choose; and

(2) Notify the OPS district office for your area of these facts.

[Paragraph (d) amended by Amdt. 6]

(e) *When you must notify OPS of the group in which your store falls.* Within 30 days after the issuance of this regulation, you must notify the OPS district office for your area of the group of your store, using OPS Public Form No. 5 which you may obtain from the OPS district office for your area. If you open a new retail store after May 14, 1951, you must notify, within 15 days, the OPS district office for your area of the group of the store, using OPS Public Form No. 5 which you may obtain from the OPS district office for your area. Even though you sell food products, if none of these products are subject to this regulation, you need not furnish this notification. In the event that this regulation is amended to cover one or more of the food products you sell, you must furnish the notification within 30 days of the effective date of the amendment.

[Paragraph (e) amended by Amdts. 1 and 19]

SEC. 3. *How and when you figure your ceiling prices for "dry groceries"*—(a) *General rule.* Your ceiling price for each item (that is, for each kind, brand, grade, variety, container-type and container-size) of "dry groceries" listed in Table A shall be the total of (1) the "net cost" you had to pay for the most recent delivery of the item to you before May 14, 1951, plus (2) the mark-up given you for it in Table A.

[Paragraph (a) amended by Amdt. 1]

(b) *When you must figure your ceiling prices.* By the opening of business on May 14, 1951, you must have figured your ceiling price for each item of "dry groceries" listed in Table A which you have in stock at that time. Between April 5, 1951, and May 14, 1951, you may put into effect the new ceiling price on any item as soon as you figure it; you must put the new ceiling prices into effect on all items not later than May 14, 1951. If you do not put the new price for an item into effect before May 14, 1951, you must continue to use your existing ceiling for that item until May 14, 1951. If you receive delivery of any item between April 5, 1951, and May 14, 1951, for which you have no ceiling price, you must, before selling it, figure your ceiling price according to the rules of this regulation.

[Paragraph (b) amended by Amdt. 1]

(c) *Special rule for certain items of the 1950 pack.* If, in the case of any item of the 1950 pack of food commodity groups 8, 10, 11, 12, 13, 32 and 33 in Table A, your last purchase of the particular item was made prior to January 26, 1951, you may continue to use your legal ceiling price for such item under the General Ceiling Price Regulation until you receive delivery of a purchase made after that date. When you receive delivery of such a purchase, you must figure your ceiling price for the item in accordance with the provisions of this regulation.

(d) *Pricing special promotions.* Where you have a "special promotion" consisting of two or more items bound together for joint sale or bearing appropriate printing or labeling referring to the joint sale, you shall compute your ceiling price for the joint sale as follows:

(1) Determine which item or items are the regular portion of the "special promotion" and which item or items are the "special" portion.

(2) For the regular item or items compute your ceiling prices according to this regulation, disregarding entirely the special item or items.

(3) For the special item or items you may charge up to 50 percent of your existing ceiling price for those items.

(4) If you have no existing ceiling price for the special item or items you may use as your markup a maximum of 3 cents per item.

(5) Your ceiling price for the joint sale is the sum of the ceiling price for the regular item plus the price determined under subparagraphs (3) or (4) of this paragraph for the special items. You may not price any special promotion on the same items under this paragraph for a period of more than 120 days. Also you may not price under this paragraph another special promotion on the same items until six months after the conclusion of the previous such offering.

[Paragraph (d) added by Amdt. 6]

SEC. 4. *Directions for applying the rule for "dry groceries"*—(a) *Net cost.* To figure your ceiling price, first find the "net cost" of the item, based on its most recent delivery to you before May 14, 1951. Your "net cost" will be the amount you paid your supplier less all discounts except (1) discounts on items in Category No. 5, "Cookies, toast and crumbs" and Category No. 5A, "Crackers," (section 32 (b) (5) and (5A)), (2) the discount for prompt payment, and (3) swell and label allowances, plus all transportation charges you paid except local trucking and local unloading. This exception shall not apply to any shipments by water. In such cases, there may be added also as part of the cost of transportation the cost of moving the shipment from the place at which it was processed to the dock, the cost of unloading at that dock, wharfage, handling, tollage and usage charges, the cost of marine insurance the cost of loading the goods on a car, truck or other conveyance at the port of discharge and the cost of transporting that shipment from the port of discharge to receiving point. However, cost of loading the shipment at the place at which it was processed, segregation charges, and cost of unloading at receiving point may not be added. If you are located on an island or otherwise accessible only by water, for any items delivered from a warehouse under the same ownership or control, where a combination of land and water transportation is required, you may include in your "net cost" the actual cost of the water transportation between the warehouse and your store, including any charges for loading and unloading the water carrier. Treat as a separate item each kind, brand, grade, variety, container-size and container-type of "dry groceries."

[Paragraph (a) amended by Amdts. 1, 4, 9 and 19.]

(1) Your net cost must be figured on purchases of a customary quantity from a customary type of supplier delivered to your "usual receiving point" by a customary means of delivery. Of course, you must never figure your net cost on a purchase made at a price higher than your supplier's ceiling.

(2) Figure the net cost on a single unit basis (that is, per can, per pound, per package, per jar, etc.), to the nearest half cent. (Fractions of exactly one-quarter cent are rounded up to one-half cent and fractions of exactly three-quarters of a cent are rounded up to the next cent.) Your invoice cost may be the cost of a carton, case or barrel, for instance, and not the cost of the package, can or other unit you sell. You must get the net cost of the single unit you sell by dividing the cost of the carton, case or barrel by the number of units in the carton, case or barrel.

(3) When figuring your net cost of canned baby food (Category #1, Table A), compute your net cost on a unit of three cans to the nearest half-cent. (Fractions of exactly one-quarter cent are rounded up to one-half cent and fractions of exactly three-quarters cent are rounded up to the next cent.) You must get the net cost of a unit of three cans by dividing your invoice cost per case by one-third of the number of cans in the case. (For example, you would divide the cost of a case of twenty-four cans by eight.) To determine your ceiling price for a single can of baby food divide your ceiling price for a unit of three cans by three and, in the event that any fraction results, round up to the next cent.

[Subparagraph (3) added by Amdt. 18]

(4) If you are figuring your net cost of canned baby food on the basis of a purchase from a manufacturer on a net price basis (that is, a net price to you which includes all cash discounts), and you receive a notice from him pursuant to SR 107 to the GCPR, you may use as your "net cost" the adjusted net cost furnished in the notice, plus transportation charges you paid, if any, as defined in this section.

[Subparagraph (4) added by Amdt. 18]

(5) If you are figuring your ceiling price for an item on the basis of a purchase made from a "service fee wholesaler", your "net cost" shall be his estimated ceiling price for the item figured on a single unit basis plus transportation charges you paid, if any, as defined in this section. You will be notified by the "service fee wholesaler" of his estimated ceiling price either on his invoice or order form or other written document.

[Subparagraph (3) added by Amdt. 2; amended by Amdt. 7; redesignated (5) by Amdt. 18.]

(b) *Markup.* Turn to Table A to find the markup for the item given your group of store. Table A lists all the "dry groceries" covered by this regulation by commodity groups.

(c) *Ceiling price.* (1) Next turn to Table C. Using the directions given there, you will get your ceiling price for the item. You must not change the ceil-

ing price except in accordance with sec-

termined by you in accordance with Gen-

item during the week before May 24,

ceiling price in effect at any particular

or places of business any of the items

add to your ceiling price an amount not

ing price except in accordance with section 6.

(2) If you sell canned baby food (Category #1, Table A), determine your ceiling price for a single can by dividing your ceiling price for the multiple unit by three and rounding any resulting fractions of a cent to the next higher cent. Moreover, if you sell canned baby food you must offer for sale multiple units of three cans as well as single units of one can.

[Paragraph (c) amended by Amdt. 18]

(d) *Invoices.* You must write your "net cost" per unit of the purchase on which you have figured your ceiling price either on your invoice or other record of the price you paid for the item or on a separate slip of paper and attached to that invoice or other record. You must keep separate or mark or tag plainly, all invoices or records showing the net cost per unit which you used in figuring your ceiling prices. These invoices and records you used in figuring your ceiling prices are your means of proving that your ceiling prices are right.

SEC. 5. *How you figure your ceiling prices for "new items" of "dry groceries".* A "new item" of "dry groceries" is any item of "dry groceries" which you did not have in stock at the opening of business on May 14, 1951. You must figure the ceiling price for a new item before selling it, following the rules in section 4, but basing your "net cost" on the first delivery of the item to you on or after May 14, 1951.

In pricing new items it is a violation to use the net cost of a first purchase made in a non-customary manner (that is, from a non-customary supplier or in a non-customary quantity) when you know that you will be making future purchases in a customary manner. If your first purchase is of this type you must find out and use in figuring your ceiling price, what the net cost would be of a purchase from a type of supplier usually used for a similar item and of a quantity in which a similar item is usually purchased.

[Sec. 5 amended by Amdt. 1]

SEC. 6. *How you figure your ceiling prices each week, starting Monday, May 14, 1951.* Before making any sale of an item of "dry groceries" on each Monday after May 14, 1951 (or on Tuesday if Monday is a holiday and your store is closed) you must refigure your ceiling price for any item if your "net cost" of that item is different from the "net cost" on which your existing ceiling price is based. You must follow the rules in section 4 basing your "net cost," however, on the largest single delivery of a customary quantity received by you from your customary type of supplier during the seven days preceding Monday. If you cannot determine your "largest single delivery" because you have received more than one delivery of the same quantity, use the most recent of these deliveries.

[Sec. 6 amended by Amdt. 1]

SEC. 7. *Dry groceries which you import.* This regulation shall not apply to you for sales of any dry grocery item purchased by you directly from a foreign seller or his agent for importation into the continental United States. Your ceiling price for such items shall be determined by you in accordance with General Ceiling Price Regulation or any other applicable ceiling price regulation covering the sale of the item by importers.

PERISHABLES

SEC. 8. *How and when you figure your ceiling prices for "perishables"*—(a) *General rule.* Your ceiling price for each item (that is, for each kind, brand, variety, grade and size and also, for each growing area where the governing regulation at the producing or wholesale level makes distinction by growing areas) of "perishables" listed in Table B shall be the total of (1) the "net cost" of the largest delivery of the item to you during the seven days preceding Monday of each week, plus (2) the markup given you for it in Table B. However, separate ceiling prices shall not be figured for each brand with respect to fresh fruits and vegetables.

[Paragraph (a) amended by Amdt. 10]

(b) *When you must figure your ceiling prices.* By the opening of business on May 14, 1951, you must have figured your ceiling price for each item of "perishables" listed in Table B which you have in stock at that time. These ceiling prices must be checked each week after May 14, 1951, and changed on Monday of each week for any item if your "net cost" of that item has changed in the preceding 7 days. Never change your ceiling price on any day but Monday.

For items which you receive for the first time or which you have not had in stock for 7 days, you must figure and use a ceiling price at once using the net cost of that first delivery. On each Monday after that, you must treat the item as you would any other item of perishables covered under this regulation.

[Paragraph (b) amended by Amdt. 1]

SEC. 9. *Directions for applying the rule for "perishables"*—(a) *Net cost.* To figure your ceiling price, first find the "net cost" of the largest delivery to you of the item during the 7-day period before the Monday for which you are figuring your price. If you have received more than one delivery of the same largest quantity, use the most recent of these deliveries. Your net cost will be the amount you paid your supplier less all discounts except the discount for prompt payment, plus all transportation charges you paid, which may include costs for icing, refrigeration, and ventilation, but which may not include costs for local trucking and local unloading.

(1) Your net cost must be based on purchases from a customary type of supplier delivered to your usual receiving point by a customary means of delivery. Of course, you must never figure your net cost on a purchase made at a price higher than your supplier's ceiling.

(2) Figure the net cost on the basis of the "selling unit" (for example, 1 pound), listed in Table B for the commodity group which includes the item you are pricing. Always figure net cost to the nearest half cent. (Fractions of exactly one-quarter cent are rounded up to one-half cent and fractions of exactly three-quarters of a cent are rounded up to the next cent.)

(3) If you have an item in stock at the opening of business on May 14, 1951 but you did not receive delivery of the item during the week before, you shall, in figuring your first ceiling price for the item on May 14, 1951, base your net cost on its most recent delivery to you.

[Subparagraph (3) amended by Amdt. 1]

(b) *Markup.* Turn to Table B to find the markup for the item given for your group of store. Table B lists all the "perishables" covered by this regulation by commodity groups.

(c) *Ceiling price.* Next turn to Table C. Using the directions given there, you will get your ceiling price for the item.

(1) *Sales in other quantities.* You may sell an item in a quantity other than the "selling unit" given in Table B. If you sell an item in a quantity other than the "selling unit" given in Table B, you must reduce or increase your ceiling price proportionately. If figuring a price for a quantity different from the "selling unit" results in a fraction of a cent, you may charge the next higher cent. Separate ceiling prices shall be figured for each container size of an item purchased already packaged in consumer containers.

[Subparagraph (1) amended by Amdt. 10]

SEC. 10. *Price which you must display.* At all times, you must have your current selling price for each item of food covered by this regulation clearly shown on the item or at or near the place in your store where the item is offered for sale. However, you must display for canned baby foods (category #1, Table A, your current selling prices for multiple units of three cans. Of course, this displayed price must never exceed your ceiling price.

SEC. 11. *Indirect price increases prohibited.* You must not evade any of the provisions of this regulation or any order issued pursuant to it by any scheme or device. You must not, as a condition of selling any particular food, require a customer to buy anything else. Any such evasion is punishable as a violation of this regulation.

You may not use an unnecessarily high "net cost" in figuring a ceiling price under this regulation. If you make such a high cost purchase, you must find out what your net cost as used in section 4 or 9 would be and use that net cost to figure your ceiling price. You may never use the net cost of a purchase from another retailer to figure a ceiling price if it results in a net cost higher than you would have if you purchased the item from your regular supplier or any other source normally available to you.

SEC. 12. *Sales slips and receipts.* If you have customarily given a purchaser a sales slip, receipt or similar evidence of purchase, you must continue to do so. Furthermore, regardless of your custom, you must give any customer who asks for it a receipt showing the date, your name and address, and quantity and name of each food item sold, and the price you charged for it.

SEC. 13. *Records.* After April 5, 1951, you must keep for one year after you receive them all your invoices, freight bills, and other records showing the price you paid and the date you received delivery of each item covered by this regulation.

You are required to show all your invoices on request of any OPS representative and to furnish on request of any OPS representative a written record of your

ceiling price in effect at any particular time or times for any or all of the items covered by this regulation. You must also keep available for inspection by an OPS representative the records you used in deciding what group your store is in.

SEC. 14. *Prohibitions.* On and after May 14, 1951, if you sell or deliver or offer to sell or deliver at a price higher than your ceiling price fixed by this regulation or any order issued pursuant to it, or if you otherwise violate any provisions of this regulation or any order issued pursuant to it, you are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Defense Production Act of 1950. Also, any person, who, in the course of trade or business, buys from you at a price higher than your ceiling price is subject to the criminal penalties and civil enforcement actions provided for by that Act.

[Sec. 14 amended by Amdts. 1 and 2]

SEC. 15. *Notice of dollars-and-cents ceiling prices.* From time to time the OPS may, by order, fix in your area or community, dollars-and-cents ceiling prices for some or all of the "dry groceries" or "perishables" under this regulation. When these dollars-and-cents prices are fixed, you may not thereafter sell at higher prices, and those orders may provide that such prices take the place of the ceiling prices which you have under this regulation. If such orders do not provide that they replace your prices under this regulation, you must continue to figure your prices under this regulation.

SEC. 16. *Further provisions supplementing or explaining this regulation.* From time to time, the Price Director may, by amendment, issue further provisions which will supplement the provisions of this regulation or explain the rights and duties of buyers and sellers under it. These further provisions will become part of this regulation and may be added as paragraphs to this section.

(a) Whenever an amendment adds any food product to the list of items covered in Tables A or B, you must figure your ceiling price for that food product in accordance with sections 3, 4 and 5 or sections 8 and 9 according to whether the food product is a "dry grocery" item or "perishable" item. However, in doing so, you shall substitute the effective date of such amendment for the date May 14, 1951, wherever it appears in the applicable sections.

[Paragraph (a) amended by Amdts. 1 and 11]

(b) Whenever an amendment changes either a commodity definition in Tables A or B by transferring a food product from one commodity group to another or the markup for your group of retailers, you must by the opening of business on the effective date of such amendment refigure your ceiling prices for the items affected by such amendment. However, in doing so, you must use as your "net cost" the same "net cost" you used in figuring the ceiling prices you had on the effective date of the amendment.

[Paragraph (b) amended by Amdt. 14.]

ARTICLE II—SPECIAL PRICING PROVISIONS

SEC. 17. *Addition allowed for deliveries made by you to your customers.* (a) If you deliver to your customers' homes or places of business any of the items covered by this regulation, you may add to the total value of the delivery, as a separate charge, 25 cents for such delivery, if the total value thereof is $3 or more.

SEC. 18. *Additions for packaging.* (a) If you buy in bulk any item covered by this regulation (except spices, tea and gelatin) and then package and sell it in cardboard containers, cotton bags, transparent bags, interlined coffee bags, or Kraft bags or similar type bags, on which the name, weight and ingredients of the commodity are stamped or printed and which are packed and sealed at a place and time other than the point and time of sale, you may add to your "net cost" whichever of the following allowances applies:

(1) 2 cents for every such bag or container with a net weight of less than 2 pounds.

(2) 2½ cents for every such bag or container with a net weight of 2 pounds or more, but less than 5 pounds.

(3) 1 cent per pound for every such bag or container with a net weight of 5 pounds or more but not to exceed a total of 5 cents.

[Paragraph (a) amended by Amdt. 2]

SEC. 19. *Gift and holiday packages assembled by you.* If you assemble, into gift or holiday packages, any food items covered by this regulation, with or without any items not covered by this regulation, you must figure your ceiling price for such package under whichever of the following paragraphs applies:

(a) For packages assembled in cardboard, wooden, or other plain containers (for example, "overseas" or "servicemen's" packages), your ceiling price will be the sum of the following, multiplied by 1.05:

(1) Your ceiling price for each item (or article) being packed, figured under this regulation or any other applicable ceiling price regulation. If you have no ceiling price for any item (or article), use your current selling price for that item.

(2) Your direct cost of the packaging materials used for the particular package, including the container.

(b) For packages assembled in permanent containers designed and constructed for re-use (including but not limited to trays, cedar boxes, hampers, teakwood chests, fancy baskets), your ceiling price will be the sum of the following, multiplied by 1.15:

(1) Your ceiling price for each item (or article) being packed, figured under this regulation or any other applicable ceiling price regulation. If you have no ceiling price for any item (or article), use your current selling price for that item.

(2) Your ceiling price for the container figured under the applicable ceiling price regulation. If you have no ceiling price for the container, use your direct cost for the container.

(3) Your direct cost of the packaging materials used for the particular package.

SEC. 20. *Special allowance for forwarding gift package to a donee in a foreign country.* If you deliver a food package directly upon order of the purchaser to a donee (other than a member of the armed forces of the United States) in a foreign country outside of the North American continent, you may add to your ceiling price an amount not to exceed 50 cents for forwarding such package, plus the actual mailing and insurance charges. This allowance may be applied only to the shipment and delivery of individual food gift packages and not of wholesale lots.

SEC. 21. *Sections in Ceiling Price Regulation No. 15 which you must use if they apply to your method of doing business.* Ceiling Price Regulation No. 15, which covers the same food items as this regulation, but for Groups 3 and 4 stores, contains a number of special pricing provisions which you are required to follow if you perform the operations they cover. (You may obtain a copy of Ceiling Price Regulation No. 15 from the OPS District Office for your area.) The sections of that regulation which you must follow if they apply to you are as follows:

(a) Section 21 *How you figure your "net cost" in certain cases* (applies to you if you have items of frozen fruits, berries, or vegetables in storage for a period of 4 weeks or more; if you process smoked fish prior to offering it for sale).

[Paragraph (a) amended by Amdts. 10 and 16]

(b) Section 22 *Additions for delivery from your warehouse to your store* (applies to you if your usual receiving point is a warehouse over 125 miles from your store).

(c) Section 23 *How you figure your ceiling prices for foods you "manufacture or otherwise process"* (applies to you if you manufacture or process any of the foods covered by this regulation).

(d) Section 25 *Mail Order Sales* (applies to you if you make mail order sales).

(e) Section 33 *Export Sales* (applies to you if you make export sales).

(f) Section 21a—*Additional allowance for warehousing and delivery of frozen foods*—(applies if you warehouse and deliver frozen foods to your retail store).

[Paragraph (f) added by Amdt. 12]

SEC. 21a. *How you may figure your ceiling prices for "perishables" on a weighted average net cost basis.* Sections 8 and 9 of this regulation require you to use in figuring your ceiling price for "perishables" the net cost of the largest delivery to you in the seven-day period before the Monday (or Friday for stores which price from a central point) for which you are figuring your prices. If you so desire, however, you may use as the net cost of an item of "perishables" the weighted average net cost of all deliveries of that item to you during that seven-day period. Before beginning to figure "net cost" in this manner you must notify in writing the OPS district office for your area. After notification you may not use the net cost of the largest delivery during the seven-day period to figure your ceiling price for any of the "perishables" listed in Table B and you must, thereafter, use the weighted average method for all "perishables". However, you must continue to use all other provisions of sections 8 and 9 in figuring your ceiling prices for these items.

[Sec. 21a added by Amdt. 10]

SEC. 22. *How you figure ceiling prices for items if you are also a wholesaler and*

receive such items from a warehouse

whose business is the manufacturing or

(2) Your store or food department

orders, carrying charge accounts,

more by dollar volume of the items it

District Director is authorized to act on

receive such items from a warehouse owned or controlled by you. (a) If, prior to January 1951 you owned or controlled a warehouse physically separate and apart from your retail store, and you acted as a wholesaler distributing from such warehouse, food products to independent retail stores not owned or controlled by you, and you still own or control such a warehouse, you may, in figuring your ceiling price for each item customarily obtained by you from such warehouse and sold by you from your retail store to the ultimate consumer other than commercial, industrial or institutional users, use as the basis of your "net cost," the net cost you used in figuring your ceiling prices for your wholesale sales under Ceiling Price Regulation No. 14 plus the mark-up allowed in that regulation for a Class 1 (retailer-owned cooperative) wholesaler. To get your ceiling prices, reduce the resulting figure to the "net cost" of a single unit and apply the mark-up for your group of retailer as set forth in section 4.

(b) Within 10 days after you first figure your prices in accordance with the provisions of this section, you must notify the OPS district office for your area in writing that you have so figured your prices.

(c) If you qualify under paragraph (a) of this section, and

(1) Your sales of food to independent retail stores not owned or controlled by you were equal to at least 25 percent of the total sales of food made by you at retail; and

(2) At least 80 percent of such wholesale food sales were of items sold at wholesale by you only; and

(3) During your fiscal year 1950 the average wholesale mark-up on all food items sold at wholesale by you only was at least 18 percent on cost;

you may file an application for permission to use as the basis of your "net cost", in figuring your retail ceiling prices on items sold at wholesale by you only, your wholesale ceiling prices of such items figured under Ceiling Price Regulation No. 14. Such application must be filed in duplicate with the Distribution Branch Food and Restaurant Division, OPS, Washington, D. C., and shall contain the following information:

(1) That you have previously qualified under this section, by submitting a certified copy of the letter submitted to your local OPS office in compliance with paragraph (b) of this section.

(2) A breakdown of total sales, for the fiscal year 1950, showing that your sales to independent retail stores were equal to at least 25 percent of total sales at retail.

(3) A breakdown of the above sales at wholesale to show that at least 80 per cent of the items were sold by you only.

(4) A statement that during the fiscal year 1950 the average wholesale mark-up on all food items sold at wholesale only by you was at least 18 percent on cost.

[Paragraph (c) added by Amdt. 5]

SEC. 23. *Special pricing provisions for manufacturers selling some commodities at retail.* Any person, the larger part of whose business is the manufacturing or processing of foods, but:

(a) His entire business in connection with a particular commodity consists of the purchase and resale of such commodity without materially changing its form, and

(b) The larger part of his sales of such commodity are made to ultimate consumers other than commercial, industrial or institutional users.

(c) Shall figure his ceiling prices for sales of such commodity to utlimate consumers other than commercial, industrial or institutional users in accordance with the provisions of this regulation, and shall for such purposes be considered a retailer covered by this regulation.

ARTICLE III—ADJUSTMENT PROVISIONS

SEC. 24. *How certain stores, where necessary to assure an adequate supply of food in a locality, may apply for markup adjustments.* (a) If your store is necessary to provide an adequate supply of food products in a locality; and by reason of remote location, long-term credit, short selling season, or other such unusual operating conditions, you find it impossible to operate under the markups fixed by this regulation, you may apply for an adjustment of such markups by filing with the OPS district office for your area two copies of a signed statement giving for your store: (1) its name and address; (2) its group under this regulation; (3) its type (for example, cash-and-carry; service, delicatessen); (4) the approximate number of its food customers; (5) the total number of stores selling food in its community; (6) its distance from the nearest store selling food and the name and address of that store; and (7) the reasons why you are unable to operate under the markups fixed by this regulation.

If you have more than one store you may file one application for all your stores which meet the conditions stated above. Your application must state separately for each store the specific information this section calls for.

(b) Any Regional Office of the OPS, or such offices as may be authorized by order issued by the appropriate Regional Office, may act on all applications for adjustment under the provisions of this regulation. Applications for adjustment are governed by Price Procedural Regulation 1.

SEC. 24a. *How certain stores or food departments, selling mostly "specialty" food items may under specific conditions apply to be excluded from using the markups in this regulation for the purpose of establishing their ceiling prices.* (a) If your store or food department meets the average markup requirement specified in this section and does business in the manner outlined below you may apply under paragraph (b) of this section to be excluded from using the markups in this regulation for the purpose of establishing your ceiling prices.

(1) Most of your sales in your store or food department are sales of "specialty" food items made by sales clerks who assist customers in selecting, collecting and wrapping or packaging merchandise.

(2) Your store or food department generally offers to all its customers the services of accepting and filling telephone orders, carrying monthly charge accounts and providing delivery.

(3) The general level of your prices in your store or food department was higher than Group 1 stores in your community during your fiscal year 1950.

(4) The average markup on "net cost" was at least 40 percent on all food sales for your fiscal year 1950 and also, if you are not an independent store, at least 40 percent on the combined food sales in all the stores for which you seek adjustment in your organization. Do not count a restaurant as a food department. If not in business during all of 1950, use your most recent fiscal period.

(b) You must before September 30, 1951, file with the OPS district office for your area an application in duplicate (1) showing clearly that you do business as outlined in paragraph (a) of this section and (2) showing the number of items you normally sell in your store or food department, and (3) showing your average markup on "net cost" for fiscal year 1950 (if not in business during all of 1950 use your most recent fiscal period), and (4) showing the percentage of food items which produce an average markup on "net cost" of 40 percent or more to the total number of food items you sell in your store or food department. You may consider your store or food department excluded from using the markups in this regulation for the purpose of establishing your ceiling prices as soon as you have filed your application in accordance with this section. Then figure all your ceiling prices for food items under the General Ceiling Price Regulation, as amended. This authority may be withdrawn if it is determined by OPS that your store or food department does not qualify for adjustment under this section. Applications for adjustments are governed by Price Procedural Regulation 1.

(c) Any adjustment granted at anytime under this section shall not apply to fresh fruits and vegetables or to items under this regulation for which dollars-and-cents ceiling prices at retail are fixed in any regulation or order which has been or may be issued by OPS. If you are a Group 2 store you shall consider yourself a Group 1 store and use the applicable markups in this regulation for fresh fruits and vegetables. You shall also consider yourself a Group 1 Store under any OPS regulation or order fixing dollars-and-cents ceiling prices at retail for items under this regulation.

(d) If you desire to operate as a "specialty" food store or food department, you may apply under this section to be excluded from using the markups of this regulation for the purpose of establishing your ceiling prices, provided your operation is planned to meet the following criteria:

(1) At least 51 percent of your dollar volume of sales will be made by sales clerks who assist customers in selecting, collecting, and wrapping or packaging merchandise.

(2) Your store or food department generally will offer to all of its customers the services of accepting and filling telephone orders, carrying charge accounts, and providing delivery.

(3) That the estimated dollar volume of sales of "specialty" food items of your store or food department (excluding restaurants) will constitute at least 60 percent of your total dollar volume of all sales.

You must file a statement signed by you or your authorized representative and forwarded by Registered Mail, return receipt requested, to the OPS District Office for your area, stating your trade name and address, and that you meet the above criteria, and including a list of 25 or more of the "specialty" food items which were considered in the 60 percent estimate of your total dollar volume of "specialty" food item sales.

You may, for a "trial period" of four months, consider your new operation a "specialty" food store or food department as soon as you have submitted the above statement, and may for that period figure your ceiling prices under the GCPR.

[Paragraph (d) added by Amdt. 19]

(e) At the end of your trial period, you must re-examine the operation of your store or food department to determine from actual records of four months' operation that you have met the criteria listed in paragraph (d) of this section.

If you find that your trial period experience meets these criteria and you wish to continue to operate as a specialty store and price under the GCPR, you must, within 15 days after the end of the trial period, file with the OPS District Office for your area a statement containing your trade name and address and signed by you or your authorized representative to this effect. You must include as a part of your statement a list of 25 or more of the best-selling items you have included when re-examining your operation for compliance with paragraph (d) (3) of this section. You may then continue to operate as a "specialty store" unless you receive notice from the OPS District Office for your area that permission to operate as a "specialty store" under this section has been revoked because upon examination of the facts it has been determined that you have not met the criteria.

If you do not furnish this data within 15 days after the expiration of your trial period, or if you determine that your store or food department has not met the criteria as estimated in your application, you must, beginning the third Monday after the trial period, establish your ceiling prices under the provisions of CPR 16. You then may not re-apply under the provisions of paragraph (d) of this section for at least six months from the end of the trial period.

[Paragraph (e) added by Amdt. 19]

[Sec. 24a added by Amdt 2; amended by Amdts. 6 and 10]

SEC. 24b. *How certain stores that ship most of their sales via mail or express may under specific conditions apply to be excluded from using the markups in this regulation for the purpose of establishing their ceiling prices.* (a) If your store or food department ships 65 percent or more by dollar volume of the items it sells via mail or express, you may obtain permission to be excluded from using the markups in this regulation for the purpose of establishing your ceiling prices.

(b) In order to obtain this permission you must file an application with the OPS District Office for your area and furnish the following information:

(1) Your total dollar volume of food sales in the calendar year or fiscal year preceding the date of your application.

(2) Total dollar volume of food sales shipped via mail or express in the calendar year or your fiscal year preceding the date of your application.

(c) You may consider your store or food department excluded from the requirement that you use the markups prescribed by this regulation for the purpose of establishing your ceiling prices as soon as you have filed your application in accordance with this section. You must then figure all your ceiling prices for food items under the General Ceiling Price Regulation, as amended. This authority may be withdrawn if it is determined by OPS that your store or food department does not qualify for adjustment under this section.

[Sec. 24b added by Amdt. 17]

ARTICLE IV—MISCELLANEOUS PROVISIONS

SEC. 25. *How you find the "annual gross sales" of your store.* (a) To find your "annual gross sales", take your total sales for the calendar year 1950. Include all sales as shown on your books, except sales made by a restaurant operated in conjunction with your store. You can use your Federal Income Tax Return to get your gross sales for all or part of the calendar year 1950 which is covered by such return. If you own more than one store, figure the sales for each store separately, treating each as a separate retailer.

(b) If you were not in business during the entire year 1950 you must divide your total sales from the time you began operation up to May 14, 1951 by the number of weeks you were in business. This will get you your weekly average sales. Multiply this figure by 52, and the result is your "annual gross sales".

[Paragraph (b) amended by Amdt. 1]

SEC. 26. *How you determine your group in certain special cases*—(a) *Department stores.* If you operate a department store, that is, a store in which the greater volume of sales is general merchandise and not foods, and you sell foods in a separate department or departments, you must determine your group by using only the "annual gross sales" of your food department or departments.

(b) *Stores in which more than one retailer operates.* (1) If you sell food in a retail store in which there are other food retailers, none of whom sells a complete line of the same general class of food, you must find your group by taking the combined "annual gross sales" of all the food retailers in that store. If the total "annual gross sales" of all the food retailers in that store is not readily available, you shall apply, in writing, within 30 days after the issuance of the regulation to the OPS District Office for your area, for a determination of your group, stating your own "annual gross sales" figure for the applicable year. Each District Director is authorized to act on requests covering stores located within his district, and action taken shall be by order.

(2) If you sell foods in a retail store in which more than one retailer sells a complete line of the same general class of food, you will be considered as operating a separate retail store of your own, and you must determine your group by using only your own sales.

(c) *New stores.* If you open a retail store after May 14, 1951, you may consider yourself a Group 1 or Group 3 retailer, depending upon whether or not at that date your store is an "independent" store, and you must figure your ceiling prices accordingly. (If you are a Group 3 store, you must figure your ceiling prices under Ceiling Price Regulation No. 15.) However, after you have been in business for 3 months you must determine again what group your store is in. To do this, take your total sales for the 3-month period and multiply by 4. Use the result as your "annual gross sales" in determining the group in which your store belongs.

Furthermore, if by reason of the new store you are now one of four or more stores under one ownership, you must at the end of the three-month period refigure the combined "annual gross sales" for all your stores. If the combined "annual gross sales" are $750,000 or more, all of your stores must then be considered as Group 3 or Group 4 stores. You may continue to use the existing ceiling prices in each store until the second Monday following the end of the 3 month period, by which time you must have refigured all of your ceiling prices in each store, using the mark-ups for its proper group.

If you find that only the new store should now be in another group, you may continue to use the Group 1 mark-ups until the second Monday following the end of the 3-month period, by which time you must have refigured all your ceiling prices using the mark-ups for your new group in which this store falls. You shall use as your "net cost" the same "net cost" which you would have used in refiguring your ceiling prices on that Monday. If, under that section, you would not have been required to refigure your ceiling price for any item on that Monday, you shall use as your "net cost" for that item the same "net cost" on which your existing ceiling price at that time is based.

[Paragraph (c) amended by Amdt. 1]

SEC. 27. *Taxes.* You may collect, in addition to your ceiling price, any tax upon or incident to a sale at retail of food covered by this regulation if you state the tax separately, and if the statute or ordinance does not prohibit sellers from stating and collecting the tax separately from the price.

SEC. 28. *Transfer of business and stock in trade.* If, after May 14, 1951, you acquire in any way the business assets, and stock in trade of any retail store covered by this regulation and you carry on the business, or continue to deal in the same type of food products in that same store, your ceiling prices shall be the same as those of the former owner as if no transfer had taken place. You must keep all the records needed to verify your ceiling prices. The former owner must either preserve and make available to you, or give you, all the records of his transactions before you acquire the store

which you need to comply with the record provisions of this regulation.

If the transfer changes the business from one group of retail stores to another, your ceiling prices shall be those for the group of retailer to which you belong under this regulation.

[Sec. 28 amended by Amdt. 1]

SEC. 29. *Relation to other regulations.* The provisions of this Ceiling Price Regulation No. 16, except as otherwise provided in this regulation, shall, on and after May 14, 1951, supersede the provisions of the General Ceiling Price Regulation, and any other price regulation or order issued by the OPS with respect to sales and deliveries for which ceiling prices are established by this regulation.

[Sec. 29 amended by Amdt. 1]

SEC. 30. *Definitions.* (a) *Retail route seller.* A "retail route seller" is a retailer who distributes food products to ultimate consumers who are not commercial, industrial or institutional users, either on a future delivery basis or otherwise, from an inventory stocked in trucks or other conveyances operated by driver-salesmen over regular routes. A retailer, most of whose business is the personal solicitation of orders by salesmen calling at the homes or places of business of ultimate consumers, who are not commercial, industrial or institutional users, shall also be considered a retail route seller. A retailer is a "retail route seller" only of the food products he sells in this way.

(b) *Health food stores.* A "health food store" or "health food department" is one whose sales to consumers consists principally of "specially prepared dietetic foods." For the purpose of this regulation a "health food department" is a separate and distinct department operated by separate and specially trained personnel and for which separate records and accounts are maintained. "Specially prepared dietetic foods" are foods manufactured and sold for restricted diets and for special dietetic purposes, including but not limited to, specially prepared foods for diabetic or arthritic conditions, or high blood pressure; specially prepared weight building or tonic foods; and vitamin or mineral supplements.

(c) *Delivery.* Delivery to you of an item covered by this regulation shall be considered to have occurred when the item has been received by you at your usual receiving point.

(d) *Usual receiving point.* Your usual receiving point will be either your retail store or your warehouse from which you supply your retail stores, depending upon where you normally receive the particular item you are pricing under this regulation.

(e) *Item.* You must determine a separate ceiling price for each item; that is, for each kind, brand, size, variety, grade, container-type, and container-size.

(f) *Manufacture or otherwise process.* "Manufacture or otherwise process" shall mean blending, freezing, canning, preserving, bottling, milling, crushing, straining, roasting, centrifuging, cooking, distilling, purifying with heat, printing of butter, and other similar operations, and packaging of spices, tea and gelatin.

Packaging as used in section 18 shall not be considered manufacturing or processing under this regulation.

(g) *Group 3 retailer.* A retailer is in Group 3 if he has an "annual gross sales" of less than $375,000 and he is not an "independent" retailer.

(h) *Group 4 retailer.* A retailer is in Group 4 whether "independent" or not, if he has an "annual gross sales" of $375,000 or more.

(i) *Great Lakes marine supplier.* A "Great Lakes marine supplier" means a person operating a selling establishment which buys and resells food products for the most part to "operators of a lake vessel or vessels," for consumption aboard such vessel or vessels, with delivery from shore locations by use of truck or launch facilities. "Operator of a lake vessel or vessels" means any person who owns or operates a lake vessel or vessels, other than passenger boats, engaged in shipping upon the Great Lakes, and who in operating such vessels purchases or receives food products covered by this regulation from a Great Lakes marine supplier for consumption aboard such vessels.

(j) *Specialty foods.* Specialty foods shall mean food items normally classed as table delicacies or luxury items such as sea squab, terrapin stew, brandied fruits, fancy imported foods, wild game, etc., which the average wholesale grocer and retailer does not stock as a complete line of merchandise.

[Paragraph (j) added by Amdt. 2]

(k) *Canned.* "Canned" means processed and packaged in any container, whether or not hermetically sealed.

[Paragraph (k) added by Amdt. 15]

SEC. 31. *Geographical applicability.* The provisions of this regulation shall apply to the 48 States of the United States and to the District of Columbia.

SEC. 32. *Table of markups for "dry groceries" (Table A)—(a) Table A: Markups over "net cost" allowed to Groups 1 and 2 retailers for dry groceries covered by this regulation by commodities.*

[Above portion of Table C amended by Amdt. 6]

(b) *Instructions for use of Table A, Table B, and Table C.* Tables A and B contain the mark-ups for all commodities in this regulation. Table C is included to assist you in determining ceiling prices without burdensome calculations.

Table A lists by commodity groups the "dry groceries" covered by this regulation and the mark-ups to be used by Group 1 and Group 2 retailers in figuring their ceiling prices. Table B gives the same information for "perishables." However, in addition, Table B also lists the selling units, on the basis of which retailers must figure their net costs and ceiling prices for "perishables." For a detailed list of the items in each commodity group, see "Commodity definitions of dry groceries" printed immediately after Table A, and the "Commodity definitions of perishables" printed immediately after Table B. After you have determined your "net cost" for an item in accordance with the method set up in this regulation, find your proper mark-up in the commodity group which includes the item you are pricing. Commodity groups are listed at the left of Table A and Table B. Directly opposite each commodity group you will find a percentage mark-up for your group of retailers.

If a percentage mark-up is shown, you get your ceiling price for the item by turning to Table C, which shows the ceiling price for all items with per unit net costs ranging from ½ to 75 cents. Percentage mark-ups over net cost are listed in the column at the extreme left of Table C, and "net cost" across the top of the table. "Net cost per unit" means, in the case of dry groceries, the "net cost" of a single unit (one can, one jar, etc.) For perishables, it means the "net cost" of the selling unit listed in the last column of Table B.

[Above Paragraph amended by Amdts. 18 and 20]

To determine your ceiling price from Table C, find your net cost at the top of the table. Go down that column until you come to the figure (in that column) on the same line as your mark-up. The figure at that point is your ceiling price for the item.

If your net cost per unit is more than 75 cents, you cannot use Table C to get your ceiling price. In those cases, you must (1) multiply your net cost by your percentage mark-up, (2) add the result to your net cost, and (3) round the sum to the nearest whole cent. For perishables, your net cost must be in terms of the selling unit specified in Table B.

Example. A Group 1 retailer wishes to figure a new ceiling price for "XX Brand," 11 oz. canned tomato soup, which he must put into effect by May 14, 1951, in accordance with section 3. In figuring his ceiling price, his "net cost" must be based on a purchase of a customary quantity from a customary type of supplier delivered to his "usual receiving point" by a customary means of delivery. Therefore, if prior to May 14, 1951, a Group 1 retailer's most recent purchase was five cases of XX Brand, 11 oz. canned tomato soup which he has purchased from a wholesaler (his customary type of supplier), at a delivered cost of $4.60 a case (48 cans), he must under sections 3 and 4 figure and put into effect a new ceiling price for the item by May 14, 1951. This is the most recent delivery of a customary quantity of the item he has received prior to May 14th (from his customary type of supplier delivered to his usual receiving point by a customary means of delivery). He must first figure, to the nearest half cent, his "net cost" on a single unit basis (section 4 (a) (2)), that is, for a single can. He therefore divides the cost for the case, $4.60, by the number of single units in the case, 48, and gets a result of $0.0958, before rounding. Rounding to the nearest half cent, this becomes $0.095 (if the figure had been $0.0924 before rounding, he would have rounded to $0.09). He then turns to Table A to find the markup to be applied to his net cost. Going down the column at the left of Table A he will find a listing of the commodity group which includes the item he is pricing. For canned tomato soup, this group is "soups, (canned)." Going across the page on that line, he will find his markup for the item in the column for Group 1 retailers. In this case his markup is 27 percent. Having his mark-up and net cost, Table C will give him his ceiling price without computations. Checking across the top of Table C, he finds a column headed by his net cost, $0.095. Going down this $0.095 column until he comes to the figure on the same line as the 27 percent markup listed in the column at the extreme left of Table C, he will find a ceiling price for the item to be $0.12 per can.

Acting Director of Price Stabilization.

[General Ceiling Price Regulation, Supplementary Regulation 29, Interpretation 3]

GCPR, SR 29—CEILING PRICES FOR CERTAIN SALES AT RETAIL AND WHOLESALE

INT. 3—ADJUSTMENT OF CEILING PRICES FOR CIGARETTES (SECTION 2 (a))

The question has been raised as to whether General Ceiling Price Regulation, Supplementary Regulation 29 is applicable for modification of wholesalers' and retailers' ceiling prices in connection with the sale of cigarettes under the GCPR.

As stated in section 2 (a) Supplementary Regulation 29 covers generally the adjustment of ceiling prices of commodities for which ceiling prices have been established under the General Ceiling Price Regulation. The exclusions in section 2 (a) from the operation of the regulation relating to agricultural commodities listed in section 11 (a) of General Ceiling Price Regulation or food products processed from these commodities do not include cigarettes, inasmuch as cigarettes are neither an agricultural commodity nor a food product processed therefrom. Although tobacco is one of the agricultural commodities listed in section 11 (a) of the GCPR, cigarettes are a non-food commodity processed from tobacco. In addition, the fact that cigars are specifically excluded from the provisions of SR 29, under paragraph 2 (e) is a clear indication that other tobacco products are included under SR 29.

Inasmuch as ceiling prices at wholesale and retail for cigarettes were established under General Ceiling Price Regulation, the adjustment provisions of Supplementary Regulation 29 are available therefor.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Subchapter W—Timber and Stone Lands

[Circular 1835]

PART 284—TIMBER CUTTING, SALE OR USE

ADVERTISEMENT; POSTING OF NOTICE

Section 284.3 is amended to read as follows:

§ 284.3 *Advertisement; posting of notice.* After consideration of the report, the Regional Administrator or other authorized officer will, if he deems it advisable, offer the timber for sale under sealed bids by advertising as follows:

(a) In cases of small quantities of timber amounting in value to $1,000 or less, the sale shall be advertised for at least ten days by the posting of notices only.

(b) Where the timber to be sold exceeds $1,000 in value, the sale shall be advertised in a newspaper of general circulation in the county in which the timber to be sold is situated, once a week for four consecutive weeks next preceding the time set for the opening of the bids. And if the proposed sale be for 20,000,000 feet, board measure, or more, of timber available by location to a single logging operation, an advertisement of the proposed sale shall be inserted once in two lumber trade journals of general circulation. During the period of advertising, copies of the advertisement shall be posted where they will attract the notice of the general public.

(c) Where, in the judgment of the Regional Administrator, immediate sale of timber exceeding $1,000 in value is necessary in order to prevent loss to the Government due to expected rapid deterioration of the timber from insect or fungus attacks or from other causes, the sale may be effected, notwithstanding the provisions of paragraph (b) of this section, after the posting of public notices for not less than ten days and the publication of notice once during the ten-day posting period in a newspaper of general circulation in the county wherein the timber to be sold is situated.

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter B—Hunting and Possession of Wildlife

PART 6—MIGRATORY BIRDS AND CERTAIN GAME MAMMALS

COMPENSATORY EXTENSIONS OF WATERFOWL AND COOT SEASONS

Basis and purpose. To extend the waterfowl and coot season by the number of days sportsmen were not permitted to hunt such birds during the prescribed season due to emergency State action closing extensive areas to shooting as a forest fire prevention measure. It has been determined that these slight compensatory extensions are not likely to result in a diminution of the birds to any greater extent than was contemplated for the original period.

Pursuant to authority conferred by § 6.4 of the Migratory Bird Treaty Act Regulations (16 F. R. 7513) the waterfowl and coot seasons approved August 26, 1952 (17 F. R. 7903) are hereby extended for the 1952–53 season by adding at the end of each such open season in each of the States or respective areas within a State where hunting of these birds has been precluded by emergency action of the Governor or other State official to prevent forest fires, that number of consecutive days which equals the number of days during which such hunting was so precluded, except that no such season shall thereby be extended beyond January 10, 1953.

Since this amendment is a relaxation of existing regulations, notice and public procedure thereon are not required (60 Stat. 237; 5 U. S. C. 1001, et seq.), and it shall become effective immediately.

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth below in tentative form are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in sections 62 and 3791 of the Internal Revenue Code (53 Stat. 32, 467; 26 U. S. C. 62, 3791).

[SEAL] JUSTIN F. WINKLE,
Acting Commissioner of Internal Revenue.

In order to conform Regulations 111 (26 CFR Part 29) to section 325 of the Revenue Act of 1951, approved October 20, 1951, relating to tax treatment of coal royalties, such regulations are amended as follows:

PARAGRAPH 1. Section 29.23 (m)–1, as amended by Treasury Decision 5461, approved July 9, 1945, is further amended as follows:

(A) By amending the second sentence of paragraph (b) thereof to read as follows: "However, no depletion deduction shall be allowed the owner with respect to any timber or coal which such owner has disposed of under any form of contract by virtue of which he retains an economic interest in such timber or coal, if such disposal is considered a sale of timber or coal under section 117 (k) (2) of the Code."

(B) By adding at the end of paragraph (f) thereof the following undesignated paragraph:

Rents and royalties paid or incurred by a taxpayer with respect to coal shall be excluded from the "gross income from the property" without regard to the treatment under section 117 (k) (2) of such rents and royalties in the hands of the recipient.

PAR. 2. Section 29.102–4, as amended by Treasury Decision 5796, approved July 19, 1950, is further amended by inserting immediately preceding the last paragraph thereof the following undesignated paragraph:

In determining "section 102 net income", section 117 (k) (2), in the case of coal, shall have no application. See § 29.117–8 (c).

PAR. 3. Section 29.113 (a) (14)–1, as amended by Treasury Decision 5394, approved July 27, 1944 is further amended by inserting in the second sentence of paragraph (b) thereof after "determination of loss upon timber" the following: "or coal".

PAR. 4. There is inserted immediately preceding § 29.117–1 the following:

SEC. 325. TAX TREATMENT OF COAL ROYALTIES (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

(a) *Definition of property used in the trade or business.* Section 117 (j) (1) (relating to the definition of property used in the trade or business) is hereby amended by adding after the word "timber" in the second sentence thereof the following: "or coal".

(b) *Gain or loss upon certain disposals of timber or coal.* Section 117 (k) (2) (relating to the disposal of timber) is hereby amended to read as follows:

(2) In the case of the disposal of timber or coal (including lignite), held for more than 6 months prior to such disposal, by the owner thereof under any form or type of contract by virtue of which the owner retains an economic interest in such timber or coal, the difference between the amount received for such timber or coal and the adjusted depletion basis thereof shall be considered as though it were a gain or loss, as the case may be, upon the sale of such timber or coal. Such owner shall not be entitled to the allowance for percentage depletion provided for in section 114 (b) (4) with respect to such coal. This paragraph shall not apply to income realized by the owner as a co-adventurer, partner, or principal in the mining of such coal. The date of disposal of such coal shall be deemed to be the date such coal is mined. In determining the gross income, the adjusted gross income, or the net income of the lessee, the deductions allowable with respect to rents and royalties shall be determined without regard to the provisions of this paragraph. This paragraph shall have no application, in the case of coal, for the purposes of applying section 102 or subchapter A of chapter 2 (including the computation under section 117 (c) (1) of a tax in lieu of the tax imposed by section 500).

(c) *Clerical amendment.* The heading to section 117 (k) (relating to the gain or loss upon the cutting of timber) is hereby amended to read as follows: "(k) *Gain or loss in the case of timber or coal.*".

• • • • • •

(f) *Effective date.* • • • the amendments made by this section shall be applicable only with respect to taxable years ending after December 31, 1950 (whether the contract was made on, before, or after such date), but shall apply only with respect to amounts received or accrued after such date.

PAR. 5. Section 29.117–3 as proposed to be amended by notice of proposed rule making published August 8, 1952 (17 F. R. 7249), is further amended by adding at the end the following new paragraph (d):

(d) Where amounts are received or accrued after December 31, 1950, from the disposal of coal to which the provisions of section 117 (k) (2) are applicable, the computation under section 117 (c) (1) of a tax in lieu of the tax imposed by section 500 shall be made without regard to section 117 (k) (2); that is, the partial tax under section 117 (c) (1) (A), insofar as it involves the tax under section 500, is computed without regard to section 117 (k) (2).

PAR. 6. Section 29.117–7 as proposed to be amended by notice of proposed rule making published May 16, 1952 (17 F. R. 4494), is further amended by adding after the word "timber" in subdivision (iii) of paragraph (a) (1) thereof, the phrase ", or disposal of coal,".

PAR. 7. Section 29.117–8, as added by Treasury Decision 5394, is amended as follows:

(A) By amending the headnote to read as follows:

§ 29.117–8 *Gain or loss upon the cutting and disposal of timber and the disposal of coal.* • • •

(B) By adding at the end thereof the following new paragraph (c):

(c) *Gain or loss upon the disposal of coal.* (1) With respect to taxable years ending after December 31, 1950, but only with respect to amounts received or accrued after such date, if a taxpayer disposes of coal (including lignite), held for more than six months prior to such disposal, under any form or type of contract whereby he retains an economic interest in such coal, the difference between the amount received for such coal and the adjusted depletion basis thereof under section 114 (b) (1) shall be considered to be a gain or loss upon the sale of such coal.

(2) The adjusted depletion basis under section 114 (b) (1), for the purpose of this section, includes adjustments for development and exploration expenditures and for deductions under section 113 (b) (1) (J) and (M). For the purpose of this section, the date of disposal of the coal shall be deemed to be the date the coal is mined. If the coal has been held for more than six months on the date that it is mined, it is immaterial that it had been held for six months or less on the date of the contract. For the purpose of section 117 (j), such coal shall be considered to be property used in the trade or business, along with other property of the taxpayer used in the trade or business as defined in section 117 (j) (1). Whether gain or loss resulting from the disposition of the coal will be deemed to be gain or loss resulting from the sale of a capital asset held for more than six months will depend upon the application of section 117 (j) to that and other transactions of the taxpayer.

(3) There shall be no allowance for percentage depletion provided for in section 114 (b) (4) with respect to amounts received any part of which are considered to be received from the sale of coal under section 117 (k) (2). In computing the gross income, adjusted gross income, or the net income of the lessee, the deductions allowable with respect to rents and royalties shall be determined without regard to the provisions of section 117 (k) (2). Section 117 (k) (2) shall have no application with respect to amounts received by a taxpayer as a coadventurer, partner, or principal in the mining of coal.

(4) To the extent any advance payments are treated, under section 117 (k) (2) as received from the sale of coal for any taxable year, and the grant of the coal rights for which such payments are made expires, terminates, or is abandoned in a later taxable year before the coal which has been paid for has been mined, the grantor shall recompute the tax liability for the prior taxable year and treat such payments to such extent as not received from the sale of the coal; such recomputation should be in the form of an "amended return" if necessary.

PAR. 8. There is inserted immediately preceding § 29.481–1 the following:

SEC. 325. TAX TREATMENT OF COAL ROYALTIES (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

• • • • • •

(d) *Technical amendment.* Section 421 (a) (4) is hereby amended by striking out "cutting or disposal of timber" and inserting in lieu thereof "cutting of timber, or the disposal of timber or coal,".

• • • • • •

(f) *Effective date.* • • • the amendments made by this section shall be applicable only with respect to taxable years ending after December 31, 1950 (whether the contract was made on, before, or after such date), but shall apply only with respect to amounts received or accrued after such date.

PAR. 9. Section 29.481–1, as added by Treasury Decision 5855, approved September 13, 1951, is further amended by adding after "timber" in paragraph (c) (4) (ii) thereof, the phrase "or disposal of coal".

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

SALE OF LAND WITH UNHARVESTED CROP

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth below in tentative form are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of thirty days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in sections 62 and 3791 of the Internal Revenue Code (53 Stat. 32, 467; 26 U. S. C. 62, 3791).

[SEAL] JOHN S. GRAHAM,
Acting Commissioner of Internal Revenue.

In order to conform Regulations 111 (26 CFR Part 29) to section 323 (relating to sale of land with unharvested crop) of the Revenue Act of 1951, approved October 20, 1951, such regulations are hereby amended as follows:

PARAGRAPH 1. There is inserted immediately preceding § 29.24–1 the following:

SEC. 323. SALE OF LAND WITH UNHARVESTED CROP (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

• • • • • •

(b) *Treatment of deductions*—(1) *Amendment of section 24.* Section 24 (relating to items not deductible) is hereby amended by adding at the end thereof a new subsection to read as follows:

(f) *Sale of land with unharvested crop.* Where an unharvested crop sold by the taxpayer is considered under the provisions of section 117 (j) (3) as "property used in the trade or business", in computing net income no deduction (whether or not for the taxable year of the sale and whether for expenses, depreciation, or otherwise) attributable to the production of such crop shall be allowed.

• • • • • •

(c) *Effective date.* • • • The amendments made by subsection (b) shall be applicable to any taxable year for which a deduction is disallowed by reason of sales, exchanges, or conversions to which subsection (a) is applicable.

PAR. 2. There is inserted immediately after § 29.24–9 the following:

§ 29.24–10 *Items attributable to an unharvested crop sold with the land.* In computing net income no deduction shall be allowed in respect of items attributable to the production of an unharvested crop which is sold, exchanged, or involuntarily converted in a taxable year beginning after December 31, 1950, with the land and which is considered as property used in the trade or business under section 117 (j) (3). See § 29.117–7. Such items shall be so treated whether or not the taxable year involved is that of the sale, exchange, or conversion of such crop and whether they are for expenses, depreciation, or otherwise. If the taxable year involved is not that of the sale, exchange, or conversion of such crop, a recomputation of the tax liability for such year shall be made; such recomputation should be in the form of an "amended return" if necessary. For the adjustments to basis as a result of such disallowance, see § 29.113 (b) (1)–1.

PAR. 3. There is inserted immediately preceding § 29.113 (b) (1)–1 the following:

(b) *Treatment of deductions.* • • •

(2) *Amendment of section 113 (b) (1).* Section 113 (b) (1) (relating to adjustments to basis) is hereby amended by adding at the end thereof a new subparagraph to read as follows:

(L) for deductions to the extent disallowed under section 24 (f), notwithstanding the provisions of any other subparagraph of this paragraph.

(c) *Effective date.* • • • The amendments made by subsection (b) shall be applicable to any taxable year for which a deduction is disallowed by reason of sales, exchanges, or conversions to which subsection (a) is applicable.

PAR. 4. Section 29.113 (b) (1)–1, as amended by Treasury Decision 5873, approved December 7, 1951, is hereby amended by adding at the end thereof the following new paragraph (k):

(k) In the case of an unharvested crop which is sold, exchanged, or involuntarily converted in a taxable year beginning after December 31, 1950, with the land and which is considered as property used in the trade or business under section 117 (j) (3), the basis of such crop shall be increased by the amount of the items which are attributable to the production of such crop and which are disallowed, under section 24 (f) and § 29.24–10, as deductions in computing net income. See §§ 29.24–10 and 29.117–7. The basis of any other property shall be decreased by the amount of any such items which are attributable to such other property, notwithstanding any provision of section 113 (b) (1) or of this section to the contrary. PAR. 5. There is inserted immediately preceding §29.117–1 the following:

SEC. 323. SALE OF LAND WITH UNHARVESTED CROP (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

(a) *Treatment of gain or loss.* Section 117 (j) (relating to sale or exchange of property used in the trade or business) is hereby amended—

(2) By adding at the end thereof a new paragraph to read as follows:

(3) *Sale of land with unharvested crop.* In the case of an unharvested crop on land used in the trade or business and held for more than 6 months, if the crop and the land are sold or exchanged (or compulsorily or involuntarily converted as described in paragraph (2)) at the same time and to the same person, the crop shall be considered as "property used in the trade or business."

• • • • • •

(c) *Effective date.* The amendment made by subsection (a) shall be applicable only with respect to sales, exchanges, and conversions, occurring in taxable years beginning after December 31, 1950. • • •

PAR. 6. Section 29.117–7, as proposed to be amended by notice of proposed rule making published May 16, 1952 (17 F. R. 4494), is hereby amended as follows:

(v) Gains and losses from the sale, exchange, or involuntary conversion in a taxable year beginning after December 31, 1950, of an unharvested crop under the conditions specified in paragraph (e) of this section.

(B) By adding at the end thereof the following:

(e) *Unharvested crops.* The conditions referred to in paragraph (a) (1) (v) of this section are: (1) the unharvested crop is on land which is "section 117 (j) property", as defined in paragraph (a) (3) of this section, and such land has been held for more than six months; (2) such crop and such land are sold, exchanged, or converted at the same time and to the same person; and (3) no right or option is retained by the taxpayer, at the time of the sale, exchange, or conversion, to reacquire, directly or indirectly, the land (other than one customarily incident to a mortgage or other security transaction). The length of time for which the crop, as distinguished from the land, has been held is immaterial. A leasehold or estate for years is not "land" for the purpose of this section.

suant to section 315 of the Revenue Act of 1951 (Pub. Law 183, 82d Cong., 1st Sess.), approved October 20, 1951.

[SEAL] JOHN S. GRAHAM,
Acting Commissioner of Internal Revenue.

In order to conform Regulations 111 (26 CFR Part 29) to section 315 of the Revenue Act of 1951 (Pub. Law 183, 82d Cong., 1st Sess.) approved October 20, 1951, such regulations are amended as follows:

PARAGRAPH 1. There is inserted immediately preceding § 29.102–1 the following:

SEC. 315. SURTAX ON CORPORATIONS IMPROPERLY ACCUMULATING SURPLUS (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

(a) *Long-term capital gains.* Section 102 (d) (1) (relating to definition of section 102 net income) is hereby amended by adding at the end thereof the following new subparagraph:

(D) *Long-term capital gains.* The excess of the net long-term capital gain for the taxable year over the net short-term capital loss for such year, minus the taxes imposed by this chapter attributable to such excess. The taxes attributable to such excess shall be an amount equal to the difference between (i) the taxes imposed by this chapter (except the tax imposed by this section) for such year and (ii) such taxes computed for such year without including such excess in net income.

(b) *Effective date.* The amendment made by subsection (a) shall be applicable only with respect to taxable years beginning after December 31, 1950.

For purposes of (e) above, the taxes attributable to such excess shall be the amount remaining after deducting from the taxes imposed by chapter 1 for such year (determined without regard to the taxes imposed by section 102) the taxes similarly imposed and determined for such year without including any excess of net long-term capital gain over the net short-term capital loss for such year in net income. For example, if the taxpayer pays the alternative tax as computed under section 117 (c) the tax attributable to the excess of the net long-term capital gain over the net short-term capital loss shall be the amount computed under section 117 (c) (1) (B)."

(B) By changing the period at the end of the fifth sentence to a comma and by adding at the end thereof the following: "and, in addition, for taxable years beginning after December 31, 1950, the deduction enumerated in paragraph (e) of this section."

DEFINITION OF REGULATED INVESTMENT COMPANY AMENDED TO INCLUDE CERTAIN VENTURE CAPITAL REGISTERED MANAGEMENT INVESTMENT COMPANIES

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth below in tentative form are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of thirty days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in sections 62 and 3791 of the Internal Revenue Code (53 Stat. 32, 467; 26 U. S. C. 62, 3791).

[SEAL] JOHN S. GRAHAM,
Acting Commissioner of Internal Revenue.

In order to conform Regulations 111 (26 CFR, Part 29) to section 337 of the Revenue Act of 1951, approved October 20, 1951, such regulations are amended as follows:

PARAGRAPH 1. There is inserted immediately preceding § 29.361–1 the following:

SEC. 337. TAX TREATMENT OF CERTAIN INVESTMENT COMPANIES (REVENUE ACT OF 1591, APPROVED OCTOBER 20, 1951).

(a) *Inclusion of certain registered management companies in the definition of regulated investment company.* Section 361 (relating to definition of regulated investment companies) is hereby amended by adding at the end thereof the following new subsection:

(c) *Certain investment companies.* If the Securities and Exchange Commission determines in accordance with regulations issued by it, and certifies to the Secretary not more than 60 days prior to the close of the taxable year of a registered management investment company, that such investment company is principally engaged in the furnishing of capital to other corporations which are principally engaged in the development or exploitation of inventions, technological improvements, new processes, or products not previously generally available, such investment company may, in the computation of 50 per centum of the value of its assets under subparagraph (A) of subsection (b) (3) for any quarter of such taxable year, include the value of any securities of an issuer, notwithstanding the fact that such investment company holds more than 10 per centum of the outstanding voting securities of such issuer, but only if the investment company has not continuously held any security of such issuer (or of any predecessor company of such issuer as determined under regulations prescribed by the Secretary) for 10 or more years preceding such quarter of such taxable year. The provisions of this subsection shall not apply at the close of any quarter of a taxable year to an investment company if at the close of such quarter more than 25 per centum of the value of its total assets is represented by securities of issuers with respect to each of which the investment company holds more than 10 per centum of the outstanding voting securities of such issuer and in respect of each of which or any predecessor thereof the investment company has continuously held any security for 10 or more years preceding such quarter unless the value of its total assets so represented is reduced to 25 per centum or less within 30 days after the close of such quarter. The terms used in this subsection shall have the same meaning as in subsection (b) (3) of this section. For the purposes of this subsection, unless the Securities and Exchange Commission determines otherwise, a corporation shall be considered to be principally engaged in the development or exploitation of inventions, technological improvements, new processes, or products not previously generally available, for at least 10 years after the date of the first acquisition of any security in such corporation or any predecessor thereof by such investment company if at the date of such acquisition the corporation or its predecessor was principally so engaged, and an investment company shall be considered as any date to be furnishing capital to any company whose securities it holds if within 10 years prior to such date it has acquired any of such securities, or any securities surrendered in exchange therefore, from such other company or predecessor thereof. For the purposes of the certification hereunder, the Securities and Exchange Commission shall have authority to issue such rules, regulations and orders, and to conduct such investigations and hearings, either public or private, as it may deem appropriate.

(b) *Technical amendment.* Section 361 (b) (3) (A) is hereby amended by inserting after "the total assets of the taxpayer and" the following: ", except and to the extent provided in subsection (c),".

(c) *Effective date.* The amendments made by this section shall be applicable only with respect to taxable years beginning after December 31, 1950.

PAR. 2. Section 29.361–1 is amended as follows:

(A) By redesignating present subparagraphs (1) through (3) of paragraph (b) as subdivisions (i), (ii), and (iii) and striking out the period in the headnote of paragraph (b) of the section and inserting in lieu thereof the following: "— (1) *In general.*".

(B) By inserting in the second sentence of paragraph (b) of the section, immediately after "5 percent of the value of the total assets of the corporation and", the following: ", except and to the extent provided in section 361 (c) in the case of certain venture capital registered management investment companies qualifying thereunder,".

(C) By adding at the end of paragraph (b) of the section the following:

(2) *Venture capital registered management investment companies.* (i) Section 361 (c) provides, for taxable years beginning after December 31, 1950, that under certain conditions set forth below a registered management investment company which has been certified by the Securities and Exchange Commission for the taxable year may, in the computation of 50 percent of the value of its assets under clause (A) of section 361 (b) (3) for any quarter of such taxable year, include, with respect to securities other than Government securities or securities of other regulated investment companies, the value of any securities of an issuer, notwithstanding the fact that such registered management investment company holds more than 10 percent of the outstanding voting securities of such issuer, but only if the investment company has not continuously held any security of such issuer or of any predecessor company of such issuer for 10 or more years preceding such quarter of such taxable year. All other provisions and requirements of section 361 and the regulations thereunder are applicable in determining whether such registered management investment company qualifies as a regulated investment company within the meaning of such section.

(ii) The provisions of section 361 (c) are applicable only to a registered management investment company which the Securities and Exchange Commission has determined, in accordance with regulations issued by it, and has certified to the Secretary, not more than 60 days prior to the close of the taxable year of such investment company, to be principally engaged in the furnishing of capital to other corporations which are principally engaged in the development or exploitation of inventions, technological improvements, new processes, or products not previously generally available. For the purpose of the aforementioned determination and certification, unless the Securities and Exchange Commission determines otherwise, a corporation shall be considered to be principally engaged in the development or exploitation of inventions, technological improvements, new processes, or products not previously generally available, for at least 10 years after the date of the first acquisition of any security in such corporation or any predecessor thereof by such investment company if at the date of such acquisition the corporation or its predecessor was principally so engaged, and an investment company shall be considered at any date to be furnishing capital to any company whose securities it holds if within 10 years prior to such date it has acquired any of such securities, or any securities surrendered in exchange therefor, from such other company or its predecessor.

(iii) Section 361 (c) does not apply in the quarterly computation of 50 percent of the value of the assets of an investment company under clause (A) of section 361 (b) (3) for any taxable year if at the close of any quarter of such taxable year more than 25 percent of the value of its total assets (including the 50 percent or more mentioned in such clause (A)) is represented by securities (other than Government securities or the securities of other regulated investment companies) of issuers as to each of which (i) such investment company holds more than 10 percent of the outstanding voting securities of such issuer and (ii) such investment company has continuously held any security of such issuer (or any security of a predecessor of such issuer) for 10 or more years preceding such quarter, unless the value of its total assets so represented is reduced to 25 percent or less within 30 days after the close of such quarter.

(iv) As used in section 361 (c) and this subparagraph, the term "predecessor company" means any corporation the basis of whose securities in the hands of the investment company is, under the provisions of section 113, the same in whole or in part as the basis of any of the securities of the issuer and any corporation with respect to whose securities any of the securities of the issuer were received directly or indirectly in a transaction or series of transactions in which no gain or loss was recognized. The other terms used in this subparagraph have the same meaning as when used in section 361 (b) (3) (see subparagraph (1) of this paragraph).

CONSOLIDATION OF NEWSPAPERS

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth below in tentative form are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 62 of the Internal Revenue Code (53 Stat. 32; 26 U. S. C. 62).

[SEAL] JOHN S. GRAHAM,
Acting Commissioner of Internal Revenue.

In order to conform Regulations 130 (26 CFR Part 40) to section 518 of the Revenue Act of 1951, approved October 20, 1951, such regulations are amended by inserting immediately after § 40.458–8 the following:

SEC. 518. CONSOLIDATION OF NEWSPAPERS (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

Section 459, as added by section 516 and 517 of this act, is hereby amended by adding after subsection (b) thereof the following new subsection:

(c) *Consolidation of newspaper operations.* In the case of a taxpayer engaged primarily in the newspaper publishing business in its last taxable year ending before July 1, 1950, if—

(1) After the close of the first half of the base period of the taxpayer and prior to July 1, 1950, the taxpayer consolidated its mechanical, circulation, advertising, and accounting operations in connection with its newspaper publishing business with such operations of another corporation engaged in the newspaper publishing business in the same area; and

(2) The taxpayer establishes to the satisfaction of the Secretary that, during the period beginning with the consolidation and ending with the close of the first taxable year beginning after the consolidation, such consolidation resulted in substantial reductions in the amounts which would otherwise have been paid or incurred as expenses in the conduct of the operations described in paragraph (1); and either

(3) The total deductions of the taxpayer under section 23, computed without regard to section 23 (s) and (bb), for the first taxable year beginning after such consolidation were not in excess of 80 per centum of the average of such deductions for the two taxable years of the taxpayer next preceding the taxable year in which such operations were consolidated; or

(4) The excess profits net income of the taxpayer, computed as provided in section 433 (b), for the first taxable year of the taxpayer beginning after such consolidation was 125 per centum or more of the amount determined under section 435 (d) (4);

the taxpayer's average base period net income determined under this subsection shall be an amount computed under section 435 (d) plus an amount equal to the excess of the average of the amounts paid or incurred as expenses in the conduct of the operations described in paragraph (1) during the two taxable years of the taxpayer next preceding the taxable year in which such operations were consolidated over such amounts paid or incurred during the first taxable year of the taxpayer beginning after such consolidation. In determining such excess amount

proper adjustment shall be made for increase in labor costs and newsprint following such consolidation. Proper adjustment shall also be made for any case in which a taxable year referred to in this subsection is a period of less than twelve months. This subsection shall not be applicable to any taxable year of the taxpayer unless the consolidation described in paragraph (1) was continued throughout such taxable year.

SEC. 523. EFFECTIVE DATE OF TITLE V (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

Except as otherwise provided in section 506 (d), the amendments made by this title [including sec. 518] shall be applicable only with respect to taxable years ending after June 30, 1950.

§ 40.459 (c)–1 *Consolidation of newspapers.* (a) A taxpayer which was engaged primarily in the newspaper publishing business in its last taxable year ending before July 1, 1950, which after the close of the last half of its base period and before July 1, 1950, consolidated certain of its operations with those of another corporation engaged in the same business in the same area, and which satisfies all the requirements set forth in paragraphs (1) and (2) and in either paragraph (3) or paragraph (4) of section 459 (c) may compute its average base period net income, for the purpose of computing its excess profits tax for any taxable year ending after June 30, 1950, under the provisions of section 459 (c) instead of under any other applicable provision of the Code. The average base period net income may be computed under section 459 (c) in determining the excess profits tax for any taxable year, however, only if the consolidation described in paragraph (1) of section 459 (c) was continued throughout such taxable year. The average base period net income computed under section 459 (c) shall be used in computing the taxpayer's excess profits tax for any taxable year if, and only if, the use of such average base period net income computed under section 459 (c) results in a lesser excess profits tax than would result from any other allowable computation of such tax.

(b) If the taxpayer is to compute its average base period net income under section 459 (c), it must establish to the satisfaction of the Commissioner, under the provisions of paragraph (2) of section 459 (c), that the consolidation referred to in paragraph (1) of section 459 (c) resulted in substantial reductions in the amounts which otherwise would have been paid or incurred as expenses (within the meaning of section 23 (a) (1) (A)) in the conduct of the operations described in paragraph (1) of section 459 (c) during the period beginning with such consolidation and ending with the close of the first taxable year beginning after such consolidation. If the taxpayer first claims the benefits of section 459 (c) on its return or on an amended return or in a claim for refund, it must attach a statement to such return or amended return or claim for refund containing sufficient information to enable the Commissioner to determine whether the requisite substantial reductions in expenses occurred.

(c) The taxpayer must satisfy the conditions of either paragraph (3) or paragraph (4) of section 459 (c) in order to be allowed to compute its average base period net income under section 459 (c). Under the provisions of paragraph (4), the excess profits net income of the taxpayer, computed as provided in section 433 (b), for its first taxable year beginning after the consolidation described in paragraph (1) of section 459 (c) must be 125 percent or more of the amount determined under section 435 (d) (4), which relates to the computation of the average base period net income under the general average method. Section 433 (b) provides for the computation of excess profits net income for taxable years in the base period for the purpose of computing average base period net income. For the purpose of the test set forth in paragraph (4) of section 459 (c), however, the excess profits net income for the first taxable year of the taxpayer beginning after the consolidation shall be computed in the manner provided in section 433 (b) without regard to whether or not such first taxable year is a taxable year in the base period.

(d) Computation of average base period net income under section 459 (c):

(1) The average base period net income computed under section 459 (c) shall be the sum of the following two amounts:

(i) The amount computed under section 435 (d) (relating to the computation of average base period net income under the general average method); and

(ii) An amount equal to the amount by which the average of the amounts paid or incurred as expenses in the conduct of the operations described in paragraph (1) of section 459 (c) during the two taxable years of the taxpayer immediately preceding the taxable year in which the consolidation described in paragraph (1) of section 459 (c) occurred exceeded such amounts paid or incurred during the first taxable year of the taxpayer beginning after such consolidation.

(2) In determining the excess amount described in subdivision (ii) of subparagraph (1) of this paragraph, proper adjustment shall be made for any increase in the cost per unit of labor or newsprint, due to wage or price increases, following such consolidation. If the taxpayer can show by relevant data and under generally accepted principles of accounting that its average unit costs of labor or newsprint in its first taxable year beginning after the consolidation were higher, due to wage or price increases, than its average unit costs of labor or newsprint in its two taxable years immediately preceding the taxable year in which the consolidation took place, then the amount specified in subdivision (ii) of subparagraph (1) of this paragraph shall be determined by substituting for the costs of labor or newsprint in such first taxable year amounts determined on the basis of its average unit costs of labor or newsprint in such two taxable years immediately preceding the taxable year in which the consolidation occurred.

(3) If the first taxable year beginning after the consolidation described in section 459 (c) (1) or if either of the two taxable years immediately preceding the taxable year in which such consolidation occurred is a taxable year of less than 12 months, then, in determining the amount specified in subdivision (ii) of subparagraph (1) of this paragraph, the amounts paid or incurred as expenses in such taxable year in the conduct of the operations described in paragraph (1) of section 459 (c) shall be such amounts as would be reflected in a computation on an annualized basis under the method set forth in section 433 (a) (2) (A). Similarly, if the first taxable year beginning after the consolidation or either of the two taxable years immediately preceding the taxable year in which the consolidation occurred was a taxable year of less than 12 months, then in determining whether the taxpayer meets the requirement set forth in paragraph (3) of section 459 (c) the total deductions of the taxpayer referred to in such paragraph (3) for such short taxable year shall be the amount which would be reflected in a computation on an annualized basis under the method set forth in section 433 (a) (2) (A). If the first taxable year beginning after the consolidation was a taxable year of less than 12 months, the excess profits net income for such short taxable year shall also be annualized under the method set forth in section 433 (a) (2) (A). In each case proper adjustment shall be made to prevent distortion with respect to nonrecurring items.

(4) If the average base period net income is computed under section 459 (c) and this section for the purpose of determining the excess profits tax for any taxable year, the base period capital addition provided in section 435 (f) shall not be allowed in determining such tax for such year.

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR Part 725]

BURLEY AND FLUE-CURED TOBACCO

NOTICE OF DETERMINATIONS TO BE MADE WITH RESPECT TO NATIONAL MARKETING QUOTA FOR FLUE-CURED TOBACCO FOR 1953–54 MARKETING YEAR

The Secretary of Agriculture is preparing to apportion the national marketing quota proclaimed for flue-cured tobacco for the 1953–54 marketing year (17 F. R. 6022) among the several States, and to convert the State marketing quotas into State acreage allotments.

Section 313 (a) of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1313 (a)), requires the Secretary to apportion the national marketing quota, less the amount to be allotted under subsection (c) of section 313 (small farms and "new" farms), among the several States on the basis of the total production in each State during the five calendar years immediately preceding the calendar year in which the quota is proclaimed, with such adjustments as

are determined to be necessary to make correction for abnormal conditions of production, for small farms, and for trend in production, giving due consideration to seed bed and other plant diseases during such five-year period.

The act (7 U. S. C. 1313 (g)) authorizes the Secretary to convert State marketing quotas into State acreage allotments on the basis of average yield per acre for the State during the five years preceding the year in which the national marketing quota is proclaimed, adjusted for abnormal conditions of production.

The Secretary is preparing, also, to review the present supply and demand outlook for flue-cured tobacco to determine whether the national marketing quota of 1,234 million pounds proclaimed on July 1, 1953, for the 1953–54 marketing year will meet market demands and avoid undue restriction of marketings in adjusting the total supply to the reserve supply level.

Section 312 (a) of the act (7 U. S. C. 1312 (a)) authorizes the Secretary to increase, but not decrease, the amount of the national marketing quota if he determines that such increase is necessary in order to meet marketing demands or to avoid undue restriction of marketings in adjusting the total supply to the reserve supply level. The proposed review of the quota is in line with the policy of the Department to make periodic reviews of all such determinations as later information with respect to the supply and demand outlook becomes available.

In making these determinations, consideration will be given to any data, views, and recommendations pertaining thereto which are submitted in writing to the Director, Tobacco Branch, Production and Marketing Administration, United States Department of Agriculture, Washington, D. C. All submissions must be postmarked not later than 10 days from the date of publication of this notice in the FEDERAL REGISTER in order to be considered.

Issued at Washington, D. C., this 28th day of November 1952.

Acting Administrator.

INDIANA GAS & WATER COMPANY, INC.

NOTICE OF APPLICATION

NOVEMBER 28, 1952.

Take notice that on November 10, 1952, Indiana Gas & Water Company, Inc. (Applicant), an Indiana corporation with its principal place of business at 1630 North Meridian Street, Indianapolis 2, Indiana, filed an application for a disclaimer of jurisdiction, or, in the alternative, for a certificate of public convenience and necessity pursuant to section 7 (c) of the Natural Gas Act authorizing the operation of certain natural-gas transmission pipeline facilities hereinafter described; and the interconnection of such facilities with other natural-gas transmission pipeline facilities owned and operated by Panhandle Eastern Pipe Line Company (Panhandle).

Applicant proposes to operate:

(1) 19.03 miles of 8-inch pipeline owned by it and extending northerly from the main transmission pipeline of Panhandle in Putnam County, Indiana, to the latter's existing metering and regulating station near Crawfordsville, Indiana. Such facilities parallel the 6-inch lateral pipeline facilities owned and operated by Panhandle.

(2) 12.37 miles of 6-inch pipeline owned by it and extending northerly from the main transmission pipeline of Panhandle in Hendricks County, Indiana, to the latter's existing metering and regulating station near Lebanon, Indiana. Such facilities parallel 4-inch lateral pipeline facilities owned and operated by Panhandle.

(3) Related casing, valves, fittings, flanges, and other equipment.

Applicant states that the proceedings now pending at Docket Nos. G-1813 and G-1937 involve other independent applications pertaining to the construction and operation of the facilities heretofore described. Docket No. G-1813 is the proceeding upon the application of Applicant to construct the facilities heretofore described. Docket No. G-1937 is the proceeding upon the application of Panhandle to operate the major portion of such facilities. Applicant states it has constructed such facilities, and seeks authority now to operate such facilities under a certificate to be made effective only for the period from the date of its issuance in this proceeding until final disposition of the proceedings at Docket Nos. G-1813 and G-1937, by the issuance of the certificates therein applied for, at which time the certificate herein requested shall terminate.

Applicant states further that such facilities are interconnected with Panhandle's measuring and regulating stations near Crawfordsville and Lebanon and with the existing lateral pipelines owned and operated by Panhandle, but which facilities are valved off at the point of interconnection with the lateral lines. To make the interconnections for which authority is sought herein, Applicant states, will require only the opening of such valves.

Applicant asserts that the immediate operation of such facilities, in the conjunction with those owned and operated by Panhandle, is essential in order to assure the maintenance of adequate service to its customers. By means of such operation Applicant states it will be able to deliver up to 20,500 Mcf at Crawfordsville and up to 5,600 Mcf at Lebanon pursuant to the terms of the service agreement entered into with Panhandle on July 10, 1951.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 17th day of December 1952. The application is on file with the Commission for public inspection.

[Suspension Order 37; Docket No. 44]

DELMAN CORP. AND LEONARD C. NEUFELD

MODIFICATION OF SUSPENSION ORDER

In an NPA administrative adversary proceeding before him in the above-entitled matter, Hearing Commissioner Frederick J. Moreau, of Lawrence, Kans., on October 3, 1952, entered an order of disposition which provided that:

In order to correct the unauthorized use of aluminum in the manufacture of windshield washers occasioned by the violations found herein, it is accordingly ordered: 1. That all allocations, allotments, and priorities of materials, including by self-allotment and self-certification, for use in the manufacture of windshield washers be withdrawn and withheld from the Delman Corporation, its successors and assigns, and Leonard C. Neufeld, his successors and assigns, for a period commencing October 1, 1952, and ending March 31, 1953: *Provided, however*, That the Delman Corporation and Leonard C. Neufeld, their successors and assigns, are nevertheless permitted to extend allotments and priorities received by them from Ford Motor Company for the production of windshield washers, which are Class "A" products for the use of the said Ford Motor Company pursuant to contracts now in force or which may later be entered into by the Delman Corporation, and

Leonard C. Neufeld, their successors and assigns, and the Ford Motor Company: *And provided further*, That the respondents are hereby permitted to use such supplies of aluminum as they have on hand as of October 1, 1952, for the purpose of manufacturing windshield washers which are Class "B" products during the period beginning October 1, 1952, and ending March 31, 1953.

As of October 16, 1952, under the above caption, The Delman Corporation, of 506 Third Street, Des Moines, Iowa, filed with the Chief Hearing Commissioner a petition, under the provisions of paragraph (c) of section 5 of NPA Rules of Practice, 17 F. R. 8156, reading in part as follows:

Comes now The Delman Company, and moves that the Suspension Order had and entered herein on October 3, 1952, be supplemented so as to permit The Delman Company to manufacture Class "A" windshield washers for the Chrysler Corporation pursuant to allotments and priorities extended by the Chrysler Corporation during the period of suspension October 1, 1952, to March 31, 1953, and for reasons in support of said Motion respectfully states:

1. That The Delman Corporation, named as Respondent in the above-entitled Administrative Proceedings, is now dissolved, and all its assets, liabilities, rights and obligations through mesne assignments have been conveyed to and assumed by The Delman Company, a limited partnership, with its principal place of business in Des Moines, Iowa.

2. That The Delman Company, a limited partnership, is now operating the business formerly owned and operated by The Delman Corporation, and is now manufacturing windshield washers pursuant to and under the restrictions of the Suspension Order entered herein on October 3, 1952.

3. That Leonard C. Neufeld was President of The Delman Corporation and is now a General Partner in The Delman Company.

The foregoing cause was referred to Hearing Commissioner Martin Tollefson, of Des Moines, Iowa, and was heard by him in the United States Court House at Des Moines, Iowa. Its purpose was to enable the Chief Hearing Commissioner, on the record as developed, to determine whether he should or should not, in the instant case, exercise the authority vested in him to revoke or modify the aforesaid suspension order of October 3, 1952. It commenced October 28, and ended October 30, 1952.

Commenting thereon, said hearing commissioner has stated in substance as follows:

During all of these periods of hearing, the respondents were represented by Mr. Peter W. Janss, and the National Production Authority by its regional attorney, Mr. John M. Cleary, Jr. The hearing commenced by the presentation of evidence by the respondents who had the burden of proof to establish by reliable, probative, and substantial evidence the allegations recited in • • • their motion for relief.

The gist of the respondents' desire as contained in their motion was that the suspension order of October 3, 1952, be modified to permit the re-extension of allotments received from the Chrysler Corporation for the manufacture of Class A products for factory assembly line installations; or in the words of the motion to permit "The Delman Company to manufacture Class A products for the use of the Chrysler Corporation pursuant to contracts now in force, or which may later be entered into, between the Delman Company and the Chrysler Corporation, the use of critical materials in which shall be pursuant to allotments and priorities extended by the said Chrysler Corporation • • •." In short, the respondents request that the order of October 3, 1952, be supplemented by adding the words "and the Chrysler Corporation" after the words "Ford Motor Company" wherever they appear in such order.

On the recommendation of the hearing commissioner herein, and with the concurrence of counsel for the National Production Authority, it is ordered that original Suspension Order No. 37, Docket No. 44, issued October 3, 1952, be modified by adding the words "and the Chrysler Corporation" after the words "Ford Motor Company" wherever they appear in the aforesaid suspension order, conditioned however on the respondents' filing monthly reports for the period of the original suspension order, showing the nature of their compliance with that order as modified, such reports to be filed with the Local District Manager, National Production Authority, United Savings & Loan Building, Des Moines, Iowa.

It is further ordered that the above-identified original suspension order, and as modified in these proceedings, shall be applicable to The Delman Company as the successor and assignee of The Delman Corporation and Leonard C. Neufeld.

Issued at Washington, D. C., this 25th day of November 1952.

ACME PACKING CO. AND FIRST CALL DOG FOOD CO.

SUSPENSION ORDER

A hearing having been held in the above-entitled matter on the 6th day of November 1952, before William B. Owens, Esquire, a hearing commissioner of the National Production Authority, on a statement of charges made by the General Counsel, National Production Authority, in accordance with the National Production Authority General Administrative Order 16-06 (16 F. R. 8628), dated July 21, 1951, and Implementa-

tion 1 to National Production Authority General Administrative Order 16–06 (16 F. R. 8799), dated August 30, 1951, and Delegation of Authority under NPA–GAO 16–06 (17 F. R. 2098); and

The respondents, Thompson Merrick and Herbert C. Petersen, individually, and as co-partners doing business under the firm names and style of Acme Packing Company and First Call Dog Food Company, having been duly apprised of the specific violations charged and having appeared in these proceedings by their attorney, William G. Mackay, an attorney at law, 111 Sutter Street, San Francisco, Calif.; and

The National Production Authority being represented by E. J. Spielman, regional attorney; and

The respondents and their attorney having entered into a stipulation dated October 29, 1952, stipulating that the statement of facts contained in said stipulation may be entered in evidence in lieu of the presentation of other evidence in support of and in opposition to the statement of charges; and

Due deliberation having been had, it is hereby determined:

Findings of fact. 1. During the period commencing July 1, 1951, and ending December 31, 1951, Thompson Merrick and Herbert C. Petersen, individually, and as co-partners doing business under the firm names and style of Acme Packing Company and First Call Dog Food Company, committed acts prohibited by National Production Authority Order M–25 as amended July 1, 1951, as follows:

(a) The unauthorized use of 395 base boxes of tin plate amounting to 186,045 cans for the packing of pet food, in excess of its permitted use of cans during the third calendar quarter 1951, commencing July 1, 1951, and ending September 30, 1951, in violation of section 6 (b) of said National Production Authority Order M–25 as amended July 1, 1951.

(b) The unauthorized use of 2,007 base boxes of tin plate amounting to 945,297 cans for the packing of pet food, in excess of its permitted use of cans during the fourth calendar quarter 1951, commencing October 1, 1951, and ending December 31, 1951, in violation of section 6 (b) of said National Production Authority Order M–25 as amended August 23, 1951.

2. During the third calendar quarter 1951 and the fourth calendar quarter 1951, respondents by purchasing, accepting delivery of, and using approximately 1,091,842 cans contrary to the provisions of section 6 (b) of National Production Authority Order M–25, as alleged in the preceding charges 1 (a) and 1 (b), in violation of section 10 of National Production Authority Order M–25 as amended July 1, 1951, falsely certified to their suppliers that all purchases from such suppliers of items regulated by said order and the acceptance and use of said items by the respondents will be in compliance with said order and any amendments thereto.

3. During the month of November 1951, the respondents, Thompson Merrick and Herbert C. Petersen, individually, and as co-partners doing business under the firm name and style of First Call Dog Food Company, committed acts prohibited by section 5 of National Production Authority Order M–25 as amended August 23, 1951, in that during said period said respondents accepted delivery of approximately 357,960 cans totalling 760 base boxes, at a time when their inventory thereof exceeded, or by acceptance of such delivery was made to exceed, a practicable minimum working inventory of cans (as defined in section 10.4 of National Production Authority Reg. 1) required by them for packing pet foods, a product listed in Schedule I of said order, in accordance with the quota and material limitations set forth in Schedule I entitled "Can Specifications."

4. During the fourth calendar quarter 1951, commencing October 1, 1951, and ending December 31, 1951, the respondents, Thompson Merrick and Herbert C. Petersen, individually, and as co-partners doing business under the firm name and style of Acme Packing Company, committed acts prohibited by section 5 of National Production Authority Order M–25 as amended August 23, 1951, in that during said period said respondents accepted delivery of approximately 737,586 cans or 1,566 base boxes at a time when their inventory thereof exceeded, or by acceptance of such delivery was made to exceed, a practicable minimum working inventory of cans (as defined in section 10.4 of National Production Authority Reg. 1) required by them for packing pet foods, a product listed in Schedule I of said order, in accordance with the quota and material limitations set forth in Schedule I entitled "Can Specifications."

5. On February 6, 1951, and March 5, 1951, the respondents, Thompson Merrick and Herbert C. Petersen, individually, and as co-partners doing business under the firm name and style of First Call Dog Food Company, committed an act in violation of section 102.11 of National Production Authority Order M–25 dated January 27, 1951, as amended, in that they furnished false information in the course of operation under said order by making an application to the National Production Authority in writing, for an adjustment under section II of National Production Authority Order M–25 for the establishment of a quarterly packing base for packing animal and pet food under the firm name and style of First Call Dog Food Company; said respondents furnished false information and made materially false statements with respect to their organization, plant, and facilities, which false and misleading statements were made with intent to be acted upon by the National Production Authority; that as a result of such false and misleading information and statements furnished by the said respondents, the National Production Authority on April 26, 1951, granted the First Call Dog Food Company authority to use a quarterly packing base of 882 base boxes of tin plate for packing animal pet food; that upon discovery of such false and misleading information and statements furnished by said respondents, the National Production Authority on October 12, 1951, cancelled and revoked the quarterly packing base of 882 base boxes of tin plate granted to the First Call Dog Food Company as aforesaid; that in truth and in fact the First Call Dog Food Company owned no plant or packing facilities, had no organization and employed no personnel; that the name "First Call Dog Food" was in fact merely a brand name used on labels by the respondents for pet food packed by Acme Packing Company.

Special findings. The above findings of fact are in accord with the stipulation entered herein, which was affirmed by respondents at the hearing as correctly stating the facts. At the hearing, respondent Thompson Merrick, by way of explanation and mitigation, stated that respondents had acted upon interpretations of NPA Order M–25, and upon a method of determining authorized use quotas, different from those applied by the National Production Authority, as follows:

(1) That respondents understood that under the special allocation of 882 base boxes to First Call Dog Food Company in April 1951, they were permitted to use the entire 882 base boxes in each 1951 quarter, in addition to the percentage of 1949 actual use allowed to Acme; that they were so informed by a representative of the National Production Authority who visited their plant in July 1951.

The National Production Authority, in effect, treated the allocation of 882 base boxes to "First Call" as a 1949 actual use figure, and applied the 1951 percentages to that base.

A calculation based on respondents' construction and upon the 1949 actual use by Acme and the actual 1951 use by both Acme and First Call (shown by the investigator's figures, which are conceded to have been accurately taken from respondents' records), indicates a total excess receipt and use of cans of around 1,900 base boxes, as compared with a total of 2,402 base boxes alleged in the statement of charges. Thus, under respondents' method of calculation, there is still a substantial unexplained excess receipt and use of cans, particularly in the fourth quarter after the special allocation had been revoked.

(2) That respondents construed section 102.6 of NPA Order M–25, January 27, 1951 (which, with slight variation in wording, became section 9 in later amended forms of the order), as permitting them to use cans which they had in their inventory on January 27, 1951 (approximately 146,000 cans), in addition to Acme's quota and the 882 base boxes allocated to First Call. Section 102.6 deals with the metal content, weight, etc., of plate permitted to be used in cans, and the intent of the section was evidently simply to permit the use of cans already made up under different specifications, rather than to "freeze" them in the warehouses. Nothing in the section indicates that such cans were not to be included in determining allowable use quotas. In fact the last sentence of section 102.6 (a) states: "The restrictions of section 102.5 are not excepted by this paragraph (a)." Section 102.5 relates to "Restrictions on amount that may be packed." Respondents' interpretation was not reasonably justified.

(3) That respondents understood that under section 102.5 of NPA Order M–25 (January 27, 1951), they could accept full carload shipments of cans, although less than a carload would give them the "practicable minimum working inventory" permitted by the order; that they thereby "picked up" additional cans each quarter which they assumed they were entitled to use in addition to Acme's quota, the special allocation of 882 base boxes to First Call, and the cans in their inventory on January 27, 1951.

Assuming that the "carload" provision may permit some temporary extension of the inventory limitations, there cannot reasonably be read into this provision a permission to use the "extra" cans a carload might deliver in addition to the authorized quotas. Such interpretation would tend to defeat the intent and purpose of the order. Apparently no inquiry was made by respondents, either of their own counsel or of the National Production Authority, as to the correctness of the interpretations suggested in paragraphs (2) and (3) above.

The fifth charge in the statement of charges (the most serious in the Commissioner's view), is of misrepresentation and the withholding of pertinent information by respondents, in applying in the name of First Call Dog Food Company for an allocation of cans to that company, which, in fact, was not a packer. Little by way of explanation was offered by respondents as to this charge.

First Call Dog Food Company is a partnership with the same members as the Acme Packing Company, also a partnership. First Call is not, never has been, and, so far as appears, was never intended to be a packing company. Realistically, it may be said to be one of Acme's brand names. On the view most favorable to respondents, however, if separate identities are to be recognized, First Call was in the same position as the seven or eight "private label accounts for whom Acme packed pet food." As respondents state: "People of that type haven't any allocation for cans," nor, it would seem, are they entitled to any. They are not packers. It could not reasonably be contended that each of these "private label accounts" could properly have applied for an allocation of cans to them, without revealing that they were not packers, and intended to turn the cans over to Acme for packing, yet First Call's position, on the most favorable view, was no different.

The circumstances surrounding the First Call application, make it difficult to view it without suspicion. Most of Acme's packing was for its seven or eight "private label accounts." Only about 16 percent of its pack was under its own labels, of which it had several. The partners admittedly wanted to increase the pack of their own brands. First Call Dog Food Company was formed, or "reactivated," late in 1950 with that in mind, but before any packing under that label could be done, NPA Order M–25 "froze" Acme's can quota at a percentage of Acme's 1949 base year quarterly pack, which of course included nothing for First Call. There was, in all probability, no likelihood that Acme's quota would be increased when the only reason was their desire to increase their output of pet food under what was essentially one of their own labels. The limitations imposed by the 1951 percentages mean that Acme's packing for their "private label accounts" had to be correspondingly reduced. Presumably, if any increase in Acme's quota were obtained, a corresponding increase should be extended to their "private label accounts" if commitments to them were fairly met, leaving little for increasing Acme's pack under its own and the First Call label.

It is difficult to accept the contention, implicit in respondents' statements on this phase of the case, that they did not realize the misleading implication in the application, filed in the name of First Call Dog Food Company, for an adjustment allowing them an allocation of cans for packing pet food. They should have realized it.

The letter of February 6, 1951, signed, "First Call Dog Food Company," requesting an adjustment to allow them some cans, states: "We have had no packing history in 1949 or 1950. We are appealing to your good office for relief. We started our program too late in the year to do much canning of our product." There was nothing to indicate First Call's connection with Acme Packing Company, or that First Call was not itself a packer. To persons unacquainted with the true situation the latter would indicate that the applicant was, or had intended to become, a packer, who had been caught by the suddenly instituted regulation, based on a prior packing record which the applicant could not show. That this was the assumption on which the adjustment was granted is indicated by the letter of April 26, 1951, granting the special allocation of 882 base boxes to First Call, which states: "An adjustment * * * is hereby granted to permit you to use as a quarterly base, 882 base boxes * * * for packing animal and pet food." Had it been disclosed that, in reality, the application was for an increase in Acme's allocation, the adjustment would in all probability not have been granted. When this was later discovered the special allocation was revoked. No adequate or reasonable explanation has been presented for the facts alleged in the fifth charge and conceded by the stipulation, although the stipulation does not concede wilfulness. At least, there was gross carelessness on respondents' part.

Obviously a suspension order will work hardship on respondents, on their 10 or 12 semiskilled employees, and on those represented by the "private label accounts" who may be unable to have their products packed elsewhere. Clearly, however, there were substantial violations of the order through which respondents obtained and used a considerably greater number of cans than they were entitled to, thereby tending to disrupt the control program in a period of emergency and of shortages in essential materials. These violations cannot be disregarded simply because of hardship to the violators without virtually nullifying the effectiveness of the order.

The commissioner is not in a position to ascertain and weigh the full extent of hardship to those for whom Acme packs under the "private label accounts," who undoubtedly merit careful consideration.

Conclusions. A suspension order should issue as hereinafter specified, subject, however, to modification by the National Production Authority, to relieve any satisfactorily established severe hardship to the persons for whose "private label accounts" Acme has been packing, other than First Call Dog Food Company. To permit the completion of such unfilled orders as respondents may have on hand and in process of packing, and avoid spoilage of pet foods, the provisions of this order shall become effective as of December 1, 1952, and continue in force as hereinafter provided.

In order to correct the unauthorized ordering, procurement, delivery, and use of cans occasioned by the violations found herein, and in order to prevent future violations of National Production Authority regulations, orders, and directives by said respondents, it is accordingly ordered:

1. That all priority assistance be withdrawn and withheld from Thompson Merrick and Herbert C. Petersen, individually, and as co-partners doing business under the firm names and style of Acme Packing Company and First Call Dog Food Company, for the period commencing December 1, 1952, and ending June 30, 1953.

2. That all allocations and allotments of controlled materials and materials under control of the National Production Authority, including but not limited to materials under control of the National Production Authority Order M–25, be withdrawn and withheld from Thompson Merrick and Herbert C. Petersen, individually, and as co-partners doing business under the firm names and style of Acme Packing Company and First Call Dog Food Company, for the period commencing December 1, 1952, and ending June 30, 1953.

3. That Thompson Merrick and Herbert C. Petersen, individually, and as co-partners doing business under the firm names and style of Acme Packing Company and First Call Dog Food Company, be prohibited from acquiring, using, or disposing of controlled materials or materials under control of National Production Authority, including but not limited to materials under control of the National Production Authority Order M–25, for the period commencing December 1, 1952, and ending June 30, 1953.

4. That all privileges of self-authorization, self-certification, and automatic allotment granted by the National Production Authority with respect to controlled materials and materials under control of National Production Authority, including but not limited to materials under control of the National Production Authority Order M–25, be withdrawn and withheld from Thompson Merrick and Herbert C. Petersen, individually, and as co-partners doing business under the firm names and style of Acme Packing Company and First Call Dog Food Company, for the period commencing December 1, 1952, and ending June 30, 1953.

(b) *Policy*—(1) *Existence of hardship conditions.* An airman may be separated for reasons of hardship when the evidence submitted indicates that undue and unforeseeable hardship conditions have arisen in his family since entrance into the service and that his separation will contribute materially to the care or support of his family and alleviate the hardship. service, and members of the immediate family of the airman's spouse.

§ 882.18 *Delegation of authority.* Authority to order discharge under the provisions of §§ 882.16 to 882.25 is delegated to commanders of all units or installations, commanded by or the normal command of general officers, commanding officers of personnel centers, training centers, oversea replacement depots, ports of aerial embarkation, and all active Air Force installations having an authorized military strength of 4,000 or more men.

§ 882.19 *Requirements.* Separation is authorized and may be directed when it is determined that:

(a) Undue and genuine hardship exists.

(b) Hardship is not of a temporary nature.

(c) Conditions have arisen or have been aggravated to an excessive degree since entry into the service.

(d) The airman has made every reasonable effort to alleviate hardship by means of application for family allowance and voluntary contributions which has proven inadequate.

(e) Separation of the airman will result in the elimination of or will materially alleviate the condition and means of alleviation are not readily available other than by such separation.

§ 882.20 *Application.* Any airman will be permitted to submit a written application for separation for hardship. Such requests will be submitted as prescribed in paragraphs (a) through (d) of this section:

(a) *When airman is in the United States.* An airman based in the United States will submit his application to his immediate commanding officer and his application will be supported by the evidence required in § 882.21. An airman assigned to an oversea unit but temporarily in the United States will submit his application directly to the Director of Military Personnel, Headquarters United States Air Force, Washington 25, D. C.

(b) *When airman is overseas.* An airman based overseas will submit his application, with such supporting evidence as he may have readily available, to his immediate commanding officer. An airman assigned to a unit or installation within the United States but temporarily in an oversea theater, will submit his application, with such supporting evidence as he may have readily available, to the commander of the oversea theater in which he is located.

(c) *When airman is en route overseas.* Applications for separation because of hardship under the provisions of §§ 882.16 to 882.25 will not be accepted at personnel processing groups (or ports of aerial embarkation) from airmen en route overseas, except where hardship conditions have arisen since the airman's departure from his home installation which, in the opinion of the organization commander and/or the commander of the personnel processing group (or port of aerial embarkation), may warrant his separation.

(d) *When families of airmen may submit application.* Families of airmen based overseas may submit the application, together with the necessary documentary evidence, to the airman's immediate commander or forward the documentary evidence to the airman so that he may make application. Any application received in Headquarters United States Air Force from the family of an airman will be forwarded to the airman's commanding officer for action.

(e) *Reapplication.* Applications that have been given final disapproval will become part of the field personnel records of the airman. A new application will not be processed unless the airman has new material evidence to support a new application.

§ 882.21 *Evidence required.*—(a) *Form to be used.* The evidence required for a hardship separation normally will be in affidavit form. The evidence must be that required to substantiate the hardship conditions as outlined in § 882.19.

(b) *Affidavits and certificates.* (1) Affidavits or statements by or on behalf of an airman's dependents and by at least two disinterested agencies or persons substantiating the hardship claim may be accepted from responsible agencies or persons having first-hand knowledge of the circumstances involved.

(2) If hardship is the result of death of a member of the airman's family occurring after his entrance into the service, a certificate or other valid proof of death will be furnished. If hardship is the result of disability of a member of the airman's family occurring after his entrance into the service, a physician's certificate will be furnished stating specifically when such disability occurred and the nature thereof.

(3) The names, ages, occupations, locations, monthly incomes of the members of the airman's family, and reasons why these members cannot provide the necessary care or support of the airman's family will also be furnished. Evidence of prospective civilian employment will not be required unless the hardship is basically financial and reasonable doubt exists whether the airman will be able to exceed his military pay if separated.

§ 882.22 *Other factors relating to separation.*—(a) *Indebtedness to the Government.* Indebtedness to the Government or to a person does not prevent separation when the airman is eligible otherwise.

(b) *Under charges or in confinement.* When an airman is under charges or in confinement, he will not be separated until proper disposition has been made of his case. A sentence of confinement will be fully served unless sooner terminated by remission for mitigating causes arising from the airman's own good conduct before a separation for any cause may be given.

(c) *When airman's services are needed in his organization.* When an airman is eligible for separation under the provisions of §§ 882.16 to 882.25, separation will not be disapproved because his services are needed in his organization.

(d) *Four or more dependents.* In determining final action on applications for hardship separation, the existence of four or more dependents is a factor which should be given due consideration. However, four or more dependents will not be considered as conclusive evidence warranting separation.

(e) *Airmen serving on involuntary extension of enlistment.* Commanders will take cognizance of the fact that hardship conditions which do not warrant separation under the provisions of §§ 882.16 to 882.25 during the normal term of enlistment may be aggravated and intensified because of an involuntary extension of such enlistment. Consequently, maximum feasible leniency should be exercised in considering applications from airmen serving on an involuntary extension of enlistment.

(f) *Assistance to airmen and their dependents.* Airmen or their dependents on their own initiative may request American Red Cross local chapters or other agencies to substantiate applications for separation.

§ 882.23 *Concealment of dependency.* When an application for discharge under the provisions of §§ 882.16 to 882.25 reveals the existence of dependents which were concealed at the time of enlistment, a determination will be made whether the airman concerned should be granted a waiver of fraudulent enlistment or discharged under the provisions of regulations governing discharge of individuals for fraudulent enlistment.

§ 882.24 *Release or discharge.* Airmen separated under the provisions of §§ 882.16 to 882.25 who have Reserve service obligations under the Universal Military Training and Service Act (62 Stat. 604, as amended; 50 U. S. C. App. 451–473), will not be discharged but will be released from active military service and transferred to or will revert to Reserve status.

SUBPART A—INTRODUCTION

§ 600.1 *Basis and purpose.* The basis of this part is found in sections 205 and 302 of the Civil Aeronautics Act of 1938, as amended. The purpose of this part is to designate civil airways in order to provide suitable and, insofar as possible, safe routes for aircraft operating in interstate, overseas, or foreign air commerce.

§ 600.2 *Explanation of term.* As used in this part, "civil airway" shall mean a path through the navigable airspace of the United States suitable for interstate, overseas, or foreign air commerce. Civil airways are classified as follows:

(a) Colored civil airways: (1) Green civil airways, (2) Amber civil airways, (3) Red civil airways, (4) Blue civil airways.

(b) VOR civil airways: (1) Even numbered civil airways, (2) Odd numbered civil airways.

§ 600.3 *Scope.* (a) Except where otherwise provided in Subpart B and in Subpart C, each civil airway shall include the navigable airspace of the United States above all that area on the surface of the earth lying within 5 miles of the center of the center line prescribed for each such airway, but shall not include any of the airspace of an airspace reservation as provided for in section 4 of the Air Commerce Act of 1926, as amended.

(b) The center line of each civil airway shall be a line extended in the manner hereinafter prescribed through the center of the points or intersections specified for such airway.

(c) Except where otherwise provided in Subpart C, one or more alternate VOR civil airways shall be established between specified points along, and shall be a part of, each VOR civil airway. The center line of an alternate VOR civil airway shall depart from and return to the main VOR civil airway via the intersection of radials having an angle of 15 degrees (unless otherwise specified) separation from the main VOR civil airway.

§ 600.10 *Designation of civil airways.* The paths through the navigable airspace of the United States described in Subpart B and Subpart C are designated as civil airways.

The purpose of this part is to designate control areas, control zones, and reporting points in order to provide for the safety of aircraft operating in interstate, overseas, and foreign air commerce.

§ 601.2 *Explanation of terms.* As used in this part:

(a) "Control area" shall mean an airspace of defined dimensions extending upward from an altitude of 700 feet above the surface within which air traffic control is exercised.

(b) "Control zone" shall mean an airspace of defined dimensions extending upward from the surface to include one or more airports and within which rules additional to those governing flight in control areas apply for the protection of air traffic.

(c) "Reporting point" shall mean a geographic location in relation to which the position of an aircraft shall be reported.

CONTROL AREAS

§ 601.9 *Extent of control areas.* Whenever a point prescribed in designating a control area coincides with a point specified in designating the center line of a civil airway, such control area shall include all of the area within a 5-mile radius of such point, unless otherwise provided in Subpart B, Subpart C, and Subpart F. In addition, such control area shall include all of the airspace between the main and alternate VOR civil airways unless otherwise specified.

§ 601.10 *Designation of control areas.* The portions of the civil airways and control area extensions described in Subpart B, Subpart C, and Subpart F are designated as control areas.

[Sugar Det. 878.5]

PART 878—SUGARCANE: VIRGIN ISLANDS

FAIR AND REASONABLE PRICES FOR 1953 CROP

Pursuant to the provisions of section 301 (c) (2) of the Sugar Act of 1948, as amended, (herein referred to as "act"), after investigation, and due consideration of the evidence obtained at the public hearing held in Christiansted, St. Croix, Virgin Islands, on September 29, 1952, the following determination is hereby issued:

§ 878.5 *Fair and reasonable prices for the 1953 crop of Virgin Islands sugarcane.* A processor-producer of sugarcane in the Virgin Islands who applies for payment under the act shall be deemed to have complied with the provisions of section 301 (c) (2) of the act with respect to the 1953 crop, if the requirements of this determination are met.

(a) *Definitions.* For the purpose of this determination, the term:

(1) "Raw sugar" means 96° raw sugar.

(2) "Settlement period" means the two-week period in which sugarcane is delivered by the producer to the processor-producer. The first such period shall start on Monday of the week grinding commences and successive periods shall start at two-week intervals thereafter.

(3) "Average price of raw sugar" means the simple average of the daily spot quotations of raw sugar of the New York Coffee and Sugar Exchange (domestic contract), adjusted to a duty paid basis by adding to each daily quotation the United States duty prevailing on Cuban raw sugar on that day, for the period on which settlement is based, except that, if the Director of the Sugar Branch determines that for any such period such average price does not reflect the true market value of raw sugar because of inadequate volume or other factors, the Director may designate the average price to be effective under this determination.

(4) "F. o. b. mill price" means the average price of raw sugar minus selling and delivery expenses (converted to a pound unit) actually incurred by the processor-producer in the marketing of 1953 crop raw sugar (other than bags or storage in company warehouses).

(5) "Yield of raw sugar" means the yield of raw sugar per 100 pounds of sugarcane determined for each settlement period in accordance wtih the following procedure:

(i) A representative sample of not less than six stalks of sugarcane shall be taken from each producer's truckload or partial load and the juice extracted by a laboratory power mill. Correlating factors based on experience shall be established not less than twice weekly between the laboratory mill juice and the factory crusher juice brix and sucrose, respectively. These correlating factors then shall be applied to the laboratory mill analysis of brix and sucrose to bring the laboratory mill analysis to the equivalent of factory crusher juice analysis.

(ii) Application shall then be made of the formula, $R=(S-0.3B)F$, in which:

R = Recoverable sugar yield, 96° polarization.
S = Polarization of the crusher juice obtained from the sugarcane of each producer.
B = Brix of the crusher juice obtained from the sugarcane of each producer.
F = Factor obtained from the fraction whose numerator is the average yield of sugar, 96° polarization, obtained from the aggregate grinding during each settlement period in which the sugarcane of the producer has been ground and whose denominator is the average polarization of the crusher juice minus three-tenths of the brix of the crusher juice, both components of the denominator being obtained from the aggregate grinding during the settlement period in which the sugarcane of the producer has been ground.

(b) *Basic payment.* The processor-producer shall pay, or contract to pay, the producer for sugarcane delivered during a settlement period the f. o. b. mill price of that portion of the raw sugar determined by applying the following applicable percentage to the yield of raw sugar from the producer's sugarcane.

Yield of raw sugar per 100 pounds of sugarcane (pounds):	Percentage
6.0	59.0
7.0	60.0
8.0	61.0
9.0	62.0
10.0	63.0
11.0	64.0
12.0	65.0

Intermediate points within the scale are to be interpolated to the nearest one-tenth point. Points below 6 pounds or above 12 pounds of raw sugar are to be in proportion to the immediately preceding interval.

(c) *Molasses payment.* The processor-producer shall pay the producer for each 100 pounds of sugarcane delivered an amount computed by applying the following applicable percentage to the net proceeds derived from the sale of blackstrap molasses produced per 100 pounds of sugarcane for the 1953 crop:

Yield of raw sugar per 100 pounds of sugarcane (pounds):	Percentage
6.0	86.0
7.0	80.0
8.0	74.0
9.0	68.0
10.0	62.0
11.0	56.0
12.0	50.0

Intermediate points within the scale are to be interpolated to the nearest one-tenth point. Points below 6 pounds or above 12 pounds of raw sugar are to be in proportion to the immediately preceding interval.

(d) *Reporting requirement.* The processor-producer shall submit in duplicate to the Caribbean Area Office of the Production and Marketing Administration, San Juan, Puerto Rico, a certified statement of the actual deductions made in determining the f. o. b. mill price of raw sugar and the net proceeds from blackstrap molasses.

(e) *Subterfuge.* The processor-producer shall not reduce returns to the producer below those determined herein through any subterfuge or device whatsoever.

STATEMENT OF BASES AND CONSIDERATIONS

(a) *General.* The foregoing determination provides fair and reasonable prices to be paid by a processor-producer (i. e., a producer who is directly or indirectly a processor of sugarcane—hereinafter referred to as "processor") for sugarcane of the 1953 crop purchased from other producers. It prescribes the minimum requirements with respect to prices for sugarcane which must be met as one of the conditions for payment under the act.

(b) *Requirements of the act.* In determining fair and reasonable prices, the act requires that a public hearing be held and investigations be made. Accordingly, on September 29, 1952, a public hearing was held in Christiansted, St. Croix, Virgin Islands, at which time interested parties presented testimony with respect to fair and reasonable prices for the 1953 crop of sugarcane. In addition, investigations have been made of conditions relating to the sugar industry in the Virgin Islands. In this price determination, consideration has been given to testimony presented at the hearing and to information resulting from investigations.

(c) *1953 price determination.* The 1953 price determination differs from that of 1952 in two respects. First, the method of sampling and testing the sugarcane of individual producers provides for the use of a laboratory mill to test samples of each lot of cane purchased. Second, payment for all sugarcane delivered by a producer during a settlement period is based solely upon the average price of raw sugar, converted to the f. o. b. mill price, for that settlement period.

At the public hearing, the representative of the Virgin Islands Corporation, which is the only processor of sugarcane in the area, recommended that the method of sampling and testing sugarcane be changed inasmuch as it has been very difficult to obtain from the mill a true sample of the crusher juice from the many small bundles of cane delivered by producers. Grower representatives concurred in the recommendation and it is incorporated into the determination to provide for greater equity as among growers delivering sugarcane of varying quality.

The simplified method of settling for growers' cane on the basis solely of the average price of raw sugar during the sugarcane delivery period, rather than, as in the past, partially upon such basis and partially on the basis of raw sugar prices during the early months of the following year, recognizes the increased quota available to the Virgin Islands in 1953 and the fact that growers' production has not expanded to the same degree as has the Corporation's.

The representative of the Corporation recommended changes in sugarcane delivery terms, charges and allowances which were opposed by producers. Following the hearing, however, the Corporation and independent producers agreed to increase hauling allowances under the present method of delivery. In view of such agreement, this determination does not contain specific provisions regarding terms for the transportation and delivery of sugarcane.

A representative of the small growers recommended that in the event molasses is marketed at prices less than those in a comparable area such as Puerto Rico, growers should have a voice in such marketing. The recommendation has not been adopted because of the difficulty of establishing objectively the market value of molasses in comparable areas under varying conditions. Finally, the producer representatives recommended the adoption of a scale for sugar settlement which would return to producers for each 100 pounds of sugarcane ground, an additional pound of sugar above the quantity specified under the scale in the 1952 determination. A witness for the Virgin Islands Corporation recommended that the scale used for the 1952 crop be continued for the 1953 crop and presented financial data to support the contention that it would be economically unfeasible for the Corporation to pay for sugarcane in accordance with the scale recommended by producers.

An examination of conditions within the sugar industry in the Virgin Islands indicates, as it has in the past, that the standards customarily considered in price determinations in other cane producing areas, cannot be applied in the usual manner. The Virgin Islands Corporation, operated under the direction of the Department of Interior primarily to promote the general welfare of the people of the Islands, is both the largest producer and only processor of sugarcane. Financial results of the Corporation have been generally unfavorable and annual losses on sugar operations continue to mount despite the Corporation's efforts to reduce losses through improvements in agricultural and milling operations.

During the past two years, Virgin Islands sugarcane producers have enjoyed unusually favorable crop conditions, as a result of which, in conjunction with increased acreage, production has doubled. Nevertheless, it is recognized that independent producers still are subject to the hazards to agricultural production characteristic of the Virgin Islands and associated with insufficient rainfall, the poor moisture-retention quality of the soil, and low sugarcane yields. It is further recognized that the present basis for sharing the proceeds from raw sugar and molasses may not result in individually profitable operations for all producers. However, the sharing relationship specified in this determination provides returns to producers which compare favorably with those obtained by sugarcane producers in other offshore areas.

Accordingly, I hereby find and conclude that the foregoing price determination is fair and reasonable and will effectuate the price provisions of the Sugar Act of 1948, as amended.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 100, Interpretation 1]

CPR 109—RETAIL SALES OF NEW AND USED MECHANICAL FARM EQUIPMENT

INT. 1—SEPARATE STATEMENT OF EXTRA CHARGES IN INVOICE (SECTION 11 (e))

In accordance with section 11 of CPR 100, retail sellers of farm equipment covered by this regulation are required to furnish to purchasers an invoice containing the information set forth in the lettered paragraphs of this section. Paragraph 11 (e) requires "A separate statement of any extra charges permitted by this regulation."

Sellers of new complete farm equipment and new parts determine their ceiling prices for such commodities under section 2, 3 or 4 of CPR 100, depending upon the individual retail seller's pre-Korea pricing practice.

Sections 2 and 3 of CPR 100 specify that the retail seller's ceiling price shall be "the sum of the following," and the "following" includes many specified charges, such as transportation costs, manufacturers' or wholesale distributors' handling charges, etc. Consequently, section 11 (e) of CPR 100 does not require such retail dealers who are required to determine their ceiling prices under section 2 or 3 to list the specified charges in the invoice required by section 11 because these charges are actually a part of the ceiling price as determined under section 2 or 3. (An exception to this is taxes, which under sections 2 (b) (7) and 3 (b) (5) may be added to the seller's ceiling prices. Consequently, a seller pricing under section 2 or 3 must separately state in his in-

voice any charges made by him for such taxes.)

On the other hand, those retail sellers who determine their ceiling prices under section 4 of CPR 100 are required to list any extra charges in their invoice since section 4 states that the specified charges, such as transportation costs, service and handling charges, etc., may be added to the seller's ceiling price. In addition, section 4 (d) specifically requires that a seller separately state in his invoice each additional charge which he adds to his ceiling prices under that section.

CPR 181—STOCK MILLWORK

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Ceiling Price Regulation 181 is hereby issued.

STATEMENT OF CONSIDERATIONS

This regulation establishes dollar-and-cent ceiling prices for direct-mill sales of stock millwork, including doors, frames, windows, blinds and shutters, sash, window screens and screen doors, made in whole or in large part from the following species: Ponderosa pine (pinus ponderosa) Idaho pine (Pinus monticola); Sugar pine (Pinus lambertina); Northern or Northeastern pine (Pinus strobus). The regulation also provides a modification of the GCPR ceiling prices on direct-mill sales of hollow core flush veneered doors in all woods except Douglas Fir, which is covered in CPR 175, and for various stock millwork specialties. Dollars-and-cents ceiling prices for direct-mill sales of Douglas Fir window and door frames are also included in this regulation.

Nature of the industry. The millwork industry is made up of several product groupings which cover items that are built into and become part of a building. This regulation is concerned only with the standard or "stock" items of millwork.

Many companies manufacture stock millwork, but about 90 percent of them are small producers who make millwork in conjunction with the wholesale or retail distribution of lumber and other building materials. There are approximately 100 medium size millwork manufacturers whose sales volume is considerable. However, of the total industry output of stock millwork, a major portion is manufactured by about 30 companies on a mass production basis.

Whereas the small producers are scattered throughout the country, the large mills are located principally in Iowa, Wisconsin, and Illinois, about 60 percent of the total stock millwork production is concentrated in this area. Other centers of production, though somewhat less important, are located in New England, the lower Mississippi Valley, Texas, California and Washington.

Based on data furnished by the National Woodwork Manufacturers Association, it is estimated that the total value of shipments of stock millwork during 1951 was approximately $160,000,000. It is estimated that the value of screen doors sold in 1951 amounted to about $5,000,000.

Nature of this regulation. The stock millwork industry has developed a special system of pricing which is recognized and adhered to by most manufacturers in the industry. List prices and list extras are contained in standard catalogs, published under the auspices of trade associations in the millwork industry; as for example, Catalog 8–A "Standard Pine Frames" and Catalog 40 "Sash, Doors, Screens" which are both published by the National Door Manufacturers Association. The basic lists and list extras remain unchanged over long periods of time. Individual manufacturers issue price sheets, which are kept current, containing discounts and/or percentage additions to be applied to the basic list. For most items the ceiling prices under this regulation are determined by reference to these basic price lists, adjusted by the discounts or additions prevailing during the base period.

Most items of stock millwork are sold f. o. b. mill with carload rate of freight allowed within an established price zone. The regulation, therefore, establishes ceiling prices for a basic zone (Zone 1) which embraces the principal millwork production area and which has traditionally served as the center of the millwork market. The regulation provides that individual manufacturers may apply their base period (December 19, 1950–January 25, 1951) differentials for delivery to points outside of Zone 1. If a manufacturer did not quote prices for Zone 1 or had not established differentials for those zones in which he sold millwork, he may use the delivery differentials appearing in the price schedule of his closest competitor.

Zone pricing does not extend to all items of millwork. Solid core flush veneered doors as well as certain stock millwork specialties are usually priced f. o. b. mill, no freight allowed. Screen doors and blinds and shutters are usually priced f. o. b. mill, carload rate of freight allowed to all zones. In the latter case, there exists what amounts to a "delivered U. S. A." price. The regulation provides that manufacturers who used the f. o. b. mill method of pricing during the period December 19, 1950 to January 25, 1951, must continue to use that basis of quotation. Also, manufacturers who sold on what amounts to be a delivered basis (f. o. b. mill, carload rate of freight allowed to all zones) during the base period must continue to do so.

It has been a long established practice in the millwork industry to publish price schedules at the dealer carload level. However, over the years, there has developed a tendency to sell through jobbers to avoid the expense of a large sales organization. It is estimated that about 50 percent of the mills now publish price schedules at the jobber level only. Those continuing to price at the dealer carload level grant concessions from the published price schedules for sales to jobbers. For purposes of this regulation it was considered administratively desirable to establish ceiling prices at the dealer carload level, and to provide for concessions when sales are made through jobbers. In analyzing manufacturers' price schedules for setting prices under this regulation, all prices were adjusted to the dealer carload levels.

This regulation establishes mill level ceiling prices, and does not deal with pricing at the various distribution levels. The transactions covered are described as "direct-mill sales". Such a sale exists when a shipment originating at a mill reaches its ultimate destination with the shipment intact, regardless of who actually effected the sale and whether or not the title passes to an intermediate buyer. Thus the term direct-mill sale does not include a transaction where a shipment passes through a yard or warehouse and is actually unloaded before being resold. The treatment of the matter in the regulation conforms to the industry's traditional marketing practices.

Levels of prices in this regulation. The new ceiling prices established by this regulation will be approximately 3 percent above the average ceilings for stock millwork and from 3 to 4.5 percent above the average ceilings for screen doors established under the General Ceiling Price Regulation. These higher ceilings reflect increases in direct costs that have occurred in the millwork and screen door industry since January 1, 1952. This pass-through of recent direct cost increases has been found necessary in order to satisfy the requirement that ceiling prices be generally fair and equitable under the Industry Earnings Standard. Partial data available to the Office of Price Stabilization indicates that during the year 1951 the ratio of net profit before taxes to net worth in these industries fell below 85 percent of the average for the years 1947–1949. Because the data available was not collected for the purpose of making an earnings standard study of these industries, the information may not be adequate to give a final and conclusive indication of the earnings situation in these industries. Accordingly, a comprehensive study of earnings will be made by OPS in order to determine whether or not further adjustments in these ceilings are necessary.

FINDINGS OF THE DIRECTOR OF PRICE STABILIZATION

In the judgment of the Director of Price Stabilization the ceiling prices established by this regulation are generally fair and equitable and are necessary to effectuate the purpose of Title IV of the Defense Production Act of 1950, as amended.

So far as practical in the formulation of this regulation, the Director of Price Stabilization has given due considera-

PART 399—POSITIVE LIST OF COMMODITIES AND RELATED MATTERS

MISCELLANEOUS AMENDMENTS

Section 399.1 *Appendix A—Positive List of Commodities* is amended in the following particulars:

[1] This amendment was published in Current Export Bulletin No. 685, dated Nov. 28, 1952.

tion to the national effort to achieve maximum production in furtherance of the objectives of the Defense Production Act of 1950, as amended; to prices prevailing during the period May 24, 1950 to June 24, 1950, inclusive; to those prevailing during the period January 25 through February 24, 1951, as well as to the level of prices prevailing just before the issuance of this regulation; and to all relevant factors of general applicability.

In formulating this regulation, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations. This included two meetings with the Stock Millwork Industry Advisory Committee.

Every effort has been made to conform this regulation to business practices existing with respect to the production, sale and distribution of the items of stock millwork covered by this regulation. Insofar as any provisions of this regulation may operate to compel changes in those business practices, such provisions are found by the Director of Price Stabilization to be necessary to prevent circumvention or evasion of this regulation.

SECTION 1. *What this regulation does.* This regulation establishes dollars-and-cents ceiling prices for direct mill sales of stock millwork and stock millwork specialties. The General Ceiling Price Regulation is superseded by this regulation as to the transactions covered herein.

SEC. 2. *Products covered.* This regulation covers open windows and sash, lineal sash stock, glazed windows and sash, panel doors, open garage doors, frames and frame stock, wired window and sash screens, outside blinds and shutters, hollow core flush doors veneered in all woods except Douglas fir (pseudotsuga taxifolia), solid core flush veneered doors having softwood cores, screen doors, and miscellaneous stock millwork items, made in whole or in part from lumber cut from the following species of wood: Ponderosa pine (Pinus ponderosa), Idaho pine (Pinus monticola), Sugar pine (Pinus lambertina), or Northern or Northeastern pine (Pinus strobus). It also covers Douglas fir window and door frames. It does not cover stock hardwood veneer panel, sash or flush doors; nor does it cover special millwork manufactured according to architect's details. This regulation also covers stock millwork specialties made in whole or in part from Ponderosa pine (Pinus ponderosa), Idaho pine (Pinus monticola), Sugar pine (Pinus lambertina), or Northern or Northeastern pine (Pinus strobus). These latter stock millwork specialties include, but are not limited to, the following items that cannot be priced from Lists 8, 8A, 9A, or 10A:

Ornamental entrance frames.
Complete casement sash and window units (including frames).
Louvre frames.

SEC. 3. *Transactions covered.* This regulation covers all direct-mill sales of the products covered by this regulation. A direct-mill sale is a sale in which the shipment originates at a producer's mill, factory or factory warehouse, no matter who the seller is, and no matter whether he usually is known as a millwork manufacturer, wholesaler, distributor, or by any other name. A direct-mill shipment which is temporarily stored in a distribution warehouse but does not become a part of the stock of the warehouse for purposes of resale or redistribution does not, because of such storage, lose its character as a direct-mill sale.

SEC. 4. *Geographical applicability.* The provisions of this regulation shall apply within the forty-eight States of the United States and the District of Columbia.

SEC. 5. *Explanation of ceiling prices—*(a) *General explanation.* (1) The basic ceiling prices established by this regulation for all products covered by it, except solid core flush veneered doors having softwood core screen doors, and outside blinds and shutters, are for carload direct-mill sales f. o. b. mill, carload rate of freight allowed, to destinations within a certain geographical area referred to in this regulation as Zone 1. Basic ceiling prices for carload direct-mill sales of solid core flush veneered doors having softwood cores are stated f. o. b. mill, no freight allowed (see section 20), and for screen doors and outside blinds and shutters, are stated f. o. b. mill, carload rate of freight allowed to all destinations (see sections 16 and 21).

(2) If, during the period December 19, 1950 to January 25, 1951, inclusive, you offered to sell some or all of the products

covered by this regulation on an f. o. b. mill carload rate of freight allowed basis, you shall continue that practice for all items covered by this regulation, except as provided differently in section 7 of this regulation.

(3) Section 6 explains how to determine ceiling prices for carload direct-mill sales, f. o. b. mill, carload rate of freight allowed to destinations outside of Zone 1. Section 7 explains how to determine ceiling prices for carload direct-mill sales, f. o. b. mill, no freight allowed. Section 8 explains how to determine ceiling prices for less-than-carload direct-mill sales, f. o. b. mill, no freight allowed.

(b) *Explanation of terms.* (1) The term "f. o. b. mill, with carload rate of freight allowed", means that where shipment is by rail, the seller must allow the buyer all rail charges, computed at the carload rate on the actual weight of the shipment, which are paid by the buyer. Where the shipment is by truck the seller must allow the buyer all trucking charges paid by the buyer, not in excess of the applicable rail charges for the same shipment.

(2) The term "carload" applies where the total weight of the shipment of products covered by this regulation equals or exceeds the weights set out in applicable railroad tariffs for minimum carload quantities, even though shipped by truck.

(3) The geographic area referred to in this regulation as Zone 1 includes:

(i) All of Illinois and Wisconsin; the upper peninsula of Michigan; that portion of Minnesota south of a direct line from Saint Paul to the Southwestern corner of the State, but not including Saint Paul; all Iowa except Sioux City and Council Bluffs; that portion of Texas and Oklahoma south of a line drawn through Amarillo, but not including Amarillo, and across Oklahoma through McAlester, but not including McAlester, to the Arkansas State line; all of Arkansas, except Fort Smith; all of Missouri except St. Joseph, Kansas City, and Joplin; all of Louisiana; Memphis as the only point in Tennessee; East Chicago, Indiana Harbor, Whiting, Hammond and Gary as the only points in Indiana.

(ii) If you had established variations to the above area and had published price lists showing that these variations were in effect during the period of December 19, 1950 to January 25, 1951, inclusive, you may consider the area as published to be your Zone 1.

SEC. 6. *Ceiling prices for carload direct-mill sales, f. o. b. mill, carload rate of freight allowed to destinations outside of Zone 1.* (a) The ceiling prices for carload direct-mill sales of the products covered by this regulation, f. o. b. mill, carload rate of freight allowed to destinations outside of Zone 1, shall be the ceiling prices for carload direct-mill sales, f. o. b. mill, carload rate of freight allowed to destinations within Zone 1 adjusted by the differentials for delivery to those points outside of Zone 1 which you had in effect during the period December 19, 1950 to January 25, 1951, inclusive, plus freight increases on outbound freight authorized by the Interstate Commerce Commission in Ex Parte 175, effective May 2, 1952.

(b) If you did not quote prices for Zone 1 delivery, or had not established differentials for points outside Zone 1 during the period December 19, 1950 to January 25, 1951, inclusive, you shall use the applicable delivery differentials for deliveries outside Zone 1 appearing in the price schedule of your most closely competitive seller in effect during that period.

SEC. 7. *Ceiling prices for carload direct-mill sales, f. o. b. mill, no freight allowed.* (a) Notwithstanding any other provision in this regulation, if, during the period December 19, 1950 to January 25, 1951, inclusive, you offered to sell some or all of the products covered by this regulation in carload direct-mill sales, "f. o. b. mill, no freight allowed", you shall continue that practice as to the items offered for sale during that period, and you shall continue to use the same terms of sale which you had in effect during that period as to those items.

(b) To establish your ceiling prices for carload direct-mill sales f. o. b. mill, no freight allowed, for those items, you shall adjust your prices in effect during that period for carload direct-mill sales, f. o. b. mill, no freight allowed by adding thereto or subtracting therefrom the differentials you had in effect during such period between your prices for direct-mill sales, f. o. b. mill, no freight allowed, and your prices for direct-mill sales, f. o. b. mill carload rate of freight allowed for Zone 1 delivery.

(c) If you did not have differentials in effect during that period you shall use the appropriate differentials of your most closely competitive seller who published prices for Zone 1 delivery during that period, in determining the adjustment differentials to be applied to the ceiling prices in this regulation for delivery to destinations within Zone 1.

SEC. 8. *Ceiling prices for less-than-carload direct-mill sales, f. o. b. mill, no freight allowed.* The ceiling prices for less-than-carload direct-mill sales f. o. b. mill, no freight allowed, of the products covered by this regulation shall be calculated as follows:

(a) From the ceiling price for a carload direct-mill sale, f. o. b. mill carload rate of freight allowed to the destination involved, computed as provided in this regulation;

(b) Deduct freight charge computed on the actual weight of the shipment at the carload rate from the mill to the place of delivery; and

(c) Increase the result so obtained by 5 percent. The total is the ceiling price for a less-than-carload direct-mill sale f. o. b. mill, no freight allowed.

(d) If shipment is made by common carrier, you may add to the ceiling price as computed above the actual common carrier transportation charges incurred by you. If shipment is by truck owned or controlled by you, or by contract carrier, a transportation charge not in excess of the applicable common carrier charge, may be added.

NOTE: A less-than-carload sale takes place only when a less-than-carload freight rate applies at the manufacturer's point of origin of the shipments.

SEC. 9. *Discounts.* If you customarily granted a service discount or concession, or quoted jobber carload prices during the period December 19, 1950 to January 25, 1951, inclusive, on sales to the class of customers to which you granted service discounts, concessions or jobber carload prices, the otherwise applicable ceiling prices for carload sales of the products covered by this regulation are reduced by the appropriate application of not less than the following discounts:

(b) *Additions.* Your ceiling prices established in paragraph (a) of this section shall be adjusted by applying not more than the following additions for the following services, specifications and conditions of sale:

(1) For toxic and water repellent preservative, add $2.30 per dozen net.

(2) For crating and bundling, you may use the extras you had in effect during the period December 19, 1950 to January 25, 1951, inclusive.

(c) *Differentials.* If you sold screen doors during the period December 19, 1950 to January 25, 1951, inclusive, in thicknesses other than 1⅛", or in woods other than Ponderosa pine, with or without stain, paint, or varnish finish, or with wider layouts, aluminum wire cloth or any other type of woven mesh, or with grilles or other additions to the doors for their physical or visual improvement, you shall apply the differentials, including those for classes of purchasers, which you had in effect during that period, to the ceiling prices established in paragraphs (a) and (b) of this section.

SEC. 21. *Charges for special cars and bracing.*—(a) *Special cars.* If you ship millwork in a pool car, community car or stop-over car, no addition to the ceiling prices may be made, except that in the case of stop-over shipments by rail car, you may require the purchaser to pay stop-over charges made by the railroad.

(b) *Bracing.* Where bracing is required to permit partial unloading of a railroad car, a charge not to exceed $9.00 may be made by you for one brace and $6.50 for each additional brace.

SEC. 22. *Ceiling prices for items not specifically priced.* If you cannot ascertain a ceiling price for items subject to this regulation under any other provisions of this regulation, as, for example, should you wish to sell items with special workings, grades, specification, thicknesses, services, or other extras not specifically mentioned in this regulation, you must file an application signed by an authorized person, with the Office of Price Stabilization, Forest Products Division, Washington 25, D. C., by registered mail, return receipt requested for approval of a ceiling price.

(a) *Application.* Your application must contain the following:

(1) Your trade name and the address of your plant or plants.

(2) As complete a description as possible of the item for which the application is filed. This should include the species, grade, thickness, measurements of the item, together with a detailed description of the workings, specifications, services, or other extras involved.

(3) Your proposed ceiling price, f. o. b. mill or delivered price, together with a statement indicating why you believe it is in line with the level of ceiling prices established under this regulation.

(4) Your ceiling prices (f. o. b. mill no freight allowed; or f. o. b. mill carload rate of freight allowed, and destinations) immediately prior to the effective date of this regulation for your class of purchaser receiving your longest discount and for your class of purchaser receiving your shortest discount, both for the item in your application and for the most comparable item for which a specific ceiling price is established in this regulation. Explain the difference between the ceiling price requested and the ceiling price of the most comparable item either in terms of established price differentials, list or applicable base discounts, or percentage additions, or by furnishing a detailed analysis of the costs or cost comparisons of manufacturing the respective items.

(b) *Quotation of proposed prices.* After an application has been filed under this section, and before action by the Director of Price Stabilization, you may sell your item at a ceiling price no higher than the ceiling price proposed in your application: *Provided*, That you agree to and later, refund to the buyer, the amount, if any, by which your proposed ceiling price exceeds the ceiling price established by the Director of Price Stabilization.

(c) *Action by the Director of Price Stabilization.* (1) After the receipt of an application made under this section, the Director of Price Stabilization will approve, modify or disapprove your proposed ceiling price, will request additional information about it, or will establish a different ceiling price for the item that is the subject of your application.

(2) If the Director does not notify you to the contrary or request additional information from you within 20 days after the receipt of your application, or within 15 days after the receipt of requested additional information, your proposed ceiling price shall be deemed to have been approved, subject to non-retroactive disapproval or modification at a later time.

SEC. 23. *Excise, sales and similar taxes.* Any person may collect, in addition to the ceiling price established by this regulation, any excise, sales or similar tax imposed upon him by reason of his sale of a product covered by this regulation if he is not prohibited by law from making such collection and if he states separately from his selling price the amount of tax collected.

SEC. 24. *Transfer of business or stock in trade.* If the business, assets, or stock in trade of any stock millwork or stock millwork specialties business making products subject to this regulation are sold or otherwise transferred after the effective date of this regulation, and the transferee carries on the business, or continues to deal in the same products, in an establishment separate from any other stock millwork or stock millwork specialties establishment previously owned or operated by him, the ceiling prices of the transferee shall be the same as those to which his transferor would have been subject if no such transfer had taken place, and his obligation to keep records sufficient to verify such prices shall be the same. The transferor shall either preserve and make available, or turn over, to the transferee all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the provisions of this regulation.

SEC. 25. *Modification of proposed ceiling prices by Director of Price Stabilization.* The Director of Price Stabilization may at any time disapprove or reduce ceiling prices proposed under this regulation so as to bring them into line with the level of ceiling prices otherwise established by this regulation.

SEC. 26. *Invoices.* On all sales of items covered by this regulation, you must submit an invoice to the buyer which shows the same information required under items (1) to (8) inclusive of section 29 of this regulation.

SEC. 27. *Petitions for amendment.* If you wish to have this regulation amended, you may file a petition for amendment in accordance with the provisions of Price Procedural Regulation 1, revised.

SEC. 28. *Adjustable pricing.* Nothing in this regulation prohibits you from making a contract or offer to sell at (a) the ceiling price in effect at the time of delivery or (b) the lower of a fixed price or the ceiling price in effect at the time of delivery. You may not, however, deliver or agree to deliver at a price to be adjusted upward in accordance with any increase in ceiling prices after delivery.

SEC. 29. *Records.*—(a) *Current records.* Every person who sells and every person who in the regular course of trade or business, buys items covered by this regulation, shall make and keep for inspection by the Director of Price Stabilization, for a period or two years after each sale, accurate records or invoices of each sale or purchase. The records must show the following:

(1) Date of purchase or sale;

(2) Names and addresses of buyer and seller;

(3) The prices charged or paid, including all additions, extras, and discounts, together with the quantity involved;

(4) Whether the sale is on a carload or less than carload basis;

(5) Whether the sale is on an "f. o. b. mill, no freight allowed," or "f. o. b. mill carload rate of freight allowed" basis;

(6) A description of the item sold, including the species, grade, thickness, and measurements. Any working, specification, extra, or service which bears upon the price charged for your commodity must be separately set forth on the invoice, but the invoice need not show separately the charges for such items.

(7) The point of origin and destination of shipment;

(8) The applicable rail or truck rate; or the amount added for transportation, or the points applied to base discount or percentage addition for transportation.

The retention by a buyer of an invoice furnished by a seller which includes the factual information required to be made a matter of record by this paragraph, shall be considered as compliance with the provisions of this paragraph.

(b) *Existing records.* On and after the effective date of this regulation, for so long as the Defense Production Act

of 1950, as amended, shall remain in effect and for two years thereafter, you shall preserve all your existing records relating to the discounts, percentage additions, concessions and differentials referred to in sections 5 through 23; and you shall also continue to preserve, for the applicable periods indicated in section 16 of the General Ceiling Price Regulation, all records which you made and kept under the provisions of section 16 of the General Ceiling Price Regulation with respect to sales and purchases of the items covered by this regulation.

SEC. 30. *Interpretations.* If you wish an official interpretation of this regulation, you should write to the District Counsel of your local OPS District Office. Any action taken by you in reliance upon, and in conformity with a written official interpretation will constitute action in good faith pursuant to this regulation. Further information on obtaining official interpretations is contained in Price Procedural Regulation 1, Revised.

SEC. 31. *Prohibitions and violations.* (a) You shall not do any act prohibited or omit to do any act required by this regulation, nor shall you offer, solicit, attempt, or agree to do or omit to do any such acts. Specifically, but not in limitation of the above, you shall not, regardless of any contract or other obligation, sell and no person in the regular course of trade or business shall buy from you at a price higher than the ceiling prices established by this regulation, and you and buyers from you shall keep, make, and preserve true and accurate records and reports required by this regulation. Prices lower than the ceiling prices may be charged, paid, or offered.

(b) If you violate any provisions of this regulation, you are subject to criminal penalties, enforcement actions, and actions for damages.

(c) If any person subject to this regulation fails to prepare or keep any record or file any report required by this regulation in connection with the establishment of the ceiling price, or if any person subject to this regulation fails to establish a ceiling price or apply to the Office of Price Stabilization for the establishment of a ceiling price, if he is required to do so, the Director of Price Stabilization may issue an order fixing his ceiling prices. Any ceiling price fixed in this manner will be in line with ceiling prices generally established by this regulation. The order fixing the ceiling price may apply to all deliveries or transfers completed prior to the date of issuance of the order. The issuance of such an order will not relieve the seller of his obligation to comply with the requirements of this regulation or of the various penalties for failure to do so.

SEC. 32. *Evasions.* Any means or devices which result in obtaining directly or indirectly a higher price than is permitted by this regulation, or in concealing or falsely representing information in records which this regulation requires to be kept, is a violation of this regulation. This prohibition includes, but is not limited to, means or devices making use of commissions, services, cross sales, transportation arrangements, premiums, discounts, special privileges, up-grading, tie-in agreements, and trade understandings, as well as the omission from records of true data and the inclusion in records of false data.

SEC. 33. *Definitions.* As used in this regulation the terms below have the following meanings:

(a) *Carload.* This term is defined in section 5.

(b) *Direct-mill sale.* This term is defined in section 3.

(c) *Director of Price Stabilization.* This term extends to any official (including officials of regional or local offices) to whom the Director of Price Stabilization delegates a function, power or authority referred to in this regulation.

(d) *F. o. b. mill, no freight allowed.* This term is defined in section 7.

(e) *F. o. b. mill, carload rate of freight allowed.* This term is defined in section 5.

(f) *Most closely competitive seller.* This term means the seller of products covered by this regulation with whom you are in most direct competition even though he may perform a different function with respect to the product he is selling.

(g) *Most comparable item.* This term means the item which differs the least from the item to be priced as determined by the use of the following tests:

(1) Identity of item (similarity of use);

(2) Design and size;

(3) Type of material;

(4) Type of purchaser.

(h) *Person.* This term includes any individual, corporation, partnership, association, or any other organized group of persons, or the legal successor or representative of the foregoing, and the United States and any other Government or their political subdivisions or agencies.

(i) *Point.* As used in this regulation, one "point" is one percent of the applicable base price list.

(j) *Purchaser of the same class.* The meaning of this term is determined by reference to your own practice of setting different prices for sales to different purchasers or groups of purchasers. The practice may, but need not be, based on the characteristic or distributive level of the buyer, for example, wholesalers, jobbers, dealers, contractors, municipalities, or government agencies. It may, but need not, be based on the location of the purchaser or the quantity of the item purchased by him. It may, but need not, be based on differing terms or conditions of sale or delivery. If you have followed the practice of giving an individual customer a price differing from that charged others, that customer is a purchaser of a separate class.

(k) *Records.* This term includes books of account, sales lists, sales slips, orders, vouchers, contracts, receipts, invoices, bills of lading, and other papers and documents.

(l) *Sell.* This term includes sell, supply, dispose, barter, trade, exchange, lease, transfer, deliver and contracts and offers to do any of the foregoing. The terms "buy" and "purchase" shall be construed in corollary terms.

(m) *You.* The pronoun "you" indicates any person who sells products subject to this regulation. The term "your" shall be construed accordingly.

Effective date. This regulation shall become effective December 9, 1952.

NOTE: The record keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Director of Price Stabilization.

[General Ceiling Price Regulation, Amdt. 2 to Supplementary Regulation 12]

GCPR, SR 12—SEASONAL WATER CARRIERS ON GREAT LAKES AND OTHER INLAND WATER CARRIERS

NEW CEILING RATES FOR INTERIM PERIOD FOR CONTRACT WATER CARRIERS OF IRON ORE ON THE GREAT LAKES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 and Economic Stabilization Agency General Order No. 2, this amendment to Supplementary Regulation 12 to General Ceiling Price Regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

Supplementary Regulation 12 to the General Ceiling Price Regulation was issued specifically to provide a method of establishing ceiling rates for contract water carriers operating on the Great Lakes who could not, by virtue of their peculiar operating season, establish ceiling rates under the General Ceiling Price Regulation. This amendment to Supplementary Regulation 12 establishes new ceiling rates for an interim period for the transportation of iron ore by contract water carriers operating on the Great Lakes. This is an operation which is of great importance to the defense effort.

The vast majority of the ceiling rates which have been established under Supplementary Regulation 12 were based on contracts entered into during the fall and early winter of 1949 and no increases in these ceiling rates have been approved by the Director of Price Stabilization. The carriers that are engaged in the transportation of iron ore on the Great Lakes are subject to varying seasonal operational factors, as well as other intermittent and varying hazards which seriously affect their operations. During 1952, the contract water carriers of iron ore on the Great Lakes have been subject to unusual cost increases, including the maintenance of a full labor force during an extended period in which they were unable to receive shipments of iron ore, which have resulted in a severe impairment of normal earnings and this condition will be aggravated during the latter part of 1952. This amendment is designed to provide relief for these carriers during the period from July 26, 1952, the date on which shipping operations were resumed, through December 31, 1952. It is the opinion of the Director of Price Stabilization that the 10 cents per ton ceiling price increase permitted by this amendment will offset, to some extent, the reverses sustained by these carriers during 1952 and will enable them to continue this essential service.

In the formulation of this amendment there has been consultation with industry representatives, including trade association representatives to the extent practicable, and consideration has been given to their recommendations. In the judgment of the Director of Price Stabilization the provisions of this amendment are generally fair and equitable and will effectuate the purposes of the Defense Production Act of 1950, as amended.

AMENDATORY PROVISIONS

A new section 5 is added to read as follows:

SEC. 5. *Adjustments for carriers of iron ore.* (a) This section provides an adjustment for an interim period for all contract water carriers transporting iron ore on the Great Lakes.

(b) The ceiling rates for the transportation of iron ore by contract carriers on the Great Lakes shall be the ceiling rates in effect on December 1, 1952, plus ten (10) cents per ton.

(c) The adjusted ceiling rates established by this section shall be effective as to all transactions from July 26, 1952, to December 31, 1952, inclusive. Thereafter, the ceiling rates for the service described shall be the ceiling rates in effect on December 1, 1952.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective December 3, 1952.

Acting Director of Price Stabilization.

Chapter I—Interstate Commerce Commission

PART 1—GENERAL RULES OF PRACTICE

MISCELLANEOUS AMENDMENTS

At a general session of the Interstate Commerce Commission, held at its of-

fice in Washington, D. C., on the 28th day of November A. D. 1952.

There being under consideration Rule 5 (j) and (k), Rule 45 (b), Rule 46 (b), and Rule 53 (b) of the general rules of practice (§§ 1.5 (j), (k), 1.45 (b), 1.46 (b)), and 1.53 (b):

It is ordered, that the general rules of practice be amended as follows:

1. Delete the words "formal-complaint" from the phrase "formal-complaint proceedings" wherever such words occur in paragraphs (j) and (k) of § 1.5 *Definitions*. As amended these paragraphs will read:

§ 1.5 *Definitions.* • • •

(j) The term "shortened procedure" means the procedure specified in § 1.44 and rules therein mentioned. Such rules provide, upon written consent of the parties, and upon the Commission's initiative or its approval of a request therefor made prior to hearing by any party, for the filing and serving of pleadings in proceedings with a view to avoiding an oral hearing.

(k) The term "modified procedure" means the procedure specified in §§ 1.45 to 1.54, inclusive, which rules provide for the filing and serving of pleadings in proceedings with a view to limiting the matters upon which subsequent oral evidence, if any, will be introduced.

2. Add the following sentence at the end of paragraph (b) of § 1.45 *Modified procedure; how initiated:* "As used in §§ 1.49, 1.51, and 1.53 (a), the term 'complainant' shall comprehend the term 'respondent' or 'applicant,' and the term 'defendant' shall include the term 'protestant,' according as procedure under §§ 1.45 to 1.54, inclusive, may be ordered in a particular proceeding."

As amended this paragraph will read:

§ 1.45 *Modified procedure; how initiated.* • • •

(b) *Order directing modified procedure.* An order directing modified procedure will list the names and addresses of the persons who at that time are parties to the proceeding, and direct that they comply with the modified-procedure rules. As used in §§ 1.49, 1.51, and 1.53 (a) the term "complainant" shall comprehend the term "respondent" or "applicant," and the term "defendant" shall include the term "protestant," according as procedure under §§ 1.45 to 1.54, inclusive, may be ordered in a particular proceeding.

3. Delete the word "complaint" wherever it occurs in paragraph (b) of § 1.46 *Modified procedure; effect of order,* and paragraph (b) of § 1.53 *Modified procedure; hearings,* and substitute in lieu thereof the word "proceeding." As amended, these paragraphs will read:

§ 1.46 *Modified procedure; effect of order.* • • •

NORTHWEST NATURAL GAS CO. ET AL.

ORDER DENYING MOTIONS, ALLOWING AN AMENDMENT, AND RECONVENING HEARING

NOVEMBER 25, 1952.

In the matters of Northwest Natural Gas Company, Docket Nos. G-996, G-1916, G-1917; Pacific Northwest Pipe Line Corporation, Docket Nos. G-1429, G-1908, G-1909; Westcoast Transmission Company, Inc., Docket Nos. G-1526, G-1919, G-1920; Glacier Gas Company, Docket Nos. G-1816, G-1817, G-1818; Northern Natural Gas Company, Docket Nos. G-1918, G-1926, G-1927; Trans-Northwest Gas, Inc., Docket Nos. G-1923, G-1924.

On July 7, 1952, the Presiding Examiner recessed the hearing in the above-entitled consolidated proceedings, subject to further order of the Commission, and submitted to the Commission for disposition the following motions:

(a) Motion made orally by staff counsel on July 1, 1952, to deny all of the above applications largely on the grounds that each of the applicants had been given an opportunity in accordance with the Commission's procedural order issued May 28, 1952, to present evidence as to its proposed supply of natural gas and that none of the applicants had presented evidence disclosing a firm supply of natural gas. Counsel for intervener, Trans-Canada Pipe Lines Limited, joined in this motion.

(b) Motions made by counsel for Trans-Canada Pipe Lines Limited on June 23, 1952, to strike all the testimony of Northwest Natural Gas Company and to dismiss its applications; on June 30, 1952, to dismiss the applications of Northern Natural Gas Company; on July 2, 1952, to dismiss the applications of Pacific Northwest Pipe Line Corporation, Westcoast Transmission Company, Inc., Glacier Gas Company, and Trans-Northwest Gas, Inc. These motions were largely grounded on the failure of applicants to present evidence disclosing a firm supply of natural gas.

(c) Motion made by counsel for Glacier Gas Company on July 7, 1952, for severance of its applications from the hearing in the above-consolidated proceedings on the ground that it was not able to go forward with evidence in accordance with the procedural order.

Subsequently, and after the recess of the hearing, Pacific Northwest Pipe Line Corporation, on August 27, 1952, submitted and requested permission to file a "Second Amended Application" in Docket No. G-1429, in lieu of its prior applications in said Docket No. G-1429, in Docket No. G-1908 for authorization to import and to export natural gas, and in Docket No. G-1908 for a presidential permit. Notice thereof was duly given by publication in the FEDERAL REGISTER on September 13, 1952 (17 F. R. 8279). On September 5, 1952, interveners, National Coal Association, United Mine Workers of America, Fuels Research Council, Inc., Anthracite Institute, Western States Fuel Policy Council, Montana Coal Operators Association, Utah Coal Operators Association, Coal Producers Association of Washington, Southern Wyoming Coal Operators Association, Sheridan-Wyoming Coal Company, Inc., and The Chesapeake & Ohio Railway Company filed a joint motion in opposition to permitting the filing of said Second Amended Application by Pacific Northwest Pipe Line Corporation.

In Docket Nos. G-1526, G-1919, and G-1920, Westcoast Transmission Company, Inc., filed on October 14, 1952, a "First Supplement to Applications" consisting of a judgment and order under The Pipelines Act of Canada, granting leave to Westcoast Transmission Company, Limited, the corporate parent and proposed supplier of Westcoast Transmission Company, Inc., to construct a pipeline consisting of one or more lines of pipe for the transportation of natural gas from a point in the vicinity of the Pouce Coupe area in the Province of Alberta, through the Towns of Dawson Creek and Prince George in the Province of British Columbia, to a point in the vicinity of the City of Vancouver in the Province of British Columbia, including a branch line from a point in the vicinity of the Town of Abbotsford to a point on the international boundary in the vicinity of the Town of Huntingdon. Also, Westcoast Transmission Company, Inc., filed on October 27, 1952, a "Second Supplement to Applications", consisting of two licenses issued to Westcoast Transmission Company, Limited, to construct a specified pipeline for the exportation of surplus natural gas and to export surplus natural gas, both by the Deputy Minister of Trade and Commerce of Canada.

The Commission finds:

(1) Because of the aforementioned events and of time which has elapsed since the hearing in these proceedings was recessed and the further time which will lapse before such hearing could in any event be appropriately reconvened, it is in the public interest and appropriate in carrying out the provisions of the Natural Gas Act, that the above motions be denied and that the hearings be reconvened as hereinafter ordered.

(2) In the specific circumstances of this case, it is desirable that permission be granted the Pacific Northwest Pipe Line Corporation to file its "Second Amended Application" in Docket No. G-1429, and its applications filed in Docket Nos. G-1908 and G-1909 should accordingly be dismissed.

(3) In the interest of orderly progress and expedition in the reconvened hearing, each applicant in these proceedings should be required as hereinafter ordered to submit to the Commission and furnish to each party to the proceedings on the applications filed by it, one copy of all of the information and data specified in § 157.14 of the Commission's regulations under the Natural Gas Act (see Order No. 163, Docket No. R-120, issued August 11, 1952), and also one appropriately indexed copy of each exhibit which said applicant will propose to introduce at the reconvened hearing, except that said applicant need not submit or furnish copies of such information, data, and exhibits as it has heretofore introduced in these proceedings and on which it proposes to rely hereafter without amendment or supplementation in any manner or form.

(4) Except as hereinafter ordered, the procedural order issued May 28, 1952, should be followed.

The Commission orders:

(A) The aforesaid motions made orally by staff counsel on July 1, 1952, by counsel for Trans-Canada Pipe Line Limited on June 23, June 30, and July 2, 1952, and by counsel for Glacier Gas Company on July 7, 1952, be and the same hereby are all denied.

(B) Permission, pursuant to § 1.11 of the Commission's rules of practice and procedure, be and the same hereby is granted to Pacific Northwest Pipe Line Corporation to file its "Second Amended Application" submitted on August 27, 1952, in Docket No. G-1429.

(C) The applications filed by Pacific Northwest Pipe Line Corporation in Docket Nos. G-1908 and G-1909 be and the same hereby are both dismissed, and the proceedings in said dockets be and the same hereby are terminated.

(D) The public hearing herein, heretofore recessed on July 7, 1952, be and the same hereby is reconvened to commence on February 16, 1953, at 10:00 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, Hurley-Wright Building, 1800 Pennsylvania Avenue NW., Washington, D. C.

(E) At said reconvened hearing, each applicant in these consolidated proceedings be and the same is hereby granted leave to submit, in the sequence specified in the procedural order herein, issued May 28, 1952, such further testimony, information, and data as it wishes with respect to the matters specified in paragraphs (A) (i) and (A) (ii) of the aforementioned order issued May 28, 1952; thereafter, the procedure specified in said order shall be followed except for such deviations as the Presiding Examiner shall determine to be required by orderly progress of these proceedings and the public interest.

(F) Each applicant shall submit to the Commission and shall furnish to each party to the proceedings on the applications filed by it the copies specified in Finding (3) hereof not later than January 16, 1953: *Provided, however,* That the Commission hereby reserves the right hereafter to request such further information and data as circumstances may require as to any one or more of the applicants herein.

Date of issuance: December 1, 1952.

FEDERAL REGISTER

VOLUME 17 NUMBER 238

Washington, Saturday, December 6, 1952

TITLE 7—AGRICULTURE

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

[Lemon Reg. 464]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.571 *Lemon Regulation 464*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 14 F. R. 3612), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified in this section was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on December 3, 1952; such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time of this section.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., December 7, 1952, and ending at 12:01 a. m., P. s. t., December 14, 1952, is hereby fixed as follows:

(i) District 1: 30 carloads;

(ii) District 2: 207 carloads;

(iii) District 3: 13 carloads.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached to Lemon Regulation 463 (17 F. R. 10804) and made a part of this section by this reference.

(3) As used in this section, "handled," "handler," "carloads," "prorate base," "District 1," "District 2" and "District 3," shall have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 4th day of December 1952.

AUTHORITY: §§ 995.1 to 995.111 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c.

§ 995.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and all of said previous findings and determinations are hereby ratified and affirmed except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Lima, Ohio, on June 23 and 24, 1952, upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Lima, Ohio, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as hereby amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient qauntity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as hereby amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order, effective not later than January 1, 1952. Any delay beyond that date in making this order amending the order effective will tend to disrupt the orderly marketing of milk in the Lima, Ohio, marketing area. The changes effected by this order amending the order do not require persons affected to make substantial or extensive preparation prior to the effective date. Proposed amendments which would result in changes similar to those effected by this order amending the order were considered at a public hearing on June 23–24, 1952; a recommended decision in this proceeding, to which interested parties were given an opportunity to file written exceptions, was issued on October 17, 1952; and a decision in this proceeding was issued on November 25, 1952. Under these circumstances persons affected by this order amending the order have been afforded a reasonable time within which to prepare for its effective date. Therefore, good cause exists, pursuant to section 4 (c) of the Administrative Procedure Act (5 U. S. C. 1000) for making this order amending the order effective.

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order, amending the order which is marketed within the Lima, Ohio, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order is approved or favored by at least two-thirds of the producers who, during the determined representative period (September 1952), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Lima, Ohio, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as hereby amended, as set forth below:

The market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 995.40 *Basis of classification.* All skim milk and butterfat (in any form) received at a fluid milk plant as (a) producer milk, (b) a transfer from another fluid milk plant, and (c) other source milk, shall be classified in the classes set forth in § 995.41.

§ 995.41 *Classes of utilization.* Subject to the conditions set forth in §§ 995.42, 995.43, 995.44, and 995.45, the classes of utilization of milk shall be:

(a) Class I milk shall be all skim milk and butterfat disposed of (1) in fluid form (other than as livestock feed) as milk, skim milk, buttermilk, flavored milk, flavored milk drinks, cultured milk products, concentrated milk, and sweet or sour cream, eggnog and any cream product in fluid form having more than 8 percent butterfat; and (2) as all skim milk and butterfat not accounted for as Class II milk.

(b) Class II milk shall be all skim milk and butterfat accounted for as (1) used to produce a product other than those specified in paragraph (a) of this section, (2) having been dumped or disposed of for livestock feeding, (3) actual plant shrinkage of skim milk and butterfat received in producer milk but not to exceed 2 percent of such receipts of skim milk and butterfat, respectively, and (4) actual plant shrinkage of skim milk and butterfat in other source milk received: *Provided,* That if producer milk is utilized as milk, skim milk, or cream in conjunction with other source milk, the shrinkage allocated to each shall be computed pro rata according to the proportions of the volume of skim milk and butterfat, respectively, received from each such source to their total.

§ 995.42 *Interplant transfers.* Skim milk and butterfat disposed of in the form of milk, cream, or skim milk by a handler to any milk processing or milk manufacturing plant, including any other fluid milk plant, shall be Class I milk, unless (a) Class II use is indicated in writing to the market administrator by both the transferring handler and the receiver on or before the 7th day after the end of the month within which such disposition was made, and (b) the receiver maintains books and records showing the utilization of all skim milk and butterfat at his plant which are made available if requested by the market administrator for the verification of such reported utilization: *Provided,* That, in no event shall the amount so reported be greater than the total amount so used by the receiver.

§ 995.43 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be classified as Class I milk unless the handler who first received such skim milk or butterfat proves to the market administrator that such skim milk or butterfat should be classified otherwise.

(b) Any skim milk or butterfat classified in one class shall be reclassified if used or reused by such handler or by another handler in another class.

§ 995.44 *Computation of skim milk and butterfat in each class.* For each month the market administrator shall correct for mathematical and for obvious errors the report submitted by each handler and compute the total pounds of skim milk and butterfat, respectively, in Class I milk and Class II milk for such handler.

§ 995.45 *Allocation of butterfat classified.* The market administrator shall determine the classification of butterfat in producer milk as follows:

(a) Subtract from the total pounds of butterfat in Class II milk the total pounds of butterfat shrinkage pursuant to § 995.41 (b) (3) and (4).

(b) Subtract from the pounds of butterfat remaining in each class the pounds of butterfat received from other handlers and used in such class.

(c) Subtract from the pounds of butterfat remaining in each class, in sequence beginning with Class II milk, the pounds of butterfat in other source milk other than butterfat shrinkage in other source milk subtracted pursuant to paragraph (a) of this section.

(d) Add to the pounds of butterfat remaining in Class II milk the pounds of butterfat shrinkage in producer milk subtracted pursuant to paragraph (a) of this section; and if the remaining pounds of butterfat in all classes exceed the pounds of butterfat received in producer milk, subtract such excess from the remaining pounds of butterfat in each class, in sequence beginning with Class II milk. The pounds of butterfat remaining shall be the pounds in each class allocated to producer milk.

§ 995.46 *Allocation of skim milk classified.* Skim milk shall be allocated to each class in accordance with the same procedure as outlined for butterfat in § 995.45.

MINIMUM PRICES

§ 995.50 *Basic formula price.* The basic formula price per hundredweight of milk to be used in computing the minimum price for Class I milk for the month as provided in this section shall be the highest of the prices determined pursuant to paragraphs (a) and (b), of this section:

(a) The market administrator shall compute (to the nearest tenth of a cent) an average of the basic (or field) prices per hundredweight reported to have been paid, or to be paid, for milk of 3.5 percent butterfat content received from farmers during such month at the following plants or places for which prices are reported to the market administrator by the U. S. D. A. or by the companies listed below:

Pet Milk Co., Hudson, Mich.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(b) The price per hundredweight computed by the market administrator by adding together the plus amounts calculated pursuant to subparagraphs (1) and (2) of this paragraph:

(1) From the simple average of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the U. S. D. A. during the month, subtract 3 cents, add 20 percent of the resulting amount, and then multiply by 3.5; and

(2) From the simple average of the weighted averages of carlot prices per pound of spray and roller process nonfat dry milk solids in barrels for human consumption f. o. b. manufacturing plants in the Chicago area as published for each month by the U. S. D. A., deduct 5.5 cents, and multiply the result by 8.2.

§ 995.51 *Class I milk prices.* The minimum prices per hundredweight to be paid by each handler for skim milk and butterfat in producer milk received at his fluid milk plant during the month, which is classified as Class I milk, shall be determined by the market administrator as follows:

(a) To the basic formula price add the following amounts for the months indicated:

April, May, June	$0.85
February, March, July	1.15
All others	1.45

(b) Add together the amounts determined in § 995.50 (c) (1) and (2), di-

vide the sum into the amount determined in § 995.50 (c) (1) and multiply by 100.

(c) Multiply the price determined in paragraph (a) of this section by the percent determined in paragraph (b) of this section and then divide by 0.035. The resulting amount shall be the Class I butterfat price per hundredweight.

(d) From the price determined in paragraph (a) of this section subtract the amount computed in paragraph (c) of this section times 0.035, and divide the remainder by 0.965. The resulting amount shall be the Class I skim milk price per hundredweight.

§ 995.52 *Class II milk prices.* The minimum prices per hundredweight to be paid by each handler for skim milk and butterfat in producer milk received at his fluid milk plant during the month, which is classified as Class II milk, shall be determined by the market administrator as follows:

(a) The market administrator shall compute (to the nearest tenth of a cent) an average of the basic (or field) prices per hundredweight reported to have been paid, or to be paid, for milk of 3.5 percent butterfat content received from farmers during such month at the following plants or places for which prices have been reported to the market administrator by the U. S. D. A. or by the companies listed below:

Company and Location

Defiance Milk Products Co., Defiance, Ohio.
Pet Milk Co., Coldwater, Ohio.
Nestles Milk Products Co., (uninspected milk price), Marysville, Ohio.
Fisher Dairy and Cheese Co., Wapakoneta, Ohio.
Swift and Co., Lima, Ohio.

(b) Multiply the price computed in paragraph (a) of this section by the percentage computed in § 995.51 (b), and then divide by .035. The resulting amount shall be Class II butterfat price per hundredweight.

(c) Subtract from the price computed in paragraph (a) of this section the amount computed in paragraph (b) of this section times 0.035 and divide the remainder by 0.965. The resulting amount shall be the Class II skim milk price per hundredweight.

DETERMINATION OF UNIFORM PRICE

§ 995.60 *Value of producer milk.* Except as provided in § 995.80 the value of producer milk received by each handler during the month shall be the sum of money computed by the market administrator by multiplying the hundredweight of skim milk and butterfat in each class by the applicable class prices and adding together the resulting amounts, and adding or subtracting, as the case may be, the amount necessary to correct errors in classification for previous months as disclosed by audit of the market administrator: *Provided*, That, if a handler after the substraction of other source milk and receipts from other handlers, has disposed of skim milk or butterfat which on the basis of his reports for the month, pursuant to § 995.30, has been credited to his producers as having been received from them, there shall be added to the value of his producer milk a further amount computed by multiplying the pounds in each class as subtracted pursuant to § 995.45 (d) and § 995.46 by the applicable class price.

§ 995.61 *Computation of uniform price.* For each month the market administrator shall compute a uniform price per hundredweight of producer milk by:

(a) Combining into one total the values computed pursuant to §§ 995.60 and 995.80 for all handlers who reported pursuant to § 995.30 for such month, except those in default in payments required pursuant to §§ 995.73 and 995.80 for the preceding month;

(b) Subtracting, if the weighted average butterfat test of all producer milk represented by the amounts included under paragraph (a) of this section is greater than 3.5 percent or adding, if the weighted average butterfat test of such milk is less than 3.5 percent, an amount computed by multiplying the total pounds of butterfat represented by the difference of such weighted average butterfat test from 3.5 percent, by the butterfat differential computed pursuant to § 995.75 multiplied by 10;

(c) Adding or subtracting, as the case may be, the amount necessary to correct errors in classification for previous months as disclosed by audit of the market administrator;

(d) Adding an amount representing not less than one-half of the unobligated balance in the producer-settlement fund;

(e) Dividing the result by the total hundredweight of producer milk represented by the amounts computed pursuant to § 995.60; and

(f) Subtracting not less than 4 cents nor more than 5 cents.

§ 995.62 *Notification.* On or before the 12th day after the end of each month, the market administrator shall mail to each handler, at his last known address, a statement showing for such month:

(a) The amount and value of his producer milk in each class;

(b) The uniform price computed pursuant to § 995.61, and the butterfat differential computed pursuant to § 995.75;

(c) The amount to be paid by such handler to the producer-settlement fund pursuant to § 995.73 or § 995.80, or the amount due such handler from the producer-settlement fund pursuant to § 995.74, as the case may be; and

(d) The amounts to be paid by such handler pursuant to §§ 995.76 and 995.77.

PAYMENTS

§ 995.70 *Time and method of final payment.* On or before the 18th day after the end of each month, each handler shall pay to each producer, or to a cooperative association with respect to milk which was caused to be delivered to him by such association either directly or from producers who have authorized such association to collect payment for them, for milk received from such producer or so delivered by such cooperative association, respectively, during such month not less than the uniform price adjusted by the butterfat differential pursuant to § 995.75, less the amount of payment made pursuant to § 995.71.

§ 995.71 *Partial payment.* On or before the last day of each month, each handler shall pay to each producer, or to a cooperative association authorized to collect payment, not less than the uniform price for the preceding month for milk received from such producer or caused to be delivered to such handler by such cooperative association during the first 15 days of such month: *Provided*, That in the event any producer discontinues shipping to such handler during any month, such partial payments shall not be made and full payment for all milk received from such producer during such month shall be made on the 18th day after the end of such month pursuant to § 995.70.

§ 995.72 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 995.73 and 995.80, and out of which he shall make all payments to handlers pursuant to § 995.74.

§ 995.73 *Equalization payments to the producer-settlement fund.* On or before the 14th day after the end of each month each handler shall make full payment to the market administrator of any amount by which the total value of his milk for such month is greater than the sum required to be paid by such handler pursuant to §995.70.

§ 995.74 *Equalization payments out of the producer-settlement fund.* On or before the 16th day after the end of each month, the market administrator shall pay to each handler any amount by which the sum required to be paid by such handler pursuant to § 995.70 is greater than the total value of the milk of such handler for such month, less any unpaid obligations of the handler: *Provided*, That if the balance in the producer-settlement fund is insufficient to make all payments to such handlers pursuant to this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds become available.

§ 995.75 *Producer butterfat differential.* In making payments pursuant to § 995.70 the uniform price shall be adjusted for each one-tenth of one percent of butterfat content in the milk of each producer above or below 3.5 percent, as the case may be, by a butterfat differential (computed to the nearest tenth of a cent) computed as follows: Multiply by 1.3 the average daily wholesale price per pound of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the U. S. D. A. during the month, and divide the result by 10.

§ 995.76 *Expense of administration.* As his pro rata share of expense incurred pursuant to § 995.22 (d), each handler shall pay the market administrator, on or before the 14th day after the end of each month, 3 cents per hundredweight of milk, or such amount not to exceed 3 cents as the Secretary may from time to time prescribe, with respect to receipts during such month, of (a) producer milk (including any milk of such handler's own production), and (b) other source milk classified as Class I milk: *Provided*, That a handler who receives only other source milk shall make such payments with respect to all skim milk and butterfat disposed of within the marketing area during such month as any item included in Class I milk.

§ 995.77 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler, in making payments to producers pursuant to § 995.70, with respect to all milk received each month from each producer (except milk of such handler's own production) at a plant not operated by a cooperative association of which such producer is a member, shall deduct 6 cents per hundredweight of milk, or such amount not to exceed 6 cents as the Secretary may from time to time prescribe, and on or before the 18th day after the end of such month shall pay such deductions to the market administrator. Such moneys shall be expended by the market administrator to verify weights, samples, and tests of milk of such producers and to provide such producers with market information, such services to be performed by the market administrator, or by an agent engaged by and responsible to him.

(b) In the case of producers whose milk is received at a plant not operated by a cooperative association of which such producers are members, and for whom a cooperative association is actually performing the services described in paragraph (a) of this section, as determined by the market administrator, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section, such deductions from payments required pursuant to § 995.70 as may be authorized by the membership agreement or contract between such cooperative association and such producers, and shall pay such deductions on or before the 18th day after the end of such month to the cooperative association rendering such services of which such producers are members.

§ 995.78 *Errors in payments.* Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses errors resulting in moneys due (a) the market administrator from such handler, or such handler from the market administrator, pursuant to §§ 995.73, 995.74, 995.76, 995.77, or 995.80, or (b) any producer or cooperative association from such handler pursuant to § 995.70 the market administrator shall promptly notify such handler of any such amount due; and payment thereof shall be made on or before the next date for making payment set forth in the provision under which such error occurred, following the 5th day after such notice.

APPLICATION OF PROVISIONS

§ 995.80 *Milk subject to special payments.* (a) Milk received by a handler the handling of which is subject to the pricing and payment provisions of any other Federal milk marketing order issued pursuant to the act shall not be subject to the pricing and payment provisions of this section, except that for any month for which the Class I milk price determined pursuant to § 995.51 (a) exceeds the corresponding minimum Class I milk price (adjusted by any applicable location differential) provided by such other order, the handler shall pay into the producer-settlement fund on or before the 14th day after the end of each month, with respect to all skim milk and butterfat disposed of within the marketing area during such month as any item included in Class I milk, an amount computed by the market administrator as follows: From the total value of such skim milk and butterfat at the prices determined pursuant to § 995.51 (c) and (d) subtract the total value of such skim milk and butterfat at prices computed by applying the procedures prescribed in § 995.51 (b), (c), and (d) to the highest Class I milk price provided by such other order.

(b) Any handler who receives only other source milk, which milk is not subject to the pricing and payment provisions of any other Federal milk marketing order issued pursuant to the act, shall pay into the producer-settlement fund on or before the 14th day after the end of each month a sum computed by the market administrator by multiplying the hundredweight of all skim milk and butterfat disposed of by such handler within the marketing area as any item included in Class I milk during such month by the respective differences between the prices for skim milk and butterfat in Class I milk and Class II milk for such month.

§ 995.81 *Milk caused to be delivered by cooperative associations.* Milk referred to as received from producers by a handler shall include milk of producers caused to be delivered directly from the farm to the fluid milk plant of such handler by a cooperative association which is authorized to collect payment for such milk.

§ 995.82 *Milk diverted.* (a) Producer milk diverted by an operator of a fluid milk plant from such plant to a plant not a fluid milk plant shall be deemed to have been received by the fluid milk plant from which such milk was diverted.

(b) Producer milk diverted by a cooperative association from a fluid milk plant to a plant not a fluid milk plant shall be deemed to have been received by such association.

§ 995.83 *Producer-handlers.* Sections 995.40 through 995.46, 995.50 through 995.52, 995.60 through 995.62 and 995.70 through 995.78 shall not apply to the milk of a producer-handler.

TERMINATION OF OBLIGATIONS

§ 995.90 *Termination of obligations.* (a) The obligation of any handler to pay money required to be paid under the terms of this subpart shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the month during which the market administrator receives the handler's report of utilization of the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to a cooperative association, the name of such producers or association, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this subpart, to make available to the market administrator or his representatives all books or records required by this subpart to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the month following the month during which such books and records pertaining to such obligation are made available to the market administrator or his representative.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this order to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this subpart shall terminate two years after the end of the month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 995.100 *Effective time.* The provisions of this subpart, or of any amendment to this subpart, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 995.101 *When suspended or terminated.* Whenever the Secretary finds this subpart or any provision of this subpart obstructs or does not tend to effectuate the declared policy of the act, he shall terminate or suspend the operation of this subpart, or any such provision of this subpart.

§ 995.102 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this subpart, there are any obligations thereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 995.103 *Liquidation.* Upon the suspension or the provisions of this subpart, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated all assets, books, and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 995.110 *Agents.* The Secretary may by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this subpart.

§ 995.111 *Separability of provisions.* If any provision of this subpart, or its application to any person or circumstances, is held invalid the application of such provisions, and of the remaining provisions of this subpart, to other persons or circumstances shall not be effected thereby.

Issued at Washington, D. C., this 3d day of December 1952, to be effective on and after the 1st day of January 1953.

[SEAL] K. T. HUTCHINSON,
Acting Secretary of Agriculture.

(B) There shall then be ascertained an amount equal to 25 per centum of such excess, except that in the case of any taxable year beginning after March 31, 1951, and before April 1, 1954, there shall be ascertained an amount equal to 26 per centum of such excess.

• • • • • •

(2) *Amendment of section 117 (b).* Section 117 (b) (relating to treatment of long-term capital gains and losses) is hereby amended to read as follows:

(b) *Deduction from gross income.* In the case of a taxpayer other than a corporation, if for any taxable year the net long-term capital gain exceeds the net short-term capital loss, 50 per centum of the amount of such excess shall be a deduction from gross income. In the case of an estate or trust, the deduction shall be computed by excluding the portion (if any), of the gains for the taxable year from sales or exchanges of capital assets, which, under section 162 (b) or (c), is includible by the income beneficiaries as gain derived from the sale or exchange of capital assets.

(b) *Alternative tax.* Section 117 (c) (2) (relating to alternative tax) is hereby amended to read as follows:

(2) *Other taxpayers.* If for any taxable year the net long-term capital gain of any taxpayer (other than a corporation) exceeds the net short-term capital loss, there shall be levied, collected, and paid, in lieu of the tax imposed by sections 11 and 12 (or, in the case of certain tax-exempt trusts, in lieu of the tax imposed by section 421), a tax determined as follows, if and only if such tax is less than the tax imposed by such sections:

(A) A partial tax shall first be computed upon the net income reduced by an amount equal to 50 per centum of such excess, at the rates and in the manner as if this subsection had not been enacted.

(B) There shall then be ascertained an amount equal to 25 per centum of the excess of the net long-term capital gain over the net short-term capital loss. In the case of any taxable year beginning after October 31, 1951, and before November 1, 1953, there shall be ascertained, in lieu of the amount computed under the preceding sentence, an amount equal to 26 per centum of the excess of the net long-term capital gain over the net short-term capital loss.

(C) The total tax shall be the partial tax computed under subparagraph (A) plus the amount computed under subparagraph (B).

(c) *Technical amendments.*

• • • • • •

(2) *Amendment of section 117 (a).* Paragraphs (2) and (4) of section 117 (a) (relating to definitions of short-term capital gain and long-term capital gain) are each hereby amended by striking out "net income" and inserting in lieu thereof "gross income."

(3) *Amendment of section 117 (j).* Section 117 (j) (2) (A) (relating to gains and losses from involuntary conversion and from the sale or exchange of certain property used in the trade or business) is hereby amended to read as follows:

(A) In determining under this paragraph whether gains exceed losses, the gains described therein shall be included only if and to the extent taken into account in computing gross income and the losses described therein shall be included only if and to the extent taken into account in computing net income, except that subsection (d) shall not apply.

• • • • • •

(d) *Effective date.* The amendments made by this section shall be applicable only with respect to taxable years beginning on or after the date of the enactment of this act. In determining under section 117 (e) of the Internal Revenue Code the amount of the carryover to a taxable year beginning on or after such date, of the capital loss for a taxable year beginning before such date, such amendments shall not affect the computation of the amount of the net capital loss or of the net capital gain for any taxable year beginning before such date.

PAR. 5. Section 29.117-1, as amended by Treasury Decision 5893, approved April 4, 1952, is further amended as follows:

(A) By striking the second sentence of paragraph (b) thereof and inserting in lieu thereof the following: "Gains and losses from the sale or exchange of such property are not treated as gains and losses from the sale or exchange of capital assets, except to the extent provided in section 117 (j)."

(B) By striking from the fifth sentence of paragraph (b) thereof the words "is not subject to the limitations of section 117 (b), (c), and (d)" and inserting in lieu thereof the words "is not subject to the provisions of section 117."

(C) By striking from the fourth sentence of paragraph (d) thereof the words "are not subject to the percentage provisions of section 117 (b) and losses from such transactions are not subject to the limitation on losses provided in section 117 (d)" and inserting in lieu thereof the words "are not subject to the limitations provided in section 117".

(D) By striking from the paragraph (g) of such section (beginning "Gains and losses from the sale or exchange") the second sentence thereof.

(E) By striking the second sentence from paragraph (i) thereof, beginning "In the determination of adjustable gross income".

PAR. 6. Section 29.117-2, as amended by Treasury Decision 5893, is further amended as follows:

(A) By striking all that precedes paragraph (b) thereof and inserting in lieu thereof the following:

§ 29.117-2 *Percentage of capital gain or loss taken into account; deduction for long-term capital gains; limitation on capital losses; net capital loss carryover*—(a) *General*—(1) *Taxable years beginning prior to October 20, 1951.* In computing the net capital gain, net capital loss, adjusted gross income, and net income of a taxpayer, other than a corporation, for a taxable year beginning prior to October 20, 1951 (the date of the enactment of the Revenue Act of 1951), only the following percentages of the gain or loss (computed under section 111, recognized under section 112, and taken into account without regard to section 117) upon the sale or exchange of a capital asset shall be taken into account:

(i) One hundred percent if the capital asset has been held for 6 months or less;

(ii) Fifty percent if the capital asset has been held for more than 6 months.

For instance, if unimproved real estate purchased by an individual for $20,000 is a capital asset and is sold by him for $25,000 after having been held for more than 6 months, only 50 percent of the recognized gain ($5,000), or $2,500, shall be taken into account in computing net income; or if such property is sold for $14,000, only 50 percent of the recognized loss ($6,000), or $3,000 shall be so taken into account. (In the case of nonresident alien individuals not engaged in trade or business within the United States, see section 211 and the regulations thereunder for the determination of the net amount of capital gains subject to tax with respect to taxable years beginning on or after January 1, 1950.)

(2) *Taxable years beginning on or after October 20, 1951.* (i) In computing gross income, adjusted gross income, net income, net capital gain, and net capital loss, for a taxable year beginning on or after October 20, 1951, 100 percent of any gain or loss (computed under section 111, recognized under section 112, and taken into account without regard to section 117) upon the sale or exchange of a capital asset shall be taken into account regardless of the period for which the capital asset has been held. Nevertheless, the net short-term capital gain or loss and the net long-term capital gain or loss must be separately computed. In computing the adjusted gross income or the net income of a taxpayer other than a corporation, if for any such taxable year the net long-term capital gain exceeds the net short-term capital loss, 50 percent of the amount of the excess is allowable as a deduction from gross income under sections 23 (ee) and 117 (b). For instance, if an individual realizes $2,000 of long-term capital gain and sustains $1,500 of short-term capital loss during the taxable year, the whole amount of the gain ($2,000) is includible in gross income. Since the net long-term capital gain exceeds the net short-term capital loss by $500, 50 percent of the excess ($250) is allowable as a deduction under section 23 (ee).

(ii) In the case of an estate or trust, for the purpose of computing the deduction allowable under section 23 (ee), any long-term or short-term capital gains which under section 162 (b) or (c) are includible in the gross income of its income beneficiaries as gains derived from the sale or exchange of capital assets must be excluded in determining whether for the taxable year of the estate or trust its net long-term capital gain exceeds its net short-term capital loss. For example, during 1952 a trust realized a gain of $1,000 upon the sale of stock held for 10 months. Under the terms of the trust instrument all of such gain must be distributed not later than 30 days after the close of the year to A, the sole income beneficiary. The trust is not entitled to any deduction with respect to such gain under sections 23 (ee) and 117 (b). On the other hand, assuming A had no other capital gains or losses in 1952, he would be entitled to a deduction of $500.

(B) By striking the second, third, and fourth sentences of paragraph (b) thereof and inserting in lieu of such sentences the following:

• • • Thus, where in a taxable year beginning prior to October 20, 1951, an individual taxpayer, having an ordinary net income of $5,000, has a loss of $4,000 from the sale of a capital asset which he held for more than 6 months, of which loss $2,000 (50 percent of $4,000) is taken into account, such net long-term capital loss of $2,000 is allowable only to the extent of $1,000, the remaining $1,000 being a net capital loss. If the taxpayer's ordinary net income had been $400 instead of $5,000, only $400 of the net long-term capital loss of $2,000 would have been allowed, leaving a net capital loss of $1,600. If the taxable year in this illustration were a taxable year beginning on or after October 20, 1951, the entire $4,000 loss would be taken into account as a net long-term capital loss, of which $1,000 and $400 would be allowable as deductions under the respective assumptions, and the net capital loss would be $3,000 and $3,600, respectively. (For carry-over of a net capital loss, see paragraph (c) of this section.) • • •

(C) By striking all that follows the first paragraph of paragraph (c) of such section and inserting in lieu thereof the following:

The practical operation of the provisions of section 117 (c) (1) may be illustrated by the following example:

Example. For the taxable years 1950 to 1954, inclusive, an individual is assumed to have a net short-term capital loss, net short-term capital gain, net long-term capital loss, net long-term capital gain, and net income as follows:

	1950	1951	1952	1953	1954
Carry-over from prior years:					
From 1950		($50,000)	($20,500)	($20,500)	
From 1952				(19,500)	($13,000)
Net short-term loss (computed without regard to the carry-overs)	($30,000)	(5,000)	(10,000)		
Net short-term gain (computed without regard to the carry-overs)				40,000	
Net long-term loss:					
50 percent taken into account	(20,500)				
100 percent taken into account			(10,000)	(5,000)	
Net long-term gain:					
50 percent taken into account		25,000			
100 percent taken into account					15,000
Ordinary net income (computed without regard to capital gains and losses)	500	500	500	1,000	500
Net capital gain (computed without regard to the carry-overs)		20,500		36,000	
Net capital loss	(20,000)		(19,500)		
Deduction allowable under section 23 (ee)			None	None	1,000
Net income (computed with regard to deduction allowable under section 23 (ee))			None	None	1,500

Net Capital Loss of 1950

The net capital loss is $50,000. This figure, computed by taking into account 100 percent of short-term gains and losses and 50 percent of long-term gains and losses, is the excess of the losses from sales or exchanges of capital assets over the sum of (1) gains from such sales or such exchanges, and (2) ordinary net income of $500. This amount may be carried forward in full as a short-term loss to 1951. However, in 1951 there was a net capital gain of $20,500, as defined by section 117 (a) (10) (B) and limited by section 117 (e) (1), against which this net capital loss of $50,000 is allowed in part. The remaining portion—$29,500—may be carried forward to 1952 and 1953 since there was no net capital gain in 1952. In 1953 this $29,500 is allowed in full against net capital gain of $36,000, as defined by section 117 (a) (10) (B) and limited by section 117 (e) (1). For 1952 and 1953 the net long-term capital loss is computed by taking into account 100 percent of gains and losses upon the sale or exchange of capital assets held for more than 6 months. However, in determining the amount of the capital loss carry-over ($29,500) to 1952 and 1953, the net capital loss for 1950 is computed by taking into account only 50 percent of gains and losses upon the sale or exchange of capital assets held for more than 6 months, and the net capital gain for 1951 is similarly computed.

Net Capital Loss of 1952

The net capital loss is $19,500. This figure, computed by taking into account 100 percent of both long-term and short-term gains and losses, is the excess of the losses from sales or exchanges of capital assets over the sum of (1) gains from such sales or exchanges and (2) ordinary net income of $500. This amount may be carried forward in full as a short-term loss to 1953. However, in 1953 there was a net capital gain of $6,500, as defined by section 117 (a) (10) (B) and limited by section 117 (e) (1), against which this net capital loss of $19,500 is allowed in part. The remaining portion—$13,000—may be carried forward to 1954. Since this amount is treated as a short-term capital loss in 1954 under section 117 (e) (1), the excess of the net long-term capital gain over the net short-term capital loss is $2,000. Half of this excess is allowable as a deduction under sections 23 (ee) and 117 (b). Thus, the taxpayer has a net income of $1,500 for 1954.

PAR. 7. Section 29.117–3, as amended by Treasury Decision 5928, approved August 28, 1952, is further amended as follows:

(A) By striking the second sentence of paragraph (a) thereof and inserting in lieu thereof the following: "For any taxable year beginning prior to October 20, 1951 (the date of the enactment of the Revenue Act of 1951), this alternative tax is the sum of (1) a partial tax, computed at the rates provided by sections 11 and 12 on the net income, excluding therefrom for this purpose the whole amount of such excess of the net long-term capital gain (determined by taking into account only 50 percent of the gains and losses upon the sale or exchange of capital assets held for more than 6 months) over the net short-term capital loss, plus (2) 50 percent of such excess. In the case of a taxable year beginning on or after October 20, 1951, this alternative tax is the sum of (1) a partial tax, computed at the rates provided by sections 11 and 12 on the net income reduced by an amount equal to 50 percent of the excess of the net long-term capital gain (determined by taking into account 100 percent of the gains and losses upon the sale or exchange of capital assets held for more than 6 months) over the net short-term capital loss, plus (2) 25 percent (or 26 percent if the taxable year begins after October 31, 1951, and before November 1, 1953) of the excess of the net long-term capital gain over the net short-term capital loss."

(B) By inserting immediately after the words "25 percent" in the second sentence of paragraph (b) thereof the following: "(or 26 percent if the taxable year begins after March 31, 1951, and before April 1, 1954)".

(C) By inserting immediately after the words "provisions of this section" in the first sentence of paragraph (c) thereof the following: "(other than those applicable to a taxable year beginning on or after October 20, 1951)".

PAR. 8. Section 29.117–6, as amended by Treasury Decision 5881, is further amended as follows:

(A) By striking from the first sentence of paragraph (a) thereof the words "the percentage of the recognized gain or loss to be taken into account under section 117 (b) from a short sale shall be computed" and inserting in lieu thereof the following: "whether the recognized gain or loss from a short sale is long-term or short-term capital gain or loss shall be determined".

(B) By striking from the second sentence of paragraph (a) thereof the words "100 percent of the recognized gain or loss would be taken into account under section 117 (b)" and inserting in lieu thereof the following: "the recognized gain or loss would be considered short-term capital gain or loss".

PAR. 9. Section 29.117–7, as amended by Treasury Decision 5881, is further amended as follows:

(A) By striking therefrom paragraphs (b) and (c) and inserting in lieu thereof the following:

(b) In determining whether such gains exceed such losses for the purposes of section 117 (j), losses upon the destruction in whole or in part, theft or seizure, requisition or condemnation of the property described in section 117 (j) are included whether or not there was a conversion of such property into money or other property. For example, if a capital asset held for more than six months, with an adjusted basis of $400, is stolen, and the loss from this theft is not compensated for by insurance or otherwise, the $400 loss is included in the computations under section 117 (j) to determine whether gains exceed losses. Furthermore, in making this computation for any taxable year, the gains and losses described in section 117 (j) are taken into account in full, that is, 100 percent of such gains and losses is taken into account. For example, if a taxpayer for a taxable year beginning before October 20, 1951, sustains a loss of $400 upon the sale under threat of condemnation of a capital asset, held for more than six months, such loss is taken into account for the purpose of section 117 (j) to the extent of $400, even though only $200 would be taken into account under section 117 (b), prior to its amendment by the Revenue Act of 1951, in computing net income. Similarly, the provisions of section 117 (d) limiting the deduction of capital losses are not applicable to exclude any losses from the computations under section 117 (j). With these exceptions, gains are included in the computations under section 117 (j) only to the extent that they are taken into account in computing gross income, and losses are included only to the extent that they are taken into account in computing net income. Thus, losses which are not deductible items under section 24 or section 118 are not included in the computations under section 117 (j). Similarly, if a taxpayer reports on the installment basis under section 44 the gain on the sale of property described in section 117 (j), only the portion of the gain reported under section 44 is included in the computations for such taxable year under section 117 (j). Any gains and losses which are not recognized under section 112 are not included in the computations under section 117 (j). Thus, if property is involuntarily converted into similar property, so that the gain on such conversion is not recognized under the provisions of section 112 (f), such gain is not included in the computations under section 117 (j).

(c) If it is determined under the above computations that the gains exceed the losses, all of such gains and losses are treated as gains and losses from the sale or exchange of capital assets held for more than six months. All such gains and losses are then subject to the limitations of section 117 (c) and (d), relating to the alternative tax in the case of capital gains and losses and the extent to which capital losses are allowed; and in the case of taxable years beginning prior to October 20, 1951, such gains and losses are taken into account only to the extent of 50 percent. If it is determined under the above computations that the gains do not exceed the losses, none of such gains and losses are treated as gains and losses from the sale or exchange of capital assets. Such gains and losses are then to be taken into account in full, and such losses are not subject to the limitations provided in section 117 (d). For example, if the taxpayer during the taxable year 1942 has losses of $1,000 on the sale of certain depreciable machinery used in his trade or business, held for more than six months, and a gain of $400 on the sale under threat of condemnation of a capital asset held for more than six months, such losses exceed such gain, and such losses and gain are not treated as losses and gain from the sale or exchange of capital assets. The gain on the sale of the capital asset would therefore be taken into account in full, instead of to the extent of 50 percent.

(B) By inserting in the second sentence of Example (1) thereof immediately following the words "section 117 (b)," the following: "prior to its amendment by the Revenue Act of 1951,".

(C) By inserting in the second sentence of the second paragraph of Example (1) thereof immediately following the words "section 117 (b)," the following: "prior to its amendment by the Revenue Act of 1951,".

(D) By inserting in the second sentence of Example (3) thereof immediately following the words "section 117 (b)" the following: ", prior to its amendment by the Revenue Act of 1951,".

PAR. 10. There is inserted immediately preceding § 29.122–1 the following:

SEC. 322. CAPITAL GAINS AND LOSSES (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

* * * * * *

(c) *Technical amendments.*

* * * * * *

(4) *Amendment of section 122 (d) (4).* Section 122 (d) (4) (relating to computation of net operating loss deduction) is hereby amended to read as follows:

"(4) The amount deductible on account of losses from sales or exchanges of capital assets shall not exceed the amount includible on account of gains from such sales or exchanges. The deduction provided in section 23 (ee) shall not be allowed.

* * * * * *

(d) *Effective date.* The amendments made by this section shall be applicable only with respect to taxable years beginning on or after the date of the enactment of this act. * * *

PAR. 11. Section 29.122–3 is amended as follows:

(A) By striking subparagraph (4) from paragraph (a) thereof and inserting in lieu thereof the following:

(4) Gains and losses recognized upon sales or exchanges of capital assets held for more than 6 months shall be taken into account in full. The deduction provided in sections 23 (ee) and 117 (b), applicable to taxable years beginning on or after October 20, 1951, shall not be allowed;

(B) By striking out the words "(as defined in section 117 (a) (4))" from the second sentence of paragraph (d) (1) thereof.

PAR. 12. There is inserted immediately preceding § 29.162–1 the following:

SEC. 322. CAPITAL GAINS AND LOSSES (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

* * * * * *

(c) *Technical amendments.*

* * * * * *

(5) *Amendment of section 162 (a).* Section 162 (a) (relating to computation of net income of estates and trusts) is hereby amended by striking out the semicolon and inserting in lieu thereof a period and the following: "Where any amount of the income so paid or set aside is attributable to gain from the sale or exchange of capital assets held for more than six months, proper adjustment of the deduction otherwise allowable under this subsection shall be made for any deduction allowable to the trust under section 23 (ee);".

(d) *Effective date.* The amendments made by this section shall be applicable only with respect to taxable years beginning on or after the date of the enactment of this act. * * *

PAR. 13. Section 29.162–1, as amended by Treasury Decision 5838, approved April 17, 1951, is further amended by inserting, immediately before the last sentence of paragraph (a) thereof, the following: "For any taxable year beginning before October 20, 1951 (the date of the enactment of the Revenue Act of 1951), if an amount of the income so paid or set aside is attributable to gain from the sale or exchange of capital assets held for more than six months, the amount of the deduction allowable under section 162 (a) must be determined with reference to the requirement that only 50 percent of such gains be included in gross income of the trust. See United States v. Benedict et al., Trustees, (1950) 338 U. S. 692. Similarly, in a taxable year beginning on or after October 20, 1951, where any amount of the income so paid or set aside for the charitable uses or purposes referred to or described in section 162 (a) is attributable to gain from the sale or exchange of capital assets held for more than six months, the amount of the deduction allowable under section 162 (a) must be determined with regard to the inclusion of 100 percent of such gains in gross income and with appropriate adjustment for the deduction provided in sections 23 (ee) and 117 (b) of 50 percent of the excess, if any, of the net long-term capital gain over the net short-term capital loss. See § 29.117–2 (a) (2). The application of these rules is illustrated in the following examples:

Example (1). Under the terms of a trust created by the will of a decedent, the trust net income (including capital gains) is to be distributed, one-half to certain individual beneficiaries and one-half to M University, an organization exempt from taxation under section 101 (6). During 1951 the trust has ordinary net income of $100,000, and in addition $100,000 of gains from the sale of capital assets held for more than six months, of which only 50 percent, or $50,000, is includible in gross income. The trust pays $100,000—one-half of its net income under the terms of the trust—to M University. The deduction allowable to the trust under section 162 (a) is limited to $75,000, since only 50 percent of the capital gains is included in gross income for tax purposes.

Example (2). During 1952 the trust referred to in example (1) also has ordinary net income of $100,000, plus $100,000 of gains from the sale of capital assets held for more than six months. In computing the gross income of the trust for tax purposes 100 percent of such gains are includible. M University receives a total of $100,000 from the trust in respect of the year 1952. However, the amount allowable to the trust as a deduction under section 162 (a) is subject to appropriate adjustment for the deduction allowable under section 23 (ee). In view of the distributions made to individual beneficiaries, the deduction allowable to the trust under section 23 (ee) is limited by the provisions of section 117 (b) to $25,000. Since the whole of this deduction is attributable to the distribution to M University, the deduction allowable in 1952 to the trust under section 162 (a) will be $75,000.

PAR. 14. Section 29.162–2, as amended by Treasury Decision 5458, approved June 15, 1945, is further amended by inserting immediately following the words "section 117 (b)" appearing in the first example of paragraph (a) thereof, the following: "prior to its amendment by the Revenue Act of 1951".

PAR. 15. Section 29.189–1 is amended as follows:

(A) By striking the first sentence of paragraph (a) (1) and inserting in lieu thereof the following: "The partnership's gains and losses from sales or exchanges of capital assets held for more than six months shall be taken into account in full."

(B) By striking the sentence in paragraph (b) (2) and inserting in lieu thereof the following: "The partnership's gains and losses from sales or exchanges of capital assets held for more than six months shall be taken into account in full."

PAR. 2. Section 29.13–1, as amended by Treasury Decision 5517, approved June 12, 1946 (26 CFR 29.13–1), is further amended as follows:

(A) By redesignating paragraphs (b) through (e) as subparagraphs (2) through (5) and by striking out the period and dash in the heading of the section and the first sentence of paragraph (a) and inserting in lieu thereof the following: "— (a) Taxable years beginning before July 1, 1950 (other than the calendar year 1950) (1) For taxable years beginning before July 1, 1950 (other than the calendar year 1950), section 13 imposes an income tax on corporations in general the normal-tax net income of which is more than $25,000." * * *

(B) By striking out the third, fourth, and fifth sentences of redesignated paragraph (a) (2) of the section and inserting in lieu thereof the following: "For taxable years beginning after December 31, 1945, and before July 1, 1950 (other than the calendar year 1950), the normal-tax net income is the adjusted net income minus the credit for dividends received provided in section 26 (b). Section 26 (b) applicable to such taxable years relates to dividends received from a domestic corporation which is subject to taxation under chapter 1 (85 percent of dividends received). For taxable years beginning in 1945 and ending in 1946, see § 29.108–2. For taxable years beginning before July 1, 1950, and ending after June 30, 1950 (other than the calendar year 1950), see § 29.108–5."

(C) By striking out in redesignated paragraph (a) (5) of the section "This section may be illustrated by the following examples:" and inserting in lieu thereof "The computation of the tax under section 13 may be illustrated by the following examples:".

(D) By adding at the end of the section the following new paragraph (b):

(b) *Calendar year 1950 and taxable years beginning after June 30, 1950.* (1) For a taxable year which is the calendar year 1950 and for taxable years beginning after June 30, 1950, section 13 imposes an income tax on corporations generally. Every corporation is liable to the tax imposed by such section, except (i) corporations expressly exempt from all taxation under chapter 1 (see section 101); (ii) corporations subject to tax under Supplement U (see section 421); (iii) foreign corporations not engaged in trade or business within the United States (see section 231 (a)); (iv) insurance companies (see Supplement G); and (v) regulated investment companies (see Supplement Q).

(2) It makes no difference that a domestic corporation subject to any tax imposed by section 13 may derive no income from sources within the United States. The tax imposed by section 13 for a taxable year is computed upon the "normal-tax net income" for the taxable year, that is, the adjusted net income for such year minus (i) the credit for dividends received provided in section 26 (b) for such year, and (ii), in the case of a public utility, the credit for dividends paid on its preferred stock provided in section 26 (h) for such year, and (iii), in the case of a Western Hemisphere trade corporation (see section 109), the credit provided in section 26 (i) for such year. For taxable years beginning after June 30, 1950, and before April 1, 1951, and ending after March 31, 1951 (other than the calendar year 1951), see § 29.108–6. For taxable years beginning before April 1, 1954, and ending after March 31, 1954, see § 29.108–9. The "adjusted net income" of a corporation is the net income as defined in section 21 minus the credit provided in section 26 (a), relating to interest on certain obligations of the United States and its instrumentalities.

(3) The tax imposed by section 13 is payable upon the basis of returns rendered by the corporations liable thereto, except that in some cases a tax is to be paid at the source of the income (see also sections 47, 52, 53, 144, and 235). For what the term "corporation" includes and for the difference between domestic and foreign corporations, see section 3797 (a). For treatment of the tax imposed on foreign corporations engaged in trade or business within the United States, see § 29.231–1 (b). In the case of foreign corporations not engaged in trade or business within the United States, the tax is as provided in section 231 (a). In the case of insurance companies, the tax is as provided in Supplement G (sections 201 to 207, inclusive). In the case of regulated investment companies, the tax is as provided in Supplement Q (sections 361 and 362). In the case of corporations subject to tax under Supplement U, the tax is as provided in sections 421 to 424, inclusive. For surtax on corporations generally, see § 29.15–1. For surtax on personal holding companies, see sections 500 to 511, inclusive. For surtax on corporations improperly accumulating surplus, see section 102. For treatment of capital gains and losses, see section 117. For treatment of mutual savings banks conducting life insurance business, see section 110.

(4) The tax imposed by section 13 for a taxable year which is the calendar year 1950 and for a taxable year beginning after June 30, 1950, is computed by applying to the "normal-tax net income" the rate in effect for such taxable year. The rates of tax under section 13 applicable for the respective taxable years are as follows:

	Percent
For a taxable year which is the calendar year 1950	23
For taxable years beginning after June 30, 1950, and before April 1, 1951 (other than the calendar year 1951)	25
For a taxable year which is the calendar year 1951	28¾
For taxable years beginning after March 31, 1951, and before April 1, 1954	30
For taxable years beginning after March 31, 1954	25

(5) The computation of the tax under section 13 may be illustrated by the following example:

Example. The A Corporation, a domestic corporation (which is neither a public utility referred to in section 26 (h) nor a Western Hemisphere trade corporation referred to in section 26 (i)), has for the calendar year 1951 a net income of $130,000, including interest on United States obligations (allowable as a credit under section 26 (a)) in the amount of $10,000 and cash dividends received (allowable as a credit under section 26 (b) (1)) in the amount of $10,000. The corporation's tax under section 13 for the calendar year 1951 is $32,056.25, computed as follows:

Net income	$130,000.00
Less credit for interest on United States obligations	10,000.00
Adjusted net income	120,000.00
Less credit for dividends received (85 percent of $10,000)	8,500.00
Normal-tax net income	111,500.00
Tax under section 13 (b) (1) (28¾ percent of $111,500)	32,056.25
